**Re: Proposed Cook County Resolution – Support for HB2217 & SB1379**

Dear Chairman Suffredin:

Unfortunately, I am unable to attend the Legislation Committee Meeting scheduled for 2/28/19 due to a prior commitment. After careful review of the proposed legislation, I have several questions which I would like to have entered into the record for discussion:

- 1) **Is there an existing mechanism in place that will accurately identify all of the parcels (from the 1.8 Million) that will be impacted by this new compliance policy?**
- 2) **Is there a notification mechanism in place that will be able to notify property owners in a timely manner? And, has a cost been attributed to this notification process?**
- 3) **Does the Assessor's Office have a process and plan in place to store and protect taxpayers' highly sensitive personal information? If so, have they specified in detail how this will be accomplished?**
- 4) **Because this legislation will go into effect immediately, does the Assessor's Office have the personnel and operational processes in place to implement this new compliance policy?**

As always, I want to thank you for your consideration of my request and I look forward to the committee addressing these issues in an open and transparent manner.

Sincerely,

A handwritten signature in cursive script that reads "Sean M. Morrison".
