BRIDGET DEGNEN
COOK COUNTY COMMISSIONER
12TH DISTRICT

January 5, 2024

Honorable President Toni Preckwinkle and Cook County Board of Commissioners:

In April 2019, the Environmental Commission was established by the Cook County Board via an ordinance I sponsored. The Environmental Commission is comprised of nine (9) members and its purpose is to identify and execute initiatives that reduce environmental damage within Cook County. The enabling Ordinance requires an annual report be completed and filed with the Board every January outlining the Commission's goals and accomplishments. During its February 10, 2020 meeting, the Commission voted on its first three goals: 1) to establish industrial composting in large arenas and government facilities; 2) to increase the urban tree canopy throughout Cook County; and 3) to amend the City of Chicago's weed ordinance to allow for native gardens. In 2021, the Commission advocated for an amendment to the City of Chicago Streets and Sanitation code to allow for native gardens without homeowners risking fines and fees. This resulted in the establishment of a Native Garden Registry. The Commission decided to focus on its two remaining goals. Below are a few highlights of the Commission's accomplishments in 2023:

- I. In April 2023, the Environmental Commission met with Raed Mansour, Director of Environmental Innovation at the Chicago Department of Public Health, regarding tree planting and tree equity in the City of Chicago. His presentation is attached as Exhibit A.
- II. In August 2023, the Environmental Commission met with Liam Donnelly, founder of WasteNot Compost. Mr. Donnelly gave a presentation on composting and announced that WasteNot and the County are partnering for a new pilot program. This partnership will bring composting to certain departments at 69 W. Washington, outlined in a-f below. WasteNot's presentation is attached as Exhibit B.
 - a. 31st floor County Bureau of Asset Management,
 - b. 23rd Floor County Department of Transportation and Highways,
 - c. 22nd Floor Building Breakroom,
 - d. 19th Floor County Department of Environment and Sustainability,
 - e. 10th Floor County Family and Mediation Services, and

- f. Pedway LL-01 Bright Horizons Prep Kitchen
- III. In August of 2023, the Commission confirmed substantial completion of the goals, and chose to move ahead with additional goals while continuing to support past objectives of the Commission. Ideas were discussed during the December 2023 meeting and will be voted on at the February 2024 meeting.
- IV. In October of 2023, the Cook County Facilities Management team and the Environmental Commission partnered with the Morton Arboretum for the planting of 20 mature oak trees at the Skokie Courthouse.

In 2023, Chelsey Grassfield, our non-for-profit member from Friends of the Chicago River, moved out of State, leaving a vacancy on the Commission. Applications for the positions are being distributed, and I encourage my colleagues to send them out to interested members of their communities. Thank you to the Board of Commissioners for supporting the work of this Commission.

Yours,

A handwritten signature in cursive script that reads "Bridget M. Degnen".

Bridget Degnen

Chair, Cook County Environmental Commission

COOK COUNTY ENVIRONMENTAL COMMISSION 2021– 2023, AND 2023–2025 MEMBERS

Commissioner Bridget Degnen – Chair, County Representative

- Commissioner of the 12th District

Commissioner Dennis Deer – Vice Chair, appointed by Cook County Board President

- Commissioner of the 2nd District

Appointees

Alderman Samantha Nugent– City of Chicago Representative/Mayoral Appointee (appointed 2023)

- Chicago Alderman of the 39th Ward

VACANT – Non-Profit Representative

- Currently accepting applications

Margaret Schneemann – Environmental Economist Representative

- Water Resource Economist at the University of Illinois Extension Sea Grant College Program

Mark Potosnak, PhD – Higher Education Representative

- Professor and Chair of Environmental Science and Studies at DePaul University

Robert Mead – Corporate Representative

- Environmental Manager at Ingredion Incorporated

Michael Badame – North Triad Representative

- Facilities Operations Specialists at the Chicago Department of Aviation

Victoria Wilson -- South Triad Representative

- Environmental Specialist & Sustainability Consultant and Executive Director of Naturally Urban Environmental

COOK COUNTY ENVIRONMENTAL COMMISSION ORDINANCE

Sec. 2-540. - Short title.

This Division shall be known and may be cited as the Cook County Environmental Commission (Commission).

Sec. 2-551. - Purpose.

There is hereby created an Environmental Commission to serve the following purpose:

- (a) Ensure Cook County is a leader in combating global warming.
- (b) Create a working group of environmental professionals from Cook County's public and private sectors working together to devise and implement initiatives to combat global warming.
- (c) Promote sustainable legislation and policy aimed at reducing the carbon footprint within the geographic borders of Cook County.
- (d) Serve as a model for other governments by proactively combatting climate change with innovative and practical environmental initiatives.

Sec. 2-542. - Cook County Commission on Environmental Sustainability Membership.

- (a) The Commission will be composed of nine members including the original sponsor of this bill, who shall serve as Chair. The Chair shall be responsible for designating a successor if she ceases to serve as a Commissioner.
- (b) Six members shall be appointed by the Chair. These members shall represent the following:
 - (1) One member of the Commission shall be a representative from the north triad of Cook County.
 - (2) One member of the Commission shall be a representative from the south triad of Cook County.
 - (3) One member of the Commission shall be a representative from a not-for-profit.
 - (4) One member of the Commission shall be a corporate stakeholder with experience working on environmental initiatives.
 - (5) One member of the Commission shall be a representative from higher education or academia.
 - (6) One member of the Commission shall have a background in environmental economics.
- (c) The President of the Cook County Board of Commissioners shall appoint one member of the Commission. This person shall serve as the Vice Chair of the Commission.
- (d) The Mayor's Office of the City of Chicago shall appoint one member of the Commission.

(e) All appointments shall be confirmed by the Cook County Board.

Sec. 2-543. - Term and vacancies.

(a) Each member shall serve two-year terms.

(b) The Chair shall serve for the duration of her term as a Cook County Commissioner. The Chair may serve consecutive terms.

(c) Commission members may be reappointed for consecutive terms.

(d) Vacancies on the Commission shall be filled in the same manner that original appointments were made and shall be filled for the unexpired term of the member whose appointment has become vacant.

Sec. 2-544. - Qualifications of members.

(a) All members shall have like-minded goals stated in the Purpose section of this Division.

(b) All members shall have subject matter knowledge, experience and/or education in environmental sustainability matters.

Sec. 2-545. - Meetings.

(a) This Commission shall hold a meeting at least once every even numbered month, and meetings shall commence the second even numbered month following creation of the Commission.

(b) Meeting dates shall be set for the following year, in December of the preceding year.

(c) Should a member of the Commission miss three consecutive meetings, the Commission may choose to remove the member, and the original appointing member shall appoint a new member pursuant to subsection 30-976(c).

(d) This Commission shall be subject to the Open Meetings Act, 5 ILCS 120/1 et seq, and the Freedom of Information Act, 5 ILCS 140/1 et seq.

Sec. 2-546. - Powers, duties, and responsibilities.

(a) The Commission shall serve as a working Commission and in an advisory role to the Cook County Board on matters relating to environmental sustainability, reduction of greenhouse gases and reduction of environmental impacts in Cook County. The Commission shall be responsible for:

(1) Considering environmental impacts on surface water, groundwater, air and land in Cook County and making appropriate recommendations to the Cook County Board, local municipalities and the Chicago City Council to mitigate harmful impacts and promote positive change;

(2) Creating an annual work plan in furtherance of the Commission's goals and solicit input from stakeholders via its members.

- (3) Beginning in January 2020, creating an annual report and presenting it to the Cook County Board via the Environment and Sustainability Committee; and
- (4) Collaborating in regional environmental associations and with other local environmental stakeholders.

Sec. 2-547. - Division scheduled to be repealed on November 30, ~~2022~~ 2026.

- (a) *Repeal of division.* This Division is repealed on November 30, ~~2022~~ 2026.

EXHIBIT A**

Our Roots Chicago

★ Tree Equity

Equitably increase the City's public urban tree canopy

Deliver the public health, environmental, economic, societal and climate co-benefits

Prioritize historically marginalized, disinvested, and under-canopied communities on the South and West sides.

Why Trees & Public Health

CDPH's citywide community health improvement plan, **Healthy Chicago 2025**, to close the 9-year life expectancy gap between black and white Chicagoans by addressing the root causes of health.

All communities should have equitable access to environments that promote optimal health and well-being.

To further the health of neighborhoods, the City of Chicago has adopted a “**health in all policies**” approach to make sure that the government works with communities to shape our social, economic, and physical environments in ways that promote health and racial equity.

Urban Forestry aligns with improving neighborhood environments and is one way to address this vision.

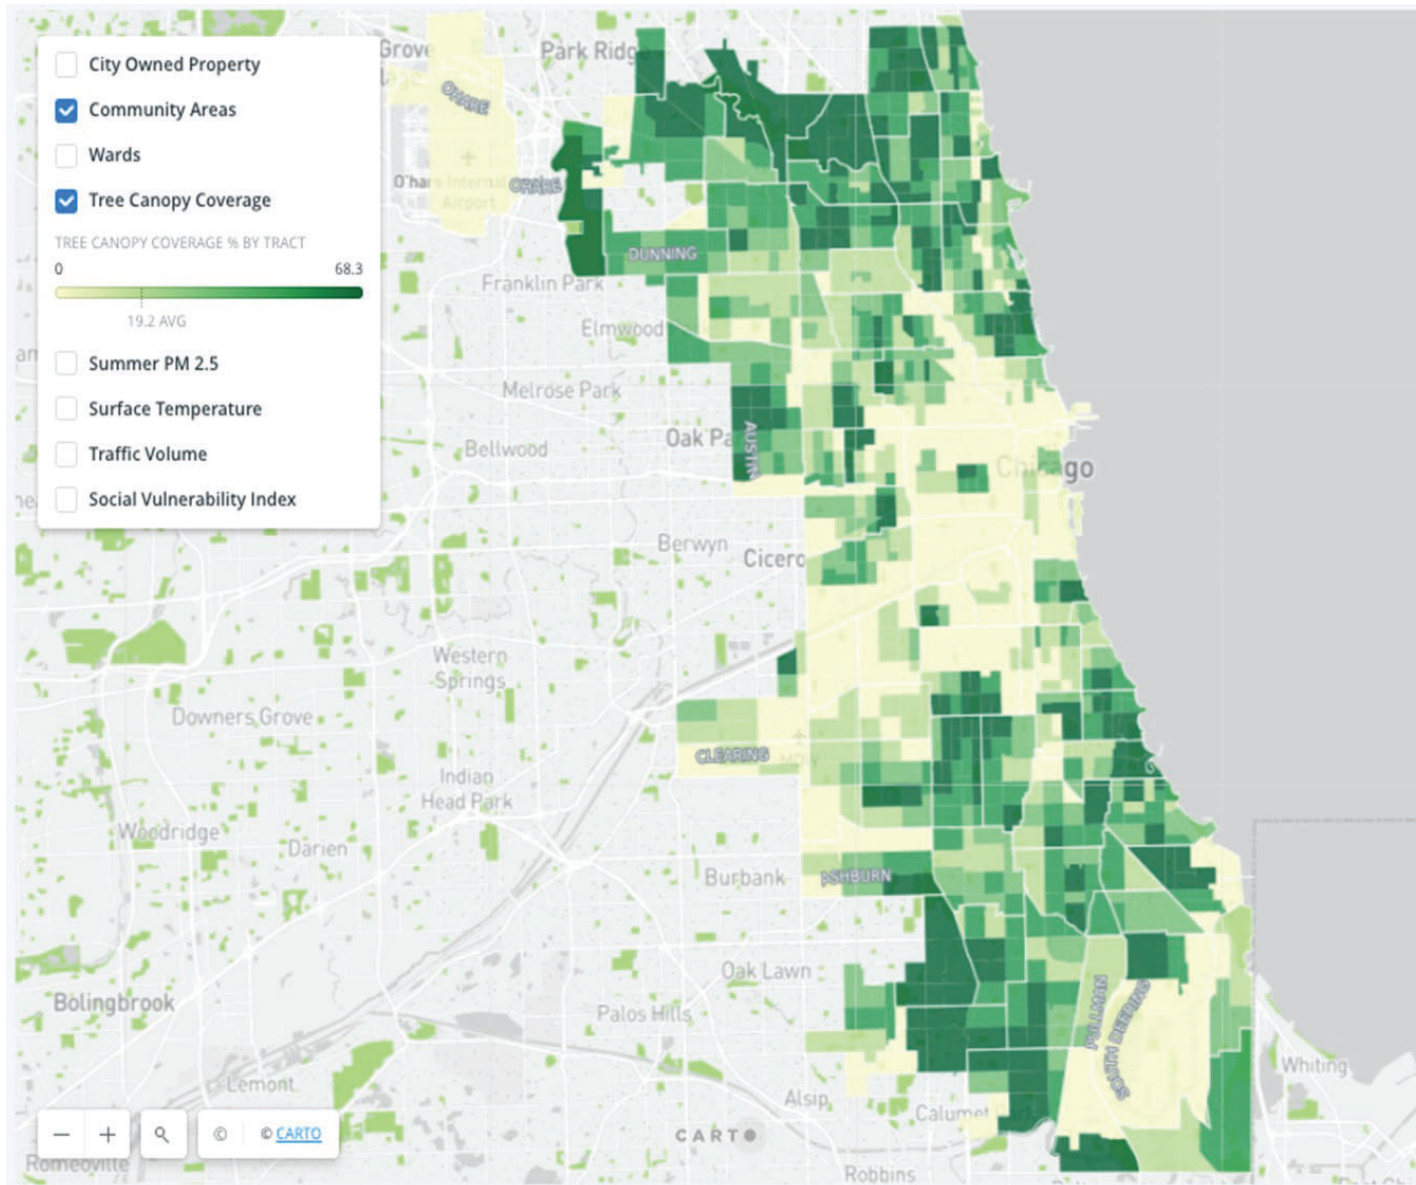

The intersection between public health equity & tree equity meet at the correlation between redlined areas, PM2.5, Asthma, Social Vulnerability, Economic Hardship, Flooding, etc. and low Tree Canopy.

★ Tree Equity Tool

Tree data visualization tool **complements on the ground community experience** to prioritize the planting of trees in areas of Chicago where the benefits of trees are most needed.

By looking at tree canopy coverage and overlaying public health indicators with surface temperature, and air quality data, the City is further able to analyze and prioritize tree planting at the census tract level.

PURPOSE

 Chicago continues to work toward creating resilient and sustainable communities across the city. Joining 96 cities around the world, the City of Chicago has updated its Climate Action Plan to reflect the bold action needed to protect and strengthen communities- locally and globally.

With historic investments coming in 2022, Chicago is ready to strengthen partnerships and programs across the city to expand access to green space, reduce carbon emissions, and connect residents to meaningful resources and services.

One of the ways we are carrying out our Climate Action Plan here in Chicago is through Our Roots Chicago project. Our goal is to expand the tree canopy in Chicago through an equitable approach to every neighborhood in Chicago leaving no neighborhood behind.

I've heard...
Trees increase crime

Actually:
There are no scientific studies that prove that trees increase crime. Studies actually show that tree lined streets have lower crime rates.

Social Media:
I've Heard... Trees Increase Crime

Languages: English

Date: 4/27/2022

I've heard...
Planting more trees will disrupt our natural ecosystem.

The fact is...
Trees provide oxygen, improve air quality, help keep soil in place, and absorb water which prevents flooding. Trees also absorb carbon and attract a lot of wildlife such as birds that feed on insects like mosquitoes.

I've heard...
Trees create plumbing issues

What actually happens...
Tree roots do not break underground pipes, but rather, broken drain pipes can attract tree roots seeking moisture. Did you know that tree roots only go down 2-3 feet?

Social Media:
I've Heard... Trees Create Plumbing Issues

Languages: English

Date: 4/27/2022

I've heard...
Trees are dangerous for homes. They can damage property.

The facts are...
Trees can lower your air conditioning costs by providing shade and lowering air temperatures. Trees can block cold winds in the winter lowering your heating costs. Trees that aren't properly maintained form weak limbs. The City will trim your parkway tree at no cost to you. Visit 311.chicago.gov to request service.

CHICAGO
Mayor Lori E. Lightfoot

Date: _____

311 Service Request Number: _____

A New Tree Is Coming Soon! A tree planting site(s) has been approved in the public parkway in front of your home/business. The complete tree planting service (site prep, planting, mulching, and 2 years of maintenance) is being provided free of charge as part of the city's Our Roots Chicago program.

OUR ROOTS CHICAGO has the goal of planting 75,000 parkway trees across Chicago by 2026. More healthy trees mean healthier communities. Making these investments today will provide benefits to Chicago's neighborhoods for years to come.

TREES DO:

- Improve air quality
- Reduce flooding
- Increase property values
- Provide shade
- Save money on air conditioning
- Lower stress levels

TREES DO NOT:

- Break underground pipes; broken drain pipes can attract tree roots seeking moisture
- Increase crime; tree lined streets have lower crime rates!
- Cause danger or damage property (if properly maintained)

For more info on Our Roots Chicago please visit Chicago.Gov/OurRoots

If you do not want a tree planted, or if you want to request a particular species, please call 311 within 60 days to cancel/modify the service request (number included above).

DSS
Department of Streets and Sanitation

OUR ROOTS CHICAGO

CHICAGO
Mayor Lori E. Lightfoot

A NEW TREE has been planted for your neighborhood!
Mayor Lightfoot's Our Roots Chicago has the goal of planting 75,000 parkway trees across Chicago by 2026. More healthy trees = healthier communities. Making these investments today will provide increasing benefits to Chicago's neighborhoods for years to come.

The DSS Bureau of Forestry has planted a tree on the parkway adjacent to your home. We kindly ask that you water the tree on a weekly basis during the first year of planting. Please allow the hose to trickle for 25-30 minutes on the tree roots to ensure the water can soak deeply into the roots. During dry periods, the tree may need watering every three days. Cost for watering is minimal to the resident (around \$6 per year, \$3 for seniors).

Please do not remove the wood mulch from around the base of the tree. The mulch was placed there to keep the roots cool and moist in the summer, and to protect the tree from cold in the winter.

And like any good neighbor, please look out for the new tree. Protect it from vandalism, lawn mowers, weed whips and vehicles.

For more information on caring for the new tree, please contact the DSS Bureau of Forestry at 312-746-5254.

To learn more about Our Roots Chicago, please visit Chicago.Gov/OurRoots.

23. East Garfield Park	257	2%
57. Armour Square	87	1%
Subtotal	5,222	33%

Community Tree Ambassadors

Tree Ambassadors Training

Created for CBOs to increase parkway tree planting through a modified CHI311 mobile app entry to speed planting in priority neighborhoods while they engage residents on the benefits of trees.

TRAINED TO:

Survey based on City Landscape Ordinance to submit potential tree planting sites in their communities on behalf of residents that agree to a free City tree planting warranted for 2 years using 311 App/Online

COMMUNITY DRIVEN TREE EDUCATION:

They develop their own culturally relevant tree care and education materials with the help of either the City and/or Conservation Partners if needed (e.g., marketing, workshops, conversations, storytelling to residents, etc.)

TREE AMBASSADORS ARE NOT TRAINED TO:

Plant, Mulch, Trim, ID Trees Species, Study Plant Biophysiology, Soil, or ID Pathogens

Train the Trainers: Class

Train the Trainers: Field

Information Technology

- Currently developing a BoF Mobile Application
- Application will be Apple and Android mobile compliant devices
- Application is Salesforce Field Service Lightning
 - Enhanced field operations for efficiency
 - Foresters in the field will enter data workorder and updating tree inventory (no longer on one desktop that one person manages)
 - GPS enabled devices in application for tree locations
- 50 New Tablets purchased for foresters to use in the field – no more paper and manual entry for tree plantings
- This will also help with Tree Inventory

2023 Look Ahead

New City Foresters & Tree Trimming Plan

- 311 Tree Trimming Requests retired December 16th
- Moving to grided area trimming
- Residents will be notified of schedule in April – BoF will do entire blocks at one time.
- Doubled the number of Tree Trimmer crews, from 14 to 30, including equipment

Applying for federal funding from Inflation Reduction Act to Amplify Year 1's Progress

- Tree Survey for Parkways and Parks

Formalize Tree Ambassador Program

- Grow program by funding more communities
 - CCA/Accenture to develop a 5-year strategic plan for TA Program
- Tree Ambassador Funding for 2023
 - US Rep Sean Casten Congressional Earmark \$100K - 10 CBOs
 - Expand Tree Ambassador Training \$1.5M for 5 Years - 30 CBOs and 2 Full-Time Coordinator
- Develop and Applying Heat Vulnerability Index and NOAA Project Building HVI to help guide tree tool and plantings
- Updated Tree Equity Tool Dashboard 2023
- Tree Community Opinion Survey – IRB Approved
- Improve Partnership with Tree Equity Working Group
 - Tree Equity Working Group monthly updates on plantings
 - Our Stories Tab – videos community/pictures
 - Community Tree Benefit Flier

Thank You!
