SECRETARY TO THE BOARD OF COMMISSIONERS

MATTHEW B. DeLEON  
SECRETARY TO THE BOARD

**Cook County Board Meeting**

**September 13, 2017**

**Registered Public Comments for those Attending and Not Attending the Meeting**

**Sorted by Commissioner District using zip codes provided by commenter**

NOTE: This is our first use of the online registration survey created on the Survey Monkey website.

Because of the volume of responses for this meeting (1,881 responses), we were unable to use Survey Monkey to create a single PDF which would encompass all comments for this meeting.

To create more manageable PDFs, we broke out the responses by zip code and then combined those zip codes by commissioner district.

MANY zip codes overlap County commissioner districts. In the interests of time, we were unable to break out which specific responses were for each district. To ensure all possible responses for a district could be seen, you will find all the responses from any zip code which overlaps district boundaries in each applicable commissioner district PDF.

To whom it may concern:

My name is Ted Christians and I'm the CEO of Umoja Student Development Corporation – a nonprofit that works with students and educators in schools, nonprofits and districts throughout Chicago, Cook County and the state of Illinois.

I'm writing to express support for the Cook County Sweetened Beverage Tax and speak to the critical importance of the Justice Advisory Council (JAC) and its leadership and investments in juvenile justice work throughout the county. The reduction and elimination of the Cook County public safety funds, quite frankly, would come at a devastating cost to our county.

Specifically, through the Justice Advisory Council, Umoja has been able to launch Restorative Justice Peace Rooms in some of the most underinvested and challenged high schools in our region and we've been able to train hundreds of adult educators in Restorative Justice practices in high schools, districts and other nonprofits throughout Cook County.

Many of you may be familiar with the data that supports Restorative Justice as a critical tool for preventing violence and conflict and addressing trauma. We believe that the cost of punitive discipline in schools is clear and that the disproportionate impact of suspensions on students of color leads directly to the well documented school to prison pipeline. In fact,

- Illinois as a state has unfortunately carried the distinction as one of the worst states in the country when it comes to suspending African American male students – 1 out of 4
- A recent report suggested that High School Suspensions cost the country \$35 billion annually
- Another report estimates that children in US public schools lost nearly 18 million days of instruction in just one year because of exclusionary discipline

The research connecting Restorative Justice, trauma and crime is also increasingly clear:

- Even one suspension means a student is less likely to graduate
- Those who drop out of high school are 8 times more likely to be incarcerated

With the support of the Justice Advisory Council, Umoja has served more than 4,000 students through our Restorative Justice Peace Rooms. Our outcomes include:

- Out-of-school suspension rates decreasing by 49%
- Disciplinary referrals decreasing by 50%

Imagine if there wasn't a Peace Room to receive those students. That trauma and conflict goes into the classroom and then it goes back out into the street. Instead, investments by the Justice Advisory Council are making sure that we address trauma and conflict and end the school to prison pipeline by keeping students in our classrooms, in our schools – exactly where we all want and need them to be. Said differently, the reduction or elimination of JAC investments in Umoja and other nonprofits means hundreds if not thousands of young people out on the street instead of in school.

For these important reasons, Umoja supports the Sweetened Beverage Tax and sustaining the investments of the Justice Advisory Council's work across the county. Thank you.

Ted Christians

Hi, I'm Esther Sciammarella, Executive Director of the Chicago Hispanic Health Coalition and we support Cook County's sweetened beverage tax to help fund the County's healthcare system and public safety services. This tax helps us rethink our drinks, ultimately improving our health, and funds important county services.

Drinking just one sugary drink a day increases the chances of type 2 diabetes, heart disease and obesity. The County's Sweetened Beverage tax helps to ensure that our families are receiving the help they need through the County's healthcare system and public safety services. The money from the tax also invests in our youth and improving access to healthy foods through the County Health and Hospitals System. Drinking just one sugary drink a day increases a man's risk of having a heart attack or dying from a heart attack by 20%. 1 in 3 children are overweight or obese. A study found that just 1 sugary drink a day increases a child's odds of becoming obese by 60%.

According to the American Diabetes Association, a person with diabetes spends an average of around \$650 a month on diabetes care. I've seen first-hand the impact of diabetes. For example, through our health education program called Juntos Contra Diabetes, we have help over 500 Latinos in this year alone. Latinos and African American communities have been hit disproportionately by chronic diseases like type 2 diabetes and heart disease. We are delighted that the sweetened beverage tax is being implemented to start to invest health resources in our communities.

So again, please don't repeal this tax. Thank you for allowing me to speak today.

Hello,

My name is Sara Parvinian.

As a community pediatrician with more than twenty years of service having experienced the hardships of childhood obesity with long term effects on youth health and life expectancy including but not limited to type 2 diabetes, hypertension, respiratory illnesses I see it as a duty to ask you from the bottom of my heart to do whatever is necessary to limit children's access to sugary drinks which has been shown by studies after studies to be directly related to childhood obesity and oral / dental health (lack of ).

The increased tax on sugary drinks has the benefit of bringing out discussions about their role in public health (lack of) and make care givers think twice about including them in their children's diet. In addition this tax will be used by Cook County authorities in expanding health benefits to it's residents in different venues .

Let's give priority to the well being of our next generation , our children by taking this step and let it be a guide to many other decisions we need to make that will have long term effects on our society.

Respectfully ,

Sara Parvinian, M.D.

Dear President Preckwinkle and Cook County Commissioners:

RECORD OF COMMITTEE WITNESS COOK COUNTY and FOREST PRESERVE DISTRICT BOARDS OF COMMISSIONERS September 2017

The Illinois Public Health Association (IPHA) strongly supports Cook County's sweetened beverage tax to help fund the County's healthcare system and public safety services. This tax helps County residents make better drink choices, ultimately improving their overall health, and funds important county services.

In its role to advance public health and public health practice throughout Illinois, IPHA continues to be a proponent of sugar-sweetened beverage taxes, as they reduce overall consumption of unhealthy beverages, help tackle chronic diseases such as diabetes and heart disease, and reinvest funds in health improvement and wellness initiatives in our communities.

As you may know, sugar-sweetened beverages are the largest source of added sugar in the American diet and the consumption of these beverages contributes to the epidemic of obesity that we see in our young people and adults.

Cook County's sweetened beverage tax addresses the harmful effects of sugar-sweetened beverages and helps to ensure that families are receiving vital services they need through the County's healthcare system and public safety services. The money from the tax also invests in access to healthy foods for families and in wellness activities for our communities.

We know that supporting new revenue is difficult, however numerous jurisdictions where sugar-sweetened beverage taxes have been enacted have seen a reduction in unhealthy beverage consumption, which will ultimately lead to improved overall health and a reduction in chronic diseases and their financial toll on the healthcare system.

Again, IPHA strongly supports the Cook County sweetened beverage tax and we ask you not to repeal this important public health measure. Thank you for demonstrating your support to protect our Illinois children and families from the tremendous health risks caused by sugar-sweetened beverages. Like you, we believe in a healthy, safe, and secure future for all our families!

Sincerely,

Jeffery M. Erdman

Jeffery M. Erdman  
Assistant Director for Programs and Compliance  
Illinois Public Health Association

Statement of Jim O'Hara Director, Health Promotion Policy Center for Science in the Public Interest Washington, DC

Thank you for this opportunity to speak in favor of Cook County's sweetened-beverage tax and against any repeal effort. Sugar-sweetened beverages are the leading source of added sugars in the American diet,<sup>1</sup> and sugar-sweetened beverage consumption is scientifically linked to obesity, type 2 diabetes, and cardiovascular disease.

Government and medical bodies have stated those links unequivocally, including the Centers for Disease Control and Prevention, the American Heart Association, the American Medical Association, and the federal 2015 Dietary Guidelines Advisory Committee. Moreover, health equity is at stake. Between 2005 and 2008, African-American adults consumed nearly nine percent of their daily calories from sugar drinks, compared to about five percent for white adults. Not coincidentally, African Americans are 50 percent more likely to be obese than

white Americans and more than twice as likely to die from diabetes. Similarly, Mexican American adults consumed more than eight percent of their daily calories from sugar drinks. Hispanic Americans are 20 percent more likely to be obese than white Americans and 50 percent more likely to die from diabetes.

RECORD OF COMMITTEE WITNESS COOK COUNTY and FOREST PRESERVE DISTRICT BOARDS OF COMMISSIONERS September 2017

In addition, in Cook County the resources from this tax provide much needed support for critical social determinants of public health, such as nurses, doctors, and enhancement of the Food as Medicine Program that helps connect families in need with healthy foods. We know these taxes work. In fact, the World Health Organization published a report in 2016 calling for the use of these taxes and said the benefits include: Reducing consumption and prevention of obesity; Healthcare savings; and generating revenues for needed programs.

Thank you for the opportunity to speak today.

Please repeal this ridiculous tax. If you are interested in improving the health of children in Cook County, there are 100 better ways to proceed with that endeavor. This tax makes ZERO sense when it is supposed to be for sweetened high-calorie beverages, yet the tax is applied to zero-calorie, zero-sugar beverages.

Bought a 20 ounce zero calorie zero sugar vitamin water for \$1 & was taxed 20 cents or a whopping 20%. That's outrageous for any beverage including an unsweetened one. Bloomberg go home!

As a doctor for children and adults, I see patients every day who are obese, largely from drinking too many sugary beverages. We have a chance to curb their intake with this tax, at the same time raising revenue for important services in Cook County. Let's not lose an opportunity to decrease diabetes and obesity !

Dear Commissioners,

RECORD OF COMMITTEE WITNESS COOK COUNTY and FOREST PRESERVE DISTRICT BOARDS OF COMMISSIONERS September 2017

Thank you for allowing us to submit written testimony in support of Cook County Ordinance #17-4704, which would repeal the newly enacted Cook County Sugar Beverage Tax.

As the "Voice for the food, beverage and petroleum industry" since 1910, the Associated Food and Petroleum Dealers ("AFPD") is a multi-state trade association representing thousands of retailers operating in Michigan, Ohio, Illinois and surrounding states. Our members include chain stores, independent supermarkets, convenience stores, petroleum retailers and specialty food markets. Our membership also includes wholesalers, distributors and manufacturers who support the retail industry. AFPD has been representing independent grocers in Illinois for more than two years, and our Illinois office is located at 3000 South Ashland Ave, Ste. 100, Chicago, IL 60608.

AFPD has prior experience with such ordinances in other jurisdictions, and there are many reasons why these ordinances -- like the Cook County Sugar Beverage Tax Ordinance -- are bad public policy, including:

- Illinois residents, especially those in Cook County, are already taxed at a very high rate;
- The burden to collect this tax falls unfairly and solely on the backs of retailers;
- These taxes are deceptive -- claiming to push people to live healthily lifestyles while treating SNAP recipients and non-SNAP recipients the differently. Such discriminatory taxes would otherwise be illegal according to the USDA -- unless they issue a specific waiver is granted (which unfortunately occurred in this case);
- Restaurants and bars currently allow free refills on many purchases of pop; however, such "free refill" policies will likely end due to the tax unless repealed;
- The tax will hit lower income consumers the hardest. They are regressive in nature and punish the poor and working class inappropriately;
- The tax is inappropriately selective. The tax excludes milk-based drinks like hot chocolate, milkshakes and coffee -- many of which also contain sugar;
- The tax doesn't take into consideration varying amounts of sugar in various categories of drinks. Merely applies the tax on a "per ounce" basis;
- The tax has caused significant confusion at the cash register. The retailer will incur an expense to reprogram cash registers to apply the tax to various, selective drinks and selective people;
- The tax will inevitably increase costs to Cook County. It will be expensive for the government to monitor since the tax will be collected by the retailer, and will be expensive to administer and audit, since every retailer will be an account;
- While retail prices vary the "tax" is actually +/- 16% of the retail price;
- The tax will chase customers near the city and county limits across the border to purchase drinks in neighboring stores, losing (not only the drink sale) but other ancillary sales to stores in communities bordering Cook County; and
- The tax will not generate the estimated tax revenue due to "customer flight" to neighboring localities just outside of Cook County to avoid the new tax.

In closing, I would again like to thank Cook County Commissioners Sean Morrison and Richard Boykin for spearheading the effort to repeal this flawed tax, and all Commissioners for the opportunity to provide testimony in support of Cook County Ordinance #17-4704. The points made above showcase the problems with the Cook County Sugary Beverage Tax, and this is why it is so important to

RECORD OF COMMITTEE WITNESS COOK COUNTY and FOREST PRESERVE DISTRICT BOARDS OF COMMISSIONERS September 2017

support and pass this repeal ordinance. Sometimes localities go too far, and this is a great example of going too far. We hope those representing the citizens and businesses in Cook County can now see that it is time to correct this error and immediately repeal the Cook County Sugary Beverage Tax. My contact information is below and urge you to always feel free to contact me. We at AFPD are always here to be part of the solution, not part of the problem.

Sincerely,

Auday Peter Arabo, Esq.

The soda tax is unreasonable. The tax is supposed to raise money, but you in fact created the opposite. More people refusing to buy items in Chicago resulting in less tax for the county. Learn how to budget money, cut cost and spend within reason. Tax payers should be the punching bag every time elected officials can't run the county. The elected officials will soon realize this once they are voted out of office.

I believe that as an adult human being capable of my own decisions should have the right to choose whether to buy sweetened drinks without being penalized by our local government. If I trusted our appointment officials and knew that that money was going to be put into a very good cause and not their pockets as a salary increase or bonuses I would not mind. However from being part of Chicago since 1988 and watching term after term our tax money go to waste. No I want to repeal this taxation which I believe is just plain stupid. In that case candy, fast food, coffee and all processed foods should have an even higher tax than sweet drinks. We do not get fat by drinking soda or juice. We get fat because every year our schools are dropping physical education. Exercising is no longer a requirement in schools thanks to our government. Eating a fast food meal adds an average of 1000 calories without the drink. Let's why not tax the other 2/3 of the meal that is adding cholesterol, unnecessary calories from the bread, mayo and bacon, not to mention the calories from the fries alone. We all have a choice and if we stay with the taxation the choice will be to go to Indiana or Dupage and buy bottled water to avoid tax per bottle, avoid taxation on sweetened beverages and out of Chicago to avoid the stupid tax on grocery bags. Enough is enough!

I am in favor with can the tax, we are being hit with everything we now I have to rethink if I can buy my 2 year old daughters apple juice or even drink that are sugar free are being taxed with sbt. this is ridiculous. it is not to keep everyone healthy and children especially. us parents are the one who decide what our kids drink. plus I do not have food stamps. because a out 75 percent of people who buy pop have a link card. and they also need to be "healthy" too right? it is not fair. and I know lots of people taking their shopping elsewhere. please reconsider this tax. it is hard on us cook county residents.

[iknewit36@yahoo.com](mailto:iknewit36@yahoo.com). Your taxing hard working people into the poor house. It's not our job to police parents who can't look out for the welfare of themselves and their children. Not being able to buy sugar beverage will not keep them from making every other wrong food choice. Please just make the cuts and figure out how to balance you budget without taxing us right out of town. Enough with the wasteful spending in the county, city and State.

Sugary drinks are the number one source of added sugar in the American diet and are linked to increased risk for heart disease, type 2 diabetes and obesity. Mounting evidence shows that as prices go up, consumption goes down.

This tax will encourage healthier drinks while also providing needed funding for the County. Eighty-seven percent of the County's budget goes toward its Health & Hospitals System and to public safety services like providing public defenders. The revenue from the tax provides several million dollars to increase resources for job training and placement programs for justice-involved youth. Additionally, the County committed several hundred thousand dollars to community health improvement grants via the Cook County Department of Public Health.

My question to you is why isn't everyone being taxed for the sugar drinks...why are the people on SNAP able to buy drinks but not be taxed...it seems to be a tax being implemented only to the working class people. I am a senior citizen who has had one kidney for 19 years drinking a glass of cranberry juice a day...and I am fine. Now I will have to drive to Indiana to not pay this tax...not happy. I am tired of politicians making decisions for me. My personal choices are non of your concern. I would appreciate if you would not call my house or come to my door for votes.

17-4704 1 TO REPEAL THE SWEETENED BEVERAGE TAX Ordinance Amendment PROPOSED ORDINANCE AMENDMENT PROPOSED ORDINANCE AMENDMENT TO REPEAL THE SWEETENED BEVERAGE TAX WHEREAS, the Sweetened Beverage Tax Ordinance was approved and adopted on November 10, 2016; and WHEREAS, it has becoming increasingly clear that this is a regressive tax which will cause immediate and irrevocable hardship to businesses in Cook County and put those businesses in competitive disadvantage to businesses nearby; and WHEREAS, the U. S. Census Bureau has reported that from July of 2015 to June of 2016 Cook County has lost more population than any other county in the entire United States; and WHEREAS, it has been widely reported that one of the main reasons businesses and residents are moving out of Cook County is excessive tax regulations; and WHEREAS, a lawsuit has been filed questioning the constitutionality of this ordinance and Cook County may again be forced to spend huge sums to defend a potentially unconstitutional ordinance; and WHEREAS, Crain's has reported that a recent poll conducted by a credible organization shows that 87 percent of Cook County

Please repeal this abrasive and thoughtless pop tax immediately. On behalf of the hard working, overtaxed millennials who are swamped in student loan debt as well as trying to be productive citizens in this county, it's incredibly frustrating to keep being taxed on literally every single thing. Clearly, this pop tax does nothing to curb the pop use of those most vulnerable to the ill-effects of sugar, and that's the low income families using federal food stamps. Tax can't apply of course. Those of us barely getting by should not be forced to fork over more money for Gatorade after a hard workout! Jesus. But yet you don't tax the sugar loaded Starbucks beverages. Interesting. There are so many other "sinful" things to tax that can be absorbed by those in a better position to afford it, such as tanning salons, bakery/confectionary shops, boat shops, LaSalle Street[!] to name a few!

The ordinance seeks to implement weakly supported science on the backs of ordinary citizens supposedly as a witch hunt against sugar. But its tax of diet soft drinks shows that it is not trying to get people to switch from sugar but instead just raise money with a flimsy excuse. Cut your costs. Repeal the tax.

Repeal this Beverage Tax. If you want additional revenue try taxing all the people buying bottled water and filling our landfill with plastic waste. Chicago already charges \$.05 and also taxes our soda. We will remember your vote on election day.

Please repeal the Cook County Beverage Tax. This tax hurts the residents of Cook County making them pay more money than their neighbors in other counties, in Indiana and Wisconsin for sweetened beverages many of which do not contribute to obesity. It also hurts business by driving many residents outside of Cook County to buy their beverages and whole grocery cart.

I strongly oppose the repeal of the sweetened beverage tax. Anyone with a brain knows this tax is NOT for health reasons. People are going to other counties to buy their pop AND EVERYTHING ELSE while at the store outside of Cook County. Myself included!! Anyone with a brain knows Cook County will lose MORE MONEY WITH THIS TAX!!! Why can't politicians see this like people with a brain??? It's a damn joke and should be repealed. We are TAXED TO DEATH IN COOK COUNTY! Do something about the corruption in Crook County. We are sick of it!!!!

My hard earned money will go anywhere except Cook County for this totally ridiculous tax. The ironic twist of Preckwinkle and Bloomberg, is that each has decided to appoint themselves as the overseers of the people of Cook County, with the premise that they are the HEALTH GUARDIANS of anyone in Cook County who is not utilizing SNAP.

To whom it may concern, as a tax paying citizen I am tired of being taxed for the horrible investments made by politicians current and former. We are constantly paying for bad decisions, just so government workers can keep there pensions. I'm sorry but someone is going to have to be the sacrificial lamb and fall on the sword. Please put an end to extra taxing of the public. If this continues people like me will be forced to help other politicians in there campaigns just to oust the current board. At this point this is all we can do, next you will be taxing us on bread and pasta because it turns into sugar once digested.

The beverage tax unfairly targets the middle and working classes. In addition, it is pulling revenue away from Cook County stores, because people like me are now doing all their shopping in DuPage or Will County. The fact that this tax targets diet beverages as well as sugared beverages points to the fact that it was not enacted to combat obesity; it is just a revenue grab.

1.75 liters if alcohol has a tax of 1.16

24 pack of Gatorade has a tax of 4.00..the people that have money are getting in their cars and buying these items at other counties along with other items so who is suffering? The poorer, the older, the people with no choice. The voters will remember this act of extortion against hard working people and total disregard for fiscal responsibility and wasteful spending, a travesty, a shame.
