The consumption of sugar sweetened beverages are directly associated with the obesity epidemic and diabetes, a problem that is particularly burdensome in low income and minority communities. This tax is not meant to pose additional financial burden on these communities, but is meant to mirror the tobacco taxes that are in place to create financial barriers to the excessive consumption of these dangerous health factors. Soda companies are preying on our low income and minority communities and their efforts should be stopped.

I think this is a good idea. Maybe parents don't feel the government should be telling them how to raise their children, but obviously some one needs to tell them if they feel they must drive to Indiana to buy soda for their children. Parents wake up!

This Tax needs to be banned. This tax is fraudulent and represented to the community as a cure for obesity. In reality this tax was put into place to pay city worker. Now that the tax is backfiring individuals are getting laid off of their jobs because the community is not shopping in the city limits anymore.

Because our legislators can not control spending and appropriately budget does not mean we should consistently pick up the slack with even more taxes. I do not need Big Brother telling me what is healthy or unhealthy. The sweetened beverage tax is not only a tremendous burden on already overburdened Cook County residents but also a career buster for the Board President and any Commissioner who supports it. I urge all Commissioners to support repeal. and, if necessary vote to override a veto.

A repeal would be detrimental to the short-term health of the County's budget and the long-term health of County residents. This healthy revenue source will lead to decreased consumption of harmful sugary beverages, encourage healthier drinks and provide necessary funding for essential County services. But none of that will happen if the tax is repealed.

I want the sweetened beverage tax repealed. Government needs to stop coming to constituents to solve budge problems. Why did Preckwinkle give raises when the county could not afford to provide them? Working for the private sector, we do not get raises when the business cannot afford it.

I am one of many who will NEVER purchase my beverages in Crook County again unless this tax is appealed. I find it disgraceful that county employees continue to get pay raises and huge pensions, which we all know this is the real reason for this tax and not your concern over children's health. Furthermore, while showing obese children in your commercials, don't you think it's the stupid parents buying junk food and sweets for these children. It's not soda companies targeting children that are obese. It's a joke that you think we believe these kids are obese simply because of soda. Also, those on Link Cards and Food Stamps, the ones you say are targeted most don't have to pay this tax. I hope this is Preckwinkle's last term and except for John Daley who had the smarts and courage to appeal, the rest of you will NOT get any future votes from me. It's a disgrace that county employees have these huge pay wages and huge pensions that you expect the middle class to pay for because you can't balance a budget and quit wasteful spending. We know it's all a bunch of lies. First the tax is for safety and now it's for health. Cut out the extra people if you can't afford to pay them. We don't care, just quit taxing us to death. The wealthy don't care about the extra cost because it doesn't hurt them, but the middle and lower class that aren't on food stamps are sick and tired of keeping you all in your high lifestyles and continued pay raises. How about this,CUT EACH and EVERY COUNTY EMPLOYEE'S paycheck by 10% and see how much money you will save and stop future raises until you who are in charge can balance a budget. Too many county employees that do nothing and get paid huge wages. Stop hurting the rest of us and the people who work on commissions for the soda companies because many of us are shopping in DuPage and Will County and even Indiana. Get it right and get rid of the beverage tax if you want to help the middle class. The government has no business telling us what to buy. If you are too stupid to feed your young children a bunch of junk food and sugary drinks, then the rest of us shouldn't have to be responsible. I believe we need to help educate good eating habits but this tax is UNFAIR. What next? You just keep finding ways to make us pay for your overpaid jobs and pensions that you can't fund because of wasteful spending. Why do you think Trump won????? Not because he is so great, but because we are fed up with the lies and will pick your opponents rather than listen to more lies. We will remember this as one commercial says and I hope Preckwinkle is gone for good. Stop this tax and the lies.

It is very disheartening to see the tv commercials. All of the actors are people of color. That would make one think that the African American community is the only community drinking sugary drinks. Additionally, stating that children are obese due sugary drinks....please. If that is the case, you all should put money on educating parents on how to feed children. Please be real in this, you are just finding ways to collect money. You should look at taxing cigarettes and alcohol and not vitamin drinks that are healthy with zero calories.

The current tax is a burden to local businesses and household expenses. Taxes such as these do not limit intake of sugar in the sedentary population. Rather, education of proper nutritional strategies and when sugar can be beneficial (eg. during athletic activity lasting longer than 1 hour) would make a greater impact.

The Cook County Soda Tax is unfair to the citizens of the county. It attacks those least able to afford it. I strongly feel that the Cook County Board should identify other ways to balance the budget.

It does not make sense and is very unfair and unlawful that the constituents of Illinois continue to pay for everything here. How about Preckwinkle and her staff take a pay cut to keep Illinois services going, as well as other State Representatives and Aldermen. We should not have to continue to fund the state for the errors made by corrupt Illinois politicians and officials. Enough is enough already.

Q6 ACCOMMODATIONS: If you require additional assistance or special accommodations in order to participate in a hearing (for example, need language assistance, are a person with a disability), please let us know here, call 312.603.6127 or email us at cookcounty.board@cookcountyil.gov Intérpretes de lengua española estarán disponibles para los residentes que necesiten asistencia.We cannot guarantee assistance for requests made less than 48 hours in advance of a meeting.

ALL Crook County Politicians are just that, CROOKS!! Stop creating faked out reasons to gain more taxpayer money, none of you crooked bastards are doing anything to improve citizens lives; you're not repairing streets, sewers, curb or gutters, you're not making access to county health care any better--you never did do that!! No one citizens groups lives are being made better because of your service, you're simply serving yourself and collecting a public pay check, and whatever other funds you can get your hands on, legally or illegally.

As a consumer of beverages and an employee of one of the largest beverage companies in the world, I emphatically oppose this tax and am in favor of the repeal. It is a miss-appropriation of funds and more importantly power to think Cook County has the right to tell its residents what they can and cannot consume.

. A repeal would be detrimental to the short-term health of the County's budget and the long-term health of County residents. This healthy revenue source will lead to decreased consumption of harmful sugary beverages, encourage healthier drinks and provide necessary funding for essential County services. But none of that will happen if the tax is repealed.

Q6 ACCOMMODATIONS: If you require additional assistance or special accommodations in order to participate in a hearing (for example, need language assistance, are a person with a disability), please let us know here, call 312.603.6127 or email us at cookcounty.board@cookcountyil.gov Intérpretes de lengua española estarán disponibles para los residentes que necesiten asistencia.We cannot guarantee assistance for requests made less than 48 hours in advance of a meeting.

This tax puts a burden on many people. The board needs to find a way to balance the budget without constantly putting more taxes on the people.

The tax is an important way to address the obesity epidemic amongst the youth of Cook County. These availability of these drinks at low cost is poisoning the children of our county.

The county is hailing this tax as a health iniciative. I contend that this has nothing to do with health and everything to do with the county's wasteful spending. Further the argument that beverage companies target children is a ridiculous argument since I've never seen a child doing the grocery shopping for its family. The choices for what my family eat and drink are my choices and do not require county interference. The fact is that since this tax went into effect I have not purchasing the beverages that I enjoy, I just don't buy them in cook county. So effectively the only thing this tax has accomplished in additional revenue to neighboring counties. If cook county needs additional revenue, start with fixing the wasteful spending inhouse.

I oppose the Cook County Beverage Tax because of the negative impact on Cook County businesses and the unfair way that certain beverages are taxed or not taxed. The county should also not have the ability to decide which foods are healthy for consumers and use taxation to impact consumption.

I rely on transparency from politicians of how they can make our lives more affordable in Cook County. I need more responsible politicians to take on financial accountability and have more reasonable resolve moving forward to finance their spending. Soda tax is an eye opener of how politicians can just impose on its constituents to shoulder their shortfalls. Gathering health institutions to support the soda tax with false pretenses. Small businesses cannot afford the soda tax. Ripple effect...snack and chips sales have gone down as an effect.If it is all about sugar in our drinks, then what is next...candies, cakes, bread, lemonade, hot chocolate, etc.,we need more health awareness programs but taking away the consumer/public's choices through unreasonable soda tax..is forcing it down our throat. Politicians should represent our best interests not use us to finance their mistakes...so many taxes this year in Illinois....What is next? Can we afford to live in Cook County After All These Taxes? Repeal the Soda Tax...it just doesnot fly on Health Issues...we are smarter than that...It is not about Health/It is about REVENUE, at OUR EXPENSE. It is not right.

This isn't a fair tax. The amount of sugar kids take in should be a decision made by parents not the county. It is unfair to constantly tax hard-working people to make up for a deficit created by people who constantly mismanage funds.

The beverage tax is unfair to the people of Cook County, the soda bottlers, their employees, and the establishments that sell their products. This tax has contributed to job loss and decreased business of establishments who depend on the soda industry for their livelihoods. Cook County residents should not burdened with yet another ridiculous tax.

To whom it concerns, I've been a resident of Chicago, il for my entire life of 35 years. I'm I strong opposition to this beverage tax, it's not a tax to help the people of cook county. It's a money grabbing scam, that's been setup by Tony preckwinkle, an her followers. Us residents In the city of Chicago, are feeling the burden of this even heavier as we are being tax continually by the mayor of Chicago. Enough is enough it's time to get people in office who's really for the people of our county.

The Beverage Tax targets low income black and brown families who can simply not afford to pay money for the increase in beverage prices. The lie that Michael Bloomberg and Toni Preckwinkle are promoting (that this tax is to help families eat healthily) is nonsense. If someone wants to be unhealthy, it is their right to do it and it should not be the government's job to regulate my sugar intake.

I support motion in question to repeal the sweetened beverage tax. The sweetened beverage tax unfairly targets those who drink sweetened beverages. A more fair tax would target all sweetened or unhealthy foods rather than just beverages.

Cook county residents do not need another tax and to help the county take away jobs & sales for businesses is so unethical. Let the voter have a voice since we are the one that help elected those in office. That is to much power to have over the residents of cook county and Michael Bloomberg shouldn't have a voice in cook county matters. He doesn't live here nor vote here. Whom is he influencing ?

I will continue to OPPOSE the Soda Tax.
I will not allow anyone in a government role dictate to myself or my family how this TAX will benefit my health and wellness.
The people who are appearing in those ads are as phony as a three dollar bill.
How much are they getting paid?????

The short term gain for beverage business and jobs should not over shadow the long term gain of a healthy cook county. Business will thrive when consumers are well and healthy enough to work and purchase long into their 70's without disabilities. When society is healthy that show up as better employees, parents, students and more. Please help change the future and improve health by voting No to repeal the SSB tax.

Q6 ACCOMMODATIONS: If you require additional assistance or special accommodations in order to participate in a hearing (for example, need language assistance, are a person with a disability), please let us know here, call 312.603.6127 or email us at cookcounty.board@cookcountyil.gov Intérpretes de lengua española estarán disponibles para los residentes que necesiten asistencia.We cannot guarantee assistance for requests made less than 48 hours in advance of a meeting.

The beverage tax's purported purpose of cutting down sugar consumption by children is an obvious sham! Everyone who drinks canned or bottled beverages containing no sugar and even just plain water is impacted by this ridiculous legislation. It is simply outrageous that a bottle of diet ginger ale priced at .99 now costs $1.67, especially when there is no sound basis for the tax. As an elderly woman on a limited budget who NEVER buys anything but sugarless beverages I am severely disadvantaged by this unfair tax and have had to eliminate canned and bottled drinks altogether because I simply cannot afford their cost with the added tax.
I would urge ALL conscientious consumers, even those who can afford the extra cost, to boycott canned and bottled drinks; the tax on them is simply unjust, dishonest, and immoral. The beverage tax needs to be repealed and EVERY Cook County Commissioner who supports this ill-conceived, preposterous measure is no friend of constituents and consumers and needs to be canned along with the tax. I will do my best to work to achieve that.

Good Morning Commissioners. Thank you for the opportunity to provide testimony in support of the proposed Sweetened Beverage Tax.

My name is Marti Smith. I am a Registered Nurse and the Midwest Lead for National Nurses Organizing Committee/National Nurses United. I speak on behalf of the RNs at CCHHS, as well as 186,000 RNs nation wide.

As RNs, we see rising childhood obesity rates and troubling trends in diabetes and heart disease that normally afflicts those in their later years now affecting school aged children. We also see the costs of these diseases on our communities - in patients who too early become disabled or debilitated by preventable health problems these diseases cause.

Because sweetened beverages are inexpensive and widely available, beverages such as soda are consumed at very high rates. It makes sense - they taste good, they're cheap, and they're heavily marketed to children.

Why focus on soda and other sugary drinks?
Soda and other sugary drinks are the number one source of added sugar in the American diet.

According to the Consortium to Lower Obesity in Chicago Children, by 9th grade, 48.6% of Chicago children are overweight or obese.

In fact, Cook County Health and Hospitals System spent more than $200 million treating diabetes, obesity, and other diseases caused in part by consumption of sweetened beverages.

In 2015, Berkeley California enacted a very successful Soda Tax, which has already shown positive health effects, including a 21% reduction in consumption - precisely where health officials had hoped to see the largest decrease.

The intent of Cook County Sweetened Beverage tax is to reduce sugary drink consumption by all, which will reduce incidence of diabetes and other negative health impacts.

I've heard what those opposing this tax say. By their logic, as a nurse, more patients would represent job security for us. By that logic, we should advocate to abolish seat belts, helmets, and smoke detectors. Instead, we support your decision which was based on sound health policy, for the good of our children and our community.

This short sighted lawsuit will eliminate $74 million in revenue for our revenue-starved county, potentially leaving 100s of families without an income. These families support the retailer selling these beverages. But more importantly, the tax will have long-lasting positive impact upon the health of our communities.

Q6 ACCOMMODATIONS: If you require additional assistance or special accommodations in order to participate in a hearing (for example, need language assistance, are a person with a disability), please let us know here, call 312.603.6127 or email us at cookcounty.board@cookcountyil.gov Intérpretes de lengua española estarán disponibles para los residentes que necesiten asistencia.We cannot guarantee assistance for requests made less than 48 hours in advance of a meeting.

Everywhere you turn, prices are rising. Families are feeling the pain as beverage taxes take a bigger bite out of their grocery budgets with no end in sight. I don't have children and I like soda and flavored waters. One cent/ounce is excessive and unnecessary for the purported benefits. Despite the racially pandering commercials and mailers, I have not been convinced that the tax will reach its expected beneficiaries nor will it change unhealthy behaviors. This is a governmental "smash and grab" in the worst possible way and I have done everything in my power, and will continue to do so, to avoid paying this tax. It's not as hard as the Commissioners think to cross county or state lines, or know someone who does so regularly enough, to purchase beverages outside Cook County.

This tax gives our county & city a bad name and I have yet to see actual proof that the County actually needs this money & took measures to balance the budget first. CAN THIS TAX!!!!!!!

The Illinois Chamber of Commerce is the voice of business within Illinois. We are the largest broad-based business association in Illinois, serving over 2000 businesses. A substantial number of our members are located in Cook County and those businesses are of all sizes and industry sectors.

As part of our mission, the Illinois Chamber of Commerce is dedicated to the promotion and adoption of state and local tax policies that aim to improve the general business and legal climate for the benefit of Illinois employers and citizens. A Cook County beverage tax does the opposite of that. It is hurting businesses, in particular Cook County businesses, by vastly increasing costs to consumers and providing a powerful incentive to consumers to shop outside of Cook County. The effect is hitting working class families and their jobs the hardest.

Not to mention, the imposition of the Cook County beverage tax has driven sales to bordering counties and bordering areas of Indiana. The shift in sales has depressed tax receipts in Cook County, the municipalities located within Cook County, and the Regional Transportation Authority, from the locally-imposed sales taxes imposed by these taxing bodies. Those sales tax dollars will be shifted to other municipalities and counties outside of Cook County, or in some cases Indiana.

We understand the position you are in as you seek to craft a county budget, but now more than ever we need to find a solution that will sustain economic growth and job creation for the long run. The adverse effect on the business community and the higher costs imposed on Cook County residents outweighs any increase in revenue that may result from this new tax.

Repealing the sugar tax is detrimental to the short-term health of the County's budget and the long-term health of County residents. This healthy revenue source will lead to decreased consumption of harmful sugary beverages, encourage healthier drinks and provide necessary funding for essential County services. While I worry that this is another tax collected from hard working lower and middle classes citizens, I also know that these are the groups most likely to be over consuming sugary drinks, leading to obesity and related health issues in the long-term. For this reason, I'm opposed to a repeal.

This tax is obsurd and it's not for the health of the people. The tax is obviously a way to generate revenue and it should be appealed immediately. Cook County commissioners should seek other options that would bring revenue in without punishing the people of Cook County.

As a grassroots organization, the Pilsen Alliance has been very vocal about progressive taxation, transparent government and efficient institutions.
We always look at polices through the perspective of those who are most vulnerable.
We would never favor a tax that we are not convinced will have a positive outcome that ultimately benefits the most vulnerable members of our community.
According to a recent community health assessment, diseases like diabetes, heart disease and some cancers are especially prevalent in our community. These costly chronic illnesses have been linked to the consumption of too much sugar.
While nobody likes new taxes, let's talk about the catastrophic and disproportionate rates of early death and disability caused by chronic illnesses like heart disease, stroke and diabetes. Sugar consumed in the form of sugary drinks is a major cause of such chronic diseases, and communities of color are at the highest risk from diseases caused by the over-consumption of sugary drinks.
The Cook County Board has created an incentive for people to take care of themselves by curbing unhealthy habits — and with the preventive measures this tax will fund, it will eventually save the County and its taxpayers money.
By investing in the Cook County Health and Hospitals System and expanding services and community prevention efforts in Pilsen, this tax will help reduce the financial and physical burden associated with chronic illnesses like diabetes, as well as fund public safety and social justice services.
It's no secret the County government has a revenue problem.
The Cook County Health and Hospital System spends more than $200 million a year on obesity-related health care costs alone. And, by the end of FY 2017 Cook County is expected to have amassed close to $503 million in uncompensated care costs. That's a lot of money, and a lot of sick people.
Cook County's sweetened beverage tax is only one piece of a larger puzzle, but it is an essential piece to help us move towards a comprehensive tax reform that benefits our communities, our families and our children.

To me, this tax is another example of how poor people are put through the ringer and exploited. The main people affected are the poor and small businesses. The poor are the backbone of the economy when you think of how they are exploited for everyone else's gain. This tax is greedy and dishonest. I don't think the people in charge really care about health, it's just a convenient cop-out. Please end this tax.

Rather than taxing beverages - including zero calorie, zero sugar beverages.... if you're that concerned about the obesity problem, you should tax pizza, donuts, cookies, the entire cereal aisle, cupcakes, candy, etc. The "sweetened beverage" tax is absolutely ridiculous. In Chicago, I have purchased one item under that tax since it was implemented. I have bought everything else in the suburbs or loaded up last week in Wisconsin when I was there on business.

Stop the beverage tax. We are taxed to death in Cook County and this is just another excuse for more taxes. The people who would benefit by less sugar are not being taxed because they are on food stamps

This tax has nothing to do with sugary drinks. It's a money grab on taxpayers to fund the Cook County Hospital which hasn't been ran properly in years. This tax is unconstitutional. How can any government tax us on the food we choose to eat or drink.

I pay more than enough taxes as a Chicago resident: extra city tax on soft drinks, extra tax in restaurants, bag tax, a nickel for every bottle of water. This is a tax issue, not a health issue. If it is for health, why can LINK cards be used to buy soda? If is is unhealthy, why are you taking my hard earned tax dollars and giving it to the less fortunate to buy unhealthy items. This county tax is the last straw. I will not buy pop or juice in the county. I will buy it outside of the county, and while I am there, I will do other shopping as well.

This tax is not helping anyone get healthier its a tax that causes more harm to the economy and jobs. Pulls away what little left the middle class has. Cook county has to dissolve this asap otherwise more lost residence in the future.

The Cook County sweetened beverage tax unfairly singles out one industry and negatively affects residents who cannot afford additional taxes. I object to the manner in which Cook County President Toni Preckwinkle enacted the tax by pitting jobs against this discriminatory measure.

Please stop taxing people to death and remove the soda tax. Also, the tax on diet drinks that contain 0 sugar/calories is the only thing that people can enjoy guilt free.

Mr. Bloomberg needs to drop ads/campaigns, especially since there is no proof that soda causes obesity, diabetes, etc. (diet soda with 0 calories). Prove it and provide factual evidence.

Drop the tax, educate people and kids about moderation and everything will be okay. The soda tax is not going to prevent or help with anything.

I strongly oppose the cook county sweetened beverage tax as this only hurts consumers wallets and businesses and does not promote economic growth.

In my belief, the tax on pop is an evil and greedy plan to generate money for the rich and in power. It has zero to do with health.

While it's one thing to ask Illinois's residence to help and assistance with firefighters police offices in emergency response but to flat-out twist someone's arm and for something upon them is absurd! That's fine the PreWinkle does not really concern herself about the middle class who in fact are already suffering at the high taxes in Illinois. She's Just concerned about what she wants to get done and how she wants to have it done at the expense of other people's livelihood. Shouldn't have people's opinion of Illinois matter to as we have spoken from the time the tax increase for soda was proposed and the people said No More Tax hike!

this county and its shenanigans have long been an embarrassment to its constituents. This tax is a down right insult and further illustrates incompetence of the buffoons some have elected into office. The transparent attempt to pass this off as a public health issue is laughable at best, shame on all of you.

I feel that this tax is wrong and hurting the working poor like me and my family! It is NOT about health. We the tax payers of Illinois are sick and tired of being taxed to death! Find another way to get money like cutting your salaries and the rest of the people in office! Please stay out of our pockets! That is way so many people are moving out of Illinois, this state is taxing us to death! Stop it!

This tax has to be repealed. It is killing the taxpayers of Cook County. It was not implemented to help improve our health. If that was the case, then everything that contains sugar, including bread, pasta sauce and thousands of other items that have sugar, should be taxed. Plus, when you purchase a fountain drink, you are actually paying more than a penny per ounce because of the ice. The residents of Cook County cannot afford another tax. I will continue to shop outside of Cook County for all of my groceries if the tax is not repealed. The tax is not fair for the residents or the merchants.

This is criminal against the people of Cook County. We as the people have a right to decide what we want to drink. To be taxed for this right in top of all the other taxes is criminal. To say it is based on the how our health, is not for our city government to decide. We the people have that right only. But to tax this which cases small businesses or large businesses to increase other cost to cover what this is criminsal. We have been lied to by Preckeinkle and the major. In order for them to make deals and continue these taxes on the people that reside in Cook County. Why not cut their salaries to cover the monies that are not enough!! Enough with these taxes against the people!!

Personally, I have adjusted my grocery shopping habits and started shopping outside Cook County specifically because of this tax. I am contributing my hard earned tax dollars to other counties and states who are truly considering the welfare of their citizens and not hide behind the facade of a money grabbing tax to promote a healthier lifestyle. And stop the frivolous ads to try to change people's minds. It sounds worse than one of you promoting this dumb tax. Call it what it is, a robbery of the county tax payers, and repeal this tax. Targeting a beverage tax is not the answer to solve your money problems. Diet and sugar free drinks are taxed and yet other sweets such as chocolates and donuts are not?! Are these considered healthy choices to this board?! I will continue to shop outside of Cook County for my groceries until you repeal this beverage tax. It is not your choice, in essence because of this tax, to punish the citizens of Cook County for what we choose to drink. You are hurting the poor and making constituents like me want to take action and move out of Cook County.

This is a poorly written tax. Even items containing only natural sugars are being taxed. Some stores list what is applicable on the new tax, most do not. My taxes on groceries are going up, yet the breakdown of them is difficult to understand. How about putting a flat sugar tax on alcoholic beverages. Candy, baked goods, pasta sauce, ice cream, pizza, bread? How about taxing items containing sodium and preservatives? Did you ever read the ingredients in the majority of items you purchase in a grocery store.? They frighten me a whole lot more than a can of pop. I understand the county needs the revenue, but, this is the wrong way to go about it. Why don't you tax cigarettes another twenty cents a pack? Most of the young people in my neighborhood smoke. And I'm pretty sure they are not driving to Indiana to buy them. Another tax possibility, products containing GMOs and fruits and vegetables grown with pesticides. If this is really a health issue, then by all means tax almost everything. Why single out drinks containing any kind of sugar? And frankly as much as I respect Michael Bloomberg, the commercials that he's running are ludicrous. I grew up drinking milk because that's what my mother bought. On rare occasions we were allowed pop. So am I to believe that the parents of today are dimwitted idiots that just don't care what their children are drinking? Wow! Can the tax.

This pop tax is an unfair tax, and should be repealed. Clearly it's not to benefit health, it's a MONEY TAX. Commissioner's vote NO, it's hurting Illinois.

Please repeal this extremely unpopular tax. It is an unfair tax both to your constituents and to retailers. To say it is for health reasons is nonsense – a Starbucks double latte isn't taxed but a sports drink is? I have started 'stocking up' on all non-perishable grocery items (particularly pop and bottled water) in Will County when I go to visit friends, taking income from Chicago retailers and tax revenue from Cook County. This is a bad tax and those who vote to keep it will be well remembered by Cook County voters.

This tax is not right it is violating our rights and I understand the argument from both sides however no matter how look it at it is our right to drink sugar beverages and it should not be tax this city keeps misusing funds and then they expect the hard working people to make up the shortage. If this tax continues I will continue to shop in Dupage County and therefore Cook County will lose a whole lot of revenue. You are hurting our business and making it harder for our community to get their drinks because this tax doesn't stop anything but shift people from Cook County to other Counties. What a shame now you will lose more. Sincerely, A United States Army Veteran.

This tax NEEDS to be repealed. It is a despicable, desperate money grab. If health was at the forefront of this there are far better ways to provide it than taxing the public.

This has been the worst tax in the history of Illinois. Board members that voted for it should resign, your ineptitude of running the county affairs has lead us down this dark path. First and foremost there should of been a county wide vote to see if the people of cook county actually wanted this, instead of shoving down our throats. If the members that voted for the tax actually cared about the welfare of its citizens, then why didn't they also add a tax to fast food, candy, chips etc.

This tax is not in the best interest of the peoople. Because the very citizen of this state that can't afford good medical insurance DON'T PAY THE TAX.. ALSO IF THE COMMISSION HADN'T INCREASE CERTAIN EMPLOYEE PAY WE WON'T NEED THE EXTRA TAXES. i HAVE AN IDEA WHY NOT CUT THE COUNTY COMMISSIONERS SALARIES IN HALF TIL iLLINOIS GETS BACK ON IT FEET.

Q6 ACCOMMODATIONS: If you require additional assistance or special accommodations in order to participate in a hearing (for example, need language assistance, are a person with a disability), please let us know here, call 312.603.6127 or email us at cookcounty.board@cookcountyil.gov Intérpretes de lengua española estarán disponibles para los residentes que necesiten asistencia.We cannot guarantee assistance for requests made less than 48 hours in advance of a meeting.

Having listened to both sides of the issue of the sweetened beverage tax, I find only those against the tax to have credible arguments.

The County side of the argument is to have this tax help stop juvenile obesity. They say the tax will help with research and program development to fight this issue and the many problems associated with it. I would presume the tax is a 'soft' penalty for purchasing bad choices; thus, the added benefit of leading consumers to making better purchasing choices which in turn will lead to a better lifestyle. A side benefit also has purchaser making better monetary choices within their budgets.

Why then is this penalty and incentive to better choices not imposed on welfare LINK recipients? Surely the same motives should be in place; better choices with available funds and
better outcomes with purchasing choices for all. Everyone one can benefit from the better choices and everyone has alternatives. So, explain why those in our community on food subsidies are not included in the benefits? Better choices/better health. It seems to me that the motive of the County is to disadvantage or demean our welfare recipients by not deeming them willing or able to benefit from the action of not purchasing sugared beverages.

The side against the tax accuses the County government of not making intelligent choices with their limited budget and attempting to deceive voters with false motives of 'care and concern for the health and welfare of the citizens'. Since the latter is apparently false it leaves only the former to consider as the truth. Since the County is unwilling to state truthful motives for the need to get more money, I am left with only their attempted deception.

Shame on Cook County, I am against the tax and in favor of the repeal.

I am 65 y/o and quite capable of taking care of my own health. I am not in favor of a tax on what I choose to drink, under the guise it is better for me, when in fact, I believe it to be just another means of obtaining more money to shore up budget shortfalls. Thank you.

It is time to repeal the ridiculous beverage tax that was recently passed. Cook County's looming bankruptcy needs to be course corrected utilizing current tax dollars (which are already outrageous), not by continuing to add spurious taxes.

Q6 ACCOMMODATIONS: If you require additional assistance or special accommodations in order to participate in a hearing (for example, need language assistance, are a person with a disability), please let us know here, call 312.603.6127 or email us at cookcounty.board@cookcountyil.gov Intérpretes de lengua española estarán disponibles para los residentes que necesiten asistencia.We cannot guarantee assistance for requests made less than 48 hours in advance of a meeting.

Switching from regular soda to diet soda helped me lose 130 pounds and keep it off for over a decade now. This tax is claiming to be for the benefit of the population's health, but diet soda is also being taxed, when there are zero conclusive studies of diet soda being bad for you. I am living proof that diet soda can help change your health for the better, so I find it insulting when politicians tell me this tax is for the health of the people. It's not for our health. It's just another regressive tax and a way to empty our pockets a little more.

Please repeal this tax, all it does is force those of us with cars to shop out of town. I already shop and have to pay for a bag, I don't need the county deciding if a can of soda is bad for me. I have my own physician whom is willing to vouch for the fact that I am not overweight; am well aware of what I'm eating or drinking; and in relatively good health. Thanks for looking out, but NO thanks

We are paying too much in taxes! We pay taxes on bottled water, plastic bags, sodas, etc... and this is all besides the highest taxes for everything else in the country.. Enough is enough!!! We all know this tax is not going into health care or medical expenses..

This tax is NOT for our health! It's a scam to suck the middle class dry from another tax! People who use SNAP do NOT have to pay! Why? They buy soda, etc for friends, etc and use SNAP as a scam too!! It's a pathetic joke of a tax and I'm sick of this city taxing us to death

THE TAX SHOULD BE REPEALED AS IT IS ONLY FORCING SALES OUT OF COOK COUNTY COSTING JOBS AND MONEY TO BUSINESSES. THE IDEA IT WILL PREVENT PEOPLE FROM NOT DRINKING BEVERAGES IS ABSURD. IF IT IS TO REDUCE OVERWEIGHT CHILDREN, WHY IS SUGAR FREE PRODUCTS BEING TAXED? NOTHING ABOUT THIS TAX MAKES SENSE.

Q6 ACCOMMODATIONS: If you require additional assistance or special accommodations in order to participate in a hearing (for example, need language assistance, are a person with a disability), please let us know here, call 312.603.6127 or email us at cookcounty.board@cookcountyil.gov Intérpretes de lengua española estarán disponibles para los residentes que necesiten asistencia.We cannot guarantee assistance for requests made less than 48 hours in advance of a meeting.

I am in favor of repeal. It is very evident that this is a regressive tax which is intended to fill a revenue gap that the county has in its budget. At the same time it has led to many retailers inside the county to have extreme grocery cart losses while the surrounding counties and even Indiana are experiencing mass gains of grocery purchases as well as any other goods the consumer wants to buy while outside Cook County.

This tax is an abomination, and it SUCKS!! If this county needs money, it should be coming out of county officials' pay checks and pensions.

Everything in this city is too expensive. It's getting harder and harder to keep up with the rising cost of living in Chicago. Parking, taxes, rents seem to be sky rocketing, gas...we all have to spend a little more than the normal and stretch our pockets really far to live comfortably. I don't mind the bag tax, it helps the environment. But this Sugar tax is just ridiculous. What's next?!?! Milk? Coffee? Not even the air we breath in Chicago is free since you guys like to tax for everything. We can't breath. We need a break.You claim that this will help with childhood obesity, but I think in the time and age we live in now, the majority of us are pretty health conscious and child hood obesity has gone down in recent years. We aren't going to believe that this tax is going to help us and the children. It's to help the corrupt people in office in the city of Chicago fill their pockets.

Please repeal the beverage tax. If parents raised their children on the proper beverages, then children would not pick sugary drinks as their choice. The bag tax did not generate the desired revenues and the sugary drink tax will not either. Consumers will find a way around the tax, like Indiana.

I may attend meeting if I can. This tax is punitive - I'm nearly 80 & I'm furious w/this. I'll definitely remember this when voting. Propoganda ads ridiculous. Parents can do as they wish. I get angrier each day I don't have Caffeine Free Diet Pepsi. A simple pleasure that shouldn't be taxed additionally. JP

The last thing we need in Chicago is another tax. This year alone, cook county has instituted a .07 cents bag tax, increased property tax, increased sales tax opportunities, and increased state income tax. Who on earth would think it would be ok to apply yet another tax on our citizens. I love Chicago and have lived here for 11 years, and have never once thought about leaving until now. We cannot continue to tax our citizens to make up for the lack of governance and responsibility of our politicians. I run a large budget at work that I am held accountable to. If I go over, I need to provide an explanation and show how I will fix it, personally, within my part of the business. It would never be an option to start tapping into my coworkers or customers' budgets to fix my problems. I make a good living in this city and it is already very hard to live here. What's even more disturbing are the false claims of politicians claiming that the tax is to help the health of our kids. That is completely untrue and insulting that you think anyone believes that. You don't want people to drink sugary beverages, yet you're already spending the money you're hoping the tax will bring in by them BUYING SUGARY BEVERAGES. Have you also completely disregarded other things that are unhealthy? Donuts? Candy? Fast food? Your claims are so untrue its disgusting that you're trying to make people believe them. I have never been less proud to be a citizen of this city. I strongly urge you to repeal this ridiculous and unconstitutional tax.

I am a Plant Manager for PepsiCo at its 51st Street facility located in Chicago, Illinois.

PepsiCo is proud to be part of the non-alcoholic beverage industry – an industry that has operated in Illinois for more than a century.

As plant manager I oversee 176 employees manufacturing and delivering our products across northeastern Illinois and throughout Cook County. These are good paying, middle class jobs that many Chicago and Cook County residents rely on to support their families.

Cook County's beverage tax has caused sales declines in the County which will put pressure on our company and our employees, additionally, it will hurt the small shops, restaurants, theaters and other small business we serve.

A policy that dramatically increases prices for consumers, risks jobs and hurts small shops and restaurants is not going to help Cook County or any other place in Illinois.

We are passionate about our employees and their families and how we support our local communities.

On behalf of the industry, my colleagues, my customers and the residents of Cook County and throughout Illinois, I ask that the committee please support a repeal of Cook County's beverage tax and pass House Bill 4083.

Q6 ACCOMMODATIONS: If you require additional assistance or special accommodations in order to participate in a hearing (for example, need language assistance, are a person with a disability), please let us know here, call 312.603.6127 or email us at cookcounty.board@cookcountyil.gov Intérpretes de lengua española estarán disponibles para los residentes que necesiten asistencia.We cannot guarantee assistance for requests made less than 48 hours in advance of a meeting.

I urge you to reconsider your support of the Cook County beverage tax. Since it was implemented, the beverage tax has had disastrous effects on the local economy and the household budgets of our county's working families.

Do we really want to follow in the footsteps of Philadelphia, where there has been a huge backlash against a similar tax? Since the tax went into effect in Philadelphia at the beginning of the year, families have been paying more for common grocery items and many have resorted to shopping outside the city for better prices. Sales plummeted as much as 20 percent at some local groceries and local beverage distributors reported up to a 50 percent decline in sales while sales spiked at retail outlets just outside city lines. Grocery stores and beverage distributors have announced layoffs in the hundreds. Meanwhile, the local government still has a revenue shortfall.

It is not too late to avoid these devastating impacts in Cook County. I hope you will stand up for voters like me on October 10th and repeal the Cook County beverage tax.

As a Chicago resident, I am already paying high taxes for nearly everything... Even bags at the grocery store! This tax is outrageous. It is NOT promoting healthy decisions... It is a way for Cook county to help relieve it's debt. Get rid of this tax - let me make my own decisions without having to pay the penalty of other's poor decisions.

The beverage tax will do NOTHING for the health and/or well-being of anybody. The parents have to do that. What it will do is hurt the small market stores because people, many that I know of, will go out of county to by their beverages, and while there, will do all of their shopping. I'm sure the big market stores will fees this also. The people DO NOT need you to tell us what to eat and/or drink. Please repeal this ridiculous, and VERY unpopular tax. If you really think the people want this, make it a referendum and let the people of Cook County vote on it!

Please repeal the Cook County Beverage Tax. It has nothing to do about health benefits, but rather is a way to take more money out of taxpayers pockets. If it was about consumer health, the preference would be $0 tax received. A county tax also only hurts those in cook county. So many simply cross county lines to purchase the soda. Also, why would diet soda should be taxed too as this is not adding to health risks. The sugar in beverages should be taxed at the source (the manufacturer) to be effective in decreasing consumption.

As a consumer, this soda tax makes it worth the trip to other states/ counties to buy my goods. Cook County will loose more than just soda purchases. Also, I purchase juice for my children that has vitamins and minerals they need but is included in this tax. How is this fair?

You should also cut the outrageously sky high property tax by half and repeal the recent increase in the income tax. You are making it harder and harder to live in Illinois. I am tired of being robbed by Democrats. I thought you were on the side of the working man. I can live with, but am not happy about the five or so other recent tax increases. Stop coming up with new taxes to pile on top of all the existing taxes. You will have to find another way to fund your pensions. I do not get a pension. No one is paying for my retirement. Why should I pay for yours? You will have to start cutting government. If you need help, call or email me. I will begin massive cuts.

This is a regressive tax, implemented under false pretense. While I understand the need for balancing the budget: (1) Don't lie to us and use political misdirection, presenting this as a measure taken in response to a child heath "crisis"; (2) When leaders implement additional taxes on the people, they should come with an explanation of other cost-saving measures taken first; and (3) This particular tax is regressive, affecting the middle class, those making too much to get a LINK card but not lacking the resources to travel across the border. Finally, the tax is severely hurting stores and restaurants in border areas, with customers opting to travel just slightly further, to avoid the tax.

This tax is not about our kids health, its about Cook County likes to spend money and give out raises and we the taxpayers have to suffer, not the employees of Cook County. STOP spending money you don't have & decide you can just take it from the taxpayers. Stay on a BUDGET!!!!!

How ironic to purchase a Diet Coke at McDonald's today for $1.00 only to pay $.34 tax. Simply incredible.

The creative budgeting from this group is a joke.
I would be happy to offer other suggestions to bring revenue to Cook County.

The commissioners need to repeal this tax on October 10th.

Respectfully submitted,

Bob Kingsley

A price hike on more than 1,000 everyday beverages (even the diet ones!) is expensive, unfair and seems to penalize the citizens it's supposed to benefit. Businesses are also suffering with a drastic decline in revenues and are even facing layoffs, compounding the problems surrounding this tax. The surrounding Collar Counties and Indiana seems to be the only ones gaining substantial benefit.

This is a scam to screw taxpayers for more money to support Tony Preckwinkle's and cook county supporting commissioners socialist agenda. They manage a multi billion dollar budget. Cook County beverage tax is the government overstepping... This isn't a public health safety measure, this is a MONEY-MAKING measure. Our county gets enough money from us as it is - it needs to LEARN how to budget and not continue to overspend. Punishing people because they want to have a sweet drink is ridiculous! Where will it end? Is anything with sugar in it next? This sets a horrible precedent...and the government is out of line in this case.

The Soda Tax for restaurants was implemented in a way forcing restaurants to pay the tax upfront to the supplier which makes it very hard to pass on to guests... so it is the restaurant taking the tax hit. Additionally, this is the only tax that I'm aware of where the end user isn't the one paying the sales tax. It cost me about 20k to my bottom line across my restaurants last month. This is just a business tax.

This is not Bucks county. We are in Cook county. I am not a business owner: but a political person. The finger I blame here wouldn't be coming from the county government who is making 90 million dollars a year: it would be coming from the county government who is making 90 million dollars a millisecond! My words for the county president and Mr. Bloomberg are as follows: like Donald John Trump said to his peo, your fired!

This tax is nonsense, you tax everything, I am a senior on a fixed income. You tax property, phones, utilities, food and now the little pleasure I was able to afford pop, what will you tax next, possibly the air we breath or each breath we take. You say it's for the welfare of our children I say "BS". Parents are responsible for their children welfare, if they don't want them to have pop then don't buy it. Why should the rest of your citizens be penalized. This is not about the welfare of the children, it's about the budget.You people need to get together and find another solution to your budget problems other than taxing US to death. I want this tax repelled, very disappointed in you Pertwinkle, thought you were better than this. Shame on you!

The Sweetened Beverage Tax is indeed regressive, burdening low-income residents unfairly, and I am in favor of repeal. County revenues do need shoring up, so I would encourage the Board to use its considerable power to persuade the Assessor's Office to reform its system to make it fair, transparent and accountable. Doing so should have positive impact on revenues, improve public trust in County institutions, and repair damage to the Democratic Party's efficacy.

The sweetened beverage tax is a totally ineffective methodology for supposedly reducing childhood obesity. Just as the legislated prohibition of alcohol was a complete failure during the early 20th century, Cook County Board President Preckwinkel and her allies must realize that healthy nutritional practices also cannot be successfully legislated.

I oppose the Cook County Beverage Tax and would like to see it repealed. It's the governments way of driving revenue at the expense of taxpayers and oftentimes lower income communities who disproportionately buy/consumer ready to drink beverages.

This tax is unfair and not uniform in application across all beverages and products. It should be repealed. County government should remove waste and inefficient behavior first and not lie to us about this allegedly being about public health. The government won't tax fast food but wants to tax diet soft drinks, but not orange juice? It makes no sense and we're tired of tax after tax with no justification.

As a "Crook" County tax payer I find it absurd that I have been forced to spend my money in other counties just to enjoy the little things in life....i.e. soda
After serving a lifetime the Military and traveling the globe, my assessment of this tax is a third world tactic used by piss poor leaders who spend recklessly. Repeal this tax at once!!
When I enjoy a soda now I find myself on Zillow.com looking at homes in surrounding counties.

Stop finding new ways to tax. Balance your budget the way we all do in our own homes. This is not about concern for people's health, it's only about money. You want more money for your shady deals and contracts for your friends/campaign donors. I will remember this at voting time and you better believe I'm voting against all incumbents, I hope cook county residents agree with me.

Can the Tax, or we'll can the people who voted for it come next election. Sugar free sodas and juice drinks have little or significantly fewer calories than 100% fruit juice, so how dare you insult my intelligence by saying that cause obesity? Cut the unnecessary multi-levels of management and you will be able to close the budget gap. You don't need commissioners, asst. commissioners, directors; asst. directors...managers who manager other asst. associates...cut your unnecessary spending and I can stop drinking water at restaurants which only lowers your sales tax you collect from me and my family. It also lowers the sales tax I pay at the grocery store because I no longer buy diet sodas in Cook county but I do when I am in neighboring counties visiting friends or family...so explain how this is helping you raise funds for Cook county? And when I shop at grocery stores outside of Chicago, they give me bags for my purchases for Free. Maybe I need to move to Lake County or perhaps Indiana or Wisconsin...there crime rates have to be better than Cook County.

Repeal the beverage tax and stop attacking Chicagoans who are just trying to support their families. Shame on any commissioner or alderman who supports this crippling tax. Continuance of this tax will continue to harm supermarkets, small businesses, restaurants, and working class families. Anyone who cares about any of these parties must vote in favor of repeal!

Gatorade is formulated with 6% carbohydrate for a specific, efficacious reason, which is to replace the same amount of carbohydrate lost in sweat during exercise. Gatorade targets competitive athletes in its advertising. You will never find a Gatorade ad targeting passive or inactive audiences. Gatorade is for athletes, and the beverage tax will push sales of Gatorade to collar counties and will hurt Cook county. It is absolutely unnecessary to punish outstanding, efficacious products like Gatorade that fuels athletic performance, backed by over 40 years of science.

Q6 ACCOMMODATIONS: If you require additional assistance or special accommodations in order to participate in a hearing (for example, need language assistance, are a person with a disability), please let us know here, call 312.603.6127 or email us at cookcounty.board@cookcountyil.gov Intérpretes de lengua española estarán disponibles para los residentes que necesiten asistencia.We cannot guarantee assistance for requests made less than 48 hours in advance of a meeting.

This tax is ridiculous in terms of the lifestyle choices one makes day to day with their everyday diet. A single category of food does not determine one's health but a daily balance of food and beverage choices, fitness, sleep, stress, etc.. Let's not mask the core issue so we can generate revenue.

Testimony Cook County Board Meeting reference number: 17-4704

As a nurse, a professor and a healthcare advocate, I have seen the harmful health effects of a sugar-laden diet. In order to provide clarity on the health benefits of taxing sweetened beverages here are some facts…THE HEALTH FACT IS: Chronic illnesses such as diabetes and heart disease are on the rise and heart disease is the number one cause of death in all adults. These illnesses are linked to the high consumption of sugar.

THE HEALTH FACT IS: Sugary beverages are the No. 1 source of added sugar in the American diet. I will repeat that….Sugary beverages are the No. 1 source of added sugar in the American diet. A decline in consumption will prove incredibly beneficial to the physical health of residents of Cook County.

THE HEALTH FACT IS: A child born in year 2000 has a 1 in 3 chance of having diabetes. If that child is Black or Hispanic that number increases to 1 in 2 chance of developing diabetes. Too often, we see lower income and minority communities targeted by the beverage industry, and unfortunately, those are the communities suffering most from the adverse health effects sugary beverages. These same lower income and minority communities have disproportionately high rates of diabetes and other chronic diseases.

A sugary beverage tax is just one important piece of the health puzzle. But it's something we can achieve now. Public health experts state that taxes can be one of the most effective policy strategies in achieving health equity. More so, the World Health Organization recommends that countries implement taxes on sugary beverages to help lower consumption and in turn reduce the prevalence of heart disease, diabetes and tooth decay.

THE HEALTH FACT IS: these illnesses are preventable. We can take action to change the direction of this health calamity that will only worsen if we don't act now. I urge the Cook County Board to take that into consideration when voting to continue the one-cent-per-ounce sugary beverage tax.

We cannot just stand by and watch our communities endure these health burdens. Last November this Board took a tremendous step in the right direction by supporting this tax. I urge you to continue your support of this critical and necessary tax.

Karen Larimer PhD, ACNP-BC, FAHA

President, Metropolitan Chicago Board of Directors

American Heart Association and American Stroke Association

This tax is having a direct impact on residents of Cook County as well as employees of companies subject to the tax. It will increase poverty as well as unemployment in the county. It is punitive to low income families as well.

Believe it is wrong to arbitrarily tax any type of beverage or food. This tax is unfair and unnecessary. This tax is also putting people out of jobs which has direct negative impact on the community.

As a resident of Chicago, we get enough additional taxes. We already have a beverage tax, a mcpier tax, and now a sweetner tax? If it's not a tax on beverages then it's an extra tax on water bottles. What else is next? You will need to find a new, frivolous tax on something else bc you are not meeting your quota on your other taxes that you disguise as earth friendly or health related. Do you not realize people are travelling outside cook county to shop? You are hurting businesses in Chicago and those stores will have to raise their prices even more to make up for the loss.

I sent this to Commissioner Dennis Deer, who did not have the common courtesy nor show any respect by responding. Is the Board aware if you receive a FREE reward drink at Dunkin' Donuts and order a fruit smoothie, they are requited to charge the Cook County Beverage tax!?!

As your constituent, I urge you to reconsider your support of the Cook County beverage tax. Since it was implemented, the beverage tax has had disastrous effects on the local economy and the household budgets of our county's working families.

Toni Preckwinkle said NO to Stroger's 1% sales tax because she said it wasn't needed. She got it repealed. THEN SHE and the County Board re-instituted the entire 1% sales tax! Now the county is out of money AGAIN and she and the Board needs ANOTHER TAX!?! "It's for children's health"?!? REALLY?!? I may live downtown, BUT, because of excessive taxes by the County (and City), I usually go to Lake county. Relatives live in northern cook county and we/they go to Lake county for gas, tobacco, pop, water (city tax) and most other items. Jewel had 59oz lemonade on sale for 99 cents. I went to the Jewel on State Street and learned the tax was 59 cents PLUS 10.25% sales tax. I did not buy the item nor anything else in my cart. Aside from the cost of the tax, it is too confusing to figure out what is taxed. When in doubt, I don't buy it; I don't even ask anymore.

I am a 62 year old and retired. I'm in excellent health and exercise regularly. I hardly drink pop but enjoy making smoothies with frozen fruit. NOW, I rarely do this because I REFUSE to buy anything impacted by the 1% tax, including Trader Joe's beverages that add flavor and consistency to a smoothie. Guess what? I eat LESS fruit now.

You were appointed to replace your friend, Robert Steele, a Preckwinkle supporter. I am saddened by the loss of your long time friend, but please show your support for your constituents and NOT the tax crazed Preckwinkle.

Supporting Preckwinkle is also political suicide. Preckwinkle went from a supporter of the people to a tax and spend proponent. She was initially elected in 2010 on a pledge to eliminate the remaining portion of the sales tax increase enacted under Todd Stroger. Now, in the past 16 months, she's restored the Stroger tax, enacted a new tax on sweetened beverages and approved a new 1 percent tax on hotel stays. She is now referred to as Taxwinkle.

It is not too late to avoid these devastating impacts in Cook County. I hope you will stand up for constituents like me on October 10th and repeal the Cook County beverage tax. You commented that you are looking at all options; I'm not sure what that means, but the tax needs to be repealed. It will be see if anyone actually reads this letter and comments on my language, as I did not use boiler plate language other than the first sentence.

Thank you.

I oppose the Cook County Beverage Tax and would like to see it repealed. This is not a sugar or a soda tax that is meant to improve the health of individuals. It also taxes zero calorie options that research shows can help individuals improve their health.

The current tax is not a tax to help eliminate obesity - it taxes no sugar and sugar containing beverages equally and leaves only water, tea and juice as an untaxed product. This is not supporting healthy choices, but is instead a pure money grab for all bottled beverages.

I remain completely opposed to this new tax. The concept that it is for the health and welfare of the public has to be the biggest scam ever perpetrated on the public by greedy and self-serving politicians. I only wish that Preckwinkle and the rest of the commissioners that support this tax could be removed immediately for insensitivity to the majority of general public who oppose this tax scam and take Michael Bloomberg with them!

No other county in the state of Illinois has this beverage tax. I am a working single parent that cannot afford to purchase beverages in my county. I shouldn't have to drive miles away from home to worry about this issue. This is not a matter that the government on any level should address. They are exposing families that children are suffering from illness, not due to soda or juice. This is unfair to the working families of cook county that are already paying more taxes with the increase of state taxes. Cook County should benchmark other large counties to see what they are doing to address their debt concerns.

I vote to repeal the tax, lots of jobs are on the line. Childhood obesity is not due to soda, it's due to kids not being active anymore. Kids rarely go outside and play, they rather sit in the house and play their gaming systems, stop using the soda industries as an excuse to add more taxes to people to pay for the budget deficiency's. Find another way to balance the budget.

Beverage taxes are a bad idea. Because a price hike on more than 1,000 everyday beverages (even the diet ones!) is expensive, unfair and hits your family's budget hard. Businesses are also being hurt and Indiana and the Collar Counties are reaping the benefits.

I believe the revenue generated from this sweetened-beverage tax will benefit our state immensely. As a consumer, I welcome the extra cost of these beverages, as long as the money supports programs and initiatives to promote public health, such as incentives for grocers to locate their businesses in food deserts, and expanding medical services to those with low access to health care in impoverished neighborhoods.

Both the county and state need to find other ways to balance their budgets. Many families within Chicago are already low income and this tax only makes things worse. It is also unfair for local officials to make these types of product usage decisions for individuals.

I live outside of Chicago, but work in the city. Since this tax has been in effect, I bring my own soda. I have found it's easier to simply pack a lunch (and sometimes dinner) since I'm carrying soda anyway. This means I am not only no longer buying any soda in the city, but I have stopped purchasing food, too. This tax is additional to the already very high taxes in the city. Tax revenues grow with every raise and every price increase. There is no reason government costs should be allowed to increase at a higher rate than the economy in general. I urge you all to start managing government revenues in a realistic manner and stop playing games by cutting jobs that were in place long before this outrageous tax was put into place. Please repeal the Cook County Beverage Tax.
