FEMA Update for FY2020 - 2023 Expenditures

Of the \$318,611,656 total FEMA submissions, 94% has been reimbursed as of November 8, 2024.

* Per President Biden's Executive Order issued on 2/3/2021, FEMA reimbursement matches were increased to 100% through 7/1/2022.

** Effective as of 7/2/2022, FEMA reimbursement matches were decreased to a 90/10 federal cost share.

*** Category Z or management costs will be processed only under the DRRA authorities and the Public Assistance Management Costs (Interim) FEMA Recovery Policy FP 104-11-2. These costs will be obligated at 5% of total FEMA awards and funded at 100% Federal Cost Share. \$5.2 million has been substantiated to date.

**** On 10/01/24, FEMA ended its Immediate Needs Funding (INF) guidance after the Continuing Resolution granted access to \$20 billion. FEMA anticipates potentially reimplementing INF by year-end due to funding uncertainties with other ongoing disasters. This could delay obligation of Cook County's remaining submissions.

*****FEMA submissions differ from FEMA spent to date due to closeout adjustments reducing amount spent to date.

* The Justice40 initiative is a Federal Government goal for 40 percent of Federal investments responding to climate change and environmental concerns flow to disadvantaged communities overburdened by pollution. Based on Federal Government data from the [Climate and Economic Justice Screening Tool](#), 41% of Cook County's population lives in Census tracts that fall under the Federal Government's current definition of disadvantaged communities overburdened by pollution. Given the disadvantaged population size in the County, ARPA initiatives are flagged if they address Justice40 concerns around climate change, clean energy, affordable housing, and workforce development.

 Program scope aligns with the Justice40 initiative

* The Justice40 initiative is a Federal Government goal for 40 percent of Federal investments responding to climate change and environmental concerns flow to disadvantaged communities overburdened by pollution. Based on Federal Government data from the [Climate and Economic Justice Screening Tool](#), 41% of Cook County's population lives in Census tracts that fall under the Federal Government's current definition of disadvantaged communities overburdened by pollution. Given the disadvantaged population size in the County, ARPA initiatives are flagged if they address Justice40 concerns around climate change, clean energy, affordable housing, and workforce development.

The FEMA PA closeout process involves collecting and reconciling 100% supporting documentation to validate project expenses once reimbursed.

During the closeout process, expense overruns or underruns may be discovered. Overruns or underruns occur when additional eligible, ineligible, or unsubstantiated costs are found within a project.

Once documentation is collected and expenses are validated, a closeout package is submitted by the County to the State. After its review, the State then submits the package to FEMA for review.

The closeout process ensures federal compliance and protects Cook County from a claw back of funds at program closeout or during any subsequent Department of Homeland Security OIG audit.

Once all projects have been reviewed and closed out, a closeout payment transaction will be provided, and the FEMA PA program will be closed out. In the closeout payment, FEMA will reimburse the County for the net balance of its overruns and underruns, in addition to administrative costs.
