

The Deferred Compensation Plan for Public Employees, the County of Cook

Summary of Proposed Plan Changes – 2025

Background

The Cook County Board of Commissioners first created a 457(b) Deferred Compensation Plan for the benefit of employees in February 1978. The Guiding Plan Document was last amended by the Cook County Board of Commissioners in July 2016.

Today, Plan participation is over 16,000 with approximately \$2B in assets. Participants can choose to allocate their contributions to target date funds, asset allocation funds, stock or bond funds as well as a fixed option. The County contributes no funding to any of the plan choices and encourages participant education before making an individual investment selection of their voluntary contribution.

This Plan Document update focuses on general language clean-up, compliance with Federal regulatory changes, operational considerations, and liability protections for the Board and Committee. The State's Attorney's Office, Deferred Compensation Committee Plan's outside counsel. Morgan-Lewis, current record-keeper, Nationwide Retirement Solutions, the Cook County Comptroller's Office, and the Deferred Compensation Committee contributed to the review.

Proposed Updates

1. Compliance - The Plan Document is required to reflect Federal regulatory changes and additional plan elements:

- A. CARES Act (Coronavirus Aid, Relief, and Economic Security)** In an effort to provide economic relief to 457(b) participants and others due to the COVID-19 pandemic, the CARES Act was signed into law on March 27, 2020. The CARES Act includes multiple provisions which impacted 457(b) plans and which were adopted by the Committee during the pandemic, including loan repayment suspension, Coronavirus Related Distributions (CRD), and temporary suspensions of Required Minimum Distributions.

- B. **SECURE Act (Setting Every Community Up for Retirement Enhancement)** The federal legislation approved in 2019 (SECURE 1.0) and 2022 (SECURE 2.0) included a number of phased provisions which are intended to strengthen retirement readiness. These range from the elimination of the first of the month rule which historically delayed implementation of plan elections to the implantation of a higher Catch-Up Provision for those ages 60-63.
- C. **Roth Salary Reduction Contributions** - Contributions to a designated Roth account were previously authorized under the Plan document and went into effect January 1, 2024. Additional Secure 2.0 Roth provisions will be implemented as required.

Act/Provision	Mandatory	Opt.	Adopted	Effective	Committee Review
Setting Every Community Up for Retirement Enhancement Act of 2019 (SECURE 1.0) (December 20, 2019)
