

BOARD OF COMMISSIONERS OF COOK COUNTY
SECRETARY TO THE BOARD OF COMMISSIONERS

MATTHEW B. DeLEON
SECRETARY TO THE BOARD

Cook County Board Meeting

September 13, 2017

Registered Public Comments for those Attending and Not Attending the Meeting

Sorted by Commissioner District using zip codes provided by commenter

NOTE: This is our first use of the online registration survey created on the Survey Monkey website.

Because of the volume of responses for this meeting (1,881 responses), we were unable to use Survey Monkey to create a single PDF which would encompass all comments for this meeting.

To create more manageable PDFs, we broke out the responses by zip code and then combined those zip codes by commissioner district.

MANY zip codes overlap County commissioner districts. In the interests of time, we were unable to break out which specific responses were for each district. To ensure all possible responses for a district could be seen, you will find all the responses from any zip code which overlaps district boundaries in each applicable commissioner district PDF.

I oppose the repeal of the sweetened beverage tax. I will gladly pay the tax, as will my family, because we believe the extra cost will help our friends and neighbors make different choices and help avoid heart disease, type 2 diabetes, obesity and other medical ills associated with sugary drinks.

Q6 ACCOMMODATIONS: If you require additional assistance or special accommodations in order to participate in a hearing (for example, need language assistance, are a person with a disability), please let us know here, call 312.603.6127 or email us at cookcounty.board@cookcountyil.gov Intérpretes de lengua española estarán disponibles para los residentes que necesiten asistencia. We cannot guarantee assistance for requests made less than 48 hours in advance of a meeting.

Repeal the sweetened beverage tax! It is a sham and a lie that it is for public health!

Repeal the regressive and disingenuous beverage tax before it inflicts lasting damage on the retailers and taxpayers of Cook County. Tell Michael Bloomberg to restrict his meddling and fringe health opinions to his own community.

Please do not repeal the sweetened beverage tax. As a pediatrician I see many children every year who become obese because of juice and soda consumption. This is public health problem and the soda tax should help.

I oppose repeal of the sweetened beverage tax. Sugary drinks are the number one source of added sugar in the American diet. Evidence demonstrates that decreasing consumption of these drinks reduces the prevalence of childhood obesity and costly obesity-related diseases, such as type 2 diabetes.

I strongly urge you to repeal the Cook County soda tax. Taxes should be levied across the general population, not segments. If you truly believe that the tax is to fight obesity, then donate the proceeds to charity. This is simply a tax to increase Cook County revenue. A business would have to cut costs to make a budget balanced. Government should do the same.

Last week we drove 15 miles to a Costco and Jewel in Lake County for artificially sweetened beverages (like Diet Coke). I calculated the savings to be \$34.02 in just the SB tax alone! I will make this trip every 4-6 weeks to avoid that tax!

Obviously, I did other grocery and gasoline shopping there as well. The more sales taxes we have in Cook County, the more it will drive business away.

Can the tax!

Q6 ACCOMMODATIONS: If you require additional assistance or special accommodations in order to participate in a hearing (for example, need language assistance, are a person with a disability), please let us know here, call 312.603.6127 or email us at cookcounty.board@cookcountyil.gov Intérpretes de lengua española estarán disponibles para los residentes que necesiten asistencia. We cannot guarantee assistance for requests made less than 48 hours in advance of a meeting.

This tax is not an acceptable solution to the boards lack of being able to balance a budget continually taxing the already over taxed residents of cook county is wrong

As a Cook County resident, I support the repeal of this ill-thought out beverage tax. I recently went to the store to purchase products for my children's school lunches and I was utterly shocked when I saw my bill. I ended up paying \$1.63 for a carton of Minute Maid fruit juice that was supposed to be 99c. 59c was the beverage tax plus the 3c sales tax. If you do the math, that is over 60% in taxes on a product that was less than \$1. This defies logic! This tax was falsely advertised as a "soda tax" that will help promote better health. This tax is being applied to A LOT more than soda! And the fact that this is being taxed on the ounce and not a flat percentage of what you pay is even more mind boggling! In two days, I have paid over \$15 in beverage taxes on \$52 worth of beverages, so that is close to 30% in beverage taxes!

If this tax was intended to make up for a budget shortfall and the county is advertising that this tax will help curb childhood obesity and diabetes, the assumption is that in order for this to happen, people will buy less. Mind you, those on public food assistance programs will not have to pay these taxes so they will not be affected financially, and yet they are not immune to these health issues. How are apple and fruit juices less healthier than alcoholic drinks?? Some establishments are taxing these kinds of drinks which supposedly they shouldn't be and how is it that restaurants can sell "unhealthy" beverages without charging the beverage tax--which, by the way, some restaurants are doing but apparently, they are not supposed to. This inequitable and confusing mandate of what's taxed, what's not, which businesses must tax, which do not is enough to make our heads spin. If we cannot give our kids healthy juices such as apple and orange juice, please tell me what else can we give them to drink besides water? So how will you achieve bridging the budget gap if people will not buy the products anymore? What will you do when people will now go to the neighboring counties to stock up on their drinks? What will you do when companies begin pulling their products at retailers in the county due to lack of sales? I have relatives in other counties and neighboring states who will also be helping me (and other members of the family) by purchasing drinks for my children's lunches and sports activities.

I also volunteer for many non-profit organizations and they said they are obligated to pay the beverage tax on these drinks that they purchase for their programs and events. How can they possibly raise funds when they now have to pay these exorbitant taxes? How are you helping the middle class? What is next? Tax on chips, candies, cookies, fast food chains, etc? I am all for promoting healthy habits, but this really isn't an effective way AND it will backfire. Cook County and Illinois are making it harder and harder for people to afford living here.

I hope you do the right thing and work to repeal this nonsense beverage tax.

As a Cook County resident, I support the repeal of this ill-thought out beverage tax. I recently went to the store to purchase products for my children's school lunches and I was utterly shocked when I saw my bill. I ended up paying \$1.63 for a carton of Minute Maid fruit juice that was supposed to be 99c. 59c was the beverage tax plus the 3c sales tax. If you do the math, that is over 60% in taxes on a product that was less than \$1. This defies logic! This tax was falsely advertised as a "soda tax" that will help promote better health. This tax is being applied to A LOT more than soda! And the fact that this is being taxed on the ounce and not a flat percentage of what you pay is even more mind boggling! In two days, I have paid over \$15 in beverage taxes on \$52 worth of beverages, so that is close to 30% in beverage taxes!

If this tax was intended to make up for a budget shortfall and the county is advertising that this tax will help curb childhood obesity and diabetes, the assumption is that in order for this to happen, people will buy less. Mind you, those on public food assistance programs will not have to pay these taxes so they will not be affected financially, and yet they are not immune to these health issues. How are apple and fruit juices less healthier than alcoholic drinks?? Some establishments are taxing these kinds of drinks which supposedly they shouldn't be and how is it that restaurants can sell "unhealthy" beverages without charging the beverage tax--which, by the way, some restaurants are doing but apparently, they are not supposed to. This inequitable and confusing mandate of what's taxed, what's not, which businesses must tax, which do not is enough to make our heads spin. If we cannot give our kids healthy juices such as apple and orange juice, please tell me what else can we give them to drink besides water? So how will you achieve bridging the budget gap if people will not buy the products anymore? What will you do when people will now go to the neighboring counties to stock up on their drinks? What will you do when companies begin pulling their products at retailers in the county due to lack of sales? I have relatives in other counties and neighboring states who will also be helping me (and other members of the family) by purchasing drinks for my children's lunches and sports activities.

I also volunteer for many non-profit organizations and they said they are obligated to pay the beverage tax on these drinks that they purchase for their programs and events. How can they possibly raise funds when they now have to pay these exorbitant taxes? How are you helping the middle class? What is next? Tax on chips, candies, cookies, fast food chains, etc? I am all for promoting healthy habits, but this really isn't an effective way AND it will backfire. Cook County and Illinois are making it harder and harder for people to afford living here.

I hope you do the right thing and work to repeal this nonsense beverage tax.

I understand having to keep kids healthy but adding a tax to soda isn't going to keep kids or their parents away from it. So even if we steer clear of soda and go for an alternative healthy drink that is sweetened with stevia and adds no calories or water sweetened with natural no calorie stevia we are still punished with this tax. Many people have switched their shopping to Lake county to avoid this unreasonable tax.

Reports of the funds for this being used to give employees raises and other misuse is unreasonable. Repeal this tax immediately as constituents are extremely displeased with the way it was sold as a soda tax (and impacts non calorie drinks and coffees that adults drink) falsely, adds dollars to cases of healthy drinks and juices, and is being used completely inappropriately.

I would like for the sweetened beverage tax to be repealed. The law is unclear as written and we see that it's not being properly applied in some places. Proponents of the tax claim that the ordinance will help the people of Cook County, but instead it has already greatly impacted businesses — especially small, family-owned businesses like mine. I am usually all for "big government," but I also don't think it's the government's place to (metaphorically) tell me what I should or shouldn't drink.

The soda tax is a regressive tax that disproportionately targets people who are least able to pay.
Why not tax ALL BEVERAGES (coffee, water, pop, vitamin water) one cent for each drink, regardless of the size of the drink.

I drink soda, flavored teas & lemonades, flavored water & other beverages effected by this tax. Since this tax started being charged I have not purchased these items in Cook County. I have made my purchases in border counties & beyond. I even made purchases in other states. For work I used to purchase sodas & energy drinks in Cook County but a co-worker who lives in a border county will now be making the purchase for me. The tax is not stopping me from consuming these beverages. It is making me choose to make the purchase outside of Cook County. Find another way to make money instead of forcing your lifestyle views upon the hard working people of Cook County. Don't use people losing their jobs as an excuse. You need to change your way of spending & saving to make up for the loss. The people of Cook County are tired of being taxed.

This tax adds up fast. Hundreds of beverages, even beverages with zero calories, have been hit with tax rates of as much as 30% to 67%. Prices are even higher when you add on the existing state and local sales taxes on beverages. People should be considered smart enough to make their own decisions on whether they consume these beverages or not. This tax has not been determined based on my health. Cook County needs to find a legitimate way of paying its bills without taking money out of our pockets. I am currently spending more of my grocery money in Lake County just to avoid the beverages tax. Please repeal this tax!

Please repeal or modify the beverage tax. I think 1 cent per oz is extreme and 1 cent per 4 oz is fair. Also must remove natural sugar beverages and sports drinks from the tax. It should only include true soda pop containing added sugar and high fructose corn syrup as deterring obesity and diabetes is a just cause.

Our only income is that of Social Security. This tax on unsweetened beverages such as diet soda, water, etc is grossly unfair to those on a very limited income. Why not tax MacDonald's, Burger King, and the other fast food restaurants -- they are the primary reasons behind obesity. French Fries and grease those are the culprits!!! You are forcing me to go to Lake County (only a 15 minute drive for me) to do all our grocery shopping. Therefore you will not only lose all my grocery tax money, but also all my gasoline tax monies. I have talked to a lot of my friends and neighbors and they all feel the same -- Lake County here we come with our wallets!!!!!!!!!!!!

I don't understand the beverage tax.It's suppose to help help fight tooth decay and obesity in children. That i get. But while I'm sitting in a bar or restaurant having a cocktail that requires soda I'm getting the beverage tax. There are no kids sitting at a bar so what gives Just quit lying to us already . We all SEE Right thru it .ENOUGH IS ENOUGH already. Our country was built on tax rebellion and all we do is pay taxes. Give us a break already

To assume that imposing a sweetener tax upon the people of cook county is going to help in the fight of obesity in our young people is ridiculous! The portions and foods eaten and lack of exercise are bigger issues that are leading young people to be overweight and have medical issues. Impacting the small neighborhood stores, which is the primary resource for many can cause a bigger issue. Not just for the owner, but for the people in the neighborhood. Not to mention the people who work at these businesses that produce the beverages; loss of a job and benefits that support their families.

The Cook County Sweetened Beverage Tax as it stands is too harsh on middle class residents like myself! I especially live on a very fixed income and this just adds on to my burden. I also work in retail in Glenview and don't want to have to deal with anymore dissatisfied customers than I already do. Also, tell Michael Bloomberg I said to mind his own business and GET LOST!

County should look at doing some cuts of waist full spending before looking into increasing revenues. Specially Soda tax is completely unjust and unfair extremely high for poor consumers, who are already tired of paying one highest taxes in the country. If County do need to tax sugary drinks then at least charge percent like 5% of price instead of charging per ounce.

Q6 ACCOMMODATIONS: If you require additional assistance or special accommodations in order to participate in a hearing (for example, need language assistance, are a person with a disability), please let us know here, call 312.603.6127 or email us at cookcounty.board@cookcountyil.gov Intérpretes de lengua española estarán disponibles para los residentes que necesiten asistencia. The beverage tax is not going to address the issue of health for those on SNAP as they are not taxed. This will affect people of color. If the tax was not applied to sugar free beverages, then those who are affected would possibly be defaulted into a healthier option. As the tax merely represents bad government budgeting the issue is NOT health. Fix budgets and not continue taxing to run an inefficient system. Have the commissioners taken pay cuts? We are all doing so by oppressive taxation.

It's hard enough to be able to afford to allow our children to participate in sports but with this added tax which includes sports drinks you are making it more difficult. Some people might not buy them which could cause children and adults who participate in sports to become dehydrated and very sick . Please repeal the cook county beverage tax!!!!

I have already bought soda in Lake County and found that it is easy enough to do. I refuse to pay the tax and will continue to stock up in Lake County. While I am there, I am visiting many other stores and buying many other products that I would normally purchase in Cook County. This tax is disastrous for the retail business in Cook County.

The current ordinance is a fiasco, utterly failing in its stated purpose to advance public health. It penalizes no-calorie sweetened beverages, generally accepted as a good option for weight control. It also penalizes non-100% fruit juices such as cranberry cocktails, which have been proven to advance the bladder health of individuals with chronic infections. In our household, we call this tax the quadruplegic tax. The Commissioners should feel deep shame for tailoring a tax to directly disfavor the disabled, and should repeal this tax immediately.

I prefer the solution offered by the Chairperson when the courts temporarily enjoined this tax. Cut County budgets by 10% across the board. Decrease County employment by 10%. Stop putting public employee unions above the taxpaying population. Repeal the sweetened beverage tax!

Respectfully, most suburbanites do own automobiles, and we CAN take our business out of Cook County. I haven't yet paid a cent of this tax, and I intend never to do so! So Commissioners, you may keep my sales tax revenue, or you may keep your new tax, and lose my sales tax revenue to Lake County. The choice is yours!

the soda tax has created an unfair disadvantage to business that depend on soda revenue to pay their other taxes that burden Cook County tax paying businesses. we are over taxed and under represented. this will be reflected in my future vote for commissioners voting to support this tax.

This is one of the stupidest tax schemes I have ever seen.

You tax "sweetened beverages," even though there is zero credible evidence that artificially sweetened beverages are unsafe.

Secondly, I drink sugar-based beverages daily, and I am not fat at all, and (at the age of 73) I have no sign of diabetes or other diseases.

Thirdly, if sugar is so evil, why not ban fruit juice? Most juice is mainly natural sugar - just as bad as sugar pop.

Why don't you admit that this is just a tax grab for more wasteful spending? Why not lay off many politically appointed "workers" who don't do much work? Why not be honest enough to get rid of some programs that are not critical? How about fewer contracts given to politically connected companies?

MAKE DO WITH LESS FUNDING!!!

This tax is simply bad economics. It raises costs for Cook County residents and reduces revenue for Cook County businesses. Which will translate to fewer jobs for those same residents as businesses cut hours, move, and/or fail. And yes, all three of those things will happen - restaurants in particular depend on beverage sales, folks.

And no, taxing soda will not improve anyone's health. Parents who can't say no to their kids aren't miraculously going to become effective family fitness managers just because soda is expensive.

And lastly: I am a lifetime Cook County resident. But the more time I have to spend going to other counties to buy basics like diet soda, the more attractive it looks to just move. That's ridiculous! Please get rid of this community-destroying tax and spend your time reducing spending instead.

Cook county taxpayers are already overtaxed. We are also taking home less money per paycheck based on the IL tax increase. This tax only exacerbates the problem and it hurting business on the county borders. Also, if it is called a sweetened beverage tax, why are diet sodas also taxed? And food stamps recipients are exempt.

Cook county taxpayers already pay higher taxes than surrounding counties. All of us are also taking home less money per paycheck based on the IL tax increase last month. This added tax only exacerbates the problem and it already hurting business on the county borders. Also, if it is called a sweetened beverage tax, why are diet sodas also taxed? And food stamps recipients are exempt. I don't think it will do anything to curb childhood obesity, which is the supposed reason for the tax. Illinois, and especially Cook county, are getting harder and harder to afford.

We have all had to tighten our belts when funds are limited. Implementing a poorly planned and burdensome tax (and then trying to justify it as beneficial to our children's health) is just wrong. Those than can afford to will shop outside the county. There are no "health benefits" for our poorest as SNAP recipients are exempt.

It is my belief that Cook County residents are taxed more than their fair share as is, and solutions must be found for the board to work with the dollars they currently have.

The sweetened beverage tax is a healthy source of revenue for Cook County. Sugary drinks are the number one source of added sugar in the American diet. Evidence demonstrates that decreasing consumption of these drinks reduces the prevalence of childhood obesity and costly obesity-related diseases, such as type 2 diabetes.

This tax will encourage healthier drinks while also providing needed funding for the County. Eighty-seven percent of the County's budget goes toward its Health & Hospitals System and to public safety services like providing public defenders. Cook County has committed several hundred thousand dollars to community health improvement grants via the Cook County Department of Public Health.

The beverage tax is an overreach of governmental power. Not only is it a specious attempt to legislate "good health" (even sugar free beverages are taxed), it's simply a dishonest approach at taking more money out of the pockets of normal citizens to throw at Cook county's never ending debt crisis. This tax was a bad idea for New York and it's a bad idea for Chicago.

This tax is harming this county and its businesses more than it helps. I think we all could have gotten on board with a ten cents per can/bottle tax but when you make it this large this fast you turn people against you fast.

Oysterboysteve@aol.com This tax is unfair to Cook County residents and businesses. We are already being hammered by an increase in state income taxes, through the roof property taxes, and general sales taxes. Enough is enough.

This tax is not to support better health initiatives. If it were it would not have included numerous of the beverages of her being taxed. If the board of commissioners was really interested in better health for its citizens then it would instead adopt a tax on cigarettes triple the amount that they are now. The stacks is nothing but another way of spending hard earned tax payer dollars.

Taxing sugar free sodas like Diet Rite Cola, that has no sodium, caffeine nor sugar is simply indicative that this tax is no more than a money grab by Cook County.

This tax on soda pop is outrageous. I drive to Lake County now to make my purchases. Prewinkle has no idea how to run Cook County government.

I am a resident of Cook County and I do not believe that this tax is justified. Moreover, the people of Cook County already have very high taxes; we need a break, not another tax. Finally, I'm a restaurant owner in Cook County, and since this tax took effect, my business has lost 11% in guest counts and 13% in gross revenue (my business was previously trending a 4% sales growth).

Last time a Democrat insulted the intelligence of the voters she lost to Trump. Illinois already have the highest real estate tax, sales tax, tolls everywhere, gas tax, parking meters fees everywhere, red light cameras at every corner, the bag tax, now the beverage tax. Each time I see my grocery bill or see another stupid commercial ad hailing the beverage tax as fighting obesity initiative reminds me to vote Republican at the next election for a change because everyone knows that the beverage tax is a way to steal more money from the middle class to fund wasteful spending. Everyone in this room knows it and the voters knows it.

Consumption of SB contributes to dental caries, type 2 diabetes, and obesity in children

The burden on our healthcare system at treating these conditions, instead of preventing them, costs all of us millions of dollars every year, not to mention their lifelong impact on the lives of these children

Childhood obesity remains an epidemic, disproportionately affecting children of color and families living in poverty. Rates of obesity in Norwood Park average only 10%, while children living in Roseland, Humboldt Park and Englewood average obesity rates of 40-50%.

Advances in brain imaging have allowed us to witness the activation of reward centers in the brains of obese children given sugar sweetened water. This study, and others like it, strengthen the case that sugar has addictive properties much like tobacco and alcohol. Taxation on tobacco and alcohol has proven to be an effective public health strategy at reducing consumption. Studies on other communities, throughout the world, has proven that taxation on SSB's is an effective way to reduce consumption of these products as well.

I hope that our County Board will join the AHA, AAP, the NEJM, and the WHO in recognizing the value of taxation of SB as a public health strategy to reduce consumption of these products to create healthier communities throughout Cook County. Healthier communities benefit all of us.

The Sweet Liquids tax is unfair, onerous and in my case, detrimental to my health. I am a diabetic and an important part of my diet includes drinking diet cola. My endocrinologist will support this contention. While I'm sure it's not the intent of the tax, in my case, and many others like me, the effect of the tax is to punish us for trying to manage our condition using, among other foods, sugar-free cola. In our case, such soft drinks are not unhealthy. Quite the contrary. Surely there is an even-handed tax that the Board could pass to generate revenue.

Illinois is so poorly run that even though I love my home and much of what Chicago and Evanston have to offer, the communist tendencies of this state have left me no choice but to flee to saner pastures. My property taxes have increased to prop up schools I wouldn't send my child to, I pay fees for the beach in my front yard, I pay fees to use the roads, to park at my home, to park to run in to the store, etc, etc... Chicagoland is great for poor people and great for rich people, but doesn't care at all about the middle class.

In particular this insipid sin tax doesn't hurt the poor because they're on assistance and it doesn't hurt the rich because nothing does. What it does is ruin my ninety nine cent morning Diet Coke because I know darn well politicians are just stealing from me. And Gatorade? Seriously? Why don't you just tax the air I breathe?

I am leaving illinois in 2018 simply because it's run so poorly. I'm no great loss, I understand that. But I have many upper-middle class friends who are planning similar moves to less hellish states. Worry more about gangs and shooting and less about skimming off my diet Cokes!

The tax is not fair. People, who have food stamps, do not have to pay it. If as they advertise, it is to have healthier children, don't they care about the children with families that have food. Stamps? Flavored water & tea that have no sugar are also taxed. I am a senior citizen. My husband has dementia and the one thing he will drink is root beer. He is in the last period of his life and is being denied this, due to this tax. Cut some unnecessary public offices.

I support a small tax on sugary drinks, but feel the tax imposed is excessive and negatively impacts many small businesses. It needs to be amended.

I now do my weekly grocery shopping in Highland Park to avoid the soda tax. I can afford it, but refuse to. I would have more respect for the board if they acknowledged this is simply a new tax to balance the budget. It's not about health.

I would have favored a tax where the tax was actually used for a specific purpose like school lunches but not just to bolster the Cook County's budget. You need to either cut your budget or figure out another way to meet you budget means.

I support the permanent repeal of this overreaching tax. It is time for Cook County to operate within a sound budget. Shrink operating costs the way we have to in our individual households when our debts have exceeded our income. It is time to cut costs drastically, Cook County.

The Beverage Tax should be repealed. It is overreaching and confusing. We are already Taxed enough in Cook County. You need to find another way to meet your buget problems.

I have been a type 1 diabetic all my life, now for 50 yrs. My one sister died from it at 1-1/2 yrs old, other sister got it at 3 yrs old, the other at 9 months. We never got it by drinking sugared soft drinks as Bloomburgs commercials are stating. The tax is unfare for myself who only drinks unsweetened or artificially sweetened juice, water, or soda. I get tired of drinking water and dont like or drink tea or coffee, so my choices are very limited. Why now must I drink less to avoid your sugar tax to live within my income. I don't see Cook County living within their budget. You keep spending and spending without living within your means, but for me to enjoy a Diet Coke or glass of orange juice to get me out of diabetic shock will cost me an extra 64 cents to keep me alive. I will not pay additional County tax and WILL drive to Lake Cnty to buy all my food and groceries. Please repeal this tax, live within your means, quit spending money you don't have and quit taxing all of us for your mismanagement of funds. Wake up Commisioners.

The Cook County soda tax has been poorly thought out and adversely affect small business and responsible adults who drink sweetened beverages. The notion that this tax is ablut stopping kids from drinking sweet drinks would be valid if the taxes didn't include Diet drinks which children don't drink. This ordinance needs to be completely repealed and replaced with a flat percent tax instead.

The Beverage Tax is a violation of the inalienable right to life in the United States as water and beverages are singularly life sustaining above all other elements. The consideration of a tax on such is reprehensible, wrong and unconstitutional. Anyone supporting said tax should be, and voters have demonstrated; be removed from office. Taxes on this matter collected to date should be credited back to the tax payer via the 6 month reduction or elimination of all related county taxes without question.

Ia am tired of local governments dictating what is good for me ! Using "health Related Issues" to oppress me through taxation that is prejudicial in it's application, and arrogant, fraudulent, and self-serving in it's effort to enhance the President's "fiefdom" mentality and governance! I also protest the use of "tainted" outsider political type funds in an effort to overwhelm local self governance, by the people who are to be most affected ? Ms. Periwinkle's moral standing and public position must be truly weak, faulty, and self-serving that it can stand local scrutiny. Mr. Bloomberg"s nose and money should remain in New York !

I urge you to repeal the beverage tax. As a cook country resident, I find the new county tax on sweetened beverages to be excessive and unfair to consumers. I have a weight problem and drink diet beverages, yet these too are taxed. We pay the highest amount in sales tax in the United States. This new burden is especially painful. A 12 pack of canned diet soda which can be purchased on sale for \$2.50-\$3.33 now has an additional \$1.44 tax; approx. 50% of the cost. It is ridiculous and the stated reason to improve health of Cook county residents is equally ridiculous. I am now purchasing my beverages in Lake County which will diminish earnings of merchants in Cook County.

Please pass these bills and end this excessive and unfair taxation.

Time to can the tax on beverages. This is not what is making children have diabetes and such illnesses. There are other factors that cause that. What about children that want to drink lemonade or grape juice. This tax is just a way to make extra money. It needs to be stopped.

If you were serious about this problem you wouldn't allow "soda" to be purchased and then "untaxed" when using "food assistance" programs. Seems "discriminatory" to me to tax only one segment of the population! And "FYI" I don't even drink any of the products you are unfairly taxing.

This tax is un-evenly applied to the taxpayer with some soda and sugar items taxed while others are not. I protest Against this tax. This is one more tax overwhelming the average Chicagoan. And it does not fix any of the city problems. Fix the budget , pensions by modifying your spending and not adding taxes. I am all in favor of reducing services and decreasing payrolls and pensions. Quit spending money we don't have. The soda tax must be repealed! Enough already. Reduce the size of the city's government

I feel this beverage tax is an over reach of government. I am able to make healthy choice decisions for myself and my children. I do not need county government to instruct me. In addition many beverages are misplaced as sugary drinks thereby further infringing on my right to make those decisions. What is next? Taxing meats based on their fat content to avoid high cholesterol in the population? The cook county forest preserve just cut through a forest area destroying many trees to put in a bike path that cuts across a very busy n dangerous intersection of central ave between Elston and Devon. This to connect a bike path to an already existing one that begins at Caldwell and Devon.

The bike traffic that I have noticed has been minimal as there are already bike lanes on Milwaukee ave. The project had to cost thousands. Perhaps those funds should have been used to make up the never ending budget crisis instead of catering to a small segment of the population for a limited seasonal usage!

I support the effort to repeal the Cook County Beverage Tax as it is overly oppressive and broad. Although fighting childhood obesity is honorable, when this tax even applies to prune juice it seems obvious that it is not well applied. Please reconsider the existing tax for some more targeted and appropriate type of revenue.

Q6 ACCOMMODATIONS: If you require additional assistance or special accommodations in order to participate in a hearing (for example, need language assistance, are a person with a disability), please let us know here, call 312.603.6127 or email us at cookcounty.board@cookcountyil.gov Intérpretes de lengua española estarán disponibles para los residentes que necesiten asistencia. Repeal the soda pop tax. I have already started shopping in Lake County and Indiana. I will not pay this ridiculous tax. While in Indiana last week I purchased two pair of slacks, flavored water, Coke, gas, vitamins, a top and a pair of shoes. Think of the money I saved in taxes (Indiana is 7%) and what Illinois lost mainly because of the soda pop tax. You are driving me out of Cook County and Illinois.

How much of this money will go to fight diabetes and obesity?

I think the Commissioners should consider a program to teach MOM'S how to feed their children properly and nutritiously. The Commissioners also have to be taught sugary drinks are not dangerous to health when consumed in moderation. Bottom line it's just a money grab because of tax and spend, tax and spend policies.

I'm writing to express my strong support for REPEAL of the Cook County Beverage Tax.

It is quite obvious that this disingenuous tax is not only insincere, but also a thinly veiled cover for years and years of irresponsible financial management on the part of the county.

I am a healthy adult male in very good shape - not overweight. And yet I'm being disproportionately charged for the county's long history of poor management. No wonder folks are moving away from the Chicago-area in record numbers.

I am HAPPY to pay taxes to support necessary services. This definitely includes a reasonable, fair HONEST tax INCREASE. If we are broke, say plainly "we are broke - and we ALL need to kick in a bit more to provide essential services." 1 cent sale tax increase across the board for all of us? Fine. Small county increase in income taxes? Okay. Better yet, an increase in a PROGRESSIVE, FAIR income tax? Definitely. But this tax is:

1. Dishonest. We know - and YOU know - that this is NOT primarily about public health. If it was, it could - and should - be changed in lots of ways. As just a single example, sugary beverages are one thing. But ZERO calorie beverages are something else entirely. The research on these beverages is inconclusive at best. And if you eat well, exercise, and drink zero calorie beverages, these low calorie beverages will not make one obese. DIFFERENTIATE BETWEEN HIGH CALORIE/HIGH SUGAR BEVERAGES and LOW/ZERO CALORIE BEVERAGES. That would at least make this appear to be slightly less disingenuous.

But the current over-reach stance is further evidence of how dishonest this money grab is. Plus, it plays right into the narrative that elected officials aren't honest/can't be trusted - which is exactly the WRONG message we need to be cultivating in our civic spaces right now!

I had much higher hopes for the savvy and humility of this group. I am truly disappointed. (On the upside, every time I consider buying my usual carton of low calorie orange juice at the store (and then decide not to because I don't want to support this dishonest tax) - it does remind me how important it will be to elect new commissioners.)

2. Too much. In addition to being totally inconsistent in terms of what beverages should be included - it's also far too much money. I know that whatever "sin tax" clinic that Michael Bloomberg and company sold to our commissioners instructs them that it needs to be very high to impact behavior - but, a far more reasonable approach would be to restrict the tax to HIGH SUGAR/HIGH CALORIE beverages only - NOT low or ZERO calorie beverages, fruit juices and teas, and secondly to make it a more REASONABLE tax. Oh, you'll pay an extra nickel for a coke, dime for orange juice, or quarter for a case of soft drinks? Frustrating maybe, but begrudgingly, tolerable. However, in most cases, 35-85% of the cost of an item? Ridiculous. And dripping with nanny-state pretension and arrogance on behalf of this body.

3. Unfair. Finally, if you're going to do it, apply it to all folks equally, including folks who receive public assistance. I hate to say this, as I have tremendous empathy for folks in these situations. And this tax already disproportionately effects folks who can least afford to pay higher taxes (how about a tax on high income folks - rather products bought in high quantities by low and middle income folks?). But, if you must maintain this obviously false narrative, at least include the folks who are least able to afford alternate choices (and as such, have to drink unhealthy beverages and are in turn most impacted, health-wise).

In closing, I want to restate my disappointment and disillusion with this body. Though I would typically tend to agree politically with many of the commissioners who supported this tax (I had been a strong previous supporter of several of these specific commissioners), I will work fervently to not only vote against supporters of this policy in future elections, but to also rally friends, neighbors, and others to vote AGAINST each of the commissioners who continues to support this dishonest/poorly thought out/disproportionate tax.

You should be ashamed of yourselves for allowing this tax. Parents should get off their asses and regulate their sugar intake as well as that of their children. What is wrong with you?

This is THE ONLY tax in Crook County that addresses the issue at hand. Our responsibility is for the welfare of our most vulnerable populations. Even a study from Harvard supports this initiative and its goal to fight chronic illnesses aligned with obesity. If you allow the taxation of healthy beverages such as water, you should in good conscience support the taxation of harmful beverages like pop and other sugary beverages!

People before corporations and making money for big businesses that are systematically killing Latinos, African Americans and the working poor at the highest percentages. My community wholeheartedly support the taxation of sugary beverages and applaud its entire designation is allocated in its entirety to Public Health - FINALLY!

Those in opposition to this tax should find another job because we will remember how our health and well being was not your priority!

This tax needs to continue its implementation for the positive health outcomes of all Cook County residents that are fighting obesity related issues especially our youngest populations. The welfare of Cook County should be at the forefront and the resounding message that financial gains will not be permitted at the cost of our livelihood should be the message. There are healthier ways of creating financial wealth while not jeopardizing its citizens or putting us at risk for chronic illnesses. People before the ill gotten gains of the corporate world that doesn't worry about rising healthcare costs.

tax is fraudulent, reasons disingenuous, poorly implemented people-most affected by sugar aren't penalized. It's not equally applied across food service providers (ie. Starbucks, similar)

I live in Cooc County but have family that lives near Lake County. I have been buying my pop in Lake County and also the majority of my groceries. I feel the beverage tax is unfair and, therefore, will make most of my purchases in Lake County. Why is pop taxed instead of candy? I mostly drink zero calorie Vitamin Water but refuse to buy it in Cook County. If this tax stays in place, I will look for those who supported the tax the for the next election.

I think this ridiculous tax should never have been approved in the first place. I do not think it will make any difference to childhood obesity; the only difference it will make is to the amount of money we have left in our pockets at the end of the day.
