

BOARD OF COMMISSIONERS OF COOK COUNTY
SECRETARY TO THE BOARD OF COMMISSIONERS

MATTHEW B. DeLEON
SECRETARY TO THE BOARD

Cook County Board Meeting

September 13, 2017

Registered Public Comments for those Attending and Not Attending the Meeting

Sorted by Commissioner District using zip codes provided by commenter

NOTE: This is our first use of the online registration survey created on the Survey Monkey website.

Because of the volume of responses for this meeting (1,881 responses), we were unable to use Survey Monkey to create a single PDF which would encompass all comments for this meeting.

To create more manageable PDFs, we broke out the responses by zip code and then combined those zip codes by commissioner district.

MANY zip codes overlap County commissioner districts. In the interests of time, we were unable to break out which specific responses were for each district. To ensure all possible responses for a district could be seen, you will find all the responses from any zip code which overlaps district boundaries in each applicable commissioner district PDF.

I oppose the repeal of the sweetened beverage tax. Not only does this measure take a major step back for the public's health, and the health of our children, it also severely restricts the authority of the local governments involved.

Since the imposition of the beverage tax, I now drive out to a Jewel on York Road in Elmhurst to buy Diet Coke and Light Lemonade just to avoid the tax (on principle). While I'm there, I buy other grocery items (lower sales tax in DuPage Cty too) and fill up on gas as well. I will continue to do this forever in protest of the unfair beverage tax and the blatant money grab. Repeal it and stop hurting local merchants.

If the concern is really for young people's health, then make the beverages for adults over 21, like cigarettes and alcohol. Also, take these beverages off the allowed Link Card list, so people will have to pay cash and pay the tax, which according to you will deter them from buying and will help them drink healthier and be healthier.

I do not and will not buy my beverages in Cook County if the tax stands. And while I'm shopping in other counties/states, I will be buying my other groceries and supplies too. You will not make money on this unfair and ridiculous tax - you will lose money. Please repeal the tax. Thank you.

I support immediate repeal of the soda tax. It's hurts local businesses and families. My money is going to every county other than Cook since the tax was instituted. Spend less of the billions on revenue you already take in each year rather than coming up with more ridiculous taxes to pay for the frivolous spending of the county.

Q6 ACCOMMODATIONS: If you require additional assistance or special accommodations in order to participate in a hearing (for example, need language assistance, are a person with a disability), please let us know here, call 312.603.6127 or email us at cookcounty.board@cookcountyil.gov Intérpretes de lengua española estarán disponibles para los residentes que necesiten asistencia. The soda tax is a farce that is being foisted upon Cook County citizens by an incompetent and greedy administration. Also, the propaganda the County spews in the TV ad is insulting and you should be embarrassed to be wasting even more taxpayer dollars on such obvious lies.

I am employed by Illinois Committee of Blind Vendors, ICBV Members are all a part of the Business Enterprise Program for the Blind. Many of our blind and visually impaired members run vending/concession businesses on Cook County properties. With all the obstacles these folks overcome already to be successful entrepreneurs and with commissions and rents they already pay on Cook County properties this tax is capable of crippling their business and that is very sad. When it comes to the claims this tax will help obesity, the commercials I've sat here and watched over and over again... where you demonize vending machines and tell parents that their kids are over consuming soda and that their parental controls are insufficient, that a tax has to take care of that for them, please. Find another way to make your budget work, a Beverage Tax is not that answer. I support 17-4704 to repeal the Cook County Sweetened Beverage tax.

Cook County has no right to dictate our choices in food and beverages. This is one more scam by government employees OF THE PEOPLE to squeeze every penny out of taxpayers for their own socialist projects and pensions. It is FAKE to claim they are interested in peoples health and we see through them. I appreciate the Beverage Association's courage in this effort.

I am a small business owner in the loop We sell snacks and beverages in our store and vending machines.

Since the tax was forced on us, we have seen a large drop off in sales.

Quite a few of our customers are purchasing their products outside of Cook County and bringing them for consumption here, rather than buying from me.

This is not only beverages, but snacks as well.

Please repeal this tax. It is doing more harm than good.

To whom it may concern:

My name is Ted Christians and I'm the CEO of Umoja Student Development Corporation – a nonprofit that works with students and educators in schools, nonprofits and districts throughout Chicago, Cook County and the state of Illinois.

I'm writing to express support for the Cook County Sweetened Beverage Tax and speak to the critical importance of the Justice Advisory Council (JAC) and its leadership and investments in juvenile justice work throughout the county. The reduction and elimination of the Cook County public safety funds, quite frankly, would come at a devastating cost to our county.

Specifically, through the Justice Advisory Council, Umoja has been able to launch Restorative Justice Peace Rooms in some of the most underinvested and challenged high schools in our region and we've been able to train hundreds of adult educators in Restorative Justice practices in high schools, districts and other nonprofits throughout Cook County.

Many of you may be familiar with the data that supports Restorative Justice as a critical tool for preventing violence and conflict and addressing trauma. We believe that the cost of punitive discipline in schools is clear and that the disproportionate impact of suspensions on students of color leads directly to the well documented school to prison pipeline. In fact,

- Illinois as a state has unfortunately carried the distinction as one of the worst states in the country when it comes to suspending African American male students – 1 out of 4
- A recent report suggested that High School Suspensions cost the country \$35 billion annually
- Another report estimates that children in US public schools lost nearly 18 million days of instruction in just one year because of exclusionary discipline

The research connecting Restorative Justice, trauma and crime is also increasingly clear:

- Even one suspension means a student is less likely to graduate
- Those who drop out of high school are 8 times more likely to be incarcerated

With the support of the Justice Advisory Council, Umoja has served more than 4,000 students through our Restorative Justice Peace Rooms. Our outcomes include:

- Out-of-school suspension rates decreasing by 49%
- Disciplinary referrals decreasing by 50%

Imagine if there wasn't a Peace Room to receive those students. That trauma and conflict goes into the classroom and then it goes back out into the street. Instead, investments by the Justice Advisory Council are making sure that we address trauma and conflict and end the school to prison pipeline by keeping students in our classrooms, in our schools – exactly where we all want and need them to be. Said differently, the reduction or elimination of JAC investments in Umoja and other nonprofits means hundreds if not thousands of young people out on the street instead of in school.

For these important reasons, Umoja supports the Sweetened Beverage Tax and sustaining the investments of the Justice Advisory Council's work across the county. Thank you.

Ted Christians
Chief Executive Officer
Umoja Student Development Corporation

Hi, I'm Esther Sciammarella, Executive Director of the Chicago Hispanic Health Coalition and we support Cook County's sweetened beverage tax to help fund the County's healthcare system and public safety services. This tax helps us rethink our drinks, ultimately improving our health, and funds important county services.

Drinking just one sugary drink a day increases the chances of type 2 diabetes, heart disease and obesity. The County's Sweetened Beverage tax helps to ensure that our families are receiving the help they need through the County's healthcare system and public safety services. The money from the tax also invests in our youth and improving access to healthy foods through the County Health and Hospitals System. Drinking just one sugary drink a day increases a man's risk of having a heart attack or dying from a heart attack by 20%. 1 in 3 children are overweight or obese. A study found that just 1 sugary drink a day increases a child's odds of becoming obese by 60%.

According to the American Diabetes Association, a person with diabetes spends an average of around \$650 a month on diabetes care. I've seen first-hand the impact of diabetes. For example, through our health education program called Juntos Contra Diabetes, we have help over 500 Latinos in this year alone. Latinos and African American communities have been hit disproportionately by chronic diseases like type 2 diabetes and heart disease. We are delighted that the sweetened beverage tax is being implemented to start to invest health resources in our communities.

So again, please don't repeal this tax. Thank you for allowing me to speak today.

Hello,

My name is Sara Parvinian.

As a community pediatrician with more than twenty years of service having experienced the hardships of childhood obesity with long term effects on youth health and life expectancy including but not limited to type 2 diabetes, hypertension, respiratory illnesses I see it as a duty to ask you from the bottom of my heart to do whatever is necessary to limit children's access to sugary drinks which has been shown by studies after studies to be directly related to childhood obesity and oral / dental health (lack of).

The increased tax on sugary drinks has the benefit of bringing out discussions about their role in public health (lack of) and make care givers think twice about including them in their children's diet. In addition this tax will be used by Cook County authorities in expanding health benefits to it's residents in different venues .

Let's give priority to the well being of our next generation , our children by taking this step and let it be a guide to many other decisions we need to make that will have long term effects on our society.

Respectfully ,

Sara Parvinian, M.D.

Dear President Preckwinkle and Cook County Commissioners:

RECORD OF COMMITTEE WITNESS COOK COUNTY and FOREST PRESERVE DISTRICT BOARDS OF COMMISSIONERS September 2017

The Illinois Public Health Association (IPHA) strongly supports Cook County's sweetened beverage tax to help fund the County's healthcare system and public safety services. This tax helps County residents make better drink choices, ultimately improving their overall health, and funds important county services.

In its role to advance public health and public health practice throughout Illinois, IPHA continues to be a proponent of sugar-sweetened beverage taxes, as they reduce overall consumption of unhealthy beverages, help tackle chronic diseases such as diabetes and heart disease, and reinvest funds in health improvement and wellness initiatives in our communities.

As you may know, sugar-sweetened beverages are the largest source of added sugar in the American diet and the consumption of these beverages contributes to the epidemic of obesity that we see in our young people and adults.

Cook County's sweetened beverage tax addresses the harmful effects of sugar-sweetened beverages and helps to ensure that families are receiving vital services they need through the County's healthcare system and public safety services. The money from the tax also invests in access to healthy foods for families and in wellness activities for our communities.

We know that supporting new revenue is difficult, however numerous jurisdictions where sugar-sweetened beverage taxes have been enacted have seen a reduction in unhealthy beverage consumption, which will ultimately lead to improved overall health and a reduction in chronic diseases and their financial toll on the healthcare system.

Again, IPHA strongly supports the Cook County sweetened beverage tax and we ask you not to repeal this important public health measure. Thank you for demonstrating your support to protect our Illinois children and families from the tremendous health risks caused by sugar-sweetened beverages. Like you, we believe in a healthy, safe, and secure future for all our families!

Sincerely,

Jeffery M. Erdman

Jeffery M. Erdman
Assistant Director for Programs and Compliance
Illinois Public Health Association

Statement of Jim O'Hara Director, Health Promotion Policy Center for Science in the Public Interest Washington, DC

Thank you for this opportunity to speak in favor of Cook County's sweetened-beverage tax and against any repeal effort. Sugar-sweetened beverages are the leading source of added sugars in the American diet,¹ and sugar-sweetened beverage consumption is scientifically linked to obesity, type 2 diabetes, and cardiovascular disease.

Government and medical bodies have stated those links unequivocally, including the Centers for Disease Control and Prevention, the American Heart Association, the American Medical Association, and the federal 2015 Dietary Guidelines Advisory Committee. Moreover, health equity is at stake. Between 2005 and 2008, African-American adults consumed nearly nine percent of their daily calories from sugar drinks, compared to about five percent for white adults. Not coincidentally, African Americans are 50 percent more likely to be obese than

white Americans and more than twice as likely to die from diabetes. Similarly, Mexican American adults consumed more than eight percent of their daily calories from sugar drinks. Hispanic Americans are 20 percent more likely to be obese than white Americans and 50 percent more likely to die from diabetes.

RECORD OF COMMITTEE WITNESS COOK COUNTY and FOREST PRESERVE DISTRICT BOARDS OF COMMISSIONERS September 2017

In addition, in Cook County the resources from this tax provide much needed support for critical social determinants of public health, such as nurses, doctors, and enhancement of the Food as Medicine Program that helps connect families in need with healthy foods. We know these taxes work. In fact, the World Health Organization published a report in 2016 calling for the use of these taxes and said the benefits include: Reducing consumption and prevention of obesity; Healthcare savings; and generating revenues for needed programs.

Thank you for the opportunity to speak today.

Q6 ACCOMMODATIONS: If you require additional assistance or special accommodations in order to participate in a hearing (for example, need language assistance, are a person with a disability), please let us know here, call 312.603.6127 or email us at cookcounty.board@cookcountyil.gov Intérpretes de lengua española estarán disponibles para los residentes que necesiten asistencia. Please repeal this ridiculous tax. If you are interested in improving the health of children in Cook County, there are 100 better ways to proceed with that endeavor. This tax makes ZERO sense when it is supposed to be for sweetened high-calorie beverages, yet the tax is applied to zero-calorie, zero-sugar beverages.

Q5 Written Statement? You can type or copy/paste any written statement you want included in the meeting record here. If this is not enough space, or you have other attachments for distribution, please email them to cookcounty.board@cookcountyil.gov

Bought a 20 ounce zero calorie zero sugar vitamin water for \$1 & was taxed 20 cents or a whopping 20%. That's outrageous for any beverage including an unsweetened one. Bloomberg go home!

Q6 ACCOMMODATIONS: If you require additional assistance or special accommodations in order to participate in a hearing (for example, need language assistance, are a person with a disability), please let us know here, call 312.603.6127 or email us at cookcounty.board@cookcountyil.gov Intérpretes de lengua española estarán disponibles para los residentes que necesiten asistencia. We cannot guarantee assistance for requests made less than 48 hours in advance of a meeting.

The sweetened beverage tax is beyond absurd. I will drive farther and pay more for such items outside of Cook County on the principle of the matter.

As a doctor for children and adults, I see patients every day who are obese, largely from drinking too many sugary beverages. We have a chance to curb their intake with this tax, at the same time raising revenue for important services in Cook County. Let's not lose an opportunity to decrease diabetes and obesity !

My question to you is why isn't everyone being taxed for the sugar drinks...why are the people on SNAP able to buy drinks but not be taxed...it seems to be a tax being implemented only to the working class people. I am a senior citizen who has had one kidney for 19 years drinking a glass of cranberry juice a day...and I am fine. Now I will have to drive to Indiana to not pay this tax...not happy. I am tired of politicians making decisions for me. My personal choices are non of your concern. I would appreciate if you would not call my house or come to my door for votes.

This is an excessive tax (38% on my last purchase). It's supposedly based on keeping children from becoming obese, that's nonsense. Call it another sin tax or enjoyment of life tax but don't tell me this will keep children healthy. The adults in their lives should be paying attention. A lot of families whose children who are at risk don't even have to pay the tax. We do not drink sugary drinks and I haven't seen any report showing that the government needs to protect me from diet drinks so why do we need to pay an extra tax on those if it's supposed to help children. Meanwhile those people drinking their fancy sugary coffees don't have to pay. We will purchase our drinks in a different county whenever we can and along with those will not doubt come other grocery purchases that would go to local stores.

The beverage tax is outrageous and needs to be repealed. Cook County needs to cut costs elsewhere and fire overpaid staff who don't work but collect a paycheck.

If the beverage tax is designed to promote better health, why does it include items sweetened with artificial sweeteners that have ZERO CALORIES? As a Type 1 diabetic this tax is discriminatory and is not being implemented consistently across stores in Cook County. Repeal this tax!!

This tax is a ridiculous over reach. If you need money take some of Joe Barrios family off of county payrolls, redo excessive union contracts, so many places to save money.

The beverage tax is abhorrent because it applies to beverages with no calories, therefore it is obvious Toni is lying about the reason for the tax. I cannot stand Cook County and its bloated, corrupt government. I can tolerate federal, state and city government. But county government? That seems fairly irrelevant to me. I could care less if 10 or even 50% of Cook county employees loses their jobs if the tax is repealed. County government is not a jobs program. Those individuals can get jobs in the private sector like me and everyone else. I do not use any county services and avoid our health department because I have health insurance. I cannot stand that despite being the 3rd largest city in the country, we somehow have to have the highest sales taxes, in addition to the ridiculous sweetened beverage tax. The fact that this tax was passed under the veil of health benefits for children is an absolute joke. It is appalling to hear our inept government say, look if you give us more money, we'll somehow improve your health. No intelligent person believes Toni Preckwinkle and the lies spewing from her mouth. She's just another shady politician trying to prop up her political machine. The fact that individuals using food stamps are exempt from the tax is massively unfair. Why should people getting free money from the government be tax exempt? Cook County is basically encouraging a welfare state. That is absolutely aggravating to me. I want to enjoy a diet coke and not have to think about having to pay Toni Preckwinkle 1 penny for each sip. That's revolting to think about. I'm 170 pounds, 5 11 tall and in good shape. My parents taught me about personal responsibility. If other parents are unable to teach their children about moderation, then they deserve the negative affects of an irresponsible lifestyle. I see no harm in enjoying a diet soda. But I will not tolerate paying a tax for something that has nothing to do with obesity. Diet soda has zero calories. And just to let all of you inept, corrupt commissioners know, I work in Lake County and now do 100% of my grocery shopping there. Last week I bought 48 cans of diet soda and Cook County got 0% of that purchase. Too bad for you scumbags. And as a side benefit to myself, I also do my other food shopping in Lake County and have no qualms about not supporting my local businesses. My elected representatives have failed me by making Cook County a consumer unfriendly friendly place to shop. I will not prop up a corrupt, expensive, irrelevant system of government. I loathe Toni Preckwinkle and can't wait for the day that I will vote her out of office. Every one of you commissioners should be ashamed to think you have the right to reach into my pocket and take my money under the guise of health benefits on products that have 0 calories.

The beverage tax has tens of thousands of people worried about their jobs and supporting their families. All this tax will do is continue to weaken the job force in Cook County and DECREASE income tax substantially. The people of cook county will go out of the county to buy their sweetened beverages.

I oppose the repeal of the sweetened beverage tax.

I am a Nurse Practitioner at Lurie Children's Hospital in Chicago involved in the Preventive Cardiology Clinic. We are seeing a huge increase in obese children and adolescents who have developed high cholesterol, high triglycerides, Type 2 Diabetes, High Blood Pressure, Obstructive Sleep Apnea, Fatty Liver and other diseases that had, until relatively recently, been seen in only the adult population.

Our patients' dietary histories almost always include a large amount of sugar sweetened beverages, especially soda, which can often represent the majority of the extra calories in the diet responsible for weight gain.

We know that there is direct relationship between excess calories (particularly from sugar) and high triglycerides, which has been shown to lead to heart disease and Diabetes.

The economic impact of obesity and related, preventable diseases has the potential to bankrupt any Health Care System we have in place. Think of the astronomical cost of kidney dialysis, diabetic wound care, open heart surgery, heart and liver transplants and multiply it by the number of obese children and teenagers in America today. To say nothing of the physical & emotional suffering of patients and families, and the inability to work and pay taxes.

Taxing soda will result in fewer purchases, hence less calories consumed and provide much needed revenue (hopefully earmarked for programs that further benefit health, not for roads, pensions and pork.)

I am appalled at the power of the Food Industry to escape regulation, taxes and consumer input considering that the onset of the obesity epidemic coincides with the increase of high fructose corn syrup in soda and processed foods. We know how the Sugar Industry manipulated research data in the 70s to guarantee increased profits for them and increased pounds for Americans.

We know that the American Beverage Association spends millions & millions of dollars to lobby lawmakers to vote against soda taxes in order to keep their own profits coming.

We know that the World Health organization has been urging us to cut back on sugar, limiting added sugars to no more than 10 % of our daily calories. WHO is urging governments around the world to tax soda and sugar sweetened drinks.

Laurie Malinowski RN, MSN, CPNP-PC

sweetened beverages are bad for everybody's health. All of these purchases are discretionary; anybody can avoid the tax by changing their consuming habits which will help them in the long run. If the tax is paid, the county gets funds to deal with the public health consequences. If the drinks are not purchased, the county saves money in the long run in its health programs.

kaurhausen@gmail.com. The Cook County Beverage Tax is unfair on many levels. First of all, if you purchase a fountain drink, the tax for a 16 ounce drink is actually more than a penny per ounce because of the ice that is included in the cup. Secondly, it is my choice to decide whether or not I want to consume an healthy beverage, and I should not be penalized for it by paying an additional tax. How come the Starbucks customers aren't being taxed extra to enjoy their unhealthy and fattening beverages? If the county needs money, they should cut expenses; not cut from the wallets of hard working county taxpayers. Thirdly, this tax is going to cause in a significant job loss because of decling retail sales. Lastly, all suburban commuters who don't live in Cook County, but work in the city, are also being forced to pay this unfair tax whenever they dine out. This tax needs to be repealed and I ask that all commissioners vote to repeal it!

Q6 ACCOMMODATIONS: If you require additional assistance or special accommodations in order to participate in a hearing (for example, need language assistance, are a person with a disability), please let us know here, call 312.603.6127 or email us at cookcounty.board@cookcountyil.gov Intérpretes de lengua española estarán disponibles para los residentes que necesiten asistencia. kevin@kevinmilleronline.com This tax is unfair and onerous. It targets popular products under the guise of concern for health, yet leaves more unhealthy products alone. It is an unwanted intrusion into our private lives - all to generate more revenue to pay an already bloated patronage system. Can the tax!

I oppose the beverage tax and support it's repeal. The tax is a poorly disguised revenue raising effort. It is cynical to suggest it could actually be about health. It is poorly conceived and unevenly enforced. Moreover it won't cure obesity or diabetes, as places like Mexico have already found. The county needs to run its government more efficiently and effectively without constantly taxing citizens. Enough is enough.

I support the tax on sugar sweetened beverages and oppose its repeal. As a pediatrician, it is shocking to see the amount of pop and juice that children in our community are consuming. There is evidence that taxing sweetened beverages will reduce their consumption, so I support this tax.

Chicagoan's tax burden is heavy enough. The soda tax is completely unnecessary. Thanks you for the opportunity to submit the protest in this fashion.

Q6 ACCOMMODATIONS: If you require additional assistance or special accommodations in order to participate in a hearing (for example, need language assistance, are a person with a disability), please let us know here, call 312.603.6127 or email us at cookcounty.board@cookcountyil.gov Intérpretes de lengua española estarán disponibles para los residentes que necesiten asistencia. The tax is unfair and for "healthful" reasons, doesn't reach the target population, who are exempt. Beverages that contain no sugar shouldn't be taxed.

I support this tax! It is a necessary measure in begin to support the health and wellbeing of Chicago's children. It is scientifically proven that the consumption of sugar beverages attribute to high levels of obesity which in turn cause chronic illnesses such as diabetes, cancer and many more! Keep the tax! Keep the tax and keep using all revenue generated from it to Public Health!

Send the resounding message to Pepsi, Coca Cola, Nestle and all other affected corporations that the residents of Cook County want to see an increase in healthier beverage options for our grandchildren like alkaline water not drinks with empty calories that are making them fat and sick!

There are better, more honest ways to balance the budget. How about getting the fat out of county government?

Taxing beverages under the guise of health is bogus and everyone knows it. It also punishes those who can least afford the tax. I will NOT buy any of the taxable items and will go outside of Cook county to buy my beverages. This will deny the county ANY sales tax on my purchases and will cost me less than my gasoline cost to do so. I will benefit from lower gas taxes as I will fill my tank outside Cook county as well.

I will enjoy the ride knowing Toni Taxwinkle can't get my money.

I disagree with the sugar beverage tax, the city is nickel and diming the citizens to death. If you aren't stopped now, you will continue to go after things that us plain folk consider a luxury. It's already expensive to live in the city and we can't afford another tax. Don't act like you're doing us any favors. Thanks, but no thanks.

This is a regressive tax for the citizens of Cook County. Middle income and low income citizens are being heavily taxed while the wealthy are given big tax breaks. I'm a senior and have lived here all my life and have paid more than my share to build and support this city (there is also redlining in these areas). South and west sides of the city pay all these taxes and fees but our neighborhoods are not being supported by the city due to lack of investment (most of our tax dollars go to downtown and the north side). Also, retailers are not applying the taxes correctly which is costing us more money. There is no oversight by the city, county and state to make sure that these taxes are applied correctly (you just take the money and run). I feel that this government is gouging the average citizen in this city, county and state.

Q6 ACCOMMODATIONS: If you require additional assistance or special accommodations in order to participate in a hearing (for example, need language assistance, are a person with a disability), please let us know here, call 312.603.6127 or email us at cookcounty.board@cookcountyil.gov Intérpretes de lengua española estarán disponibles para los residentes que necesiten asistencia. I Gloria Merritt, will not buy any beverage in Cook County due to the added tax that has been added to it. It is wrong there is no right in it and I will not support it. I make sure I educate other people as well not to buy.

This tax has No bearing on keeping our children healthy!! Its just anyway to squeeze money from the working Class! If you do the research on the sick children in our community, you will find that, many of them are linked to a low-income, first generation oarent, that doesn't have the proper knowledge not to feed their child properly. Those parents wont benefit from this tax because, 90% of them dont pay taxes on sugary drinks anyway. Again this is another way to take more money from the working class people of cook county. Education is the key to changing peoples mind about their health & everyone who proposes this tax know that.

Please repeal this abrasive and thoughtless pop tax immediately. On behalf of the hard working, overtaxed millennials who are swamped in student loan debt as well as trying to be productive citizens in this county, it's incredibly frustrating to keep being taxed on literally every single thing. Clearly, this pop tax does nothing to curb the pop use of those most vulnerable to the ill-effects of sugar, and that's the low income families using federal food stamps. Tax can't apply of course. Those of us barely getting by should not be forced to fork over more money for Gatorade after a hard workout! Jesus. But yet you don't tax the sugar loaded Starbucks beverages. Interesting. There are so many other "sinful" things to tax that can be absorbed by those in a better position to afford it, such as tanning salons, bakery/confectionary shops, boat shops, LaSalle Street[!] to name a few!

The ordinance seeks to implement weakly supported science on the backs of ordinary citizens supposedly as a witch hunt against sugar. But its tax of diet soft drinks shows that it is not trying to get people to switch from sugar but instead just raise money with a flimsy excuse. Cut your costs. Repeal the tax.

Q6 ACCOMMODATIONS: If you require additional assistance or special accommodations in order to participate in a hearing (for example, need language assistance, are a person with a disability), please let us know here, call 312.603.6127 or email us at cookcounty.board@cookcountyil.gov Intérpretes de lengua española estarán disponibles para los residentes que necesiten asistencia. We cannot guarantee assistance for requests made less than 48 hours in advance of a meeting.

If the cook county beverage tax were such a big problem then WHY are you just now saying something! The beverages has been around for years and years and now since you want to raise more taxes you make it seem as if it's a health risk! Yes, it very well be a health risk, but to charge more taxes is wrong due to mismanagement of government!

I am a healthcare professional and a cook county resident. I do NOT support this unjust, expensive beverage tax. The government should not tell its citizens what they can or cannot eat. It is uneducated and absurd to blame obesity on soda alone. What about the diet which is the most likely cause. You cannot tax every food deemed "unhealthy". Almost every food we consume outside of fruits and vegetables would apply. There has to be a better way to fund government besides taxing the citizens to death.

Government should not be dictating or controlling what the public can or cannot eat or drink. Adults can decide on their own. A responsible adult will eventually make the right decision for themselves ... healthy or unhealthy.
Fink some other way to meet your budget instead of constantly taxing EVERYTHING!!!

There is no empirical data that connects a beverage tax to childhood obesity or diabetes. This tax is nothing but economic exploitation on the working class. Just as illegal red Light cameras were installed in high numbers on the south and west side to drain the pockets of the working class; the beverage tax is the same. The red Light cameras will be gone soon so Cook County decided to squeeze more money from the working class.

STOP using children as political pawns to balance a budget that is out of control because of poor leadership. Work with the people and don't try to bring down the people with more taxes.

I demand a repeal of the beverage tax and apologize to the citizens of Cook County!

I just stopped buying sweetened drinks altogether. If this is your way of balancing the deficient then y'all doing it wrong. Many people aren't even entertaining that tax and just buying kool aid. Btw, whomever proposed that tax most likely ain't well liked by the city. In the stores when they trying to buy their cases of pop or sweet tea or other sweetened stuff, i hear people curse whomever started this tax and they have to put the sweet drink back. It ain't helping childhood obesity. I've been fat as a kid and only drank pop like once a month. In conclusion, y'all messed up.

I strongly oppose the repeal of the sweetened beverage tax. Consumption of added sugars is clearly linked to significant adverse health effects like caries, obesity and diabetes, heart disease, stroke, etc. Please keep this choice tax to assist our families switching to healthy alternatives and to have healthier citizens and communities.

Anyone with a brain knows this tax is NOT for health reasons. People are going to other counties to buy their pop AND EVERYTHING ELSE while at the store outside of Cook County. Myself included!! Anyone with a brain knows Cook County will lose MORE MONEY WITH THIS TAX!!! Why can't politicians see this like people with a brain??? It's a damn joke and should be repealed. We are TAXED TO DEATH IN COOK COUNTY! Do something about the corruption in Crook County. We are sick of it!!!!

I am in favor of the repealing of the beverage tax. If this were indeed to improve children's health, it would not be part of the budget because the goal would be to reduce consumption not collect taxes on current consumption.

I oppose the repeal of the sweetened beverage tax.

The sweetened beverage tax is a healthy source of revenue for Cook County. Sugary drinks are the number one source of added sugar in the American diet. Evidence demonstrates that decreasing consumption of these drinks reduces the prevalence of childhood obesity and costly obesity-related diseases, such as type 2 diabetes.

This tax will encourage healthier drinks while also providing needed funding for the County. Eighty-seven percent of the County's budget goes toward its Health & Hospitals System and to public safety services like providing public defenders. Cook County has committed several hundred thousand dollars to community health improvement grants via the Cook County Department of Public Health.

This tax needs to be repealed it is not helping Illinois its doing more harm because now its costing me and others in the beverage industry our jobs, my job just laid off 20 employees last week me being one of them so how is it helping I'm very sure its affecting not only my job but all jobs in the state, and consumers are now going to other nearby states to not only buy their beverages, but to also purchase other grocery items because they figure if I'm not buying my beverages from Illinois I might as well get everything I need where I purchase my beverages because for the working class taxes are already to high. Why is it everytime the budget is called into question the only solution is to add more taxes to the people of Illinois. now I'm not sure how long sweetened beverages have been around but it never was a issue before until Illinois falls short on some budget then its us who have to pay because it does not affect the powers that be. they say that the beverage companies are targeting blacks and Hispanics but the last time I checked I saw the same advertisement in the predominately white community as were in all other communities not like the tobacco industry who were targeting blacks and Hispanics. and finally I thought it was up to the parents to raise their children to decide what their child eats or drink, now it seems the government wants to dictate whats good or bad for our children and if we don't comply they continue to penalize us with more taxes. ITS NOT FAIR!!! So please repeal this tax so people like myself can continue to work and provide for my family.

"In their television commercials Drs. Javette Orgain and Terry Mason have given the public information about health and tax that is misinterpreted. The Crook County Board beverage tax has nothing to do with health. Good or bad health is dependent on the decisions people make about the foods and drinks they consume. The real issue is how the county board commissioners spend the taxpayers monies, i.e., on whom and what. The implemented beverage tax is an unwarranted, discriminatory and dishonest way of exploiting the citizen by raising money to offset the deficit created due to the overspending, wrong spending decisions, bad habits and poor practices created by county board commissioners and other government officials. Taxing citizens for choosing how to live their lives through eating and drinking is unethical. It is not the ethically right thing to do. The tax must be repealed."

The Illinois Chapter, American Academy of Pediatrics, representing over 2,000 pediatricians statewide, the majority of who practice in Cook County, strongly opposes any repeal of the Cook County soda tax for the following reasons. Soda taxes have shown to reduce soda consumption and reducing consumption of soda in children reduces the prevalence of the childhood obesity. Consumption of soda is also associated with numerous chronic health conditions costing Cook County taxpayers millions of dollars of in preventable medical costs. The tax is a sound evidenced-based public health strategy endorsed by the AMA and the World Health Organization and is good for the health of Cook County and its residents.

This is the most stupid tax that has ever been thought of. It is only to raise money for the incompetent politicians who can't fathom a way to live with in their or our means. Dump this dumb idea and get a job.

It ain't about health cause you're taxing sugar free drinks, you morons!!!! What's next candy, donuts bacon!!

The beverage tax is terrible for Cook County and should be repealed. It's blatantly false to say the intent is to help lower obesity when in essence, it's intended (and is used) to fund the county government that cannot balance it's budget.

I oppose the repeal of the sweetened beverage tax. There are ailments that disproportionately affect people of color. Some of these can be traced back to food choices and what's most accessible in our communities. This tax can go along way in curbing the over-consumption of beverages such as soda; especially in young people.

This is wrong on so many levels. The Cook County Beverage Tax is disproportionately affecting the poor and you know it. Your fake outrage and propaganda filled ads claiming that this tax will make children healthier, is downright insulting to its targeted audience,-poor people. You all sit in your positions of power, with the solution of taxing your way out of overspending is egregious to say the least. You want to police what we consume, and what sustenance we choose to provide to our children because sugar is unsafe? I assume then, that the seven cents per bag tax is saving all of us from suffocating. Meanwhile, many of us are also disproportionately suffering from post-traumatic stress disorder due to this violent riddled city and the lack of opportunity. Innocent people and children are being murdered like we breathe in air, and a Sweetened Beverage Tax is what you choose to battle? Answer me this: What do you know about being poor and scared?

Their argument is that "soda companies are putting our children lives at risk" So they tax it. That's an excuse! If a child is drinking soda or surgery beverages, it is because their PARENTS gave it to them and allowe them to have it. If the government is so concerned about "CHILDREN" drinking surgery drinks then put an AGE limit on it like they do with alcohol and tobacco products! Not tax it which in fact makes Illinois lose money. This is also them trying to control what we choose to eat and drink. If they're so concerned about our health then invest more into cures for cancer!

I am a voter. If this tax is allowed to stand, this opens the door for other nickel and dime taxes. What's next, a tax on salty snacks? Unacceptable. Any Commissioner supporting this tax WILL be ousted in the next election.

I do not see other counties enacting these taxes for "the children".

If this was truly a health consideration, why are you not considering the people who use food stamps? Are they not important enough to be included because they can buy sodas without having to pay the tax. Seems kind of hypocritical to me. Do they have these health problems as well? Also, where are the white people in the commercials? Do they have these health problems? Or is it just us? Shame on you.

I have friends in Will County. When I visit them (often) I will shop there & pick-up my soda, juices, cheese and any other items I may need. Many of my friends said they will do the same. The city has to stop wasting my money! All employees MUST WORK for all the hours they are being paid for. Then we wouldn't need as many employees. Live within your budget as most of us do! CAN THE TAX!!! We're fed up!!!

In favor of repealing the soda tax. The penny per ounce rate is extreme and is dishonestly marketed as a concern for taxpayers' health when it is cynically designed to plug budget holes. Further, placing it on drinks that have zero calories and no sugar magnifies how disingenuous this action has been. Please repeal now. By the way, I have not bought soft drinks in Chicago since this action was taken but I travel to neighboring counties to make my purchases. I would rather travel and even pay more than to participate in this scam of the taxpayers. Thank you for noting my opposition to this tax.

Q6 ACCOMMODATIONS: If you require additional assistance or special accommodations in order to participate in a hearing (for example, need language assistance, are a person with a disability), please let us know here, call 312.603.6127 or email us at cookcounty.board@cookcountyil.gov Intérpretes de lengua española estarán disponibles para los residentes que necesiten asistencia. Greeting Commissioners, I am in favor of repealing the cook county beverage tax. As a citizen and homeowner I feel that this tax is another means of bleeding us dry. Tax after tax it's outrageous. I'm tired of being taxed every time the city, state or county falls short by not managing correctly. I went to the grocery store in an attempt to purchase some Hawaiian punch juice for my family. I had 4 which were on sell for \$1.88, this would normally total \$ 7.52, but with this beverage tax the total was \$ over \$13.00 nearly double, Needless to say, I didn't purchase the juice, but instead drove to Indiana to do my shopping.They claim this is to help the children's health condition, but we know it's really just another ploy. Fun how shortly after putting this tax into affect, Periwinkle wants to give the county employees raises. Thank you for reading my concerns.

The TV and radio commercials that states that the tax will reduce diabetes is incorrect. Parents and individuals are responsible for their own actions. Increasing the sugar tax will not make people stop eating or drinking what they want. Education is the key.
