

12 Steps to Implement Safe Haven--Reducing Crime >50% by 2019 -- SAVING LIVES and Tax Dollars

Step	Program	Cost	Outcome
1	Afterschool Programs for All Children throughout Chicago	CSC participants = 0 cost <sup>1</sup> Uses supervisors (eg, teachers) already in place	Reduced Crime Improved Academics
2	Increased Surveillance Resident Patrols/e- Resident Patrols Increased Community Cameras	CSC participants = 0 cost \$3000/camera installed <sup>2</sup> \$3M/yr = 1000 new cameras/yr	Reduced Crime Increased Convictions Increased Community involvement
3	Adult CSC Jobs Schools, garbage pick-up, recycling, etc	CSC participants – 0 cost Uses current supervisors	Increased safety cleaner streets, alleys, etc
4	Drug Reduction CSC Programs	CSC participants = 0	Reduced Drug Use/Crime
5	Expanded GPS Usage	\$500/GPS Unit x 1000 = \$500K <sup>2</sup>	Reduced Jail/Crime
6	Community College/Business Partnerships	Picked up by Businesses <sup>2</sup>	Increased Apprenticeships
7	Expanded Mental Health Interventions -- Support Groups for Children/Families -- Reed/Madden Frequent Flyer Diversion	Using Current Staff SWs, Probation, DCFS, etc Medicaid/County Care	Early Identification/tx Ongoing Support Services Reduced Recidivism
8	Homeless Housing/Work Programs	Safe Haven Savings Plan (SHSP) <sup>2</sup>	Eliminate Homelessness
9	WWMBL3 Win-Win Mediation BEFORE Lose-Lose Litigation	Saves Time and Money	Resolving > 80% of Cases Without Need for Trials
10	Obama and the MURDER of Don Young (OMDY) Hillary's emails; Uranium One, etc.	SAVES Costs of Special Prosecutors	Full Pardons for Full Disclosures Bipartisan Win-Win Grand Deal
11	Global Energy Independence Program (GEIP)	SAVES \$2-3 T/yr	Clean, renewable Energy
12	Candidate Forums to Endorse BIPARTISAN Contract for Chicago/Cook/IL	SAVES LIVES and Billions in Tax Dollars <sup>3</sup>	<u>Reduce Crime/Drugs/Murders</u> <u>&gt;50% in 2019, &gt;90% by 2020</u>

<sup>1</sup>Safe Haven's Community Service Corps (CSC), like FDR CCC/WPA transforms Subsidies into JOBS=0 Cost

<sup>2</sup>Safe Haven Savings Plan (SHSP) allows SAVINGS from Prevention Programs to be Reinvested=Multiplier

<sup>3</sup>Achieving a Gang-Free, Drug-Free, Full-Employment Economy by 2020 SAVES LIVES and Tax Dollars -- By ALL Candidates signing the Bipartisan Contract the true WINNERS will be the PEOPLE of Chicago!

BIPARTISAN Contract for Chicago/Cook County to Reduce Gang Crime and Murders >50% in 2019

Step	Program Description	Chapter in <u>The Chicago Project</u> (CP)
1.	Afterschool Programs for All Children in 2018 (Starting by 9/5/18)	(4.1.1)

Appropriately screened CSC participants will work as teacher's aides, hall monitors, Afterschool tutors and coaches and resident patrols. Community Service Corps (CSC) participants already have a "work requirement" as part of their current subsidies. Later, these positions would be converted to regular job positions (see Safe Haven Savings Plan-- SHSP below). For now, however, CSC participants could be in place by 9/5/18 or as early in the school year as possible to help both keep our children safe and improve academic OUTCOMES in the process. Current school staff (including teachers) would now have additional assistance under their supervision --making their jobs easier and safer in the process.

Safe Haven Savings Plan (SHSP)-- A PENNY OF PREVENTION IS WORTH A DOLLAR OF CURE--ZBB

Using Zero-Based Budgeting (ZBB), it can be agreed that any SAVINGS produced by Safe Haven will be reinvested into further expanding Prevention-Oriented Programs in the future.

If we can Reduce Gang Crime, Drugs, Dropouts, Abuse and Joblessness even 10%, we would be SAVING over \$500 M annually. The 2019 goal of Safe Haven is a >50% Reduction in these areas (\$2.5B). By reinvesting at least some of the savings into further expanding Prevention-Oriented Programming, we will get a Multiplier Effect with even Greater Savings (both Human and financial) over time.

2. Reduce Crime/Murders > 50% by 2019 --Increased Surveillance-Resident/e-Resident Patrols (4.1.1)

Again, Crime Reduction Programs will occur in stages. By having ALL individuals on Probation and Parole assigned to CSC or other Jobs in the Public and/or Private Sectors, we can guarantee that these individuals are learning important Job Skills (e.g., showing up on time each day, staying sober, etc.) while knowing precisely where they are as they help to pay off their "debts to Society."

Initial CSC jobs can be as simple as picking up the garbage, working in recycling plants, cleaning the streets, removing graffiti, etc.-- None of which require a PhD or any special training. Over time, however, the more SAVINGS are available through the SHSP, focus can become increasingly on Apprenticeship long-term JOB TRAINING Programs. By Adolescent Offenders not only participating in Afterschool Programs, but also Apprenticeship Training Programs during their Junior and Senior years where appropriate, the best Crime Prevention Intervention of all can be used-- Living-wage JOBS.

Again, as SAVINGS become available, increased use of Cameras, including on side streets and alleys can be accomplished. By having appropriately screened individuals on "disability" who are unable to work reliably outside of the house (e.g., "back pain," etc.) can volunteer as e- Resident Patrols to simply "watch their TV" on-line for a certain number of hours several days a week. Thus, other than the initial costs of installing the cameras (e.g., \$3000/camera x 1000 = \$3M/yr) and using current personnel as supervisors, we can significantly expand the use of such e- Resident Patrols at minimal additional cost.

It is worth noting that, since the cameras are always "in place," offenders don't know if they are being monitored or not in real time. But, in addition to their role in PREVENTION, using the recordings of such cameras can significantly help to both Identify and Convict offenders.

In addition to prioritizing installation of cameras in "hotspots" around the City where crimes are involved, especially involving Injury and/or death, we can maximize the cost-effectiveness of such implementation strategies. Also, of course, private businesses or even block clubs could also pay for the installation of such cameras, thus expediting the process even more (Cf Protocol for new Stop Signs, etc)

Similarly, SAVINGS from SHSP can be used to further expand the use of GPS monitoring (e.g., \$500/unit x 1000 bracelets = \$500,000). Again, knowing where individuals on Probation and Parole are 24/7/365 not only helps to PREVENT crimes, but also helps to Identify and Convict new perpetrators. Again, A PENNY OF PREVENTION....

### 3. Adult CSC Jobs-- Public and Private Sectors (4.1.2)

Again, as noted above, initial adult CSC jobs for individuals on Probation and Parole can be as simple as Work collecting garbage and in recycling centers, cleaning parks and highways, etc.-- None of which require a PhD. As SAVINGS result from Reduced Crime and Recidivism, Reduced Murders and Injuries, etc., using the Safe Haven Savings Program (SHSP) Vocational Work Training Programs would also be significantly expanded during 2019.

While Court-Mandated participation in CSC Jobs by individuals on Probation and Parole would be Prioritized in terms of Crime Prevention, such programs would also be expanded to include ALL individuals currently unemployed and seeking Work. A Positive Multiplier Effect thus ensues.

### 4. Drug Reduction CSC Programs (4.1.2)

By having Adolescents on Probation and Parole in Extended Afterschool Programs, they are simply not available to sell drugs or act as lookouts. Similarly, for Adults sentenced into JOB Programs, they too are not available to sell drugs for significant parts of the day throughout the week. Also, by the use of drug testing as needed, we can assure that both Adolescents and Adults are staying Drug-Free. Any violations of Sobriety will lead to additions to their long-term Work Requirements. Thus, not only will Crime no longer "pay," Criminals will actually Pay for Crimes. Real Consequences lead to Real PREVENTION.

### 5. Expanded GPS Usage (4.1.2)

While all of the above programs can be implemented rapidly using simple sign-in and sign-out sheets, as SAVINGS are achieved through Crime Prevention, the Safe Haven Savings Program (SHSP) can use part of this money for Expanded GPS Usage. It may also be possible in many instances to simply use cell phones instead of ankle bracelets as a cost-effective alternative for nonviolent offenders.

Again, in addition to actually PREVENTING Crimes by knowing where individuals are 24/7/365, the same information can help to Identify and Convict Criminals using Propinquity (Proximity) Protocols. If Ankle Bracelets are approximately \$500/GPS Unit, then 1000 additional units could be purchased for approximately \$500,000 either through the SHSP or donations from Private Foundations, etc.

### 6. Community College/Business Partnerships (4.1.2)

Significantly expanding Community College/Business Partnerships, especially for individuals not intending to go on to four-year college programs, can significantly improve the ability of Chicago businesses to have ready access to reliable, well-trained workers. To the extent that at least some of the apprenticeships can include actual on-the-job training, this can help to significantly reduce overall costs.

Also, to the extent that Chicago can become known for well-trained, motivated workers, this in and of itself can attract more businesses. By giving tax credits to businesses moving in and/or expanding within "Empowerment Zones," a Win-Win scenario can be set up for the businesses, workers and the City.

7. Expanded Mental Health Interventions (4.1.3)

By locating Community-Based Mental Health Centers in pre-existing buildings such as community centers, etc., both time and money can be saved. Also, by emphasizing Prevention and Early Intervention, many problems can be minimized. Support groups for At-Risk Children and their families would be one example of early interventions where problems can be addressed cost-effectively. Such community-based programs would also involve substance abuse prevention and work where possible.

8. Homeless Housing/Work Programs (4.1.3)

From just after the Civil War until the mid-1950s, Elgin Mental Health Center was a working farm. Deinstitutionalization left many individuals with mental health and substance abuse issues not only homeless, but at the mercy of drug dealers and other criminals and, often, off medications.

By opening dry shelter-workshops, not only can the homeless have a safe, drug-free environment, where possible, they would also have work opportunities within the community. In addition to urban workshops, however, strong arguments can be made for reopening the farms as well—SAVING LIVES.

9. Win-Win Mediation BEFORE Lose-Lose Litigation (WWMBL3) (5.6)

By Mandating Win-Win Mediation BEFORE Lose-Lose Litigation, both Time and Money can be SAVED while creating a Fairer System in the process. Since >80% of cases are resolved during Discovery, WWMBL3 can help to significantly reduce Court Caseloads while improving OUTCOMES in the process.

10. Obama and the MURDER of Don Young (OMDY)-- FULL PARDONS for FULL DISCLOSURES (4.2.1;E.2)

Don Young was the openly gay choir Director of Reverend Jeremiah Wright's Church who was Murdered, execution-style, in his apartment on 12/23/7. What the Chicago Police knew within days, if not hours, was that Don had been Obama's lover for over 20 years. Just as with Mayor Daley's nephew, however, the CPD have for over 10 years buried this case along with Don Young. Welcome to Chicago.

Chief Criminal Court Judge Leroy Martin has already stated that Don's mother, Norma Jean, has STANDING to pursue a SPECIAL PROSECUTOR as was done in the case of Mayor Daley's nephew. But, by Trump offering FULL PARDONS for FULL DISCLOSURES, a potential BIPARTISAN Win-Win Grand Deal can be made to end the multiple ongoing Investigations and simply Fix the Problems moving forward.

11. Global Energy Independence Program (GEIP)--Bipartisan Win-Win Grand Deal--PEACE Paradigm (6)

GEIP provides a clean, renewable energy that SAVES \$2-3 T/yr of the \$5-7 T spent annually primarily on carbon-based energy sources. In addition to help funding a PEACE Paradigm across the World, GEIP could also help to fund Universal Healthcare and Education as part of a Bipartisan Win-Win Grand Deal.

12. Candidate Forums to Endorse BIPARTISAN Contract for Chicago Including This 12-Step Program (5.5)

To the extent that ALL candidates endorse this BIPARTISAN 12-Step Contract for Chicago, the true WINNERS will be the PEOPLE of Chicago and far beyond. Let these be goals worthy of us all. --

Kimball Ladien, MD, 773/520-7161, [kladienmd@yahoo.com](mailto:kladienmd@yahoo.com) 773/520-7161 KLSH12Step12Aug18

The Chicago Project-- PEACE on Earth by 2030-- Designing Win-Win Systems for ALL of God's Children  
"The Manhattan Project built the Bomb. The Chicago Project can help us all build the PEACE."

The four goals of the Chicago Project are:

1. A Gang-Free, Drug-Free, Full-Employment Economy in America by 2020 (Safe Haven);
2. Building the "Cyber-City/State/Country/World of the Future" (IF-PREVENT and Super-EPIC);
3. Building and implementing GEIP (Clean, renewable energy SAVING \$2-3 TRILLION/year); and
4. PEACE on Earth by 2030 (starting with Peace Paradigm for ISIS, Iran and North Korea in 2018).

Just as landing a man on the moon by the end of the decade was a noble goal of a previous generation, We can set the four goals of the Chicago Project as absolutely DOABLE objectives that can help UNITE not just the Country, but the World in the process. This is what LEADERSHIP is all about.

And, just as with Penicillin, what can work in Chicago can equally well work in Detroit, New York and Los Angeles now and in Buenos Aires, Mogadishu and New Delhi later. Safe Haven thus reinforces and enhances all of President Trump's other job creating initiatives from Infrastructure Repair to bringing Manufacturing Jobs back to America. And, in the process, we move from Entitlements (Rights WITHOUT Responsibilities) to True EMPOWERMENT (Rights WITH Responsibilities) at every level of society.

Similarly, the \$2-3T/yr of SAVINGS from GEIP can not only help people in America and around the World, using GEIP as LEVERAGE as part of the PEACE Paradigm, we can not only Stop Terrorism in 2018, but truly achieve genuine Peace on Earth by 2030 as well.

All of these proposals are STRONG MEDICINE but can Work Well if only used WISELY.

Simply put, just as with GOOD SCIENCE and GOOD PREVENTIVE MEDICINE, we can and MUST move beyond "politics as usual" to truly GOOD GOVERNMENT not just in the United States, but around the World if we are to FIX THE SYSTEM and fight Arrogance, Stupidity and Systematic Abuse of Power (ASSs) at all levels of society from crime and corruption through Terrorism and even War itself.

While there is much more to this "story," suffice it to say that the MURDER of my beloved wife and soulmate of over 50 years, Sylvia, on 2/4/12 by ASSs has a significant amount to do with these proposals on many levels. While Sylvia would never want the Taj Mahal as a "legacy," she very much would appreciate sharing Genuine PEACE with ALL of God's children, thus "making something very GOOD out of something very Bad" as she believed with all of her heart and soul.

With GEIP-powered desalinization plants, we can literally turn deserts into Gardens in the Middle East and far beyond. With Safe Haven, we can offer people JOBS and HOPE instead of Funerals and Despair-- We can all STOP THE CARNAGE NOW not just in America, but around the World. And, in the process, if we can Fight ASSs and build a true Win-Win system for ALL-- PROFOUND GOOD will have been done.

As I ended my Safe Haven book almost 25 years ago, "Alone, we can accomplish little. Working TOGETHER we can Change the World. Let these be goals truly worthy of us all. So it shall be.

God bless you and ALL of His Children wherever they may be.—Kimball Ladien, MD (773/520-7161)

Safe Haven—A PENNY OF PREVENTION IS WORTH A DOLLAR OF CURE.

Safe Haven is a series of PREVENTION-oriented, community-based initiatives aimed at breaking the cycles of gangs, drugs, abuse and joblessness in Illinois once and for all. Much as with the CCC and WPA from the Depression era, a Community Service Corps, CSC, would provide unemployed able-bodied persons JOBS in the private and public sectors thus helping individuals contribute positively to society even as they look for other work on a more permanent basis.

If the ONLY thing we do in 2018 is to implement the Afterschool programs for our children and Work Programs for ALL individuals on Probation and Parole, we can easily reach the initial goal of Reducing Gang Crime and MURDERS >40% and help make Chicago a Model for the Country on the way towards achieving a Gang-Free, Drug-Free, Full-Employment Economy in America by the Year 2020 that SAVES LIVES and BILLIONS of tax dollars--significantly IMPROVING Education and Business OUTCOMES while Dramatically Reducing Crime in the process. This would be a true win-win for ALL Americans.

Question 1: Safe Haven Question for Chicago Mayoral Candidate

--There is a 100% chance that one of you will come in second in the mayoral primary on 2/26/19.

-- If ALL of you Right Here and Right Now could agree to support the implementation of Afterschool Programs throughout Chicago by September that SAVES Lives and Millions of tax dollars, you could TOGETHER force Rahm to do the Right Thing for the Right Reasons.

-- If Rahm does NOT agree to work with you all to make this happen, then ONE of you has an EXCELLENT chance of DEFEATING him on April 2<sup>nd</sup>.

-- But ALL of you will have done PROFOUND GOOD by supporting the implementation of Afterschool Programs NOW.

-- I would like a simple YES or NO answer from each of you:

--If I can show you PRECISELY how to implement these Afterschool Programs to SAVE LIVES and Millions of tax dollars by September,

Will you agree to all stand TOGETHER and DEMAND that Rahm implement these afterschool programs for our children NOW?

Global Energy Independence Program (GEIP)=Clean, Renewable Energy that SAVES \$2-3 T/yr

GEIP is based upon a very simple equation that can provide a clean and renewable energy source that on a global scale can SAVE \$2-3 TRILLION/Year of the \$5-7 Trillion spent annually primarily on carbon-based energy sources. GEIP is currently in the process of being GIFTED to Pope Francis and the Bill and Melinda Gates Foundation with the understanding that the first demonstration site for these programs will be in Illinois. Illinois could thus be SAVING literally BILLIONS of dollars annually while helping the environment, businesses and the great, hard-working tax-payers and citizens of Illinois in the process.

Question 2: Sharing and Implementing GEIP on a BIPARTISAN Basis

If I share GEIP with Cardinal Cupich, Chief Judge Tim Evans or some similar individual, will you each agree to call on not only Rahm, but Governor Rauner and JB Pritzker to help implement these programs on a BIPARTISAN basis-- again, SAVING LIVES and Billions of tax dollars in the process?
