The Honorable President and Members of the Cook County Board of Commissioners

I am transmitting herewith an Analysis of Revenues and Expenses Report for the two-month period ended January 31, 2015 for the Corporate, Public Safety, Health and Special Purpose funds of Cook County. The report presents estimates of revenues and expenses expected to be received during the fiscal period compared to actual revenues and expenses recorded. The basis for projecting and recognizing revenues is disclosed in the Notes.

The Analysis of Revenues and Expenses Report are presented as seven individual tables:

Table - 1 Corporate, Public Safety and Health Fund Analysis of Revenue and Expense

Table - 2 Corporate and Public Safety Fund Analysis of Revenue

Table - 3 Corporate and Public Safety Fund Analysis of Expenses, and Encumbrances

Table - 4 Health Fund Analysis of Revenue, Expense, and Encumbrances

Table - 5 Special Revenue Funds Analysis of Revenues

Table - 6 Special Revenue Funds Analysis of Expenses, Encumbrances and Unspent Balance

Table - 7 Comparative Sales Tax Revenues 2007 thru 2014 and 2015

I would be pleased to answer any questions that you may have regarding this report.

Respectfully submitted,

Lawrence L. Wilson, CPA

Executive Summary Cook County Analysis of Revenues and Expenses Report December 1, 2014 through January 31, 2015

Executive Summary

General Fund: For the period of December 1, 2014 to January 31, 2015, expenditures were \$239.1M and revenues were \$191.6M, primarily due to variable monthly timing of some revenues and more consistent monthly expenditures. Based on year-to-date expectation, revenues are in line with expectation and expenditures are \$445,779 higher than expectation, creating a minor negative variance year-to-date of \$436,373.

Health Fund: For the period of December 1, 2014 to January 31, 2015, expenditures were \$181.9M and revenues were \$188.9M. Based on year-to-date expectation, revenues came in \$6.2M lower and expenditures \$74M lower, creating a \$67.8M positive year-to-date variance.

TOTAL REVENUE - Total two months actual revenue of \$380.5 million was below budgeted revenue of \$386.7 million, and resulted in an **unfavorable** variance of (\$6.2) million or (1.61%). This represents a (\$3.2) million **unfavorable** variance compared to the prior month ended December 2014 **unfavorable** variance of (\$3.0) million.

There was improvement across some revenue categories versus budget in January 2015, led by County Treasurer fees, CCHHS Patient fees, Recorder of Deeds, County Sales Tax, County Use tax and Amusement Tax, offsetting a reduction in Clerk of the Circuit Court, Disproportionate Share Hospital (DSH), Medicaid Expansion, Gas / Diesel Fuel Tax and other revenue categories (net).

GENERAL FUND

FEES

TREASURER – Total two months actual revenue of \$8.4 million was above budgeted revenue of \$7.2 million, and resulted in a **favorable** variance of \$1.2 million or 17.13%, based on current economic conditions.

CLERK OF CIRCUIT COURT – Total two months actual revenue of \$12.1 million was behind budgeted revenue of \$13.4 million, and resulted in an unfavorable variance of (\$1.3) million or (9.98%). This is primarily due to the reduction in the number of cases filed. The FY 15 two month period ended Case file total is 176,258 vs. FYE 12-14 average two month period ended case file total of 206,296; a 30,038 / 14.56% decrease. The following divisions had the largest decreases in cases: Chancery is down 2,507, 1st District civil is down 11,157, District 2 trafficminor is down 2,408, District 3 traffic-minor is down 3,666, District 4 traffic-minor is down 3,920, District 5 traffic-minor is down 3,356 and District 6 traffic-minor is down 5,576.

RECORDER OF DEEDS — Total two month actual revenue of \$6.8 million was above budgeted revenue of \$5.6 million, and resulted in a **favorable** variance of \$1.2 million or 20.31%, based on current collections. The favorable growth for the second month of 2015 was attributed to the sale of large commercial properties in downtown Chicago. In addition, the housing market overall is also seeing growth, yet at a slow pace. According to some industry experts, it is expected that as the mortgage rate environment and job growth continues to be positive, housing sales should continue. Keep in mind, that the Recorder of Deeds Office revenue position is a direct result of the shifts in the real estate market year over year which is dependent upon home sales, foreclosures, and home values which impact a buyer's ability to enter the market.

HOME RULE TAXES

The County Sales Tax - revenue of \$59.0 million through the period ended January 31, 2015 was above budgeted revenue of \$56.9 million, and resulted in a **favorable** variance of \$2.1 million or 3.70%. The January 31, 2015 positive variance increased \$.8 million from the positive variance \$1.3 million as reported for the prior period ended December 31, 2014 mainly due to increased consumer spending. For more current data see Table-7 **Page 7.**

The **County Gas / Diesel Fuel Tax - revenue** of \$14.6 million through the ended January 31, 2015 was below budgeted revenue of \$16.5 million, and resulted in an **unfavorable** variance of (\$1.9) million or (11.59%). The January 31, 2015 negative variance increased (\$0.3) million from the negative variance of (\$1.6) million as reported for the period ended December 31, 2014. While this is a negative sign, we will continue to monitor this source to determine if this will become a sustained trend.

The County Use Tax - revenue of \$13.0 million through the period ended January 31, 2015 was above budgeted revenue of \$10.5 million, and resulted in a **favorable** variance of \$2.5 million or 24.32%. The January 31, 2015 positive variance increased \$1.0 million from the positive variance of \$1.5 million as reported for the period ended December 31, 2014. The County Use Tax positive variance was primarily due to a higher than expected increase in year over year automobile sales along with increased compliance and tax discovery enforcement efforts.

The Amusement Tax - revenue of \$5.4 million through the period ended January 31, 2015 was above budgeted revenue of \$3.4 million, and resulted in a **favorable** variance of \$1.9 million or 55.87%. The January 31, 2015 positive variance increased \$.2 million from the positive variance of \$1.7 million as reported for the period ended December 31, 2014, based on compliance and tax discovery enforcement efforts.

HEALTH FUND

CCHHS – The Health System revenue has a negative variance of (\$6.2) million through the period ended January 31, 2015. The net negative variances are led by (\$33.5) million or (3.20%) negative variances in Medicaid Expansion and DSH payments.

CCHHS Medicaid Expansion – Total two months actual Medicaid Expansion revenue of \$106.1 million was below budgeted revenue of \$137.7 million, and resulted in an **unfavorable** variance of (\$31.6) million or (22.92%) through the period ended January 31, 2015. CountyCare accepts a monthly PMPM fee that must cover all the healthcare needs of the enrollees. In January 2015 CountyCare had 78,505 of paid members.

CountyCare under the 1115 Waiver was extended through the end of June 2014. Additional applications were submitted through the end of June and additional services were provided by CountyCare. On July 1, 2014 CCHHS entered into a contract with the State of Illinois to continue to provide services to CountyCare enrollees under a MCCN (Manage Care Community Network) contract. The new contract will also allow CountyCare to extend its services to additional populations of Medicaid enrollees that were not covered under the 1115 Waiver. These new populations will be provided services under a capitation arrangement similar to the ACA (Affordable Care Act) adult population served under the original 1115 Waiver. It is expected in 2014 that most of the Cook County residents eligible for Medicaid will receive their healthcare through a capitated payment arrangement. This has led to the lower than expected plan. For FHP, the issue is that the movement to mandatory enrollment started later than the state had originally projected. For the ACA population we lost more patients to redetermination than we anticipated. CCHHS is currently working on strategies to increase membership and reduce costs.

Patient Fee Revenue - Total two months actual Patient Fee revenue of \$53.6 million was above budgeted revenue of \$26.0 million, and resulted in a **favorable** variance of \$27.6 million or 106.28% through the period ended January 31, 2015.

CCHHS will continue to collect some fee for service revenue from all the traditional payers. As the Medicaid payment model changes from fee for service to that of capitation, the overall portion of Medicaid fee for service revenue is expected to decline. Patients will continue to apply for Medicaid and then they will be assigned to a capitated managed care plan after they have been approved for Medicaid. Medicare and some Commercial payers will continue to pay CCHHS in 2015 under fee for service arrangements. The expansion of mandatory managed care was delayed by the state resulting in more opportunity in fee for service than originally budgeted. Further CCHHS staff continues to make significant efforts to improve processes in billing and collection. We have also increased efforts to contract with other Medicaid HMOs so more patients can access services at CCHHS and contribute to our revenue.

Disproportionate Share Hospital Revenue (DSH) - There is a negative variance of \$1.9 million due to federal legislation that delayed reductions.

The CCHHS Senior Management Team will continue to work closely with the entire organization to maximize collections.

General Fund Expenditures

General Fund expenditures from December 1, 2014 through January 31, 2015, were \$239.1M, or 16.7% of the annual appropriation. This is slightly more than the 16.66% expected through the second month of the year. In other words, the year-to-date budget was exceeded by .19%, creating a negative variance of \$445,779. There are several departments tracking at a higher percentage than expected in the budget, primarily due to large encumbrances for services and supplies that will be used for multiple months or one time purchases made at the beginning of the year.

Health Fund Expenditures

Health Fund expenditures from December 1, 2014 through January 31, 2015, were \$181.9M, or 11.8% of the annual appropriation. This is less than the 16.6% expected through the second month of the year creating a positive variance of \$74M. All departments are tracking at a lower spending rate than budget expectations.

The Bureau of Finance continues to work with the various departments on planning and analysis to identify opportunities to improve performance versus budget and operate more efficiently.

Note: 1 The FY2015 budgeted Property Tax revenue is based on the FY2015 tax levy, which will not be collected until 2016; actual revenue received during 2015 is based on the FY2014 tax levy. A timing differential occurs between the budgeted revenues and the actual collections, which during 2015 will be equal to the difference between the FY2015 and FY2014 tax levies; this amount is a negative adjustment of \$10.8 million in Health Fund based on the apportionment of the 2015 levy amongst funds.

Note: 2 The Report is presented on a Budget Basis (cash and encumbrances) and will differ from the monthly Health Fund reports produced on a full accrual basis and the County's annual audits that are produced on both modified and full accrual basis

The monthly allocation of the levy is based on the average monthly collection of actual property tax receipts during the preceding two fiscal years, the majority of which are traditionally received in the months of February, March, July and August as a function of the Property Tax billing cycle. The specific proportional allocations by month of the anticipated levy proceeds is as follow:

NOTES:

- 1. Cook County Sales Tax Revenue is allocated between the Corporate, Public Safety, Health and JTDC special purpose funds.
- 2. March 2010 includes a Home Rule Accelerated Payment of \$22.8 million Per State Statute, and is not included in the variance calculations. March 2011 Accelerated payment figures not available.
- 3. Sales Tax Anticipation Note was fully repaid on August 3, 2009.
- 4. July 2010 receipts received in October 2010 reflect County Sales Tax repeal of .50% rate changed from 1.75% to 1.25% effective July 1, 2010.
- 5. January 2012 receipts received in April 2012 reflect County Sales Tax reduction from 1.25% to 1.00%.
- 6. January 2013 receipts received in April 2013 reflect County Sales Tax reduction from 1.00% to 7.5%.

Notes to the January 2015 Report:

- 1) Fees are projected to be received ratably, on a monthly basis, except for (a) patient fees which are based on a historical pattern of cash receipts for the period reported, established at the beginning of the fiscal year, and (b) IGT receipts which are based on a State agreement. The next budgeted IGT Medicaid receipt payment is scheduled for August 2015 in the amount of \$93.7 million. Certain other fee revenues for January 2015 have been accrued to account for timing differences between departmental receipt and reporting to the Bureau of Finance.
- Home rule taxes are projected to be received ratably, on a monthly basis, except for sales tax revenues, which are based on a historical pattern of cash receipts for the period.
- 3) Inter-governmental revenues are projected to be received ratably, on a monthly basis, except for probation officer reimbursements from the State which are projected for the period based on vouchers submitted, and limited to the total amount of the State grant.
- 4) Other miscellaneous revenues are primarily projected as those revenues are expected to be realized.
- 5) Other financing sources revenues are primarily projected as those revenues are expected to be realized. Except for motor fuel tax grant transfers which are recognized on a discretionary basis as amounts are transferred,

Revenues collected by the Treasurer are presented as reported by the monthly "Cook County Treasurer—Analysis of Revenue" communication to the Office of the Comptroller.

Note: 1 The FY2015 budgeted Property Tax revenue is based on the FY2015 tax levy, which will not be collected until 2016; actual revenue received during 2015 is based on the FY2014 tax levy. A timing differential occurs between the budgeted revenues and the actual collections, which during 2015 will be equal to the difference between the FY2015 and FY2014 tax levies.

The monthly allocation of the levy is based on the average monthly collection of actual property tax receipts during the preceding two fiscal years, the majority of which are traditionally received in the months of February, March, July and August as a function of the Property Tax billing cycle. The specific proportional allocations by month of the anticipated levy proceeds is as follow:
