If I were to summarize my opposition to changes to the current sweetened beverage tax, it would be this statement: "If this tax is enough to upset you, you are drinking way (way) too many sweetened beverages." My family happily pays the few extra pennies for our grape sodas, fizzy sodas, Diet Cokes and root beer floats--which are all treats in our house--and we enjoy juice, fizzy water, and tap water the rest of the time. For our family of four, the sweetened beverage tax is a tiny expense, and we are pleased that these funds are invested in necessary programs for the people of Cook County. A cola company makes soda for next to nothing and charges us \$1.00, and, for our carbonated water, high fructose corn syrup, aspartame, and caramel color, we get nothing in return but health risks. Cook County charges us a few pennies more, and we get much needed services for our community and a slight incentive to make healthier choices for our beverages. Let's keep this healthy revenue source, encourage healthier drinks, and enjoy our beverages with a little funding coming back to our communities. Please do not repeal!

Q6 ACCOMMODATIONS: If you require additional assistance or special accommodations in order to participate in a hearing (for example, need language assistance, are a person with a disability), please let us know here, call 312.603.6127 or email us at cookcounty.board@cookcountyil.gov Intérpretes de lengua española estarán disponibles para los residentes que necesiten asistencia. I have lived and worked in Cook Cty all of my life. Now I am a senior citizen. I cannot and will not pay this tax which makes my simple pleasures in life unaffordable so I started buying my beverages in Lake County, then my groceries, and now my gas. How can you keep make the taxpayers continuously pay for your mismanagement and theft??? Live within your dwindling means like I am forced to do.

Regressive taxes are contributing to income inequality all across our nation. If we need to balance the budget, we need to be increasing taxes on those at the top, who have the most disposal income to bear this burden. We can't keep balancing the state, county, and city budget on the backs of the lowest income constituents. Get yourselves out of the pockets of the rich who want to stay rich. Find another way to balance the budget that doesn't disproportionately affect poor people.

Repeal this tax. Falsely there are still TV commercials stating this tax is about the health of children which we know is blatantly false. The county board needs to manage and curtail spending NOT continue to add taxes on the working class, home owners, and retirees (like myself) on fixed income.

I am voting for the repeal of the sweetened beverage tax because 1) it taxes diet/artificially sweetened beverages, and 2) the tax rate on the items I personally purchase is between 43% to 52% - which is absolutely outrageous. We already pay the highest sales tax rate in as a result of the Cook County 1% tax increase in 2016. What is next? May I make a suggestion please? Learn the meaning of the following word... R-E-F-O-R-M. Stop being lazy and throwing money at your problems and start making some difficult policy decisions to address those problems and start REFORMING Cook County government. If you need some assistance with this, ask for ideas from your Republican colleagues (which, unfortunately, are very rare in Chicago and Cook County government). This is who I will be voting for in the upcoming election.

I vehemently oppose the Sweetened Beverage Tax and am in favor of repealing it. Run the county finances more efficiently rather than making people move out of the county because they can no longer afford it. It also hurts small retail businesses. Lastly, government should not regulate what people choose to eat and drink and parents are responsible for helping their children make the right choices. I will not participate in this tax and simply cross into another county to purchase these beverages.

Respectfully, please focus your valuable time on budgetary items that significantly impact the long term success of our wonderful city instead of tacitly babysitting people's waist lines. This beverage tax is publicly incendiary, which will distract you from the big picture.

I believe Toni Preckwinkle has admitted that the goal of this tax is to raise money, not to protect our health. If we wanted to protect our health there would be much better ways of doing this. I am a grown up and if I want to have a zero sugar diet coke, I am old enough to decide to do that. Now not only does it cost me more but I can in many places no longer get free refills because restaurants don't know how to charge for that. We used to have so much fun taking our giant containers to 7-11 on bring your own container day but can't do that any more in cook county. I haven't stopped buying these beverages but now I will drive out of the county to do my shopping. I feel terrible for all the businesses in cook county that this is negatively affecting and workers who are being let go or having their hours cut back. We may be saving county jobs but what about these employees and business owners who are bearing the brunt of that. Not to mention that the county needs to look at cutting its cost. I work for a public company who is constantly cutting costs. Yes, it sucks -- but we've all learned to live with it.

The downsides and detrimental components of this tax far outweigh the positives. It stands to cripple our businesses that are already suffering as a result of a litany of tax, health care and wage hikes over the last couple years.

I do not believe that the beverage tax will stop people from going to fast food restaurants. This is just another excuse to raise even more taxes.

As a longtime resident of Cook County (I grew up in Schaumburg and now live in Chicago), the soda tax is a prime example of why Chicago, Cook County, and the State of Illinois are in such poor financial situations. As reflected in the last census, all three had population decreases - this is the tax base. High taxes is a prime reason for this. A balanced budget requires balanced spending - not one-sided tax increases. We have been taxed enough and at this point I'm planning to move to DuPage County if things don't change. While the 0.1% will always live in Chicago because they don't care about paying more, the middle and upper middle class are the backbone of the Chicago and Cook County tax base. As more and more of us leave, things will only get worse.

Personally, I had high aspirations when Toni Preckwinkle was elected. However, she has been an utter disappointment and more of the same. Her hypocritical flip flopping over the true driving force behind the soda tax is just another example of how untrustworthy she really is. The truth is that the soda epidemic and the resulting health problems disproportionately affect the poor - the same people who are unaffected by the tax.

I'm glad the tax is going away and I hope the commissioners who support it lose their upcoming elections.

This tax has no statistical data to support claims of improving the health and well-being of its citizens. It is only a largely intrusive, low-revenue generating, and business hurting measure by the county. I, personally, have been purchasing large amounts of soda just outside the county and will continue to do so until the tax is repealed.

I am voting to repeal the beverage tax once and for all! Stop the fraud in Cook County and stop taxing the individuals that cannot afford to be taxed on beverages. Don't deceive us by telling us this tax will make our children healthier because that is such a lie. People will buy beverages outside of Cook County which will devastate businesses in Cook County. Find another way to balance your budget!!!!

This is not a tax to help improve health. It is a tax just to increase revenue on items that are already taxed.

Hello, my name is Colleen Stone. I live on the northside of Chicago, and I am in favor of repealing this tax. Why I am I against this tax you ask, and there are many reasons. First and foremost, it is a tax increase that pays for revenue increases and no new services. Since Toni Prekwinkle has taken over she has added red light cameras, tobacco and ammo taxes, and increased the sales tax she ran against.

Secondarily, this tax proposal is being sold as a benefit to health of county residents the same way red light cameras are sold as a safety improvement. Neither of these two things are for the matter at hand, they are for revenue and as a byproduct, health, safety and so on. Whatever justification the county feels good at sales pitching the public.

I find it highly objectionable that I have to pay a tax for people who use county services like the jails and the hospitals. I am not a gang member using county services for my bullet wounds, I have insurance. I am also never going to use the jail or the court system to be housed or prosecuted in. This tax also wont tax the people who are likely to use the counties services like the hospitals. Whom because of a poor diet and little or no insurance end up going to the county hospital to treat their poor dietary habits. These people are low income and SNAP and welfare benefits is not subject to these taxes.

What gets me is that pop has never been taxed, for almost 150 years of cook county history. now we need a tax on "sweetened beverages" basically everything that is not sanctimonious by county standards. So I have be taxed for drinking diet coke? and not just a small tax, a draconian over the top tax that is a penny an ounce. Alcohol is not even taxed at such a high level. The best thing for the county is to repeal this tax , because Illinois, the county, let alone the city are going to keep losing residents because of politicians who don't care about all three. They are just trucking along doing their job before they retire and leave the area. Also leaving their mark of corruption, malfeasance, patronage and waste. Cut some of that before you start hitting residents in the mouth with this tax.

Q6 ACCOMMODATIONS: If you require additional assistance or special accommodations in order to participate in a hearing (for example, need language assistance, are a person with a disability), please let us know here, call 312.603.6127 or email us at cookcounty.board@cookcountyil.gov Intérpretes de lengua española estarán disponibles para los residentes que necesiten asistencia. The board knows, I know, even Michael Bloomberg knows that this is about money and not about health. Anyone supporting the tax clearly is both hypocrite and incapable of governing.

I am firmly opposed to the sugar tax,

Not only is it affecting those that drink sugary drinks but it's also seriously affecting those families being assisted by SNAP. I am a divorced lady, living alone and aged 71.

A year ago my financial resources became so dangerously low, I had to apply for SNAP. It was a godsend. I was being allowed \$198 per month. I didn't have to scrimp on buying better cuts of meats, vegetables and fruits. Then this year my allotment was cut to \$98.00 per month. I was back to where I started, watching what I bought and having to spend at least an additional \$50 out of my pocket, because the SNAP board was taking out of my allotment enough money to make up the difference on the taxes for sugary drinks.

But it's a lot MORE than what I spend on sugary drinks per month. I don't gamble, drink, do drugs or run around to fancy restaurants but I do enjoy drinking a glass of Pepsi with my lunch and dinner, my only luxury.

You are claiming to be helping people but this is affecting the quality of life for people with limited resources, people like me. Once I donated to food pantries but if this tax continues, I'll be the one resorting to them too. I feel bad enough using SNAP.

Mrs. Silvia Santillan-Baranek

My husband drinks more soda than I do -- but by no means do I support this "tax". In fact, my husband has bought soda in another county -- and will continue to do so until this "soda tax" is repealed once and for all.

The Cook County sweetened beverage tax is a step forward towards protecting the health of our community. Unnecessary added sugar and sugar substitutes increase risk of diabetes, obesity, and heart failure and should be taxed in order to discourage individuals from purchasing unhealthy beverages.

I'm currently traveling outside cook country to purchase my beverages. Cook county is not only losing revenue from my soda purchases but I'm also buying other groceries because the taxes are cheaper. It's a hassle but I can justify it because I'm saving money.

This tax is only about raising revenue to cover your expenses and will probably result in less revenue for the county. Here's a suggestion, why don't you follow the example of private industry: Get an expert who is familiar tiwth the concept of LEAN processes and reduce the redundancy and waste in local government so you don't need to tax your citizens so much.

The sweetened beverage tax needs to be repealed as soon as possible. I live in Chicago and work for a business that owns and operates food and beverage stores within Cook County. So I am personally affected by this tax in two ways, both where I live and where I work. This is an unfair tax on every day expenses that affects low income families that are already heavily taxed in other areas. This tax also hurts sales of businesses that sell sweetened beverages (especially the ones close to the county border). I am also especially disgusted at the propaganda advertising that has been done in Chicago to try and get the residents to agree with this tax because it is in place to help with the issue of obesity. These advertisements are completely lying and this tax was created for one reason alone, which is to generate extra income for the county. Somehow the county finds enough money to pay for propaganda advertising to support this tax though. I'd be interested in knowing how much money has been spent on these advertisements.

There is WAY too much hypocrisy in this soda tax. If this is all about "our children" and helping prevent people from being overweight and developing diabetes, WHY is diet soda being taxed? The American Diabetes Association recommends diet sodas instead of regular soda. They also don't recommend you drink juice that is sweetened with sugar. There are very FEW juices you can buy that aren't artificially sweetened. Even then, they don't recommend you drink large amounts of juice. WHY is juice NOT being taxed. Toni Preckwinkle also said that one of the budget cuts she was going to make was not to fill 600 open positions. WHY didn't she do this BEFORE choosing to tax us AGAIN?

I am SICK of being nickeled and dimed by the county. I will make a trip once of month OUT of the county to buy all the soda I need or go and buy any time I'm near the county line.

I WILL NEVER pay one cent toward this tax. I will not buy drinks in fast food restaurants or any other place that charges this tax.

I disagree with this beverage tax. As a taxpayer, I believe there are better ways to manage debt vs. taking the residents for everything, even including non-sugar beverages.

Please get get rid of the beverage tax. The tax is far too excessive. The only habit it has changed is where I shop. I now do most my shopping in Lake or DuPage county to avoid the tax.

While I understand that the beverage industry does not like this tax, I believe it is the correct thing to do to discourage individuals from consuming sweetened beverages - which greatly contribute to obesity and diabetes, which the public pays for through Medicaid and other significant costs to the healthcare system. This tax protects people's health and the long-term fiscal viability of our community. To repeal it would simply be cowardice and bowing to the pressure of industry.

The Beverage tax causes more harm than good especially for the supply companies. They are already talking about have to having to layoff field worker because they are not getting as many orders due to the lack of sales that this bill has caused.

I speak in opposition of the repeal of the beverage tax repeal. It's not a perfect bill, but it's overall intent is rooted in good scientific evidence and good public policy. Ideally, the tax would be on the most objectionable beverages only -- sugar-sweetened beverages -- and contribute to a public health fund. Taxing the sugared and artificially sweetened beverages equally confused the impact. Still, sweetened beverages have a huge impact on healthcare costs in our County and a strong negative impact on individual citizens. The tax is worth keeping, even with the current politics.
