

# **Our Asks...**

- 1. Continue to seek to better understand all diverse residents across our cities, counties, and state.**
- 2. Support legislation that advocates for marginalized communities - we can provide briefings**
- 3. Consistently provide support necessary to ensure safety and access to resources is provided to new Afghans in Cook County and Illinois, as well as to all displaced individuals coming to our nation.**

# Cook County Communities...

- One of the most diverse and largest counties in the nation!
- Growth in Latinx, Asian, and Multi Racial residents
- “White” includes Arab and Middle Eastern residents
- “Black” includes both African Americans and African Immigrants
- “Asian” second level data on ethnicity (Indian, Vietnamese, etc) available soon from Census
- Black population stable - decreased in Chicago (but increased in other cities across the County)
- Diversity in areas such as Albany Park, South/West Loop, North / Northwest Suburbs, Southwest Suburbs are not clearly understood

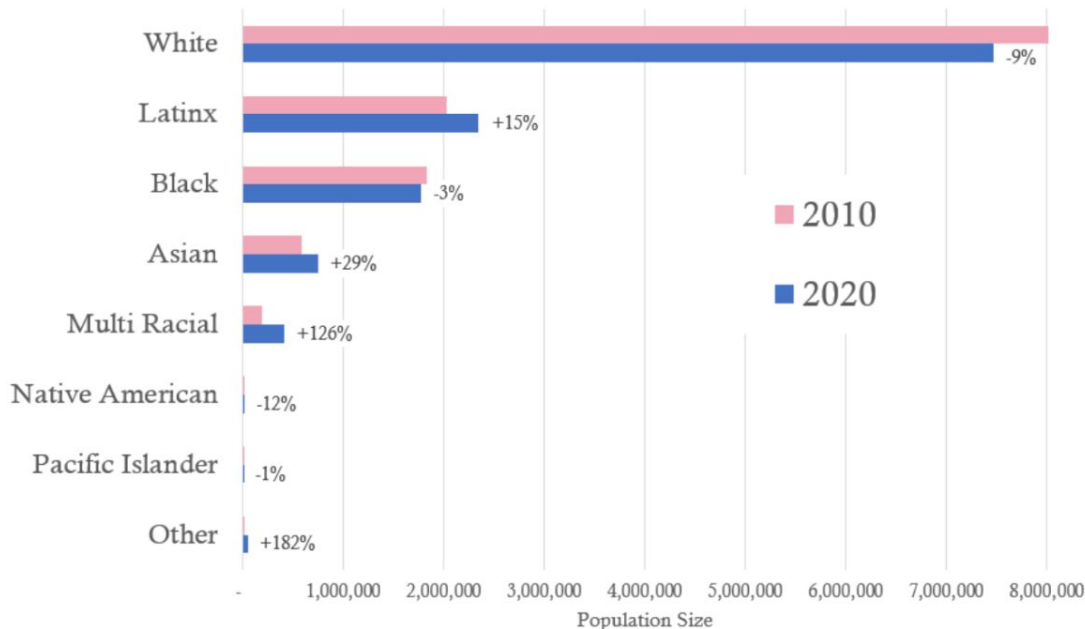

More equitable resources, representation, and deeper assessments are necessary

Cook County can address these issues now!

# ILLINOIS POPULATION CHANGE

State of Illinois,  
Population Change from 2010 to 2020
