Re:	Request for Information from FY2022 Budget Hearing
Date:	November 3, 2021
CC:	Ammar Rizki, <i>Chief Financial Officer</i> Office of the Chief Financial Officer
From:	Annette C.M. Guzman, <i>Budget Director</i> Department of Budget & Management Services
То:	Honorable John P. Daley, Chairman, Finance Committee

The following information is provided in response to questions posed at department budget hearings during the week of October 25, 2021.

I. Request ID #1014-01

Commissioner Sean Morrison requested a current list of all vacancies in the County.

Response:

Per your request, please see attached for a list of current vacancies in the County. This list was pulled as of October 25, 2021. Please note, the vacancy list provided is a snapshot in time. It changes daily depending on the hiring activities of each employer, as well as, employee attrition.

II. Request ID #1014-02

Commissioner Johnson requested clarification on how workers' compensation is calculated.

Response:

The County retains a third party, Aon, to perform an annual actuarial assessment of the County's workers' compensation liabilities. Aon reviews historic workers' compensation claims, claim payments (indemnity, medical, and expenses associated with each claim) and payroll information as well as completed net recoveries at the close of each fiscal year and subsequently projects future claim costs. The "Actuarial Study of the Workers Compensation and Liability Self-Insured Programs" report is presented to the Board of Commissioners.

FY2022 total projected workers compensation claim costs within the general and special purpose funds are \$45,235,918. This amount is allocated to departments with a three-year average claims amount exceeding \$50,000 based on the percentage of total claims (departments below the three-year average of \$50,000 amount as well as outlier claims are dropped from the analysis). The County remains self-insured for all workers' compensation claims.

If you would like to discuss workers' compensation claims administration, please contact Deanna Zalas, Department of Risk Management Director.

As always, please let us know if you have any additional questions.
