## CCH Monthly Report to the Cook County Board of Commissioners February 2022

# Administrative & Legislative Updates

Presented to the Cook County Health Board on 1/28/2022

#### Administrative Updates – CCH Employee Recognition

- The week of January 16<sup>th</sup>, Cook County Health re-opened three of its mass vaccination sites. The goal of the mass sites is to make the COVID-19 vaccine easily accessible for individuals who are having difficulty finding an appointment or want the convenience of being able to walk into a community site. A large team of Cook County Health staff worked together to quickly set up the sites, with support from Cook County and the State of Illinois. The three sites in Des Plaines, Forest Park and Matteson have administered more than 5,200 doses of vaccine since re-opening. About 19% of those shots were first doses and 78% were booster shots. Our mass vaccinations sites and community vaccination program have been instrumental in helping vaccinate Cook County. More than 965,000 doses have been administered. Cook County Health's mass vaccination program was recently recognized with the Chicago Health Executives Forum (CHEF) and the American College of Healthcare Executives (ACHE) Award in the category of service excellence. Activating mass sites requires a large, well-coordinated team. In addition to our partners from the President's Office, the Bureau of Asset Management, the Cook County Department of Emergency and Regional Security, dozens of CCH team members rallied working evenings and weekends to operationalize these sites.
- Thank you to the entire team who made these sites possible, including the following individuals for their important contributions:
  - Iliana Mora, Chief Administrative Officer, Ambulatory Services
  - Josh Ablis, Director of Project Management and Operational Excellence
  - Jackie Boone, Patient Services Director
  - Sherman Bunch, Vaccine Site Manager
  - Claudia Burchinal, Director of Ambulatory System Operations and Business Development
  - CaTrice Groves, HR Operations Manager
  - Kate Hedlin, Communications Manager
  - David Herrera, Senior Contract Specialist
  - Dr. Greg Huhn, Vaccine Lead
  - Charles Jones, Chief Procurement Officer
  - Ratna Kanumury, PA, Executive Director of Ambulatory Operations, Specialty Care
  - Amy Looi, Director of Clinical Informatics
  - Kathy Lorenc, Director of Strategic Sourcing & Procurement
  - Darnel Marsh, Manager, Desktop Support Services
  - LaTrice Moore, Assistant Administrator
  - CaTanya Norwood, PharmD, System Director of Pharmacy
  - Marisol Nunez, ACHN COVID Vaccine Program Lead and Clinic Manager
  - Alisha Patel, Assistant General Counsel
  - Bryan Pravel, Technology Information Officer
  - Dr. Nimmi Rajagopal, Associate Chair of Family Medicine
  - Dan Ruiz, Director of Materials Management

#### Administrative Updates – COVID-19

- After several weeks of significant increases, inpatient admissions for COVID are decreasing as are cases at the jail. Daily briefings with the management team continue to monitor bed capacity, staffing and supplies
- Cook County Health continues to offer COVID vaccination to employees, patients and the community. CCH has administered more than 960,000 vaccine doses to date and recently reopened its mass vaccination sites in Matteson, Forest Park and Des Plaines.
- CCH and CCDPH are distributing KN95s to the general public through mass sites, CCH community health centers, community-based organizations and more. CCH will hold a mask awareness day at Matteson on February 2.
- Both CCH and CCDPH continue to offer vaccines, including booster shots, in the community. A full list of locations, dates and times can be found at https://myshotcookcounty.com/locations/.

#### Administrative Updates – Activities and Announcements

#### **Behavioral Health**

- On January 25<sup>th</sup>, Cook County Board President Toni Preckwinkle, CCH CEO Israel Rocha held a press conference to announce a five-year \$2.6 million grant to CCH fund opioid use treatment programs from the US Department of Health and Human Services (HHS) Substance Abuse and Mental Health Services Administration (SAMHSA). Project REACCH-OUT: Rapid Engagement and Access at Cook County Health for Opioid Use Treatment will provide funding to enhance the treatment and recovery of individuals diagnosed with opioid use disorder (OUD) and substance use disorder (SUD) by implementing a rapid access, low-barrier and high-capacity bridge clinic in the Illinois Medical District.
- The bridge clinic be a safety-net for people struggling with OUD and SUD who are in between care settings such as leaving jail or a hospital and in need of health care services, people returning to care, or those without an ongoing relationship with a health care provider. A combination of in-person assessments, telehealth visits, and outreach and community events will be used to engage patients.
- The clinic will offer medication-assisted treatment (MAT) services for vulnerable individuals who are unable to access immediate services and are therefore at a higher risk of relapsing or overdosing after a period of sobriety. The aim is to serve 160 people during its first year and 240 each year following.

#### **Food As Medicine**

- As access to healthy food remains a great need for our patients and communities, the Fresh Truck partnership between Cook County Health (CCH) and the Greater Chicago Food Depository (GCFD) continues. The onset of the COVID-19 pandemic required CCH and GCFD to develop and implement revised protocols for the Fresh Truck distributions that allow for appropriate screenings and social distancing to protect patients, as well as CCH and GCFD staff and volunteers. These revised protocols are in place until further notice.
- Through mid-January 2022, CCH's Fresh Truck partnership with the Greater Chicago Food Depository (GCFD) resulted in 367 visits to CCH health centers Arlington Heights, Austin, Blue Island, the CORE Center, Cottage Grove, Englewood, Logan Square, North Riverside, Provident/Sengstacke, Prieto, and Robbins.
- Collectively, the Fresh Truck distributions have resulted in the provision of fresh fruits and vegetables, as well as some shelf stable items during the COVID-19 pandemic, to an estimated 41,304 households, representing 136,305 individuals, totaling more than 928,400 pounds of food. Most of the individuals benefiting from the Fresh Truck screened positive for food insecurity at a CCH health center visit.
- The GCFD's Fresh Food Truck visits for the month of February include the following ACHN Health Centers.
  - February 1 North Riverside Health Center 1800 S. Harlem Avenue, North Riverside, IL 60546
  - February 3 Austin Health Center 4800 W. Chicago Avenue, Chicago, IL 60651
  - February 8 Cottage Grove Health Center 1645 Cottage Grove Avenue, Ford Heights, IL 60411
  - February 15 **Robbins Health Center -** 13450 S. Kedzie Avenue, Robbins, IL 60472
  - February 17 Englewood Health Center 1135 W. 69th Street, Chicago, IL 60621

#### Administrative Updates – Community Advisory Councils

- Cook County Health Community Advisory Councils (CAC) include patients, community and religious organizations and serve as a way to promote our services in the communities where our centers are located. The Councils provide feedback to our staff and help strengthen our health center's relationships in the community. The councils meet quarterly to provide current information on Cook County Health and as an avenue for members to share information about their organizations.
- During the First Quarter of 2022, topic presentations include Patient Experience, the Cook County HIV Integrated Programs (CCHIP), and Social Work. In addition, updates on Cook County Health, Covid-19 Vaccination and Community Outreach are provided. Each clinic also does an update on its operations at the meeting.
- Upcoming CAC meeting dates, including the 2022 schedule:
  - Cottage Grove: Tuesdays at 1:00 PM: January 25, April 26, July 26, October 25 1645 S. Cottage Grove Avenue, Ford Heights, IL 60411
  - Provident Hospital/Sengstacke Health Center: Wednesdays at 9:00 AM: January 28 (Friday), April 13, July 13, Oct. 12 500 W. 51st Street, Chicago, IL 60609
  - Blue Island: Wednesdays at 1:00 PM: February 16, May 18, August 17, November 16 12757 S. Western Ave., Blue Island, IL 60406
  - Arlington Heights: Tuesdays at 1:00 PM: February 22, May 24, August 23, November 29 3520 N. Arlington Heights Road, Arlington Heights, IL 60004
  - Robbins: Tuesdays at 1:00 PM: March 8, June 14, September 13, December 13
     13450 S. Kedzie Road, Robbins, IL 60472
  - North Riverside: Wednesday at 1:00 PM: March 16, June 15, September 14, December 14
     1800 S. Harlem Avenue, North Riverside, IL 60546
  - Englewood: Thursday at 1:00 PM March 17, June 16, September 15, December 15 1135 W. 69th Street, Chicago, IL 60621

#### Legislative Updates – State

- Legislators were scheduled to return to Springfield for in-person session on January 4. However, due to the surge in COVID-19 cases, both chambers cancelled nearly all in-person session days this month. Virtual committee hearings have been taking place, with more than 1700 new bills filed in the House and Senate over the last few weeks. The House and Senate are now scheduled to return to Springfield on February 1, with the Governor's State of the State and Budget Address scheduled for February 2. House and Senate leaders have said that they intend to stick with their original schedule for committee and final bill passage deadlines, with April 8 as the last day of the spring session.
- Based on feedback from operational and clinical leadership, Cook County Health will be leading or co-leading two legislative efforts in the Spring 2022 session.
  - <u>SB3695</u> (Sen. Jacqueline Collins) / <u>HB4642</u> (Rep. Robyn Gabel) Amends the Freedom of Information Act (FOIA) to update the definition of "medical records" to include electronic medical records and HIPAA protections to ensure that the private health information of CCH patients cannot be subject to public records requests.
  - <u>SB3734</u> (Sen. Mattie Hunter) / <u>HB4645</u> (Rep. LaToya Greenwood) Creates the Equity and Representation in Health Care Act, which creates a new loan repayment and scholarship program to promote diversity among health care providers when it comes to race, ethnicity, or other demographics. This Act will also build and strengthen the workforce at community-based provider locations that serve a high-proportion of Medicaid and uninsured patients, specifically at FQHCs, FQHC look alikes, and provider locations operated by CCH. A separate bill also requests a \$50M appropriations to support the scholarships, loan repayments, and program operations. CCH co-leads this effort with the Illinois Primary Health Care Association, which represents FQHCs statewide.

#### Other bills of interest CCH supports include:

- HB4437 (Rep. Delia Ramirez) Expands Medicaid to adults 19-54 years with income at or below 138% FPL, regardless of immigration status. Healthy Illinois leads this effort.
  - Healthy Illinois successfully advocated for coverage for immigrant adults 65+ years, which began December 2020, and coverage for those 55-64 years, which will begin no
    later than May 2022.
- <u>SB3632</u> (Sen. Doris Turner) / <u>HB4264</u> (Rep. Greg Harris) Getting To Zero Omnibus, which includes a \$15M appropriations request that will support increased access to and uptake of PrEP, keep more people living with HIV in care, and continue funding for supportive services. This is an initiative of the AIDS Foundation of Chicago.
- The Illinois Department of Healthcare and Family Services proposed rules for the new Health Benefits for Immigrant Adults program, which will expand Medicaid-like coverage to noncitizen adults 55 through 64 years who meet Medicaid income requirements (household income less than 138% FPL). This expanded coverage was authorized through language included in the FY2022 Budget Implementation Bill (SB2017 / PA 102-0016).

The program start date is expected no later than May 2022. Individuals will be able to request up to three months of backdated coverage, so coverage and reimbursement could be available as early as February 2022.

While most of the rule mirrors the structure of the 65+ expansion that has been in place since December 2020, the rule includes language that would continue to exclude long term care as well as home and community-based services from coverage for this population. CCH is reviewing the proposed rule and expects to submit comments supporting the expansion, while encouraging HFS to provide this newly eligible population with a comprehensive benefits package.

#### Legislative Updates – Federal

#### FY 2022 Budget and Reconciliation

- On December 19, 2021, Sen. Joe Manchin (D-W.V.) released a statement declaring that, despite months of intraparty negotiations, he would not vote for the Build Back Better Act (BBB), citing his more pressing concerns over federal debt, inflation and the rapidly spreading COVID-19 omicron variant. Manchin's statement effectively scuttles any chance for successfully advancing even a pared-down version of President Biden's human infrastructure legislation for the time being. While Democratic leaders pledged to continue working on a path forward on BBB, the Senate pivoted to focus on voting rights legislation in January.
- The County is exploring what may be possible through another legislative vehicle or a slimmed down BBB for its priorities, including:
  - **Medicaid Reentry Act:** This provision would permit Medicaid to reimburse for services provided to Cook County Jail inmates during the 30 days prior to their release.
  - **Public Health Infrastructure:** Funding to support core public health infrastructure activities to strengthen the public health system through grants to state, territorial, local, or Tribal health departments, including direct funding for large county public health departments.
  - **Maternal and Child Health:** The "Momnibus" provisions to require states to cover pregnant women for a full twelve months postpartum and make investments to reduce inequities in maternal health outcomes and strengthen the maternal health workforce.
  - Safety-Net Hospital Infrastructure: Grants for construction or modernization projects to increase capacity and update safety-net hospitals and other medical facilities

#### Appropriations

- The parties are still deadlocked on the top-line FY 2022 funding levels for defense and non-defense discretionary spending. Having said that, "four corners" negotiations (i.e., the chairs and ranking members of the House and Senate appropriations committees), have resumed with the goal of completing an FY 2022 omnibus appropriations bill by February 18, 2022, when the current continuing resolution (CR) expires. Appropriators are hopeful that they can reach agreement. One incentive to find a compromise is that there is bipartisan interest in delivering the hundreds of congressionally directed local projects (aka "earmarks") requested by Members and approved by the committees. These include a grant to CCH for an EMT apprenticeship program, requested by Sen. Durbin.
- At the same time, conversations have begun on the Hill around the potential for an additional emergency supplemental appropriation to address COVID-19 needs which emerged during the delta and omicron surges. The White House has not yet submitted a request, but it would likely need to do so in time to be considered in conjunction with the FY 2022 omnibus. Leaders would like to complete FY 2022 annual appropriations, including a supplemental, before the March 1 State of the Union Address and the FY 2023 budget request which would be expected to follow shortly after the speech.

#### **Medicare Cuts**

• Hospital organizations are already calling on Congress to extend the delays enacted in early December. The legislation delayed the 2 percent cut to Medicare rates through March 2022 and a separate 4 percent Medicare cut totaling about \$36 billion to 2023.

#### Legislative Updates - Federal (cont.)

**Biden Administration** 

- On December 21, the White House announced an updated COVID strategy including that 1,000 military doctors, nurses, paramedics, and other personnel would be deployed by FEMA to hospitals in January and February as needed. The Administration also announced that it would purchase 500 million at-home tests to mail to Americans beginning in January via a website and open new federal testing sites.
- Before the end of the year, HHS began to distribute approximately \$9 billion in CARES Act Provider Relief Fund (PRF) Phase 4 payments. According to HHS, due to many applications being submitted and processed, some providers' payments have been delayed. Hospital organizations are calling on Congress to require HHS to release the remainder of the PRF funds and to provide up to \$25 billion in additional PRF funds to address the impacts of the delta and omicron surges.
- On January 4, the Administration announced it had doubled its purchase of Pfizer's Paxlovid from 10 million to 20 million courses. They expect to have the first 10 million courses delivered by the end of June, with the remaining 10 million courses delivered by September.
- Paxlovid was authorized by the FDA on December 22 and Merck's oral COVID-19 therapy, molnupiravir, was authorized the next day.
- On January 13, the U.S. Supreme Court ruled that the Administration's OSHA regulations requiring large employers to enforce a vaccine or test mandate for employees exceeded the agency's authority. At the same time, the Court upheld the authority of CMS to issue a vaccine mandate for health care providers.
- On January 14 HHS Secretary Becerra extended the COVID-19 Public Health Emergency (PHE) for an additional 90 days. It was set to expire on January 16. Among other things, the enhanced Medicaid federal medical assistance percentage (FMAP) of an additional 6.2 percent is linked to the PHE. Hospital organizations are calling on Congress to provide a for an orderly phase out of the enhanced FMAP, which was a provision of the House-passed BBB.
- On January 19 the Administration announced it would distribute 400 million N95 masks from the Strategic National Stockpile to all Americans over the next month. They plan to begin shipping the masks to pharmacies and community health centers and expect the program will be operational by the end of February.
- On January 20 HHS Secretary Becerra and HRSA Administrator Johnson announced \$103 million in funds from the American Rescue Plan would be used to address mental illness and severe burnout for healthcare providers dealing with the pandemic.

## FY23-FY25 Strategic Plan

Israel Rocha, CEO

## Strategic Plan Requirements

CCH enabling Ordinance Sec. 38-82:

.....the System Board shall develop a Strategic and Financial Plan covering a period of three Fiscal Years

.....shall include in each Strategic and Financial Plan estimates of revenues

.....the County Board shall approve each Strategic and Financial Plan

## **CCH** Mission and Vision

**Mission:** To deliver integrated health services with dignity and respect regardless of a patient's ability to pay; foster partnerships with other health providers and communities to enhance the health of the public; and advocate for policies which promote and protect the physical, mental and social well-being of the people of Cook County.

**Vision:** In support of its public health mission, CCH will be recognized locally, regionally and nationally – and by patients and employees – as progressively evolving model for an accessible, integrated, patient-centered and fiscally-responsible health care system focused on assuring high quality care and improving the health of the residents of Cook County.

## Strategic Pillars Supporting the Mission and Vision

Patient Safety & Clinical Excellence

Quality & Performance Improvement

Patient & Staff Experience

Population Health & Health Equity

Optimization, Innovation & Disruption

Growth & Development

## An Assessment of Our Current State

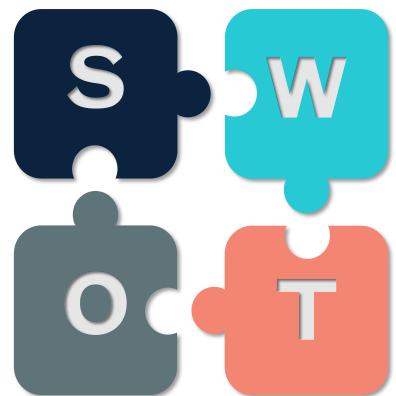

Mapping Out The Road Ahead...

#### STRENGTHS

• Strengths describe what an organization excels at and what separates it from others: a strong brand, loyal patient base, a strong balance sheet, assets, unique technology, etc.

#### **OPPORTUNITIES**

• Opportunities refer to favorable external factors that could give an organization a competitive advantage.

#### WEAKNESSES

• Weaknesses stop an organization from performing at its optimum level. They are areas where the business needs to improve to remain competitive: a weak brand, higher-than-average turnover, high levels of debt, an inadequate supply chain, or lack of capital.

#### THREATS

• Threats refer to factors that have the potential to harm an organization. For example, overturing ACA is a threat to our Medicaid Patients as it may reduce their eligibility for health care coverage.

## **Engaging Critical Stakeholders**

- Patients
- Employees
- Community Advisory Councils
- Community and Partner Organizations
- Labor Unions
- CCH Leadership
- CCH Board Directors
- Cook County Board of Commissioners

Feedback from stakeholders will be obtained through online questionnaires, virtual forums, meetings and more as the COVID environment allows.

## Timeline

February/March	Stakeholder Feedback on Strengths, Weaknesses, Opportunities, and Threats
March	Review and Aggregation of Feedback from Stakeholders, Goals and Milestones
April	Draft Strategic Plan submitted to CCH Board
May	CCH Board Strategic Plan Vote
June	Submit Strategic Plan to Cook County Board
July	County Board vote on CCH Strategic Plan
August	Strategic Plan-Informed budget presented to the CCH Board

2022	<u>Q1</u> 07/01 – 09/30/21	\$1,029,151

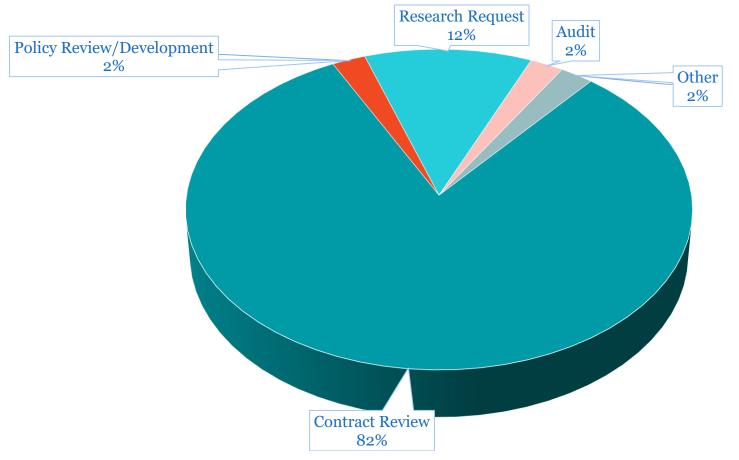

<sup>1</sup> The term *Tip* as defined by HFS OIG includes any allegations or incidents of suspected FWA opened on a CountyCare provider. A tip is a preliminary identification of a potential concern.

<sup>2</sup> The *Overpayments Identified* column indicates the currently outstanding amount that has been paid to a provider for identified inaccurate codes. These amounts may be supported through additional review of documentation submitted by the provider or may be offset if a provider elects to bill a corrected claim.

# Finance Metrics

Presented to the CCH Finance Committee on 1/20/2022

### Executive Summary: Statement of Financial Condition – November 30, 2021

On an accrual basis, interim financials show that CCH ended November with a <u>\$5M positive variance</u>. On a cash basis, CCH has a positive variance of \$103.8M due to the timing of CountyCare PMPM payments impacting the revenue and increased claims payments impacting expenses. In addition, recoupment of the \$28M FY2020 Medicare advance is underway.

- CountyCare:
  - CountyCare is showing a YTD operating gain of \$10.0M
  - Membership ended the year at 417,845, which is greater than the 356,000 monthly average budgeted
  - > Both capitation revenue and claims expenses are higher than budget due to membership growth
- Revenue Commentary:
  - > Shortfall in ER Volumes and slowdown of County Care utilization driving NPSR negative variance to budget
  - > Offset by realization of the DSH enhanced FMAP impact due to legislative change from Federal Stimulus Legislation
- > Expenditures:
  - > FEMA reimbursements are reflected in the financials
  - > Positive variance to budget in salary and benefits due to hiring timing and nationwide workforce shortage
  - Revenue Cycle Indicators:

Denials

### Financial Results – November 30, 2021

Dollars in 000s	FY2021 Actual	FY2021 Budget	Variance	%	FY2020 Actual (3)
Revenue					
Net Patient Service Revenue (1)	\$589 <i>,</i> 625	\$654,088	(\$64,463)	-9.86%	\$659,734

Administrative	\$126,381	\$140,266	\$13,885	9.90%	\$101,062
Total Expenses	\$2,444,266	\$2,089,948	(\$354,318)	(16.95%)	\$2,094,502
Operating Gain (Loss)	\$9,996	(\$5,338)	\$15,334	(287.26%)	(\$79,158)
Activity Levels					
Member Months	4,794,171	4,276,113	518,058	12.12%	4,132,666
CCH CountyCare Member Months	503,535	N/A	N/A	N/A	435,945
CCH % CountyCare Member Months	10.50%	N/A	N/A	N/A	10.55%
Operating Indicators					
Revenue Per Member Per Month (PMPM)	\$511.93	\$487.50	\$24.43	5.01%	\$487.66
Clinical Cost PMPM	\$483.48	\$455.95	(\$27.53)	(6.04%)	\$482.36
Medical Loss Ratio (1)	92.3%	93.40%	1.11%	1.18%	92.23%
Administrative Cost Ratio	4.7%	6.35%	1.64%	25.79%	4.45%

#### CountyCare Membership

#### Commentary

- Total YTD member months exceed budget by 518,058 due to increased Medicaid enrollment as a result of the COVID-19 induced growth in unemployment, and no state redetermination of Medicaid eligibility.
- CountyCare expects enrollment to continue to exceed budget as auto-assignment increased to 50% as of February 2021. This change was due to CountyCare's top-quality ranking among Medicaid MCOs.
- CountyCare's reimbursement to CCH for domestic spend is exceeding budget.
- Operating Gain of \$9.9M consists of \$20M from CountyCare and a loss of \$(10.1)M from Medicare.
- Agreement executed with State of Illinois and CCH to reduce IGT by 50% beginning in January 2021. This change has been reflected in the results.
- There are a number of outstanding items for year-end including:
  - Final IBNR
  - Final revenue and rates
  - Domestic Claims

#### Notes:

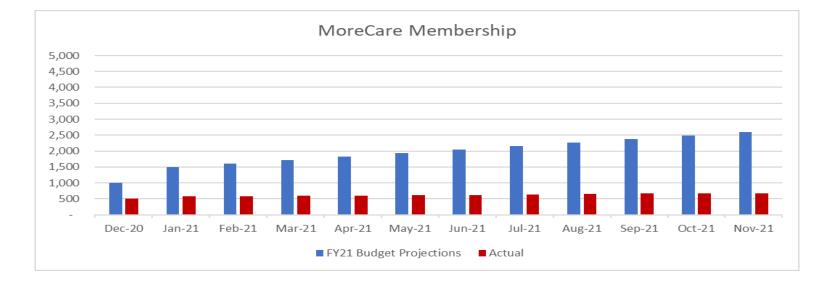

(1) Medical Loss Ratio is a measure of the percentage of premium that a health plan spends on medical claims.

### Medicare Financial Results – November 30, 2021

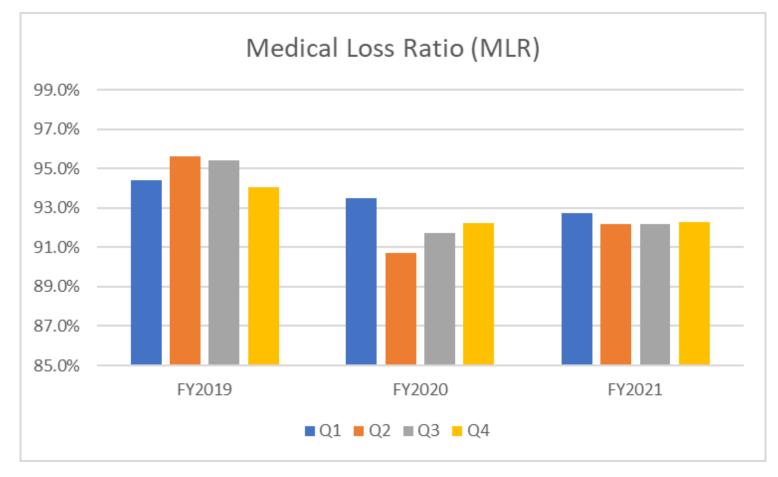

Dollars in 000s except PMPM amounts	FY2021 Actual	FY2021 Budget	Variance	%
Capitation Revenue (Total dollar amount)	\$14,387	\$34,822	(\$20,435)	(58.68%)
Operating Expenses				
Clinical Expenses	\$14,276	\$34,822	\$20,546	59.00%
Administrative	\$10,195	\$10,106	(\$90)	(0.89%)
Total Expenses	\$24,472	\$44,928	\$20,456	45.53%
Operating Gain (Loss)	(\$10,084)	(\$10,106)	\$22	(0.21%)
Activity Levels				
Member Months	7,396	23,580	(16,184)	(68.63%)
Operating Indicators				
Revenue Per Member Per Month (PMPM)	\$1,945.29	\$1,476.76	\$468.53	31.73%
Clinical Cost PMPM	\$1,930.25	\$1,476.76	(\$453.50)	(30.71%)

#### Commentary

- Membership is lower than budget, driving lower than expected revenue and cost.
- Revenue and cost on a per member per month basis is exceeding budgeted PMPM due to population mix (more members enrolled in higher premium Special Needs Plans versus lower premium MA-PD Plan).
- Total operating loss is less than budget by \$22k.

### CountyCare Medical Loss Ratio

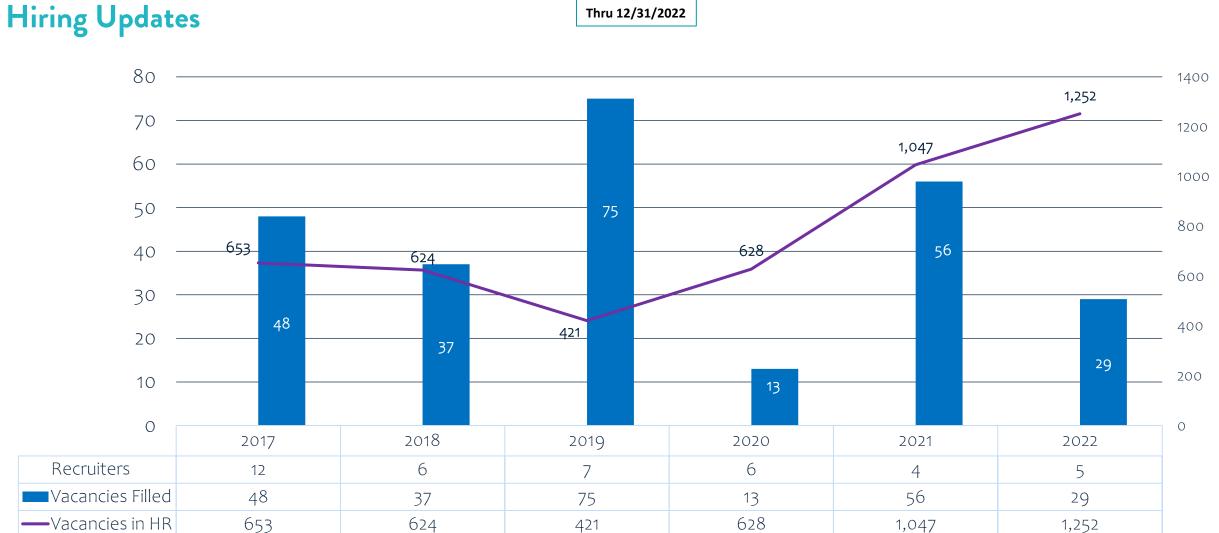

Medical Loss Ratio is a measure of the percentage of premium that a health plan spends on medical claims.

## **HR** Optimization

#### HR that Makes a Difference

HR is implementing critical strategies to become a trusted Cook County Health business partner :

- Create innovative recruiting solutions from start to end.
- Assess workflows and identify process improvements.
- Provide meaningful data and analytics to predict HR outcomes.
- Leverage technology and automate manual tasks and workflows.
- Enhance productivity, recruitment effectiveness and support to the health system.

## HR Optimization – Planning Phase Our Need

- SWOT analysis documented key opportunity areas for HR improvement
- Prioritized opportunities are tracked in project plan

#### Identified technical integration needs

- New system strategy moves our HRIS toward integration
- Building transparency through reporting and dashboards

#### Partnering to move deliberately and fast

• Consulting partner will bring project management, HR expertise and technical assessment support

#### Focusing on meaningful change

- Establishing wins on leadership defined priorities
- Creation of roadmap to show when changes are expected

#### Improve our HR game

- Create sustainable improvements
- Identify next wave of strategic priorities

## HR Optimization – Deliverables Defined outcomes

#### **Proposed Quick Wins**

- SOP development and process workflows
- Voice of the Customer analysis
- Taleo configurations (e.g., application, candidate communications)
- Pre-screening question library
- Job description library
- Employment Plan recommendations

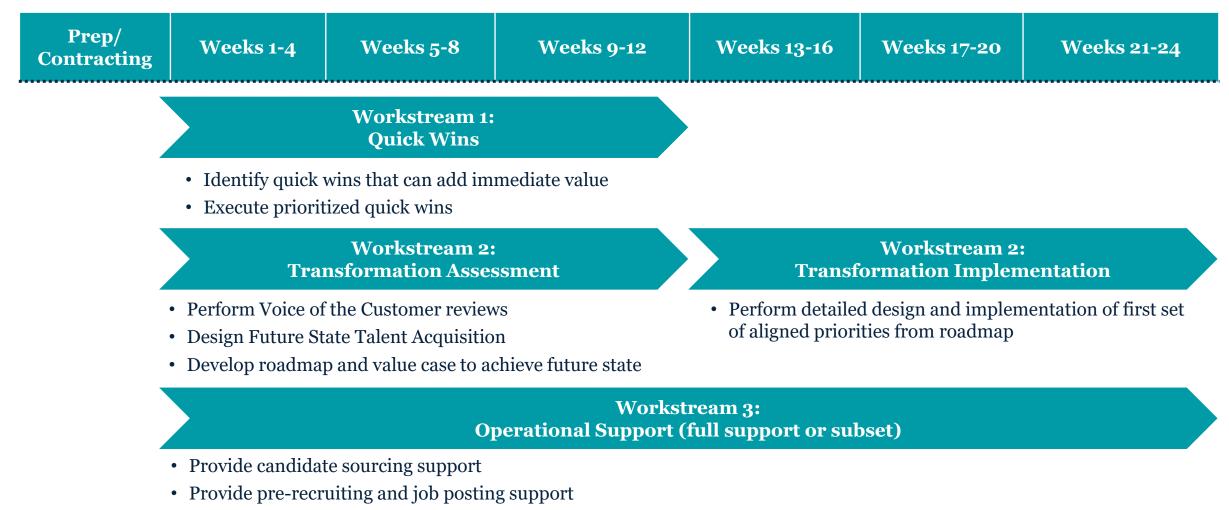

#### Transformation

- Future State Design (e.g., candidate experience personas and journey maps, operating model)
- Process Roadmap and Value Case
- Drive change for prioritized initiatives
- Training tools and job aides

#### **HR Operations**

- Metrics/Predictive analytics
- Published reports and dashboards
- Streamlined recruitment processes; recruitment effectiveness, aligned with best practice, coupled with contemporary methods
- Onboarding of new hires/contract staff
- Offboarding process exit interview process enhancement

# **HR** Optimization - Proposed Timeline

• Provide ongoing candidate evaluation, selection, and job offer support

# **Divisional Reports**

### Strategic Highlights & Opportunities of CCH Operating Divisions January 28, 2022

# Ambulatory Care

- The Patient Support Center answered more than 36,400 patient calls in December with an avg. speed of answer under 60 seconds. CCH merged and relocated the COVID-19 testing and vaccine call center staff to the Harrison Square building.
- The CCH non-emergency transportation fleet completed more than 4,300 patient transports in December (62% of the trips were for CountyCare members).
- We reduced the Dermatology referral wait list by 27% and Hematology by 20% over the last month.
- Our Heart Failure Clinic accommodates all patients discharged from Stroger with a diagnosis of heart failure within fourteen days.
- We have a new Cardiology Post-Service Clinic. Here, all patients who were seen by the cardiology consultative team in-hospital (on wards & CCU) are guaranteed an appointment post-hospital within seven to ten days and seen by the cardiologist who followed them in-hospital (this promotes excellent continuity of care and helps prevent readmissions).
- CCH continues to work to optimize schedules to improve access for complex patients. Currently, we are working with the medical subspecialties to streamline the referral ordering process to schedule patients more efficiently for a specialty appointment.
- CCH enrolled 295 participants MCH HRSA Healthy Start Grant for the year 2021. Our goal is to identify and enroll 300 pregnant women, 300 pre-conception or postpartum women or children, and 100 men by March 2022.

#### COVID-19

- Working in collaboration with state and local authorities, CCH reopened mass vaccination sites in Forest Park, Matteson and DesPlaines. Hours of operation will be Tuesday through Saturday, 8am to 6pm, and Sundays 10am to 4pm. Patients can make appointment or walk-in. We continue to offer vaccinations at all CCH community health centers as well as at Stroger and Provident hospitals.
- Our Morton East community health center assisted the Morton East School District with vaccinating students who were not vaccinated/non-compliant with the district's vaccination mandate.
- Cook County Health provides COVID testing at six locations by appointment. More information is available on the CCH website.
- CCH will provide Paxlovid and Molnupiravir (a monoclonal antibody) for high-risk immunocompromised patients and patients with contraindications for the COVID-19 vaccines. We are training staff to follow receipt of the new prevention modality.

- CCH continues to work to optimize schedules to improve access for complex patients. Work is currently underway with the medical subspecialties to streamline the referral ordering process to schedule patients more efficiently for a specialty appointment.
- Reviewing ways to co-locate services to enhance the patient experience and deliver high quality and coordinated services.
- Identifying services with immediate access to pilot patient self-scheduling.
- Working to launch dental services at Belmont Craigin, Blue Island, and North Riverside community health centers.
- Intend to launch process improvement (PI) training for lead providers and managers, with the goal of providing to them an educational foundation in PI methodologies to improve efficiencies within clinics and improve priority metrics.
- Procuring new computers with video capability that will enhance the provision of telehealth and virtual meeting functions for staff, as well as tablets to assist with translation needs and improve provider documentation
- Working with Human Resources to prioritize hiring needs across ambulatory.

# **Cermak Health Services**

- Ongoing Patient Vaccination. Through December 31, 2021, more than 13,600 doses of COVID vaccine have been administered to patients at Cermak including boosters for those eligible.
- Current vaccination rates of active patients housed in the jail are 63.1% received at least one dose and 52.7% have received two doses.
- Preparation for National Commission on Correctional Health Care (NCCHC) Accreditation continues. Survey is expected in 2022. JTDC reaccreditation survey also expected in 2022.

- Expanded housing footprint due to COVID uptick has required ongoing pivoting of staff and services to areas formally shuttered.
- Transfers to the Illinois Department of Corrections have stalled again with 775 detainees remanded to IDOC remaining at Cook County Jail.
- COVID protocols, testing and vaccination remain critical strategies to mitigate and contain COVID at the jail.
- Working with Human Resources to prioritize hiring needs across ambulatory.

# Cook County Department of Public Health

#### COVID

- From December 1-31, 2021, our vaccine providers reported 1,383 total vaccine doses administered at 23 completed mobile/pop-up vaccination clinics at community sites
- To date, CCDPH partner providers completed 3613 in-home vaccinations
- To date, CCDPH has distributed 335,780 BinaxNOW tests to organizations
- Contact tracing:
  - December: 68,228 cases; 50.1% attempted in 48 hours, 68.9% attempted overall.
  - December: 4,416 contacts, 89.8% attempted in 48 hours, 94.7% overall.

#### **Behavioral Health**

 CCDPH distributed 191 kits of naloxone, an opioid overdose reversal medication, to six suburban organizations in December, including the Maywood Public Library District, the Harvey Police Department, and the Robbins Police Department. As of the end of December 2021, 739 kits have been distributed to law enforcement agencies, and 231 kits have been distributed to community-based partners. CCDPH has been prioritizing distribution to police departments in underserved communities and community partners that serve people who are at risk for opioid overdose.

#### **Chronic Disease Prevention / Health Promotion**

• CCDPH is partnering with Chicago Food Policy Action Council to help organize the annual Chicago Food Justice Summit, being held virtually February 23-25, 2022. There will be a Cook County Good Food Purchasing Session highlighting the County's Good Food Purchasing Policy implementation in panel discussion.

- Communicable Diseases received a \$100,000 grant from NACCHO to support infection prevention assessments and other activities around long-term care facilities.
- Working with community-based organizations to extend contracts for hosting COVID-19 clinics and providing health education within the community.
- Working with Human Resources to prioritize hiring needs.

# Health Plan Services

- MCO Contract Extension with State of Illinois HFS through 2025
