PROPOSED NO CASH BID REQUEST

Requestor: Richard B. Boehm, Village Manager, Village of Palos Park

Request: Approval of No Cash Bid Request

Location: Village of Palos Park

Volume and Property Index Number:

152, 23-26-208-007-0000

Summary: The Village of Palos Park, (the “Village”) has targeted a location within the Village for Redevelopment. In the interest of utilizing the property for said purposes, the Village is seeking title to the following tax delinquent property and request that the Cook County Board of Commissioners submit a No Cash Bid for this property on behalf of the Village. The PIN in this Request Package is as follows:

Currently the property is a vacant lot, commonly addressed as 8312 W. 123rd Street, Palos Park, IL 60464. The Village has determined the parcel to be vacant land. That use is no longer fitting, and the area suffers from economic depreciation. In the interest of utilizing the property for productive use, the current and intended uses for the parcel, which will greatly benefit the Village, are to acquire the property for open space and passive recreation, with the possibility of future redevelopment in a manner to greatly benefit the residents of the Village and the general public.

The Village will file for tax exempt status as long as it retains the PIN for municipal use, maintaining that status until any property is conveyed to a potential developer. This request does not contain a Third-Party Requestor. The Village Attorney to the Village of Palos Park will obtain a tax deed and bear all legal and other costs associated with acquisition of the parcel. The Village agrees to submit, to the Cook County Department of Planning and Development, No Cash Bid Report on the status of the parcel for five (5) years, or until development is complete, whichever occurs last, as required by the Cook County No Cash

A motion was made by Commissioner Britton, seconded by Commissioner K. Morrison, that the Proposed No Cash Bid Request be referred to the Finance Subcommittee Tax Delinquency. The votes of yeas and nays being as follows:

Report Period: June 1, 2023 - August 31, 2023

Summary: Pursuant to Section 10 of the Annual Appropriation Bill and Budget Resolution, before any position is recommended for reclassification, the relevant Agency of the County must obtain prior approval of the Budget Director to validate available funding. Please note that 272 full-time equivalent positions were reclassified between June 1, 2023, and August 31, 2023. Summary: This renewal and increase will allow Ameresco, Inc. to continue providing energy consultant, procurement, bill payment and data management services for the procurement of and budgeting for electricity, natural gas, and renewable energy for Cook County facilities. Due to deregulated energy markets, the County can seek energy supply from multiple sources, which may result in operational savings. Due to the complexity and number of County accounts, it is in the best interest of the County to use a subject matter expert to assist the County.

Ameresco's fee for the services provided is assessed as a percentage of the amount of energy procured for the County. In addition, the data management and bill consolidation/validation process are flat annual fees per account as outlined in the Request for Proposals (RFP). Together, these costs will not exceed \$150,000 annually.

This contract was awarded through a publicly advertised Request for Proposals (RFP) in accordance with the Cook County Procurement Code. Ameresco, Inc. was awarded this contract based on established evaluation criteria.

PROPOSED TRANSFER OF FUNDS

Department: Cook County Assessor’s Office

Request: Approval to Transfer Funds

Reason: To load the CCAO’s postage meter for the remainder of 2023 reassessment mailings and in preparation for the 2024 City of Chicago Triennial reassessment mailings.

From Account(s): 11000.1040.10155.501010 Salary/Wages of Regular Employees, \$1,100,000.00

To Account(s): 11000.1040.10155.520260 Postage, \$1,100,000.00

Total Amount of Transfer: \$1,100,000.00

On what date did it become apparent that the receiving account would require an infusion of funds in order to meet current obligations? What was the balance in the account on that date, and what was the balance 30 days prior to that date?

It became apparent that the receiving account would need additional funds on 08/18/2023. The balance on 08/18/2023 was \$0.00. This amount reflects a recent payment to fund the office's postage meter to meet upcoming mailing obligations.

How was the account used for the source of transferred funds identified? List any other accounts that were also considered (but not used) as the source of the transferred funds.

A surplus in Salary/Wages will be used to fund the need for additional postage to meet the current reassessment mailing obligations as well as upcoming reassessment mailings.

Identify any projects, purchases, programs, contracts, or other obligations that will be deferred, delayed, or canceled as a result of the reduction in available spending authority that will result in the account that funds are transferred from.

The CCAO is statutorily required to mail reassessment notices and homestead exemption applications. We will proactively fund postage account for the upcoming reassessment mailings.

If the answer to the above question is "none" then please explain why this account was originally budgeted in a manner that caused an unobligated surplus to develop at this point in the fiscal year.

To Account(s): 11100.1310.10155.520210, Food Services \$85,000.00; 11100.1310.35095.521019, Court Reporting, \$95,000.00; 11100.1310.15190.520830, Professional Services, \$80,000.00. 11100.1440.35225.530010, Food Supplies, \$800,000.00.

Total Amount of Transfer: \$1,060,000.00

On what date did it become apparent that the receiving account would require an infusion of funds in order to meet current obligations? What was the balance in the account on that date, and what was the balance 30 days prior to that date?

As of August 31, 2023, office projections for future expenditures indicated that the requested transfers are necessary to continue to pay invoices for services and supplies through the end of FY2023.

How was the account used for the source of transferred funds identified? List any other accounts that were also considered (but not used) as the source of the transferred funds.

The accounts used for the source of the transfers were identified by taking into account anticipated future expenditures for professional services and data processing equipment, which revealed adequate surplus funds that are the result of changes in the timing of certain procurements and program spending.

Identify any projects, purchases, programs, contracts, or other obligations that will be deferred, delayed, or canceled as a result of the reduction in available spending authority that will result in the account that funds are transferred from.

There will be no deferred, delayed or canceled projects, purchases, contracts, or other obligations as a result of these transfers.

If the answer to the above question is “none” then please explain why this account was originally budgeted in a manner that caused an unobligated surplus to develop at this point in the fiscal year.

The surpluses are the result of a change in the timing in entering into a new contract for the JTDC management information system, not occasioned by the need for funds to cover other operating expenditures.

A motion was made by Commissioner Britton, seconded by Commissioner Trevor, that the Transfer of Funds be approved as amended in the errata. The votes of yeas and nays being as follows:

**RECOGNIZING BLOOD CANCER AND SICKLE CELL AWARENESS MONTH IN COOK
COUNTY**

WHEREAS, the month of September is National Blood Cancer Awareness Month as well as Sickle Cell Awareness Month, a month-long initiative designated by Congress to help focus attention on the need for research and treatment of blood cancer and sickle cell diseases; and

WHEREAS, Sickle cell disease (SCD) is the most common inherited blood disorder in the United States in which red blood cells may become sickle-shaped and harden. For a baby to be born with sickle cell disease, both parents must carry a sickle cell trait or genes. Sickle cell disease is not contagious, and there is no universal cure; and

WHEREAS, about 1 in 13 African Americans carry the sickle cell trait, and many do not know they have it, and an estimated 100,000 people in the U.S. have SCD, with approximately 2,000 babies born with SCD annually in the United States; and

WHEREAS, people of many ethnic backgrounds can have SCD, but it disproportionately affects Black and Brown Americans, with an estimated 1 in 365 Black Americans and 1 in 16,300 Hispanic Americans suffering from SCD; and

WHEREAS, Sickle Cell disease leads to complications including chronic severe and unpredictable pain, anemia, frequent infections, swelling in extremities, fatigue, delayed growth and is one of the underlying medical conditions that causes increased risk for severe illness from the virus that causes COVID-19, defined as hospitalization, admission to the ICU, intubation or mechanical ventilation, or death; and

WHEREAS, this national focus is essential and reinforces the National Institutes of Health (NIH) continued support of SCD research, education, and capacity building, including the “Cure Sickle Cell Initiative” to accelerate safe, effective, and scalable gene therapies to cure the disease; and

WHEREAS, because of the many advances and medical breakthroughs in genetic therapies and research, we are now closer to finding a cure for all SCD patients; and

WHEREAS, individuals can help be part of the solution by donating blood, which is one of the most critical treatments for sickle cell patients, but less than 10% of Americans donate blood. Additionally, sickle cell patients benefit most from blood transfusions from people of the same race or similar ethnicity, but only 5% of blood donors are of African ancestry; and

WHEREAS, education and research, educating others about sickle cell disease and sickle cell trait, and getting tested for sickle cell trait if you are of African descent and do not know your status are other ways to contribute to this important cause; and

WHEREAS, blood cancers include leukemia, lymphoma, myeloma and Hodgkin's disease, and every 3 minutes, someone in the U.S. is diagnosed with a blood cancer; more than 1.3 million Americans are living with or in remission from a blood cancer; and

WHEREAS, blood cancers are the 3rd leading cause of cancer deaths in the U.S., but many people don't know the impact of the blood cancers such as leukemia, lymphoma, and myeloma, and despite progress, more than 1/3 of blood cancer patients still do not survive five years after diagnosis; and

WHEREAS, giving blood is also important for blood cancer patients, although blood transfusions do not treat the blood cancer itself, they do provide healthy blood cells if your body isn't producing its own, which can help relieve symptoms and side effects; and

WHEREAS, additionally for patients diagnosed with leukemia, lymphoma and other life-threatening diseases, a bone marrow or cord blood transplant may be their best or only hope for a cure. However, 70% of patients who need a transplant to do not have a fully matched donor in their family, which is why it's important to encourage people to sign up to be a potential donor; and

WHEREAS, the disparities faced by blood cancer patients are very similar to the disparities faced in general in the United States with minority groups disproportionately impacted across different blood cancer diseases, including having a higher incident rate. For example, Black Americans have at least double the incidence of myeloma compared to any other race or ethnicity; and

PROPOSED ORDINANCE AMENDMENT

ORDINANCE EXCLUDING SOLAR ENERGY SYSTEMS FROM ASSESSOR'S MARKET

VALUATION OF STRUCTURE AND IMPROVEMENTS

BE IT ORDAINED, by the Cook County Board of Commissioners that Chapter 74, Article II, is hereby amended to add the following sections:

Sec. 74.49. Valuation of solar energy systems installed on commercial or industrial structures and improvements.

(a) *Purpose.* To reach its clean energy goals, the County Board finds that it is necessary to install solar energy systems on the roofs of commercial and industrial structures throughout the County. Owners of commercial and industrial property in Cook County should be encouraged to use otherwise unproductive roofs to help the County generate solar energy and create new jobs for County residents. When evaluating Cook County rooftops for solar energy system installation, owners and investors need certainty that the installation will not, on its own, increase property taxes.

(b) *Exclusion of solar energy systems from market valuation of commercial and industrial structures and improvements.* When determining the value of any commercial or industrial property listed for taxation in the County, the County Assessor shall ascertain and utilize the value of the property's structures and improvements without consideration of any solar energy system installed in or on such structures or improvements.

(c) *Application.* This section shall apply to assessments initiated after the effective date of this Ordinance.

(d) *Definitions.* For purposes of this Section, the terms are defined as follows:

Solar energy means radiant energy received from the sun at wave lengths suitable for heat transfer, photosynthetic use, or photovoltaic use.

Solar collector means:

(1) An assembly, structure, or design, including passive elements, used for gathering, concentrating, or absorbing direct and indirect solar energy, specially designed for holding a substantial amount of useful thermal energy and to transfer that energy to a gas, solid, or liquid or to use that energy directly; or

(2) A mechanism that absorbs solar energy and converts it into electricity; or

(3) A mechanism or process used for gathering solar energy through wind or thermal gradients; or

(4) A component used to transfer thermal energy to a gas, solid, or liquid, or to convert it into electricity.

Solar storage mechanism means equipment or elements (such as piping and transfer mechanisms, containers, heat exchangers, or controls thereof, and gases, solids, liquids, or combinations thereof) that are utilized for storing solar energy, gathered by a solar collector, for subsequent use.

Solar energy system means

(1)

i. a complete assembly, structure, or design of solar collector, or a solar storage mechanism, which uses solar energy for generating electricity or thermal energy;

ii. the design, materials, or elements of a system and its maintenance, operation, and labor components, and the necessary components, if any, of supplemental conventional energy systems designed or constructed to interface with a solar energy system;

iii. any legal, financial, or institutional orders, certificates, or mechanisms, including easements, leases, and agreements, required to ensure continued access to solar energy, its source, or its use in a solar energy system, and including monitoring and educational elements of a demonstration project.

(2) Solar energy system does not include:

i. distribution equipment that is equally usable in a conventional energy system except for those components of the equipment that are necessary for meeting the requirements of efficient solar energy utilization; or

ii. components of a solar energy system that serve only as structural, insulating, protective, shading, aesthetic, or other non-solar energy utilization purposes, as defined in the regulations of the Department of Commerce and Economic Opportunity

iii. The solar energy system shall conform to the standards for those systems established by regulation of the Department of Commerce and Economic Opportunity.

Effective date: This Ordinance shall be effective immediately upon approval and adoption.

PROPOSED INTERGOVERNMENTAL AGREEMENT

Department: Bureau of Technology

Other Part(ies): State of Illinois, Department of Innovation and Technology

Request: Approve the IGA with the State of Illinois, Department of Innovation and Technology that lets the County take ownership and pay its fair share of the cost for their portion of the new fiber optic cable path in the downtown campus that avoids the Thompson Center

Goods or Services: construction cost of alternate fiber optic pathway

Agreement Number(s): N/A

Agreement Period: 20 Year contract with a one-time payment upon completion of the project

Fiscal Impact: \$399,300.00

Accounts: 11569.1031.11190.560105/7.00000.00000 (Capital Improvement Program)

Summary: The current fiber optic system connecting the downtown campus was constructed by the County in 2013. This system connects government buildings including but not limited to Daley Center, Dunne Building, County Building, and City Hall. This not only interconnects downtown government buildings, but also connects all County locations to our Internet Service Providers and connects major facilities (Stroger, Provident, Jail, Oak Forest, Markham, Maywood) to our Wide Area Network. The County no longer has free access to the main artery due to the State of Illinois selling the Thompson Center to Google.

Through this IGA, the State will oversee the construction of this new fiber path and the County will pay its fair share proportionate to the number of strands allocated. This equals 33% of the construction cost to the County which is estimated to be \$399,300.

PROPOSED ARPA FIXED SITE SHELTER - ACQUISITION PROGRAM

Department: Planning and Development

Other Part(ies): Connections for the Homeless, Inc., Evanston, Illinois

Request: Respectfully request the Board of Commissioners approval of a \$7,000,000, 30-years, 0% permanent loan using American Rescue Plan Act (ARPA) funds to acquire an existing hotel facility to create a fixed site, 70-person, non-congregant, permanent shelter facility.

Total Development Cost: \$15,015,476.00

Project Loan Amount: \$7,000,000.00

Fiscal Impact: \$7,000,000.00

Account(s): 11286.1013.66737.580170.00000.00000

Summary: Connections for the Homeless, Inc., (Connections) has requested \$7,000,000 in American Rescue Plan (ARPA) funds for the acquisition of an existing hotel property in Evanston, IL. The loan has a thirty-year term, 0% permanent loan rate and is fully forgivable at maturity. The acquisition funds will provide acquisition and closing costs for the fixed-site non-congregate shelter serving up to 70 residents in Evanston.

The subject site address is located at 1566 Oak Avenue in Evanston, Illinois. The subject site is in a mixed-use area of residential and commercial use in the city of Evanston, IL. The subject site is currently comprised of an existing Hotel structure, The Margarita Inn, which operated as a boutique 55-room hotel for 85 years prior to the Pandemic.

Journal of Proceedings

Board of Commissioners

September 21, 2023

Since March 2021, Connections has master-leased the hotel and operated a fixed-site homeless shelter. Emergency COVID-19 federal dollars in the form of either CDBG CV or American Rescue Plan Act (ARPA), via Cook County, have sustained this model in the short-term. Long-term, this model was not sustainable as it currently costs approximately \$2,400,000 annually to operate the homeless program at this location with hotel rents accounting for up to \$1,500,000 of expenses and absent a long-term stream of revenue to support operations.

Connections, in partnership with its Alliance of Homelessness (Alliance) partners, Cook County, the State of Illinois, the City of Evanston and philanthropic sources, create a unique opportunity to ensure this capacity is permanent.

The State of Illinois in its 2023 Budget, with extensive advocacy from Alliance members, extended and increased established funding to directly support both the operations of shelters and the services required to advance individuals and families to sustainable housing. Over \$51 Million was accorded to Shelter Operations and Services through the Illinois Department of Human Services, granting immediate funding to existing shelter providers, such as the subject operator Connections for the Homeless (Connections), while creating future opportunity for agencies to request funding throughout the suburban region. This combination of Operating Funds with the subject Capital enables the shelter to be sustainable long-term.

There are 46 rooms, operated as either a private-individual, family room or roommate room. The shelter is gender neutral and open to all adults ages 18 or older, families with children, and two rooms (4 beds) are dedicated for young people ages 18-to-24. Each room has a private bathroom, closet, dresser, small refrigerator, television, phone, and Wi-Fi access. Rooms are accessed via keycards provided by the Margarita Inn.

Participants have access to their rooms 24 hours per day, and the Margarita Inn is also staffed 24 hours

per day. In addition to safe, private shelter, every resident has access to a range of onsite services as they work toward their plan for a permanent housing solution. Exit planning is a requirement of the program. Since implementing this new model at the Margarita Inn in March of 2020, the average length of stay is approximately 7 months and 57% of residents have transitioned to stable housing.

Connections is a corporation organized to develop a program for people experiencing or at risk of homelessness. Connections' mission is to serve and catalyze the community to end homelessness, one person at a time. Building off nearly 40 years of experience serving people who are homeless, Connections now offers shelter to people of all genders and family configurations.

Participants have access to richer services that are available onsite, which has significantly improved participation in workshops and programs to help ready the household for program exit. 24/7 onsite physical and mental health support also improves stability and overall health of participants. Staff can also connect with shelter residents more quickly as housing opportunities become available. This is particularly helpful given that when a housing option arises, it is very time sensitive and critical staff can connect with the participants to ensure they do not lose the opportunity.

Connections services will provide:

- Intensive case management provided by full-time, onsite staff that co-develop housing exit plans and address or eliminate barriers to securing a permanent home.

Journal of Proceedings

Board of Commissioners

September 21, 2023

- Housing location services and support enrolling in all available solutions including the Coordinated Entry system administered by the Alliance to End Homelessness in Suburban Cook County
- Physical and mental health care provided by full-time, onsite licensed health practitioners including an MD, a nurse, a nursing assistant, and mental health professionals.
- Benefits enrollment and redetermination assistance for participants for public benefits (e.g., SNAP, Medicaid, TANF, WIC, SSDI, etc.)
- Life-skills training along with education and employment services (e.g., resume writing, interview preparation resume writing, test prep etc.
- Health education classes, financial literacy workshops, tenant literacy trainings
- Onsite well-being programs (e.g., art therapy groups, movie nights, storytelling groups, etc.)
- Transportation support for appointments and education and employment opportunities
- Laundry services
- Three daily meals

Of note, this development represents a directional change in how the homeless are served in Suburban Cook County. Prior to the Pandemic in 2020, sheltering was primarily provided in the Overnight Pads Model, which supplied shelter overnight in facilities provided by churches, synagogues and other private facilities. Operations relied heavily on volunteers with minimal permanent staffing. Shelter guests were required to vacate the facility during the day, locate and travel to the rotational shelter available for the next night. While the lack of physical assets to support the shelter operations on a full-time basis was identified prior to 2020, the pandemic proved out the shortcomings of this model as facilities and volunteers were inconsistently available early and non-existent as the pandemic worsened.

The provider community of non-profits, the Alliance to End Homelessness, State, County and local municipalities worked to establish hotel-based sheltering, taking advantage of the bounty of rental nights available as tourism plunged during the pandemic. Advocacy at the Federal and State level supplied funding to support the sheltering operations during the pandemic. As the pandemic ran its course, the hotel sheltering model increasingly became unsustainable in the third year (current) of operations. A more sustainable model of removing the rental element and supporting operations was required.

Reducing the leasing costs amounted to attempts to acquire hotel locations, such as the subject request, locking in the assets for long term use, without paying short-term rates. Operations would be another challenge that advocates took to the State of Illinois to support, as Illinois does not have a defined revenue source to support homeless efforts as other States and municipalities, e.g., Transfer Tax, Sales Tax, Bonding Authority.

A motion was made by Commissioner Daley, seconded by Commissioner Lowry, that the ARPA Fixed Site Shelter be approved. The vote of the yeas and nays being as follows:

PROPOSED ARPA FIXED SITE SHELTER - ACQUISITION PROGRAM

Department: Planning and Development

Other Part(ies): Housing Forward, LLC and Oak Park Development Corporation, Oak Park, Illinois

Request: Respectfully request the Board of Commissioners approval of a \$6,500,000.00, 30-years, 0% permanent loan using American Rescue Plan Act (ARPA) funds to acquire an existing hotel facility to create a fixed site, 55-person, non-congregant, permanent shelter facility.

Total Development Cost: \$14,264,873.00

Project Loan Amount: \$6,500,000.00

Fiscal Impact: \$6,500,000.00

Account(s): 11286.1013.66737.580170.00000.00000

Summary: Housing Forward, LLC and the Oak Park Development Corporation have requested \$6,500,000.00 in American Rescue Plan (ARPA) funds for the acquisition of an existing hotel property in Oak Park, IL. The loan has a thirty-year term, 0% permanent loan rate and is fully forgivable at maturity. The loan will be used to acquire property for individuals experiencing homelessness and individuals in need of recuperative care services and housing. The acquisition and renovation of the Write Inn will provide Housing Forward with a permanent addition of 55 beds (units) to help close the gap and address the unmet need that has consistently been identified in the west Cook County region.

Housing Forward currently occupies this property and has been utilizing it for the subject intended use for more than two years. Housing Forward's strategic plan and corresponding strategic facilities plan both identify the need to add 80-85 new beds (units) in the West Suburban Cook County.

Housing Forward will provide temporary housing and necessary wrap-around services to unsheltered individuals and families as an equitable and dignified crisis response and a solution to resolving their homelessness. Through this location, Housing Forward will provide 24/7 temporary and private residential services and necessary supports to resolve the immediacy of their homelessness, begin the process of helping them to improve their health and mental wellness, and putting them on the path to permanent housing placement. The shelter will have no qualifications or referral requirement for service.

Uniquely, a component of the shelter houses the Cook County Hospitals and Health Systems' Rise Center, a Medical Respite Supportive Services facility, where recuperative services are provided to individuals that are either a patient or referral of a Cook County Health facility or a patient of a healthcare facility located in suburban Cook or a residents of suburban Cook County referred from any healthcare facility.

Along with the base services of the Shelter, Respite patients will have among services:

- An Individual Service Plan (ISP) detailing goals to be accomplished by the participant and ongoing monthly assessment against goals.
- Housing needs assessment and services for post-discharge housing attainment
- Assistance with self-management of medical conditions
- Medical plan, 24/7 monitoring, Nursing and Medical Assistance
- Coordinated tele-health and in-person medical appointments.

Of note, this development structure represents a directional change in how the homeless are served in Suburban Cook County; the provision of fixed assets (buildings) with intensive service delivery on sight to advance individuals and families to stable housing and health. Prior to the Pandemic in 2020, sheltering was primarily provided in the Overnight Pads Model, which supplied shelter overnight in facilities provided by churches, synagogues and other private facilities. Shelter guests were required to vacate the facility during the day, locate and travel to the rotational shelter available for the next night. Operations relied heavily on volunteers with minimal permanent staffing. While the lack of physical assets to support the shelter operations on a full-time basis was identified prior to 2020, the pandemic proved out the shortcomings of this model as facilities and volunteers were inconsistently available early and non-existent as the pandemic worsened.

Housing Forward and the Oak Park Development Corporation will collaborate to acquire and redevelop the Write Inn, an existing residential hotel located at 211 N. Oak Park Avenue in downtown Oak Park. The property will become a permanent home for Housing Forward fixed site shelter and medical respite program serving persons experiencing homelessness.

Housing Forward has been advancing its mission to transition individuals and families from housing crisis to housing stability. Housing Forward believes housing is a basic human right and that individuals cannot achieve stability until they are housed first. Housing Forward's operations include programs that attempt to combat the various aspects of homelessness by providing housing (interim and permanent); medical respite; street outreach and diversion services; employment; prevention; and all encompassing "wraparound services" that begin with clients being assigned a case manager upon intake and culminating when permanent housing is found. Housing Forward serves nearly 2,700 men, women, and families annually with such individualized services focused on resolving homelessness and housing crises quickly and permanently.

Oak Park Residence, the development partner is a non-profit corporation organized around acquiring and maintaining residential properties in Oak Lawn for the purpose of reducing blight and preventing and eliminating racial and ethnic prejudice and discrimination. Oak Park Residence currently owns and manages 27 multifamily properties with 703 units within Oak Park, including family, elderly, and special needs residency. The property management arm of the organization also manages properties for third parties including the Housing Authority of Oak Park. Oak Park is considered for the development and

operational management of the property given their experience with comparable properties in Oak Park.

A motion was made by Commissioner Daley, seconded by Commissioner Lowry, that the Proposed ARPA Fixed Site Shelter be approved. The vote of the yeas and nays being as follows:

BED will utilize the findings and recommendations from the assessment phase to develop these components and return to the Board for any further program and funding approvals.

PROPOSED RESOLUTION

A RESOLUTION TO ADDRESS THE DEADLY FENTANYL EPIDEMIC

WHEREAS, drug overdose or poisoning is the leading cause of death for Americans aged 18-45; and

WHEREAS, nearly 70% of those deaths are due to Opioids, including Fentanyl; and

WHEREAS, Fentanyl is up to 50 times more potent than heroin and 100 times more potent than Morphine; and

WHEREAS, more than 91% of Opioid overdose deaths involved Fentanyl; and

WHEREAS, the Cook County Medical Examiner's Office has confirmed 2,000 Opioid overdose deaths for 2022, breaking the previous record of 1,935 set in 2021; and

WHEREAS, Cook County has had two consecutive years of record high Opioid/Fentanyl overdose deaths; and

WHEREAS, just over 70% of the overdose deaths were in Chicago; and

WHEREAS, approximately 78% of the Opioid overdose deaths are male, African Americans make up 56% of the deaths, Latinos account for just under 15% and whites constitute 29% of the deaths; and

WHEREAS, these numbers and statistics are staggering and alarming for countless residents in Cook County and beyond; and

WHEREAS, the U.S. Drug Enforcement Administration (DEA) says that the majority of Fentanyl is sourced from China and trafficked into the U.S. by the Mexican Sinaloa and Jalisco cartels; and

WHEREAS, the current federal border policy ignores and underestimates the impact of the Fentanyl epidemic on the front line; and

WHEREAS, the DEA says it seized enough deadly Fentanyl in 2022 to kill every American multiple times over; and

WHEREAS, the United States has seen record high illegal border crossings since in January 2021; and

WHEREAS, the 12 months prior to January 2021, Southwest border illegal crossing apprehensions averaged significantly under 50,000 per month, but since January 2021, illegal crossing apprehensions have exploded to more than 100,000 per month and as high as more than 200,000 per month, according to U.S. Customs and Border Protection data; and

WHEREAS, illegal crossings at the U.S.-Mexico border jumped 33 percent in July (2023), according to U.S. Customs and Border Protection data; and

WHEREAS, the federal government must tighten the entry points at our borders and crack down on the external producers of this deadly drug; and

Journal of Proceedings

Board of Commissioners

September 21, 2023

WHEREAS, many of Illinois' elected leaders reduced criminal charges for Fentanyl through the passage of the state's Safe-T Act; and

WHEREAS, current policies are failing as illustrated by the heartbreaking statistics and data. Opioid/Fentanyl death counts will tragically continue to grow without a new rational course of action; and

WHEREAS, if Illinois wants to save lives, then it must reverse course and strengthen its laws against the illegal distribution and sale of Fentanyl; and

WHEREAS, on the local level, we must expand access to comprehensive drug treatment to end this deadly cycle of abuse that is devastating our communities.

THEREFORE BE IT RESOLVED, the time to tackle this deadly epidemic head on is now. The Cook County Board of Commissioners calls for immediate action to be taken by the federal government to properly secure the border for the health, safety, and well-being of the people of the United States of America.

BE IT FURTHER RESOLVED, copies of this resolution be distributed to Senator Richard Durbin, Senator Tammy Duckworth and the entire Illinois Congressional Delegation, and call upon them to demand President Biden and his administration seek an immediate securing of the U.S. border to stem the dangerous and tragic overflow of Fentanyl into the United States of America.

REQUESTING A PUBLIC HEARING OF THE CRIMINAL JUSTICE COMMITTEE TO DISCUSS AND RECEIVE AN UPDATE FROM THE PUBLIC SAFETY AND PUBLIC HEALTH COUNTY STAKEHOLDERS ON THE INVESTIGATIONS OF MISSING AND MURDERED BLACK WOMEN AND GIRLS IN THE CHICAGOLAND AREA

WHEREAS, Black women and girls in the U.S. are disproportionately at risk for abuse, exploitation and homicide. In the Chicago area, an alarming number of Black women have been killed and their murders remain unsolved; and
