As Tinley Park is divided by Cook and Will County we struggle to garner interest in Cook's side. The special assessment incentive program is the first step to leveling the playing field with Will. By adding the extra requirements we are turning our once great incentive program into a disincentive.

I am opposed to this prevailing wage and other requirements being tied to the 6B Tax incentive program. This is unnecessary and simply drives up the cost of doing business in Cook County. The goal, while noble, will not be achieved in this manner. More businesses will leave the county and jobs will be lost. This is particularly onerous on small business and manufacturers.

The Chicago & Cook County Building Trades strongly supports this clarification language to ensure that all of the Women and Men in Cook County who perform construction on projects that receive public incentives and/or funding be paid a fair and Prevailing Wage. This promotes the use of USDOL OA registered programs by ensuring that all contractors who perform construction on these publicly funded / subsidized projects participate in them.

The costs of the prevailing wage requirement outweighs the benefits in many ways. The prevailing wage requirement will make the tax incentives more complicated. The apprenticeship hurts small business owners who need the work done but must be able to do the work cost effectively. The apprenticeship also hurts small contractors who are not part of the apprenticeship program as they would lose out on some local construction jobs. Lastly, the prevailing wage requirement adds additional burden to an already stressed County system. The County lost income when the County repealed the sugar tax and the County budget has been cut. Despite budget cuts, this prevailing wage requirement will be a distraction to the Bureau of Economic Department normal course of business in tax incentives by requiring submission of monthly certified payroll reports during construction projects.

The Village of Schaumburg is concerned about the additional requirements that will be placed on businesses who receive Cook County tax incentives. The Class 6B Program has been a great economic development tool to recruit businesses and keep them from going to DuPage, Kane and other counties who have lower taxes. Over the past 10 years, Schaumburg has worked with Cook County to retain 995 jobs and create 809 jobs through the Class 6B Program. These businesses have invested over \$51,000,000 to fill vacant buildings and expand facilities. The proposed Ordinance 18-1604 could limit further investment in Schaumburg and Cook County by creating additional costs and regulations. The Class 6B Program works as it is and brings good paying jobs and investment to Schaumburg and Cook County.

Mr. Erik Varela, Esq
Special Assistant
Governmental & Legislative Affairs

3/1/2018 RECORD OF COMMITTEE WITNESS COOK COUNTY and FOREST PRESERVE DISTRICT
BOARDS OF COMMISSIONERS

Office of the President
69 W. Washington, Suite 1415
Chicago, Illinois 60602

Re: The Illinois Property Tax Lawyer's Association's recommendation to reject pending amendment to add "Prevailing Wage/apprenticeship Requirement" to incentive classification.

Dear Mr. Varela,

I am writing to you on behalf of the Illinois Property Tax Lawyers Association. We have reviewed the attached draft of the proposed amendment to the tax incentive ordinance. We wanted to express our concern regarding this proposal and what we believe will be unintended consequences if it is adopted.

It is well known that the incentives were adopted many years ago to attract and retain manufacturing and warehousing in Cook County. For the most part the incentives are designed to encourage occupancy of vacant buildings, substantial rehab or new construction. They were not intended to serve as a labor or wage protection tool. As you know, there have been several amendments to the incentive ordinance that were passed in 2017 and subsequently either repealed (the attached apprenticeship amendment to the class 8 incentives) or amended (the attached amendment waiving the requirement of the wage and compliance with laws affidavit).

We understand that the apprenticeship amendment was repealed at the urging of numerous associations and individuals who indicated that such a burden would greatly limit the effectiveness of the class 8 incentive. Most small mom and pop contractors and subcontractors that economically perform the construction work on smaller projects do not have apprenticeship programs in place nor are they large enough to afford to have such programs in place. Yet, they provide an important resource for getting incentive properties built or rehabbed for re-occupancy. To eliminate this affordable building choice for incentive properties will make many incentive projects unfeasible. It seems illogical to expand this apprenticeship requirement to all incentives when it was just repealed for class 8 incentives.

Similarly, to impose a prevailing wage requirement to incentive projects will also add to the increasing costs of obtaining and maintaining incentives and likely detract from the original purpose of the incentives which was to encourage development and revitalization of distressed areas and properties. While we sympathize with Labor and their desire to maximize earnings for construction workers, imposing further requirements on incentives will only result in less development, more ongoing vacancy and fewer jobs as investors determine that the cost of potential incentive projects will begin to make projects unfeasible.

We echo the concerns expressed in John Nyhan's memo (see attached) regarding the numerous technical problems with the proposed amendment. As Mr. Nyhan points out it is arguably unconstitutional to change the rules for existing incentives. Furthermore, what message are we sending to prospective investors considering locating in Cook County when they see the County considering proposals that change the rules after a vested incentive is in place.

The proposal also imposes a burdensome requirement of supplying monthly payroll records to the County. Such a proposal seems to put at risk the very labor it seeks to protect by making very private information potentially accessible to the public and competition.

Thank you for your time and consideration. We appreciate the effort being made on the part of the President's office to consider the impact of this proposal from everyone's perspective. We know we all share the same common objective which is to help Cook County grow and prosper in what is becoming a more challenging and competitive environment for all government, property owners, labor and business.

Respectively submitted,

Joanne Elliott

On behalf of

Illinois Property Tax Lawyers Association

We are opposed to the Prevailing wage/apprenticeship amendment to the incentive ordinance as it will stymie economic development by increasing development costs and will put small construction and subcontractor businesses who are not large enough to afford to have apprenticeship programs in place at a disadvantage by disqualifying them from bidding on incentive projects

The Calumet Area Industrial Commision is opposed to any amendments or attachments to 6B reductions for industrial development. The CAIC board is very concerned about the deep disinvestment particularly in the south suburbs. We see no development interest in the area now. Why hinder any investment opportunity that may appear by adding additional requirements to obtain a 6b. The lack of investment in manufacturing facilities in the south suburbs has eroded in recent years while other surrounding areas have been able to draw business investment in. We oppose any amendments to the current 6b incentive plan.

Living wages are a necessity, not a luxury.

Individuals making a living wage drive the economy. More people making a living wage = less people on social welfare programs.

I had to move my company from South Holland to Indiana due to the high costs of taxes. My taxes in Indiana are 1/3 what they were in South Holland, and that is with the 6B. By adding this living wage provision, it will make it more difficult for companies to operate in Cook County. Thank you.

Prevailing wages keep middle class middle class if there were no prevailing wages there would only be poverty. Neighborhoods would be in ruin nobody could afford to live here to pay the outrageous prices and all the outrageous taxes. It would look like another Detroit, in a matter of months.

Good morning. I am John Melaniphy the Director of Economic Development for the Village of Wheeling.

The Cook County Department of Economic Development has been a great partner with the Village. The Class 6b program in particular has been such a great asset to Wheeling.

We have 14 million square feet of manufacturing space in Wheeling and are the 5th largest manufacturing employer in the state of Illinois. The 10 congressional district represents one of the largest concentrations of industrial facilities in the nation.

Wheeling has reoccupied over 800,000 sq. ft. of vacant industrial facilities thanks in large part to the class 6b and an aggressive business attraction program. We have two new spec industrial buildings planned one with 181,000 sf and another at 84,000 sf. These are the first spec industrial buildings in Wheeling in nearly two decades.

We border Lake County and we have faced stiff competition from Lake county suburbs and other states over the years. Without the Class 6b we are at a competitive disadvantage.

I am concerned that changes to the program as proposed could be detrimental to our economic base and place undue demands on our 6b applicants. The changes may also slow new industrial development that will provide modern prototype industrial space in Wheeling.

On behalf of the Village Board of Trustees, thank you for your attentive support as we have tried to assess and prepare for the economic impact of the pending amendment to the county's property tax ordinance.

The Village has invested millions of dollars over the course of several years to ensure Wheeling remains a modern and efficient manufacturing destination for local, national, and global business investment.

Needless to say our efforts have paid great dividends for Cook County with record high occupancy rates and an excellent reputation for being business friendly. The autonomy that municipalities enjoy with respect to issuing the Class 6b property tax incentives is a critical component to that success.

To Summarize, the proposed modifications to the Cook County Tax Incentive Ordinance will create a climate of uncertainty and confusion for the business community as well as economic development professionals. Our concern is the proposed changes to the Class 6b will place unnecessary burdens on the manufacturing sector of our economy.

While we believe that several of the proposed amendments will fundamentally undermine the Class 6b, we hope to at least have additional time to review the potential impact, sort through any questions regarding processes, and to prepare our own updates to our application and review processes to accommodate the amendment. Thank you for your consideration.

Q6 ACCOMMODATIONS: If you require additional assistance or special accommodations in order to participate in a hearing (for example, need language assistance, are a person with a disability), please let us know here, call 312.603.6127 or email us at cookcounty.board@cookcountyil.gov Intérpretes de lengua española estarán disponibles para los residentes que necesiten asistencia. Dear Board,

I wish to voice my support of prevailing wage for cook county. Free Market Competition, saving tax dollars, keeping an open market, business innovation. Here are some of the buzz words for why detractors will tell you to go against prevailing wage. I even read an article claiming prevailing wage has masons and carpenters earning \$100,000 a year. In reality few earn that even if they work lots of overtime. Lets be clear the construction industry is boom and bust. Tradespeople who make it to retirement have to ride out the lean times. You may work for two years then be off for 6 month, or work 9 months and be off 3 months every year. When it's slow, we don't work and we don't get paid.

As for the other buzz words or slogans, I hear race to the bottom. Since 1971 the middle class has been shrinking. It's not because of taxes, it's because of wages. That is the economic fact, not an opinion but an economic reality. Regardless of one's philosophical beliefs on tax rates, it's wages that put money in the pockets of middle class residents in cook county. Prevailing wage ensures that contractors who pay fair wages for the region are not punished or undercut by a cut rate poor quality bid.

I've worked union and before I joined I worked non union. I can tell you in 10 years in the industry I know one thing without a doubt, if you don't want quality, jobs done on time, like injuries, dislike workers and their families then the bottom bidder is the one for you. If you want to make bidding competitive while maintaining quality and have jobs done right, then prevailing wage is your answer. It used to be common place to throw out the bottom couple bids because you knew they were trying to cut corners. But post rescission ideas of bargains have led to a decline of some of that thinking.

It comes down to whether you want to support a common sense practice that keeps cook county residents making a living that allows them to be middle class, keep public contracts fair, and bid on quality and efficiency, or if you want to start bidding wars that lead to injuries, poor quality, poorer workers, and their families. I came here looking for work in 2011 work. I stayed because I found a career as a union carpenter. I am resident, a taxpayer and a blue collar middle class American. I'm asking you to support prevailing wage because the middle class needs somebody to keep the bottom from being torn out from under us.

Sincerely,
William McDorman Warfield
Union Carpenter

Honorable Commissioners,

On behalf of Plumbers Local 130, U.A., I urge you to support File 18-1640 to require payment of the prevailing wage and the use of qualified labor on Class 6b, Class 8 and Class 9 projects that receive a property tax incentive from Cook County. Local 130 stands with all of organized labor in strong support of the prevailing wage and responsible bidder requirements.

File 18-1604 as amended clarifies the ordinance to specifically require the payment of the prevailing wage and the use of contractors affiliated with apprenticeship programs registered with and approved by the U.S. Department of Labor. Owners and developers receiving the benefit of public tax dollars should meet these common-sense requirements, and Cook County taxpayers deserve protections to ensure they receive value through high quality construction and the payment of the prevailing wage to construction workers.

Local 130 applauds Commissioners Toblokski, Arroyo, Boykin and Moody for sponsoring this amendment.

Sincerely,

James F. Coyne
Business Manager
Plumbers Local 130, U.A.

My name is Sarah Brune, and I'm the Executive Director of the Illinois Campaign for Political Reform, or ICPR. ICPR advocates transparency, accountability, and integrity in government. I would like to thank the Commissioners for giving me the opportunity to speak today, and thank the Civic Consulting Alliance for a substantive and comprehensive report on the first phase of their property tax assessment evaluation process.

In its initial report last week, the CCA highlighted a critical lack of equity in the property tax assessment process. While the report did address these critical issues, the CCA declined to evaluate transparency in the process until further stages of its project.

As the CCA continues its investigation and develops its recommendations for future reports, ICPR has developed a set of "Best Practices" recommendations for assessment transparency to aid in this process. These are based on standards set by the International Association of Assessing Officers (IAAO) and our own analysis. I have included copies of the IAAO best practices recommendations pertaining to transparency and public relations in your materials today.

The Best Practices Recommendations for Assessors are:

1. Publish a methodology summary report that includes information about assessment models for all property types, and the results of internal equity studies to ensure their effectiveness.
2. Publish annual reports that include a summary of internal controls and operations, assessment trends, and any issues addressed over the past year.
3. Make all data used in the valuation process available upon request by members of the public.

While the Assessor's Office asserts that they already follow the Best Practices we have laid out based on recommendations from the IAAO, their response may not tell the whole story. ICPR has reached out to the Assessor's Office to meet and discuss these recommendations, but has received no response.

The Assessor's office is currently fighting former Chicago Tribune reporter Jason Grotto in court over a FOIA request to obtain granular assessment data and details of the methodology process, as outlined in Best Practices #1 and #3. This ongoing legal battle demonstrates that the Assessor's Office does not provide a full assessment dataset as recommended by the IAAO, and is not making their full methodology practices available to the public.

Furthermore, the office has indicated that they will not commit to publishing annual reports for constituents, which is troubling. Other County Assessors, in large counties and those with fewer resources, engage in this important practice.

As the IAAO outlines in their recommendation, Assessors should "ensure a climate of openness and transparency." Regardless of the outcome of the upcoming Primary and General Elections, these best practices should become basic procedure in the Cook County Assessor's office. An open posture of transparency and collaboration will also be necessary to fix critical equity issues in the current assessment process and create trust with all taxpayers.

Thank you for your time and for addressing this critical issue.

As an active practitioner of commercial real estate in Cook County and the Greater Chicagoland Area, I unequivocally oppose the proposed modifications to Chapter 74 TAXATION, Section 74-71 of the Cook County Code, such proposed amendment also referred to as the Property Tax Incentive – Prevailing Wage Requirement. My strong opposition arises primarily from my conclusion that the proposed changes have no chance whatsoever of either maintaining or advancing the efficacy of the tax incentive program and its singular goal of expanding the tax base.

I stand in support of the prevailing wage ordinance because I know firsthand what it does for a community a town a city a county and most of all a family. It brings stability to all in involved whether it's a paycheck or taxes for the public body. The prevailing wage makes sure fairness is spread across the board to everyone participating because everyone pays the same for the services rendered. It provides an opportunity for someone to learn a trade and be a productive member of their community. It provides them with the ability to earn a decent living and raise a family and follow in the footsteps of their mothers or fathers.

To all parties with concern to the matter of prevailing wages,

In my honest opinion prevailing wage rate is simple if you want the best you pay the best! That's pretty much it, like I said simple. Now, the tricky part the consequences... If wages differed and were not on par with the industry, I believe you would find several issues.

I think immediately of which you would find your current workforce feel betrayed, and immediately I would think morale would drop. Which my create issues or rifts in the workplace whether it be arguments or loss of productivity. I do not think anything positive would come from your current staffing.

Then I could imagine is that over time current employees would seek those other prevailing rate jobs and leave. Then you may have a few retire, and because of this attrition you may find you self in a need to hire on. Well here is another issue any new applicants would more than likely be lesser experienced or qualified, because all of the top qualified applicants went to where the money is.

Ultimately you would erode the fabric of your workforce.

my 2 cents

As an active practitioner of commercial real estate in Cook County and the Greater Chicagoland Area, I unequivocally oppose the proposed modifications to Chapter 74 TAXATION, Section 74-71 of the Cook County Code, such proposed amendment also referred to as the Property Tax Incentive – Prevailing Wage Requirement. My strong opposition arises primarily from my conclusion that the proposed changes have no chance whatsoever of either maintaining or advancing the efficacy of the tax incentive program and its singular goal of expanding the tax base.

As an active practitioner of commercial real estate in Cook County and the Greater Chicagoland Area, I unequivocally oppose the proposed modifications to Chapter 74 TAXATION, Section 74-71 of the Cook County Code, such proposed amendment also referred to as the Property Tax Incentive – Prevailing Wage Requirement. My strong opposition arises primarily from my conclusion that the proposed changes have no chance whatsoever of either maintaining or advancing the efficacy of the tax incentive program and its singular goal of expanding the tax base.

Q6 ACCOMMODATIONS: If you require additional assistance or special accommodations in order to participate in a hearing (for example, need language assistance, are a person with a disability), please let us know here, call 312.603.6127 or email us at cookcounty.board@cookcountyil.gov Intérpretes de lengua española estarán disponibles para los residentes que necesiten asistencia. Prevailing wage laws , provides a higher skilled ,more productive worker by promoting apprenticeship training & safety programs. In Illinois the 2016 IDOL report. 96.5% of all apprentices trained are enrolled in Union apprentice programs. Weak prevailing wage laws result in a greater demand for low-wage, out-of -state workers that take Illinois taxpayer dollars back to their home states upon completion of projects. Ed Soliday, a Republican State Representative stated : " We got rid of Prevailing Wage and so far it hasn't save a penny". Please vote "YES" on 18-1604 .

RE: Item #18-1604 – Of the Prevailing Wage Ordinance Substitute for the County Finance Committee

Dear Distinguished County Board Members:

My name is Dan Allen. I am the Executive Director of the Construction Industry Service Corporation (CISCO). I am speaking today on behalf of the 8,000 union contractors and the 140,000 skilled union men and women which CISCO represents to convey our steadfast support of Prevailing Wage legislation.

A recent independent study by the University of Illinois at Urbana – Champaign School of Labor and Employment Relations revealed the following facts, and economic and social impacts regarding prevailing wage in Illinois:

- Prevailing Wage does not lead to any increase in costs of public construction jobs.
- Repeal of PWL would result in job losses throughout the state, Illinois GDP would fall by well over a billion dollars annually, more than \$44 million in lost state and local taxes, and roughly \$116 million lost in federal tax revenue.
- On-the-job fatalities in states that do not have Prevailing Wage Laws are 14 – 26% higher.
- Many construction workers would lose their work-related benefits.
- Union apprenticeship training programs, which are currently the 2nd largest privately funded educational system in the country, would fall by as much as 40%, worsening an already skilled work force shortage seen in many parts of the country.

If that isn't enough facts to sway one's opinion, Indiana Republican House Majority Leader Ed Soliday summed it up perfectly in a recent video after Indiana repealed their prevailing law in 2015. "We got rid of Prevailing Wage and so far it hasn't saved us a single penny."

Given the well documented income and wage disparity in the country, the last thing struggling middle class families need is another obstacle. Support of prevailing wage provides job safety, a lifetime of training, insures a diverse work force, and can help middle class families when it is desperately needed.

The taxpayer values are so evident. Work is performed safely, on time, and on budget. More importantly the job is done by local contractors, purchasing supplies locally, and using what has been proven to be the most highly trained skilled diverse in the country. If you doubt it, all you have to do is look up and see all of the spectacular buildings and infrastructure that have been built in Cook County in the past 10 years. We are strongly in favor of Item #18-1604, and urge you to vote to approve the ordinance.
Sincerely,

Dan Allen
Executive Director

As an active practitioner of commercial real estate in Cook County and the Greater Chicagoland Area, I unequivocally oppose the proposed modifications to Chapter 74 TAXATION, Section 74-71 of the Cook County Code, such proposed amendment also referred to as the Property Tax Incentive – Prevailing Wage Requirement. My strong opposition arises primarily from my conclusion that the proposed changes have no chance whatsoever of either maintaining or advancing the efficacy of the tax incentive program and its singular goal of expanding the tax base.

Q6 ACCOMMODATIONS: If you require additional assistance or special accommodations in order to participate in a hearing (for example, need language assistance, are a person with a disability), please let us know here, call 312.603.6127 or email us at cookcounty.board@cookcountyil.gov Intérpretes de lengua española estarán disponibles para los residentes que necesiten asistencia. As an active practitioner of commercial real estate in Cook County and the Greater Chicagoland Area, I unequivocally oppose the proposed modifications to Chapter 74 TAXATION, Section 74-71 of the Cook County Code, such proposed amendment also referred to as the Property Tax Incentive – Prevailing Wage Requirement. My strong opposition arises primarily from my conclusion that the proposed changes have no chance whatsoever of either maintaining or advancing the efficacy of the tax incentive program and its singular goal of expanding the tax base.
