Testimony to the Cook County Finance Committee
Given by: Kristi DeLaurentiis, Executive Director, SSMMA
Re: 18-1604 Prevailing Wage Substitute Amendment

The South Suburban Mayors and Managers Association (SSMMA), the Chicago Economic Development Corporation, and our member communities want to express opposition to the Prevailing Wage Amendment before you today. By now you know us. The SSMMA, representing 38 Cook County municipalities, has been before you numerous times in the last year to address the tweaks and changes and good intentioned amendments to the existing Incentive Ordinance. Now the Prevailing Wage amendment is another one.

But this measure won't create jobs in our communities. In fact it will do the opposite. Passage of this amendment would dis-incentivizes investment in our communities. It will drive costs for projects up, add red tape, and reduce the viability of the incentive program as you'll hear from the very people who will be affected. It will stymy growth and investment (and jobs) in Cook County and our local communities. It's too easy to avoid Cook County and move on to neighboring Counties that are less costly and easier to navigate process. No projects, means no construction jobs and no employees either.

The County Board should not consider taking action without a comprehensive assessment of the impact and cost of a prevailing wage requirement on market driven business decisions. We participated in a discussion Monday hosted by the Bureau of Economic Development and economic development practitioners from around the County expressed concern that it would not only would it diminish the usefulness of incentives to recruit and maintain business it would be catastrophic to the South Suburbs. Labor representatives at the table expressed that their concerns were for wages for local workers and conformity of contracting services—and not tax policy. That's true—their interest is not tax policy—but it should be yours when there is evidence that adding prevailing wage rules—unprecedented anywhere else in the Country!—will drive up the cost of doing business and ultimately drive out business in Cook County.

Again, no projects, means no construction jobs and no employees either.

We've collected and are prepared to provide you with information on the businesses throughout Cook County—some 4000—that will be potentially impacted by this Amendment. We will also leave behind current tax rate information that maps community by community the current tax rates so you can see how devastating it will be to slow or halt growth and development, particularly in the south suburbs.

So it comes down to this: Is the Tax Incentive Program going to be allowed to promote economic development or, through the Prevailing Wage amendment, impede it? It will not ADD jobs in our communities—it will halt growth and investment, and impede the POTENTIAL FOR JOBS across the Southland AND throughout Cook County. No projects, means no construction jobs and no employees.

I want to remind you that there are unresolved issues related to affidavit requirements that call for taking a comprehensive approach on these interrelated issues.

We are asking you to vote NO or stay action on the Prevailing Wage Amendment when it comes before you and to instead convene a Task Force so that, together, we can find common ground on ways to improve the usefulness of the tax incentive program for the betterment of economic development and business growth throughout the County.

Thank you.

Memorandum

VIA E-MAIL

To: President Vernard Alsberry
President Rick Reinbold

Fr: John Murphey

Date: February 15, 2018

Re: Property Taxes

Following up on my phone conference with President Alsberry, I've asked for some tax information from one of my clients who is a private developer of strip centers throughout the Chicago metropolitan area. He wishes to remain anonymous.

I asked him to provide me data regarding property taxes for strip commercial sites in the southland as compared to somewhere on the northwest side of the city. Developers speak in terms of taxes per square foot. Here are the taxes in three of our communities compared to the northwest side property:

Hazel Crest	$13.17 per square foot
Dolton	$10.69 per square foot
Calumet City	$11.51 per square foot
Northwest side	$ 4.24 per square foot

A lot of these strip commercial centers in our area are in the 5,000 square foot – 7,000 square foot range. Let's assume we have a 6,000 square foot commercial center. Here are the comparative taxes:

Hazel Crest	$79,020
Dolton	$64,140
Calumet City	$69,060
Northwest side	$25,440

Please feel free to share these numbers at your meeting tonight. Thanks.
