The Sheriff's department needs to cooperate with the community to give more information and answers about the gang database. The Sheriff's office needs to be transparent and accountable in the actions with the gang database and support the discontinuation of it. It causes harassment, targets people of color, and causes long-term trauma and negative consequences for community members that may NOT be gang-affiliated. The impact is far more negative than positive to stop crime. There needs to be more accountability and transparency. The city and county need to support the discontinuation of this system with full support of community residents and police.
