WHEREAS, as of November 30, 2022, there have been 655,646 confirmed cases of SARS-CoV-2 in Suburban Cook County under the jurisdiction of the Cook County Department of Public Health with 7,309 reported deaths; and

WHEREAS, on August 31, 2022, the FDA amended the emergency use authorizations (EUAs) of the Moderna COVID-19 Vaccine and the Pfizer-BioNTech COVID-19 Vaccine to authorize bivalent formulations of the vaccines (in individuals in individuals 18 years of age and older for Moderna and 12 years of age and older for Pfizer-BioNTech) for use as a single booster dose at least two months following primary OR at least two months following monovalent booster vaccination; and

WHEREAS, the FDA has also revised the EUA of the Moderna COVID-19 Vaccine and the Pfizer-BioNTech COVID-19 Vaccine to remove the use of the monovalent Moderna and Pfizer-BioNTech COVID-19 vaccines for booster administration for individuals 18 years of age and older and 12 years of age and older, respectively; however, they continue to be authorized for use for administration of a primary series for individuals 6 months of age and up; and

WHEREAS, the Novavax COVID-19 vaccine is currently approved for individuals 12 and up; and

WHEREAS, the ever-changing nature of this virus has necessitated routine updates for the benefit of Commissioners and the public to stay abreast of the latest mitigation and vaccine protocols, proving essential to combatting the pandemic and to building back better; and

WHEREAS, the Cook County Department of Public Health (CCDPH) working alongside the Cook County Department of Emergency Management and Regional Security is charged with making the COVID-19 vaccines available to people in CCDPH's jurisdiction of suburban Cook County; and

WHEREAS, CCDPH is continuing to work with partners at all levels, including hospitals, health care providers and community leaders, to develop flexible and responsive COVID-19 vaccination programs that can accommodate different vaccines and increase uptake of boosters by informing the public and advertising about the vaccines importance with the Boost Up Cook County COVID and flu vaccination campaign, which is particularly important due to the possibility of a 'Tripleemic' of COVID, Flu and RSV this winter; and

WHEREAS, equally important has been to ensure the vaccines are distributed in an equitable fashion, prioritizing those areas and residents of the county that have been most impacted by COVID-19 as a result of longstanding disparities in healthcare system access and delivery; and
