**EXTENDING COOK COUNTY’S PROCLAMATION OF DISASTER FOR COOK COUNTY,
ILLINOIS THROUGH DECEMBER 31, 2020**

WHEREAS, COVID-19 is a novel severe acute respiratory illness that can spread among people through respiratory transmissions and present with symptoms similar to those of influenza; and

WHEREAS, the United States Secretary of Health and Human Services declared that COVID-19 presents a public health emergency on January 27, 2020, and the World Health Organization declared COVID-19 a Public Health Emergency of International Concern on January 30, 2020; and

WHEREAS, certain populations are at higher risk of experiencing more severe illness as a result of COVID-19, including older adults and people who have serious chronic medical conditions such as heart disease, diabetes, or lung disease; and

WHEREAS, the Cook County Department of Public Health and the Cook County Department of Emergency Management and Regional Security continue to work closely with the Centers for Disease Control and Prevention (CDC) as well as the State and local public health agencies as we closely monitor and work to prevent the spread of COVID-19; and

WHEREAS, Cook County is continuing its efforts to prepare for any eventuality given that this is a novel illness with known health risks it poses for the elderly and those with serious chronic medical conditions; and

WHEREAS, on March 9, 2020, Illinois Governor JB Pritzker issued a disaster proclamation giving the state access to state money and possibly federal reimbursement for the costs of fighting the potentially deadly illness; and

WHEREAS, County Board President Toni Preckwinkle joined Governor JB Pritzker on March 9, 2020 along with representatives from the city of Chicago and DuPage County to announce that Cook County is joining the state and city to issue emergency proclamations in response to COVID-19 which will permit Cook County to access federal funds as well as other resources, and enhance our ability to respond to this virus; and

WHEREAS, based on the foregoing, on March 10, 2020, County Board President Toni Preckwinkle found that the circumstances surrounding COVID-19 constitute a public health emergency under the Illinois Emergency Management Agency Act and a disaster under the Cook County Code of Ordinances Sec. 26-36 and issued a proclamation of disaster for Cook County activating Cook County's emergency operations plan; and

WHEREAS, on March 16, 2020, the Cook County Board of Commissioners passed Resolution 20-2195 which extended the County's disaster proclamation through May 31, 2020; and

WHEREAS, on May 21, 2020, the Cook County Board of Commissioners passed Resolution 20-2472 which extended the County's disaster proclamation through September 30, 2020; and

WHEREAS, extending the proclamation of disaster through December 31, 2020 will assist Cook County, by and through its Department of Emergency Management and Regional Security, to continue to coordinate county, public health and municipal resources and response activities, in an effort to prevent and reduce further damage and hazards, protect the health and safety of persons, protect property and provide emergency assistance pursuant to Illinois law; and

WHEREAS, extending the proclamation of disaster through December 31, 2020 will also assist Cook County, by and through its Bureau of Finance to continue to coordinate and distribute the County's CARES Act funds in an effort to reimburse costs, prevent and reduce further damage and hazards, protect the health and safety of persons, protect property and provide emergency assistance pursuant to Illinois law; and

WHEREAS, it is the policy of Cook County to be prepared to address any disasters and, therefore, it is necessary and appropriate to make additional Cook County resources available in accordance with Sec. 26-39 of the Cook County Code of Ordinances for the near future to ensure that the effects of COVID-19 are mitigated and minimized and that residents and visitors in Cook County remain safe and secure.

NOW, THEREFORE, BE IT RESOLVED, pursuant to the Cook County Code of Ordinances, Sections 26-36 and the Illinois Emergency Management Agency Act, 20 ILCS 3305/11, the President and the Cook County Board of Commissioners authorize the March 10, 2020 Proclamation of Disaster issued by President Preckwinkle that was previously extended through May 31, 2020 and then again through September 30, 2020 to be further extended through December 31, 2020; and

BE IT FURTHER RESOLVED, that extending the proclamation will enhance the County’s ability to access the resources, equipment and personnel needed to address ongoing and changing circumstances on the ground which is particularly necessary should the number of COVID-19 cases rise and the demands on County staff and partners continue to increase; and

BE IT FURTHER RESOLVED, a copy of this Resolution extending Cook County’s Proclamation of Disaster through December 31, 2020 shall be filed with the Clerk of Cook County, Illinois.

Summary: In 2007, the Cook County Board of Commissioners through enactment of a Cook County Ordinance created the first Office of Independent Inspector General for Cook County. Following the enactment of the Ordinance, the Cook County Bar Association and the Chicago Bar Association agreed to convene a nominating committee tasked with the responsibility to recommend qualified candidates.

Thereafter, secondary interviews of the recommended candidates were conducted by a bipartisan selection committee that was comprised of four Cook County Commissioners, the Director of Ethics and the Cook County State's Attorney. Upon completion of this process, the current Independent Inspector General, Patrick M. Blanchard was nominated for appointment and in October of 2008, Mr. Blanchard was appointed Cook County's first Independent Inspector General. Mr. Blanchard was thereafter appointed to a second six-year term and Mr. Blanchard's appointment expires on 10/14/2020.

In accordance with Section 2-282 of the Cook County Code of Ordinances, authorization is hereby requested to reappoint Patrick M. Blanchard to an additional two-year term and restart the appointment process for a new Independent Inspector General. 1. Developing alternative budget scenarios, stress test major revenues, maintain internal consistency across modeling efforts, and increase transparency by communicating results with all relevant stakeholders, including the public.
2. For major, existing sources of non-property tax revenues, incorporating the most recent data from national, state, and local sources when preparing short-term forecasts, where possible.
3. For new revenue sources, continuing to explore options that take advantage of what other jurisdiction have experienced; how local regulatory constraints might affect the County; and/or what national data and trends, appropriately scaled, suggest for County-level values.

4. For longer-term forecasts, continue model development and potentially add forecasts based on Gross Metropolitan Product and Gross Domestic Product into the menu of Long-Term Financial Plan methodologies.

The attached report provides recommendations, detailed analysis and methodological improvements to our work.

Report Title: Cook County Solar Schools Grant Program Board Report

Report Period: 5/21/2020 - 9/30/2020

Summary: As required by Resolution Number 20-2567 Establishing the Cook County K-12 Solar Schools Initiative that was approved by the Board on 5/21/2020, the following is the annual report for Cook County Solar Schools Grant program.

Program Information

The Cook County Solar Schools Grant program officially launched on 8/3/2020. The Cook County Solar Schools Grant provides supplemental funding to grantees of the Illinois Clean Energy Community Foundation's (ICECF) K-12 Solar Schools Program, a program that supports the installation of 1kW photovoltaic (PV) systems throughout Illinois institutions serving grades K-12. To receive supplemental funding through the Cook County Solar Schools program, applicants must serve the K-12 population in Cook County, Illinois; be a recognized public school by the IL State Board of Education (ISBE); and be a grantee of the IL Clean Energy Foundation's K-12 Solar Schools Program. Preference is given to Title-1 school-wide funded and Title-1 school-wide eligible schools, in which children from low-income families make up at least 40% of the enrollment.

The Cook County Solar Schools program will award up to \$4,999 per school including:

- Up to 10% of the remaining costs of the 1kw PV system, not covered by ICECF, including supplies, installation and labor, not to exceed \$2,000
- An award of up to \$1,500 to the school for the purposes of setting up an operations and maintenance fund for the PV system to ensure its long-term operation for the school community
- Up to \$1,500 towards the costs of the Solarbration and educational resources related to renewable energy, and/or signage for the installation.

Program Promotion

DES advertised this program between the program launch and the application deadline. The following methods were used for promotion:

- Sent out emails to DES's newsletter list
- Sent out an email to a list of Chicago Public School administrators and a list of Suburban Cook public school administrators
- Communicated with the ISBE's Regional Offices in Cook County who shared the information in the following manner:
 - o North Cook sent to their principals and shared at a Curriculum and Instruction Networking meeting
 - o West Cook sent to their superintendents, principals and curriculum directors
 - o South Cook sent it out via their normal communication with their schools
- Held a webinar on August 11th with the Illinois Clean Energy Community Foundation to discuss program details with 29 registrants
- Notified Commissioners and asked to share with their communities
- Listed as a resource link on the ICECF's K-12 Solar Schools grant website
- Posted relevant information to DES's social media

Completed Applications Status

The original application deadline was August 27, 2020, but it was then extended to September 4, 2020 to match ICECF's grant application deadline extension. DES received 3 applications for the Cook County Solar Schools Grant this cycle to date.

Solar Installation Repair Funds

Additionally, the Cook County Solar Schools Grant program can address necessary repairs of ICECF grantee schools' solar installations that are no longer working as they should. ICECF has alerted DES that there are 10 schools in Cook County that fall into this category and that in total the repairs would cost between \$8-10,000. DES is working with ICECF to determine what is the best process to work with these schools to get these repairs made so that the solar panels are again functional and can be used as a learning instrument.

Upcoming Program Schedule

The program schedule moving forward is as such:

November: ICECF finalizes awards. Schools have 30 days to sign agreements. ICECF lets County know which schools were accepted.

December: DES reviews eligible Cook County Solar Schools grant applications and accepts schools into grant program.

Nov - Nov: Schools have one year to install PV installation and host the Solarbration.

When schools have proof of installation, curriculum in use, photos, system online, etc., that is acceptable to ICECF, ICECF pays, and schools can submit appropriate documentation to Cook County for payment.

As not all funds were allocated this grant cycle-November: DES starts another round of outreach, for the ICECF's next (February) bi-annual award cycle.

Reappropriation of Funds

DES is recommending re-appropriating the full amount of the original \$120,000 in funds in the Department's FY2021 budget request made to the Department of Budget and Management Services, since the funds will not be spent during FY2020.

A motion was made by Commissioner Sims, seconded by Commissioner Arroyo, that the Report be received and filed. The vote of yeas and nays being as follows:

The Contract was originally procured in 2012, via RFP, and DTN built a customized weather forecasting system for Cook County, with continued developmental input from EMRS. EMRS Weather is a 24/7 application that provides severe weather notifications, alerts and in-depth forecasts to EMRS and other Cook County agencies and municipalities. Weather conditions impact our ability to safely and effectively respond to emergency incidents. This system is considered one of the most sophisticated weather systems. It enhances EMRS capabilities and provides our partners with a critical tool they can use 24/7. By renewing the 2, 1-year renewals simultaneously it will provide a cost savings of \$11,382.00. This is a

Sole Source procurement pursuant to Section 34-139 of the Cook County Procurement Code.

Summary: City of Harvey (City) residents and businesses experienced severe damage and extended power outages from the derecho storm system that swept across the northern half of the State of Illinois

on August 10, 2020. In response to this incident, EMRS, IEMA, City and the District collaborated to establish the MARC. This two-day event at Thornton Township High School was organized in direct response to a formal request from the City and was driven by a concern that City residents could not access necessary governmental services during the prolonged period of power outage (upwards of 7 days). Ultimately, the MARC was designed to provide residents access to State and local governmental entities, agencies and organizations to assist the affected residents and businesses in and around the City. To ensure the safety of the participating agency representatives, volunteers and the public, EMRS partnered with the Cook County Department of Public Health to incorporate public health safety protocols and guidelines in planning for and implementing the MARC.

The Intergovernmental Agreement presented for ratification was entered into on 8/23/2020 between EMRS, IEMA, the City and the District and served to secure the location for the MARC. Due to the urgency of the situation - namely ongoing storm response/recovery efforts and a desire to connect residents with governmental services during the early stages of recovery following the August storms - the County had to enter into the agreement before Board approval. The IGA describes each party's responsibilities and associated terms and conditions regarding the establishment of the MARC.

The MARC ultimately provided in-person services to 331 people with contacts made to additional residents who were advised of the services being provided and could, ultimately, access them remotely. The services offered were provided by 10 agencies totaling 80 service hours. The participating agencies were the Illinois Attorney General, Illinois Department of Aging, Illinois Department of Commerce and Community Development, Illinois Department of Insurance, Illinois Department of Human Services, Illinois Department of Veteran Affairs, Cook County Bureau of Economic Development, Cook County Treasurer and Thornton Township. In addition to the agency participation, 46 volunteers staffed the event, 18 of which were Community Emergency Response Team volunteers. The Community and Economic Development Association of Cook County (CEDA) also participated by performing Census outreach.

A motion was made by Commissioner Sims, seconded by Commissioner Arroyo, that the Intergovernmental Agreement be approved. The vote of yeas and nays being as follows:

Summary: Ameresco, Inc. will provide energy consultant, procurement, bill payment and data management services for the procurement of and budgeting for electricity, natural gas, and renewable energy for Cook County facilities. Due to deregulated energy markets, the County can seek energy supply from multiple sources, which may result in operational savings. Due to the complexity and number of County accounts, it is in the best interest of the County to use a subject matter expert to assist the County.

Ameresco's fee for the services provided is assessed as a percentage of the amount of energy procured for the County. In addition, the data management and bill consolidation/validation process are flat annual fees per account as outlined in the Request for Proposals (RFP). Together, these costs will not exceed \$150,000 annually.

This contract is awarded through a publicly advertised Request for Proposals (RFP) in accordance with the Cook County Procurement Code. Ameresco, Inc. is awarded this contract based on established evaluation criteria.

With approval of the agreement herein, it is respectfully requested that the Bureau Chief of Asset Management, or designee, be authorized to execute, on behalf of the County of Cook, all documents necessary to implement and administer the electricity and natural gas service agreement.

PROPOSED INTERGOVERNMENTAL AGREEMENT

Department: Bureau of Asset Management

Other Part(ies): City of Oak Forest, Illinois

Request: Authorization to enter into and execute the Intergovernmental Agreement (IGA) to construct a 12" water main to supply domestic water to the Oak Forest ~~Hospital~~ Campus from the City of Oak Forest and thereafter secure water for the Oak Forest ~~Hospital~~ Campus from the City of Oak Forest.

Goods or Services: N/A

Agreement Number(s): N/A

Agreement Period: From date of execution through 11/30/2025

Fiscal Impact: In FY2020 and FY2021, capital expense of \$1,000,000 for construction of the new line. Operating expense decrease of \$200,000 - \$300,000 fully beginning in FY2022.

Accounts: Capital Budget

Summary: Oak Forest ~~Hospital~~ currently receives its water from the City of Chicago. This was initially approved by the County Board in 1935 and large sections of the original pipe still exist from the initial installation. The current supply line is nearly 10 miles long, and runs under canals, state owned roads, and through forest preserves before arriving on the campus. Analyses indicate that a large volume of water is being lost due to leakage along the 10 miles of pipe.

IDOT will soon be beginning a road improvement process along Ashland Avenue from 138th Street to Sibley. The current line runs under this section of Ashland Avenue and needs to be relocated. After a cost analysis, including replacement and repairs and the low occupancy of the hospital campus, it was determined that it would be beneficial to find a new water source. This change is expected to save the County \$200,000 - \$300,000 annually.

To Account(s): 11100.1200.12355.540350

Total Amount of Transfer: \$415,000.00

On what date did it become apparent that the receiving account would require an infusion of funds in order to meet current obligations? What was the balance in the account on that date, and what was the balance 30 days prior to that date?

It became apparent on 8/8 that the Property Maintenance account would need an infusion of funds. The balance was \$73,951.00. The balance on 9/2 is negative 470.00.

How was the account used for the source of transferred funds identified? List any other accounts that were also considered (but not used) as the source of the transferred funds.

The accounts are being used because of a surplus due to the use of Covid funds for purchases normally taken from these accounts.

Identify any projects, purchases, programs, contracts, or other obligations that will be deferred, delayed, or canceled as a result of the reduction in available spending authority that will result in the account that funds are transferred from.

There will be no projects that are impacted with the transfer. if this transfer is not completed DFM will not be able to pay encumbrances for maintenance contracts that are in place.

If the answer to the above question is “none” then please explain why this account was originally budgeted in a manner that caused an unobligated surplus to develop at this point in the fiscal year.

The transfer is needed to replenish this account due to the funds spent on COVID expenditures that has left the account unable to support the payments of annual contracts currently in place.

PROPOSED PAYMENT APPROVAL

Fiscal Impact: \$75,600.00

Accounts: 11000.1040.15050.531690.00000.00000

Contract Number(s): 1925-17801

Summary: Request for payment only of year two (2) on a fully executed contract with Trepp, LLC. At this time, the CCAO is not able to create a purchase order release in order to complete the payment due to the contract reaching and exceeding its total current contract authority. The total contract authority was exceeded due to the Board of Review having created purchase order releases against the contract. The amendment to officially include the BOR on the contract is currently being assessed and worked through with the OCPO.

In the interim, our invoice for year two (2) must be paid in order to avoid service interruption on extremely crucial data needed by our valuations team. Trepp, LLC provides invaluable data on capital markets, commercial mortgage-backed securities, and commercial real estate. With the complex valuations challenges presented by COVID-19, our office must be armed with the highest quality, most up-to-date information on the impacts of the pandemic on real estate.

A motion was made by Commissioner Johnson, seconded by Commissioner Suffredin, that the Payment Approval be approved. The vote of yeas and nays being as follows:

These proposed reports are outside of the scope of work of the executed contract, but will be crucial in assisting the CCAO in developing market data analysis to assist with our 2020 valuation process.

The work will help CCAO understand the COVID impact on valuations and will assist in our initiative to address the issue across all of Cook County. The CCAO will also begin to actively work with Trepp and the OCPO to include these invaluable reports in the scope of work once we begin the process to amend our current contract with Trepp later on the year.

Summary: This increase and renewal option will allow the Office of the Chief Judge to continue to receive Suburban Municipal Districts Drug Court Services. The Circuit Court proposes to renew the current contract with TASC, Inc. (Treatment Alternatives for Safe Communities) to deliver intensive case management and treatment referral services to the Circuit Court Suburban District Drug Court Service Enhancement Program Grant (DCSEP). The Department of Health and Human Services Substance Abuse

and Mental Health Services Administration grant award specifically approved TASC for this purpose. TASC has unique qualifications and an understanding of the enhancement program goals and objectives.

Over the years, TASC has served as a member of many of the Court's Problem-Solving Court teams, conducting care management services, and is therefore familiar with program requirements and service goals, including documentation review, court process review, and systems integration issues. Due to TASC's longstanding role in Illinois' Problem-Solving Court programs, particularly its clinical expertise as well as its collaboration with a statewide network of community-based service partners, the organization is well versed in responding to defined needs of clients, family members, and court partners, as well as adapting to very specific needs based on presenting health, safety, or administrative issues. Specific to DCSEP, TASC has been involved through all phases of planning, launch and implementation and thus can ensure service delivery and processes are upheld to the highest standards.

This is a Sole Source Procurement pursuant to Section 34-139 of the Cook County Procurement Code.

PROPOSED TRANSFER OF FUNDS

Department: County Clerk

Request: Transfer of Funds

Reason: For the purpose of covering postage fees for upcoming election mailings

From Account(s): 11306.111.35165.521005, \$1,000,000.00)

To Account(s): 11306.1110.35165.520260, \$1,000,000.00

Total Amount of Transfer: \$1,000,000.00

On what date did it become apparent that the receiving account would require an infusion of funds in order to meet current obligations? What was the balance in the account on that date, and what was the balance 30 days prior to that date?

It became apparent on 9/14/2020, upon analyzing our mail requirements for the November election. The balance in the account as of as of 9/14/2020, is \$70,584.61 and 8/1/2020 was \$274,009.61.

How was the account used for the source of transferred funds identified? List any other accounts that were also considered (but not used) as the source of the transferred funds.

The account used to transfer funds was identified as having enough funds to accommodate the postal expense with minimal impact to the selected account for future expenditures.

Identify any projects, purchases, programs, contracts, or other obligations that will be deferred, delayed, or canceled as a result of the reduction in available spending authority that will result in the account that funds are transferred from.

None

If the answer to the above question is “none” then please explain why this account was originally budgeted in a manner that caused an unobligated surplus to develop at this point in the fiscal year.

THE HONORABLE TONI PRECKWINKLE,
PRESIDENT OF THE COOK COUNTY BOARD OF COMMISSIONERS**

**AN ORDINANCE GRANTING APPROVAL OF A SPECIAL USE
FOR A FINAL PRELIMINARY PLANNED UNIT DEVELOPMENT
AND A VARIATION LOCATED IN BARRINGTON TOWNSHIP
AS AUTHORIZED BY THE COOK COUNTY ZONING ORDINANCE**

WHEREAS, written application SU 20-02 having been made requesting approval of a Special Use Permit for a Planned Unit Development, pursuant to Section 13.8.4 of the Cook County Zoning Ordinance, to allow for the construction of a single-family residence dwelling within an “Environmentally Sensitive Area” as designated by the Cook County Comprehensive Land Use and Policies Plan. The companion Variance (V 20-05) requests to: (1) increase the height of the principal structure from maximum allowed 35 feet to 48.2 feet and (2) increase height of accessory structure from maximum allowed 15 feet to 25.2 feet in Section 21 of Barrington Township. if granted under the companion Special Use request. The Variance is sought in order to construct a single-family residential dwelling served by a well and septic system, 151 West Penny Road, South Barrington, Illinois; and

WHEREAS, pursuant to notice as required by the Illinois County Code and the Cook County Zoning Ordinance, a virtual public hearing was conducted by the Zoning Board of Appeals on July 22, 2020 to consider the Special Use Permit for a Planned Unit Development and companion variation requests; and the Zoning Board of Appeals having recommended that both requests be granted and approved; and

WHEREAS, on September 2, 2020 the Zoning Board of Appeals met and moved to approve the Special Use and Variation requests and, moved such Special Use and Variation requests to the Cook County Board of Commissioners for final decision.

NOW, THEREFORE, BE IT ORDAINED, by the Board of Commissioners of Cook County, Illinois, pursuant to its home rule powers, as follows:

Section 1: Pursuant to § 13.8.9 of the Cook County Zoning Ordinance and based on the following testimonies, the Board makes the following Findings of Fact as to the Special Use:

A. Establishment, maintenance or operation of the special use will not be detrimental to or endanger public health, safety or general welfare.

Mr. Weszelits and Mr. Zalewski provided testimony that the proposed special use and accompanying structures will not be detrimental to or endanger the public health, safety, or general welfare. The architect, Mr. Weszelits, testified that the design of the proposed structures will have no impact on the general welfare of the public. Additionally, Mr. Zalewski, the project engineer, testified that the proposed structures were specifically 2 located to avoid any adverse effects with the existing wetlands, as well as in the most practical location. The design, location, and use of the proposed structures ensure that the proposed special use will not be detrimental to public health and the general welfare of the community.

B. Establishment, maintenance or operation of the special use will not be injurious to the use and enjoyment of other property in the immediate vicinity for the uses already permitted, nor diminishes and impairs property values within the neighborhood.

Mr. Lorenz testified and provided a written report in support of his opinion that the proposed special use will not be injurious to the use and enjoyment of other properties in the immediate vicinity. He further testified that the property is bordered by the railroad and highway, as well as 5 acre lots to the north and west. He testified that these surroundings make the proposed use well located and non-injurious to the surrounding properties. Due to the location of the structures and isolated nature of the property, the proposed special use will not be injurious to the use of other properties or impair the property values within the neighborhood.

C. Establishment, maintenance or operation of the special use will not impede the normal and orderly development and improvement of surrounding property for permitted uses.

Mr. Lorenz testified that the proposed special use will not impede the normal and orderly development and improvement of the surrounding properties. He testified that the surrounding properties are also residential and agricultural in nature and have had no impact on developing the area in an orderly fashion. The surrounding properties were developed in an orderly fashion for uses similar to the proposed special use. Furthermore, those developments did not impede the orderly development of the other surrounding properties. As such, the proposed special use will not impede the normal and orderly development of surrounding properties.

D. Adequate utilities, access roads, drainage and other necessary facilities have been or are being provided.

Mr. Weszelits and Mr. Zalewski testified that the property provides adequate utilities, access roads, drainage, and other necessary facilities. Both Mr. Weszelits and Mr.

Zalewski testified that no additional roadways or curb cuts are needed as the property will be accessed from the existing entrance in the Tricia Lane cul de sac. Mr. Zalewski further testified that the grading is in conformance with standard practice and the property contains its own septic field to meet the sanitary needs of the property. With no additional roads being added and a sufficient septic system present on the property, adequate utilities, access roads, drainage, and other necessary facilities have been provided.

E. Adequate measures have been, or will be, taken to provide ingress and egress designed to minimize traffic congestion in public streets.

Mr. Weszelits testified that adequate measures were taken to provide ingress and egress to minimize traffic congestion in public streets. Mr. Weszelits and Ms. Zelaya testified that the property is for personal use and will be utilized by Ms. Zelaya and her family. Ms. Zelaya testified that no construction vehicle will travel to and from the property once the project is completed and she has no intention of using the property for commercial use or renting out the property. Mr. Weszelits further testified that that the property will be accessed from the existing roadway on Tricia Lane and no new curb cuts are required. The personal use and limited access to the property demonstrate that adequate measures have been taken to minimize traffic congestion in public streets.

F. Establishment, maintenance or operation of the special use shall in all other respects conform to all Cook County Ordinances, unless otherwise authorized by the Cook County Board of Commissioners pursuant to the recommendation of the Zoning Board of Appeals.

Based on the testimony of Mr. Weszelits, Mr. Zalewski, and Mr. Lorenz, the special use will conform to all Cook County Ordinances as authorized by the Cook County Board of Commissioners pursuant to the recommendation of the Zoning Board of Appeals. Upon authorization by the Cook County Board of Commissioners, pursuant to the recommendation of the Zoning Board of Appeals, the proposed single-family residential building with attached garage and barn storage building will conform to all Cook County Ordinances as authorized by the Cook County Board of Commissioners.

Section 2. Pursuant to § 9.5.10, STANDARDS FOR PLANNED UNIT DEVELOPMENT, of the Cook County Zoning Ordinance, the Board makes the following Findings of Fact as to the Planned Unit Development (PUD):

A. Planned Unit Development (“PUD”) conforms with the planning objectives, policies and maps of the County as specified in the Cook County Comprehensive Land Use and Policies Plan.

Mr. Weszelits, the project architect, testified that the PUD conforms with the planning objectives, policies and maps of the County as specified in the Cook County Comprehensive Land Use and Policies Plan. In light of witness testimony, the surrounding properties, and project plans demonstrate the PUD conforms with the

objectives, policies, and maps of the Cook County Comprehensive Land Use and Policies Plan.

B. PUD is of a type and character and contains uses that are needed in the area.

Mr. Weszelits testified that the PUD is of a type and character and contains uses that are needed in the area. Mr. Weszelits testified that the area surrounding the property is quasi-agricultural in nature. He further testified that the property is over 24 acres and the project will provide a single-family residence and storage building that are appropriate for the area in addition to providing a significant amount of open space. Ms. Zelaya also testified that she purchased the property in order to prevent a dense subdivision from being built in the area. The proposed design and use of the property are consistent with the character and uses that are needed in the area.

C. PUD is designed and laid out to preserve environmentally sensitive areas, natural resources, habitat and topographic features to the fullest extent possible.

Mr. Weszelits and Mr. Zalewski testified that the PUD is designed and laid out to preserve environmentally sensitive areas, natural resources, habitat, and topographic features to the fullest extent possible. Both Mr. Weszelits and Mr. Zalewski testified that the proposed structures have been specifically located on the property so as to not encroach on the existing wetlands and keep any disturbance to a minimum. The project design and consideration of the surrounding area demonstrate the PUD is designed and laid out to preserve environmentally sensitive areas, natural resources, habitat, and topographic features to the fullest extent possible.

D. PUD is designed in conformity with the provisions of the Cook County Subdivision Manual or any successor subdivision document.

Under the witness testimony of Ms. Zelaya, Mr. Weszelits, Mr. Zalewski, and Mr. Lorenz, the existing property will be used to develop a single-family residential building with attached garage and a barn storage building for a personal hobby farm. As the large parcel will be utilized for one single family home and accessory building, the PUD is designed in conformity with the provisions of the Cook County Subdivision Manual.

E. PUD is designed to provide horizontal spacing between buildings which takes into consideration the purpose and objectives of this article.

Mr. Weszelits testified that the PUD is designed to provide horizontal spacing between the buildings. Mr. Weszelits testified consistent with the project plans that the project calls for the construction of two farmhouse style buildings on a 24-acre lot. The amount of space between the two structures and the site of the property demonstrate that the PUD is designed to provide horizontal spacing between buildings in consideration of the purpose and objectives of this article.

F. PUD complies with the industrial performance standards enumerated in Article 6 of this ordinance if the PUD contains industrial uses.

Per the witness testimony, the PUD is for personal use as a hobby farm for the owners and does not contain industrial uses. As such, it is not in violation of the performance standards enumerated in Article 6 of the Zoning Ordinance.

G. PUD complies with the parking requirements enumerated in Article 11 of this ordinance.

Mr. Weszelits testified that the PUD complies with the parking requirements in Article 11 of the Zoning Ordinance. He testified that the property provides adequate parking in the garage of the residential building and will be accessed by a new driveway. In light of the proposed use, the garage and driveway demonstrate the PUD complies with the parking requirements of the Zoning Ordinance.

H. PUD provides appropriate yards, setbacks and buffers between the PUD and adjacent zoning lots.

Mr. Weszelits testified that the PUD provides appropriate yards, setbacks, and buffers between the PUD and adjacent zoning lots. Consistent with the project plans, Mr. Weszelits testified that the structures have been specifically placed well away from the property line to ensure sufficient space between properties. With only two structures located in the middle of a 24-acre lot, the PUD provides appropriate yards, setbacks, and buffers between the PUD and adjacent zoning lots.

I. PUD has adequate utilities, access roads, drainage and other necessary facilities.

Mr. Zalewski testified that the PUD is designed to have adequate utilities, access roads, drainage, and other necessary facilities. Both Mr. Weszelits and Mr. Zalewski testified that no additional roadways or curb cuts are needed and the property will be accessed from the existing entrance on Tricia Lane. Additionally, Mr. Zalewski testified that the grading is in conformance with standard practice and the property contains its own septic field. With no additional roads being added and the property being primarily self-sufficient, adequate utilities, access roads, drainage, and other necessary facilities have been provided.

J. PUD has ingress and egress designed to minimize traffic congestion in public streets.

Mr. Weszelits testified that ingress and egress was designed to minimize traffic congestion in public streets. Mr. Weszelits and Ms. Zelaya testified that the property is for personal use and will only be accessed by Ms. Zelaya and her family. Ms. Zelaya testified that no construction vehicles will travel to and from the property once the project is completed and she has no intention of using the property for commercial use or renting out the property. Both Mr. Weszelits and Mr. Zalewski testified that that the property will be accessed from the existing roadway on Tricia Lane and no new curb cuts are required. The personal use and limited access to the property demonstrate that ingress and egress have been designed to minimize traffic congestion in public streets.

K. PUD and its maintenance and operation will not be detrimental to or endanger public health, safety or general welfare.

Mr. Weszelits and Mr. Zalewski testified that the PUD and its maintenance will not be detrimental to the health, safety, and general welfare of the public. Mr. Zalewski testified that the proposed structures were specifically located so as to not be detrimental to environmentally sensitive area. He further testified that the PUD will provide more open space than what would be required in a standard subdivision. Mr. Zalewski also testified that the PUD matches the surrounding use. The design and proposed use of the PUD demonstrate that its maintenance and operation will not be detrimental to the public health, safety, or general welfare.

L. PUD and its maintenance and operation will not be injurious to the use and enjoyment of other property in the immediate vicinity for the uses already permitted, nor diminish and impair property values within the surrounding area.

Mr. Weszelits and Mr. Zalewski testified that the proposed structures were specifically located so as to not be detrimental to the existing wetland and surrounding area. Mr. Lorenz testified and provided a written report in support his opinion that the proposed special use will not be injurious to the use and enjoyment of other properties in the immediate vicinity. He testified that the property's surroundings make the proposed use obscured and non-injurious to the surrounding properties. In light of the testimony, the PUD and its maintenance and operation will not be injurious to the use and enjoyment of other property in the immediate vicinity, nor diminish property values within the surrounding area.

M. PUD and its maintenance and operation will not impede the normal and orderly development and improvement of surrounding property.

Mr. Weszelits and Mr. Zalewski testified that the proposed structures were specifically located so as to not be detrimental to the existing wetland and surrounding area. Mr. Lorenz testified that the surrounding properties are also agricultural in nature and have had no impact on developing the area in an orderly fashion. The similar surrounding properties have been able to develop in an orderly fashion and have not impeded the orderly development of other surrounding properties. Per the witness testimony, the PUD and its maintenance and operation will not impede the normal and orderly development of surrounding properties.

N. PUD shall provide more open space than would be required in a standard subdivision.

Mr. Weszelits testified that the PUD will provide more open space than what would be required in a standard subdivision. Mr. Weszelits testified that the project calls for the construction of two farmhouse type buildings on a 24-acre lot. The size of the proposed

buildings relative to the total lot size demonstrates that the PUD will provide more open space than would be required in a standard subdivision.

- O. PUD shall be designed to connect to existing or planned pedestrian and bicycle systems in the vicinity.**

Per witness testimony from Mr. Weszelits and the project plans, the PUD is designed to connect to existing or future pedestrian and bicycle systems in the vicinity.

Section 3. Pursuant to §13.6.3 of the Cook County Zoning Ordinance, the Board makes the following Findings of Fact as to the Variation Standards:

- A. Physical surroundings, shape or topographical condition of the property would result in hardship upon the owner, as distinguished from a mere inconvenience, if the provisions of this ordinance were followed.**

Mr. Weszelits testified that the physical surroundings, shape, and topographical condition of the property will result in a hardship upon the property owner if the provisions of the Zoning Ordinance are strictly followed. Mr. Weszelits testified that the need for the variance is to allow for the tower element of the building which is an architectural element that is not designed to be a livable space and will operate like an outlook. Additionally, Mr. Weszelits testified that the barn storage building has a sloped roof increasing the height measurement from the loft to the roof of the building. If the provisions of the Zoning Ordinance are applied and the requested variations are not granted, the proposed buildings could not be constructed. Per the testimony of Ms. Zelaya and Mr. Weszelits, the inability to construct the proposed structures would result in a hardship upon the owner.

- B. Conditions which are unique to the property exist and are not applicable to other properties within the same zoning classification.**

Mr. Weszelits and Mr. Lorenz testified that there are conditions which are unique to the property but are not applicable to other properties within the same zoning classification. The property is currently zoned as an R-1 Single-Family Residence District. Mr. Weszelits testified that the surrounding properties have much larger homes than the proposed buildings. Mr. Lorenz testified that the environmentally sensitive nature of the property, as well as its triangle layout, make it difficult to develop other types of uses that are available to other properties. These are conditions that are unique to the property and are not applicable to other properties within the R-1 zoning classification.

- C. The variance sought is not based exclusively upon a desire to make the property more profitable.**

Mr. Lorenz testified that the variance sought is not based upon a desire to make the property more profitable. Ms. Zelaya testified that she intends to use the property for personal use as a hobby farm. She expressly testified that she does not intend to use the

property for commercial purposes or rent out the property. In light of the proposed use, the variance sought is not based exclusively upon a desire to make the property more profitable.

D. The hardship or alleged difficulty is caused by this ordinance and not by any person presently having an interest in the property.

Per the witness testimony of Ms. Zelaya and Mr. Weszelits, the hardship is caused by the Zoning Ordinance and not any person having interest in the property.

E. The variance will not be detrimental to the public welfare or injurious to other properties or improvements in the neighborhood.

Mr. Lorenz testified that the variance will not be detrimental to the public welfare or injurious to other properties or improvements in the neighborhood. He testified that the planned development of the property helps protect the surrounding properties. Mr. Weszelits and Mr. Zalewski testified that the structures were specifically located so as to not adversely impact the existing wetlands or surrounding area. Mr. Lorenz testified that the surrounding properties are also agricultural in nature and have had no adverse impact on the neighborhood. He further testified that the property's surroundings make the proposed use obscured and non-injurious to the surrounding properties. Per the witness testimony, the variance will not be detrimental to the public welfare or injurious to other properties in the neighborhood.

F. The variance will not impair an adequate supply of light and air to adjacent properties, substantially increase congestion in the public streets, increase the danger of fire, cause increased flooding risk to adjacent property, endanger public safety or substantially diminish or impair property values within adjacent neighborhoods.

Mr. Weszelits testified that the variance will not impair an adequate supply of light and air to the adjacent properties. He testified that the project calls for the construction of two farmhouse type buildings on a 24-acre lot. He testified that the proposed structures are located as far from the surrounding property lines as possible. Mr. Weszelits further testified that the variance will not increase the congestion in the public streets. Both Mr. Weszelits and Mr. Zalewski testified that that the property will be accessed from the existing roadway on Tricia Lane and no new curb cuts are required. Ms. Zelaya testified that no construction vehicles will travel to and from the property once the project is completed and she has no intention of using the property for commercial use or renting out the property. Mr. Weszelits testified that the variance will not increase the danger of fire on the property. Mr. Weszelits also testified that the variance will not increase flooding risk to adjacent properties. Both Mr. Weszelits and Mr. Zalewski testified that the proposed structures were specifically placed to not adversely impact the existing wetlands and surrounding properties. Mr. Weszelits testified that the variance will not endanger public safety. Finally, Mr. Lorenz, as a licensed appraiser, testified that the variance will not substantially diminish or impair property values within the adjacent

neighborhoods. In light of the extensive witness testimony, the variance will not impair an adequate supply of light and air to adjacent properties, substantially increase congestion in public streets, increase the danger of fire, cause increased flooding risk to adjacent property, endanger public safety or substantially diminish or impair property values within adjacent neighborhoods.

Section 4. Pursuant to the Findings of Fact made and determined by the Zoning Board of Appeals, a Special Use Permit for a Planned Unit Development is granted to allow for the construction of a single-family residence dwelling within an “Environmentally Sensitive Area” as designated by the Cook County Comprehensive Land Use and Policies Plan. The companion Variance (V 20-05) requests to: (1) increase the height of the principal structure from maximum allowed 35 feet to 48.2 feet and (2) increase height of accessory structure from maximum allowed 15 feet to 25.2 feet in Section 21 of Barrington Township, is granted under the companion Special Use request. - a. The President of the Cook County Board of Commissioners ("President") shall request from the Cook County Bar Association and the Chicago Bar Association (the "Bar Associations"), the names of three (3) candidates (the "Candidate List") who are duly qualified and do not possess a personal or business relationship with any county elected official. The Candidate List shall be accompanied by each candidate's resume, qualifications, and a brief statement detailing each individual's credentials for the appointment of Independent Inspector General. The Bar Associations shall submit the Candidate List within 75 days of the President's request for same. The Bar Associations shall provide the Board of Commissioners ("County Board") with progress reports as to the status of the search. Progress reports shall be due on the 30th, 60th, and 75th day subsequent to the President's request. The County Board shall receive and file said progress reports at the meeting of the County Board next succeeding each due date abovementioned. In the event the Bar Associations do not submit the Candidate List within 75 days of the President's request, the County Board may waive the Bar Associations' participation and recommend alternative groups or associations to complete the Candidate List.
- b. The President shall submit the Candidate List to a bipartisan selection committee ("Selection Committee"), which the President appoints and consists of: four Commissioners (two representing the majority party and two representing the minority party of the County Board), the Cook County State's Attorney and the Director of the Cook County Board of Ethics. - c. The County Board shall call a vote for the appointment of the Candidate to the office of Independent Inspector General no later than the second meeting of the County Board following the Selection Committee's selection and submission to the Board. If the Candidate does not receive a majority vote, the nomination shall become null and void and the Selection Committee shall select a new Candidate from the remaining two candidates on the Candidate List. If none of the candidates from the Candidate List receives a majority vote, the Bar Associations

PROPOSED RESOLUTION

A RESOLUTION IN SUPPORT OF THE ILLINOIS NAACP STATE CONFERENCE AND THE ILLINOIS ASSOCIATION OF CHIEFS OF POLICE TEN SHARED PRINCIPLES

WHEREAS, Cook County has seen numerous peaceful protests against police brutality in response to the deaths of George Floyd, Breonna Taylor, Rayshard Brooks, and too many others to name locally and across the country; and

WHEREAS, a 2018 investigation by WBEZ and the Better Government Association found that of 113 shootings involving suburban police departments since 2005, no officers were charged criminally or faced disciplinary action; and

WHEREAS, according to the Chicago Tribune, from 2010 to 2015, Chicago Police Officers shot 262 people, killing 92, and with about four out of every five being African American males; and

WHEREAS, further police reform and training is needed to address the disparities of police conduct in communities of color; and

WHEREAS, in response to historical and consistent incidents of police misuse of force, the Illinois NAACP State Conference and the Illinois Association of Chiefs of Police affirmed the following Ten Shared Principles to guide reforms that eliminate the disproportionate negative impacts of policing on people of color:

1. We value the life of every person and consider life to be the highest value.
2. All persons should be treated with dignity and respect. This is another foundational value.
3. We reject discrimination toward any person that is based on race, ethnicity, religion, color, nationality, immigrant status, sexual orientation, gender, disability, or familial status.
4. We endorse the six pillars in the report of the President's Task Force on 21st Century Policing. The first pillar is to build and rebuild trust through procedural justice, transparency, accountability, and honest recognition of past and present obstacles.
5. We endorse the four pillars of procedural justice, which are fairness, voice (i.e., an opportunity for citizens and police to believe they are heard), transparency, and impartiality.
6. We endorse the values inherent in community policing, which includes community partnerships involving law enforcement, engagement of police officers with residents outside of interaction specific to enforcement of laws, and problem-solving that is collaborative, not one-sided.
7. We believe that developing strong ongoing relationships between law enforcement and communities of color at the leadership level and street level will be the keys to diminishing and eliminating racial tension.

8. We believe that law enforcement and community leaders have a mutual responsibility to encourage all citizens to gain a better understanding and knowledge of the law to assist them in their interactions with law enforcement officers.
9. We support diversity in police departments and in the law enforcement profession. Law enforcement and communities have a mutual responsibility and should work together to make a concerted effort to recruit diverse police departments.
10. We believe de-escalation training should be required to ensure the safety of community members and officers. We endorse using de-escalation tactics to reduce the potential for confrontations that endanger law enforcement officers and community members; and the principle that human life should be taken only as a last resort; and

WHEREAS, the Ten Shared Principles asserts the importance of treating all persons with dignity and respect, and rejects discrimination toward any person on the basis of race, ethnicity, religion, color, nationality, immigrant status, sexual orientation, gender, disability, or familial status: and

WHEREAS, the Ten Shared Principles emphasizes building strong relationships between law enforcement and communities of color through transparency, accountability, and honest recognition of past and present obstacles: and

WHEREAS, the Ten Shared Principles mandates de-escalation training to ensure the safety of both community members and officers, and supports the principle that human life should be taken only as a last resort: and

WHEREAS, the Ten Shared Principles resolves to replace mistrust with mutual trust wherever, whenever, and however possible: and

WHEREAS, this document is meant to work in tandem with existing local and statewide efforts; and

WHEREAS, the Ten Shared Principles is a starting point for improving relationships between police officers and the residents they serve, and creating a space for open dialogue and collaborative problem-solving: and

WHEREAS, nearly 200 police departments and law organization have adopted the Ten Shared Principles since its inception in 2018: and

WHEREAS, the Forest Preserves supports and endorses the ideologies outlined in the Ten Shared Principles for the Forest Preserves of Cook County Police.

NOW, THEREFORE BE IT RESOLVED, the Cook County Board of Commissioners supports and endorses the ideologies outlined in the Ten Shared Principles and will work to implement them throughout the County, including lobbying as necessary to the state legislature; and

BE IT FURTHER RESOLVED that the Cook County Sheriff's Office does hereby support and endorse the ideologies outlined in the Ten Shared Principles; and

BE IT FURTHER RESOLVED, the Cook County Board of Commissioner encourages all police departments to adopt these principles and pledges to support police departments in pursuit of these principles.
