# Human Resources /Payroll System Enhancements

## *Employee Self-Service (ESS)*

### **Employee Self-Service (ESS) portal**

Employee Self-Service (ESS) is a web-based system that offers a single, secure source for the County employees to view their own personnel and payroll information from home or office, and from any computer with an internet connection and internet browser.

### ***Empowers employees to:***

- **View and print both current and prior paystubs showing pay rate, earnings and deductions**
- **View auto deposit instructions**
- **View personal information including mailing address, telephone number, and emergency contact(s)**
- **View and reprint W-2**
- **View benefits enrollment information**
- **View accrual balance information for sick, vacation, personal, and float**

Integrated module within JDEdwards E1 HR/PL System

Eliminates costs of printing and distributing paper paystubs

Over 17,000 employees registered to date

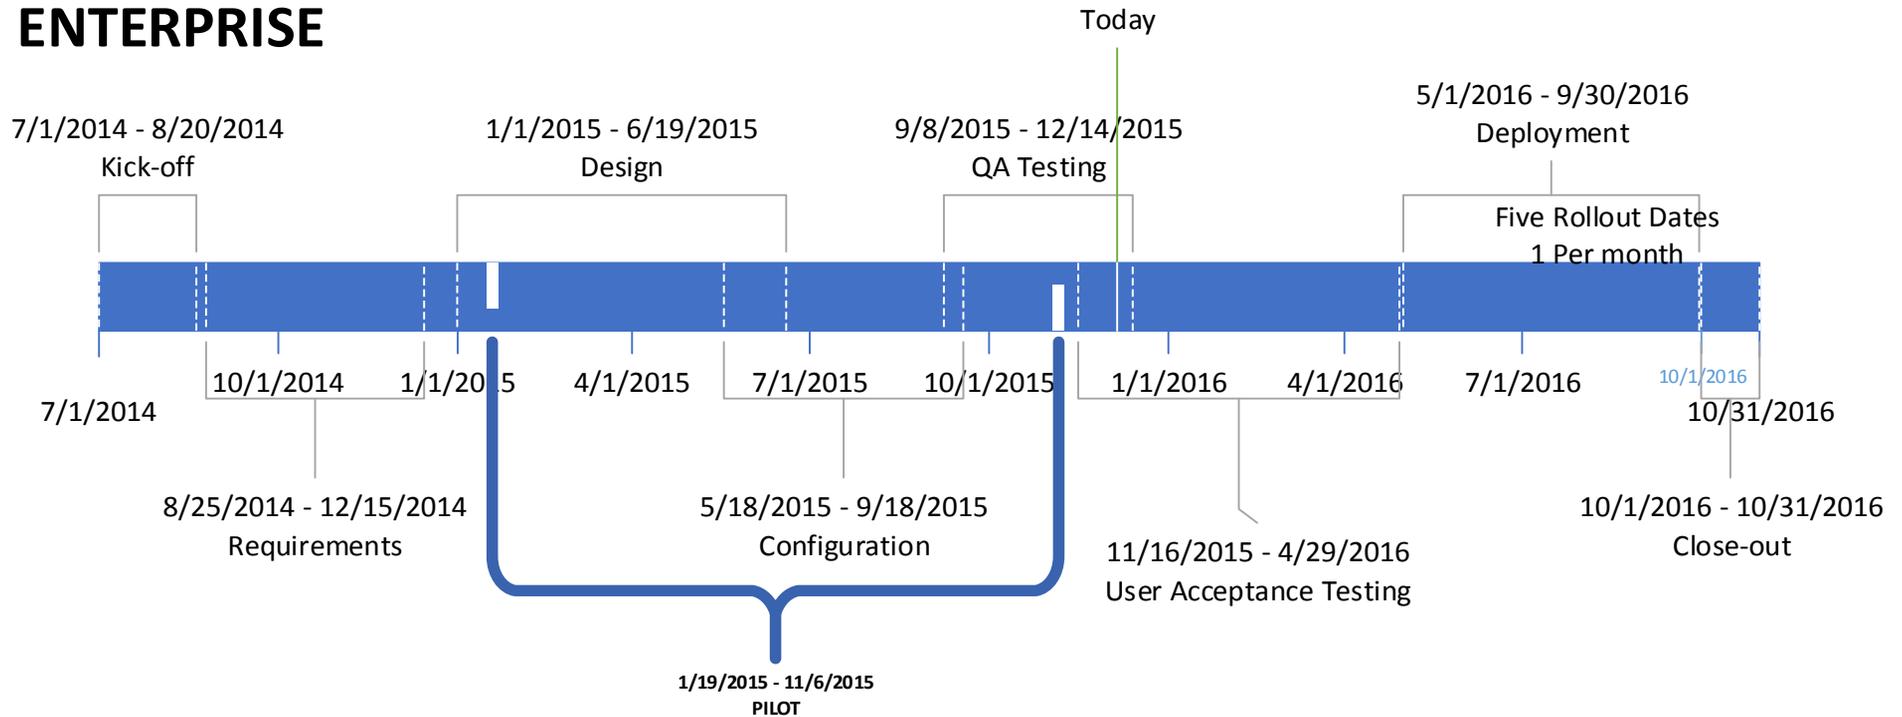

Maintenance and future development of system transferred back to Bureau of Technology

BOT preparing a contract amendment and exercise of renewal option through April 2018 for Board Review in February

# CCT Time & Attendance Implementation Project Timeline

## ENTERPRISE

**All facility wiring is complete, with 600 biometric timeclocks currently being installed Countywide**

**Pilot successfully launched Q3, with User Acceptance Testing (UAT) now underway**

**Maintenance and ownership of system transferred back to Bureau of Technology**

# CCT Time & Attendance Implementation

## *Pilot Lessons Learned*

### **Top 5 Lessons Learned:**

1. Frequent communication between the Project Team and agencies during UAT to ensure testing stays on track and to answer any questions
2. Agencies should replicate current time-cards when testing CCT to ensure the same results are produced (especially weeks with a holiday)
3. During UAT, the agencies need to think about how CCT might impact or change their business processes and plan accordingly for the Go-Live Date

*Example: Employees now able to request time-off electronically, Supervisors/Managers now able to approve time sheets electronically*

4. UAT testers need to have “dedicated” time set aside for testing
5. All timekeepers and Supervisors/Managers need to take the training prior to Go-Live and be ready to use the system on the first day of Go-Live

***ERP preparing a contract amendment for Board Review in February to include additional training, additional user support, and new user functional requirements to address lessons learned from Pilot***

## *Current Activity*

Team/Sub-Committee	Past Activities	Upcoming/Current Activities for Next Month	
		Activities	Resources Involved
Project Management Team	<ul style="list-style-type: none"> <li>Documented Pilot Lessons Learned</li> <li>Completed Enterprise Mid-Configuration</li> <li>Preparing for Enterprise UAT</li> </ul>	<ul style="list-style-type: none"> <li>Share Pilot Lessons Learned</li> <li>Start Enterprise User Acceptance Testing (UAT)</li> </ul>	Project Managers, ERP Team, Comptroller, BOT, WFS
HR Sub-Committee	<ul style="list-style-type: none"> <li>Ongoing Data Maintenance</li> <li>Completed collection of work schedules</li> </ul>	<ul style="list-style-type: none"> <li>The HR Sub-Committee is being replaced by weekly UAT meetings for each phase of UAT</li> </ul>	HR/Payroll and Union subject matter experts from each agency
Facilities Sub-Committee	<ul style="list-style-type: none"> <li>Continue cabling/installation for Enterprise clock locations</li> </ul>	<ul style="list-style-type: none"> <li>Continue cabling/installation for Enterprise clock locations</li> <li>Finalize plan for hanging the Enterprise clocks</li> </ul>	NCC, Telecom and Facilities contacts at each site

# STEP Countywide ERP Implementation Deployment Schedule & Wave 1 Timeline

## Minimize

- Implementation time
- Implementation costs
- Business disruption
- Risk

## Maximize

- Implementation benefits
- Use of technology
- Organizational Adoption
- Flexibility

# STEP Countywide ERP Implementation

## Wave 1 Scope of Work

### Wave 1 - Finance, Purchasing & Inventory

#### Wave 1 Modules

General Ledger

Accounts Payable

Payments

Accounts Receivable

Cash Management

Purchasing & iProcurement

Inventory (Foundation)

Fixed Assets

Grants Accounting

Projects (Foundation, Costing)

Human Resources (Core)

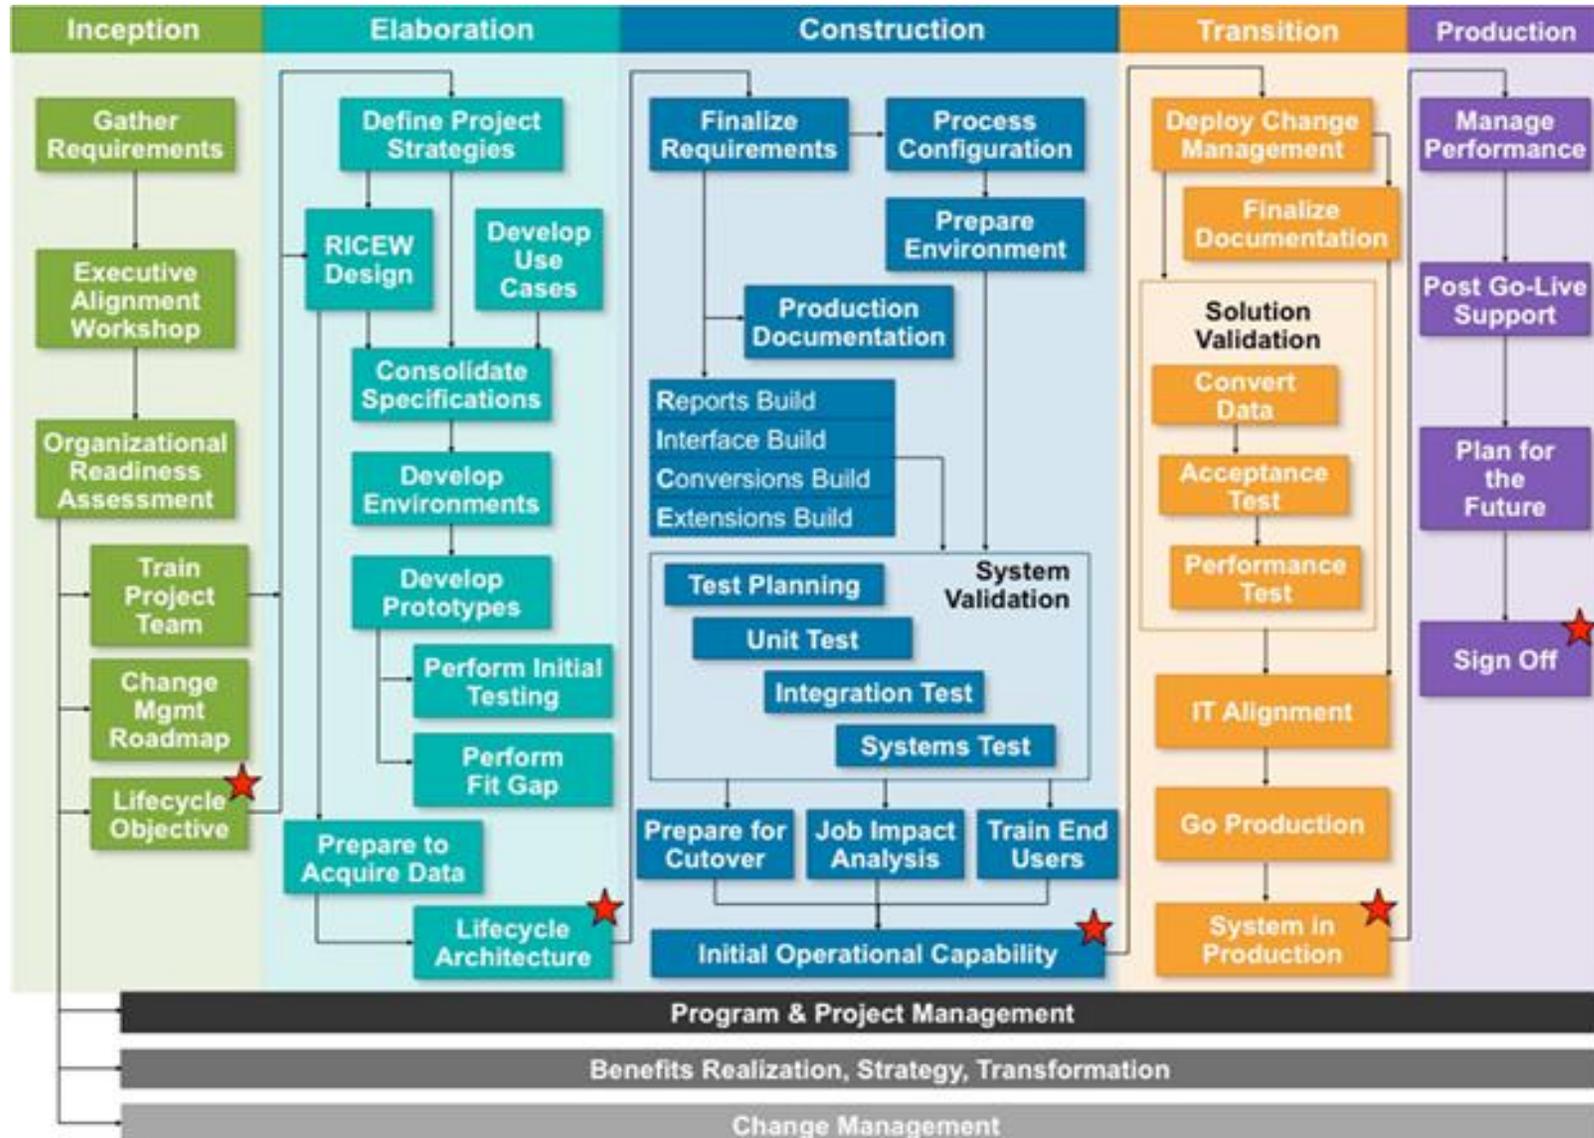

Financial Analytics

- Core financials replace aging JDE financial systems
- Multiple legacy systems can be retired without needing temporary interfaces
- Establishes foundation for cost savings in inventory management
- Unified Chart of Accounts design will involve all stakeholders
- HR functionality to support workflow, approvals and position control
- Ability to perform ad-hoc reporting requests
- Global process design template with organization-specific configuration
- New integrated capabilities in areas such as requisitioning, inventory, projects and grants
