Cell (773) 717-6342
Work (312) 603-1601

CAREER OBJECTIVE

Senior Civil Engineering Management position that oversees various bridge, roadway, transit station and multi-modal infrastructure design and construction.

EDUCATIONAL BACKGROUND

Bachelor of Science Civil Engineering: May 1992
Southern Illinois University Carbondale, IL

Specializations:	Structural and Geotechnical Engineering
Curriculum:	Intensive group research, development and presentations of Steel, Concrete, and Foundation Design

TECHNICAL EXPERIENCE

Project Engineer and Project Manager: 6/93 to 12/06

Chicago Department of Transportation

Supervising Division Manager - Responsibilities include assisting the Deputy Commissioner in various daily tasks related to transportation projects including:

- Attending Senior Staff meetings with Commissioner during Deputy's absence.
- Assisting Deputy in programming annual appropriations for all the Division's transportation projects.
- Attending Aldermanic briefings and meetings with Deputy and senior staff.
- Preparing budget applications and attend outside agency meetings to ensure future funding.

Bridge Section Manager - Responsibilities include supervising City Project Managers in the preparation of contract documents for various complex capitol projects. Supervision of the Project Managers includes oversight of:

- Preparation of Funding Agreements, which are primarily Federally and State Funded.
- Meetings with outside agencies, which will include the Illinois Department of Transportation (IDOT), the Federal Highway Administration (FHWA), utilities that may be impacted, and the general public through public meetings.
- Preparation of construction documents which includes overseeing a consultant that has been contracted to prepare the construction documents and an estimate of the construction cost.
- Overseeing the development of the construction plans, ensuring that the design is the most economical and efficient design for the specified location.
- Securing the funding for the construction with IDOT & FHWA funds.

Deputy Commissioner\Chief Engineer: 12/06-12/11

Chicago Department of Transportation, Division of Engineering

As Deputy Commissioner of the Division of Engineering I was responsible for maintaining the City's Infrastructure which includes over 1000 miles of arterial roadways, approximately 300 bridges, all subway transit stations, miles of underground freight tunnels and all roadway lighting. These duties include overseeing the inspection, design and construction supervision of this infrastructure. I am directly responsible for the programming of Federal, State and Local funding to ensure that the infrastructure maintains its useful life. Since 2006 under my responsibility the Capital Improvement Program programmed and expended over \$400 million in design and construction. In 2010 through 2012, the program was approximately \$560 Million alone. I was responsible for Outreach to Professional Organizations on the Capital Improvement Program to discuss upcoming business opportunities. I was also responsible for ensuring that the projects adhere to the latest Federal and State design and funding guidelines. As a Licensed Professional Engineer (State of Illinois - No.: 062-055032), I was responsible for the oversight of other Licensed Professional Engineers and Licensed Structural Engineers which is required for a municipality to accept and administer Federal and State funds.

Superintendent: 1/12-Present

Cook County Department of Transportation and Highways

As Superintendent of the Transportation and Highway Department I am responsible for the planning, design and construction of over 565 miles of roadway, 135 bridges, 360 traffic signals, 4 maintenance facilities and 7 pumping stations. My duties also include the Maintenance responsibility of these assets which include snow removal and maintenance of all infrastructures within the roadway right of way. I am responsible for the direct planning and programming of the County's Motor Fuel Tax allotment each year and provide a multi-year program to the Illinois Department of Transportation stewarding those funds to the proper maintenance of the Cook County's Infrastructure Asset. I am also responsible for ensuring that the projects adhere to the latest Federal and State design and funding guidelines. As a Licensed Professional Engineer, I am responsible for the oversight of other Licensed Professional Engineers and Licensed Structural Engineers which is required by the State of Illinois to accept and administer Federal and State funds. I am also a Deputy Director for the State of Illinois Department of Transportation, responsible for advising Townships and Municipalities in Cook County on how to maintain their infrastructure assets.
