

The following charts represent some misinformation, represented by the **red boxes**, that has been presented by the Medical Examiner's Office and the budget committee, and the corrected information, represented by the **green boxes**.

The final slide also lists general tasks executed by the current Toxicology staff as expected by the CCME's job description of a toxicologist. The items listed under other duties are self-motivated and quality driven services that the Toxicology lab strives for, which a privatized lab will be unable to provide.
