I am in support of the Cook County Department of Transportation and Highways' Fair Transit South Cook pilot program. This program provides affordable public transportation options to residents in South Cook County. When the cost of everything is going up, it is vitally important that our residents don't have to spend their paychecks getting to and from work, doctor's visits, the grocery store, etc. as a large number of South Suburban residents spend 50% or more of their income on transportation. South Suburban residents continued to utilize the Metra Electric and Rock Island as they had less ridership loss than other Metra Electric lines. By keeping it affordable through this pilot program it allows residents to spend their hard earned dollars on providing food, shelter, medicine and other basic necessities for everyday living instead of so much on transportation needs. This could encourage people to move to or stay here in the Southland knowing they have access to an affordable transportation option.
