

## **Say Cook County Board of Commissioners ...!!**

**Don't be a dope by ignoring the dope possibilities of paving the way for voters and taxpayers to advise the Illinois General Assembly on legalizing marijuana use in the state up to 30 grams and five homegrown plants at a time in the state ...**

**Legalized recreational marijuana use in Illinois up to 30 grams or five home-grown plants at a time offers the following benefits:**

- \*More money and work hours for the sheriff's deputies and Cook County Criminal Court to devote on more serious violent crime;**
- \*Relieving overcrowding at Cook County Correctional Center;**
- \*A budget-bolstering revenue source far less controversial than the former penny-an-ounce beverage tax that voters would be far more eager to support;**
- \*A regulated marijuana supply that is not "stepped up," i.e. free of such dangerous additives as cocaine, angel dust, PCP and meth.**

**To get woke on the issue like Cook County Commissioners John A. Fritchey (D-Chicago) and Luis Arroyo Jr. (D-Chicago) and Democratic gubernatorial candidate Chris Kennedy, contact the CHICAGO URBAN FINE ARTS COMMONWEALTH NFP, 501(c)4, at Facebook @cufacchipprogress, [cufacchipprogress@yahoo.com](mailto:cufacchipprogress@yahoo.com), 773.540.0776.**
