Program scope aligns with the Justice40 initiative

* The Justice40 initiative is a Federal Government goal for 40 percent of Federal investments responding to climate change and environmental concerns flow to disadvantaged communities overburdened by pollution. Based on Federal Government data from the [Climate and Economic Justice Screening Tool](#), 41% of Cook County's population lives in Census tracts that fall under the Federal Government's current definition of disadvantaged communities overburdened by pollution. Given the disadvantaged population size in the County, ARPA initiatives are flagged if they address Justice40 concerns around climate change, clean energy, affordable housing, and workforce development.

✓ *Program scope aligns with the Justice40 initiative*

* The Justice40 initiative is a Federal Government goal for 40 percent of Federal investments responding to climate change and environmental concerns flow to disadvantaged communities overburdened by pollution. Based on Federal Government data from the [Climate and Economic Justice Screening Tool](#), 41% of Cook County's population lives in Census tracts that fall under the Federal Government's current definition of disadvantaged communities overburdened by pollution. Given the disadvantaged population size in the County, ARPA initiatives are flagged if they address Justice40 concerns around climate change, clean energy, affordable housing, and workforce development.

The FEMA PA closeout process involves collecting and reconciling 100% supporting documentation to validate project expenses once reimbursed.

During the closeout process, expense overruns or underruns may be discovered. Overruns or underruns occur when additional eligible, ineligible, or unsubstantiated costs are found within a project.

Once documentation is collected and expenses are validated, a closeout package is submitted by the County to the State. After its review, the State then submits the package to FEMA for review.

The closeout process ensures federal compliance and protects Cook County from a claw back of funds at program closeout or during any subsequent Department of Homeland Security OIG audit.

Once all projects have been reviewed and closed out, a closeout payment transaction will be provided, and the FEMA PA program will be closed out. In the closeout payment, FEMA will reimburse the County for the net balance of its overruns and underruns, in addition to administrative costs.
