## PROPERTY \& TAXATION

Cook County administers the second largest property taxation system in the United States, with 1.8 million parcels of real estate. Taxes collected support 498 local governments.

Key functions of the system are assessment, appeals, billing, and tax collection.
The County assess one third of the region each year, rotating among the northern suburbs, the southern suburbs, and the City of Chicago. The value of each property is determined by a mass appraisal system rather than on an individual basis.

Taxpayers can appeal their assessments before the tax rate is calculated. Bills are sent to property owners twice per year.

## Cook County's Property \& Taxation goals are:

1. Ensure efficient, timely, \& effective assessment \& billing
2. Minimize duplicative property tax payments \& process refunds quickly
3. Increase taxpayer self-service transactions \& access to information

* The County uses a mass appraisal system to establish property assessments for each parcel of residential real estate. The County assesses one third of the region each year. During the most recent tax year (Tax Year 2012) real estate in the City of Chicago was reassessed. The 2009 Tax Year is the most recent comparison for the City of Chicago triennial assessment.

## 4. Increase Taxpayer Self-Service Transactions \& Access To Information

Online self-service transactions increase options for taxpayers and efficiency of the system. Taxpayers need information to be aware of exemptions and appeals available.

## Discussion of 2013 Activities and 2014 Initiatives

Since taking office on December 6, 2010, Cook County Assessor Joseph Berrios has made marked improvements to the Assessor's office, while maintaining a high level of fiscal responsibility.

The CCAO is committed to completing its yearly assessment cycle as soon as possible in order to provide taxpayers the opportunity to receive their tax bills by the statutorily mandated dates. In the first full year of this administration (tax year 2011) the assessment process was successfully accelerated so that the 2011 second installment tax bills were issued with an August 1st statutory due date for the first time in thirty-four years. Similarly the 2012 second installment tax bills went out on-time.

The CCAO has championed legislation (SB41) designed to target property owners who erroneously received property tax exemptions. The CCAO is pleased to announce that through a cooperative effort with the Illinois State Bar Association, Chicago Bar Association, Illinois Realtors Association, Taxpayer Federation, Civic Federation, Cook County Township Assessors Association, and the title company industry SB 41 passed both houses of the General Assembly and was signed into law by the Governor on July 17th, 2013. The CCAO's commitment to fairness requires that it work diligently in support of such legislation which will redistribute the tax burden fairly.

In response to the devastating flooding in several Cook County townships in 2013 the CCAO instituted the Emergency Flood Revaluation and Outreach Program for nine Townships in 2013: Leyden, Lyons, Maine, Niles, Norwood Park, Proviso, Riverside and portions of Jefferson.

The CCAO's appeals process has recently seen a high level of reinvigoration. -397,000 parcels appealed in 2012-the highest rate seen in 12 years
-35\% of residential filings were on-line and are increasing in 2013
-There has been a marked increase in the appeals success rate for both residential and commercial property

The CCAO's current administration understands the importance of collaboration with different branches and municipalities in government, educational institutions, civic groups, and non-governmental organizations (NGO's). Since 2011 the CCAO has developed valuation research partnerships with DePaul University and the MacArthur Foundation. The CCAO is currently working with Illinois Institute of Technology in order to provide fellowship experience to participants in the Chinese Student Exchange Program. Policy and information exchange programs with the Pew Charitable Trusts, the cities of New York and Vancouver (Washington), Broward County, Florida, and both the Russian Federation and Ontario Provincial Government have been at the forefront of the CCAO's expanded cooperation and partnership initiative. The Assessor believes helping to prepare Cook County's youth for future employment is extremely important. The CCAO has partnered with the Chicago Public Schools (CPS), Youth Outreach Services, Chicago Summer Business Institute and various local high schools to create a summer internship program within the CCAO. The CCAO has also entered into a collaborative working

relationship with Building Owners and Managers Association, Illinois State Bar Association, Chicago Bar Association, and Illinois Institute for Continuing Legal Education.

Securing and expanding the affordable housing stock and promoting a logical and functional green building and renovation program in Cook County are of the utmost importance to the CCAO. Working alongside the Community Investment Corporation (CIC), the Center for Neighborhood Technology (CNT), the City of Chicago, and the Illinois Housing Development Authority (IHDA), the CCAO seeks to aid in developing wide reaching green and affordable housing programs. The aforementioned partnerships have allowed the CCAO to tap into varied pools of knowledge and extract data, build new valuation tools and models, and trade input on important policy matters.

## STAR Goals/Key Performance Indicators

* Under the current administration the CCAO has seen a great improvement in the number of days needed to complete the Chicago City triennial assessment cycle. The current CCAO administration has seen a steep decline in the number of days in the assessment cycle: 2000, the reassessment cycle required 429 days; in 2003, 485 days; in 2006, 507 days, and in 2009445 days. The current administration completed the Chicago City reassessment cycle for 2012 in 350 days.
* Improve Quality, Service Excellence, and Cultural Competence-At the end of the 2012 appeals cycle $35 \%$ of appeals were filed online.

## Programs

## Technological Upgrades

The CCAO's commitment to uniformity demands that it stay at the forefront of technological advances that can aid valuation, assessment, and internal operations. The CCAO is making significant strides in the areas of programming, systems development, and modeling which are showing true value during its assessment process. The CCAO is also focusing on using technology to better serve taxpayers. In mid- 2013 the CCAO launched its new website. This user friendly tool has been designed to provide taxpayers and property tax professionals with a platform that provides complex data in an easy to understand and maneuver format.

## Partnership Development

Currently, the CCAO is partnering with a wide variety of governmental, civic, educational, and charitable organizations in order to craft new policy and programs that increase the quality of the work product of the CCAO. The CCAO has ramped up its continued efforts to engage suburban Township Assessors to assist in the collection of market data, correct neighborhood code discrepancies, and identify areas adversely impacted by serious flooding.

## Retention of Affordable Housing

The CCAO understands that in these difficult economic times the citizens of Cook County's need for affordable housing options are increasing. Thus the CCAO is proactively working to create new tools and policies that will aid in the development of more affordable housing; county wide. The CCAO is also actively involved in legislative efforts designed to stabilize the value of the Class 9 program (a current CCAO affordable housing incentive) and increase the number of affordable housing units in Cook County.

## Professional Development

A skilled and knowledgeable staff is one of the CCAO's greatest assets. Understanding this, the Assessor has made work place education opportunities available to his staff in the areas of valuation and assessment among others.

## DEPARTMENT OVERVIEW <br> 050 BOARD OF REVIEW

## Mission

To comply with statutory mandates and the oath taken by each Commissioner to perform all duties as required by law, to fairly and impartially review the assessments of all property within Cook County to the extent authorized by the Property Tax Code, to correct all assessments which should be corrected, to raise, lower, and or direct the Cook County Assessor to change, correct, alter, or modify assessments as justice may require, and to do all acts necessary within the authority provided by the Code to procure a full, fair and impartial assessment of property.

## Mandates and Key Activities

- 35 ILCS 200/16-95: The BOR shall upon complaint of any taxpayer or interested taxing district, review the assessment and confirm, revise, correct, alter or modify as it appears to be just.
- 35 ILCS 200/16-125: The BOR shall give every party that files a complaint the opportunity to be heard, shall notify the Cook County Assessor of any change in the assessment, and shall maintain all records for five years.
- 35 ILCS 200/16-170: The Property Tax Appeal Board may require the production of records [from the BOR] that may be material evidence.
- Provides citizens forum to appeal assessed value of their real estate.
- Review evidence submitted to determine a fair and just assessed value.
- Defend its decisions at the Illinois Property Tax Appeal Board.
- Makes recommendations to the Illinois Department of Revenue regarding applications for property tax exemptions.

## Discussion of 2013 Activities and 2014 Initiatives

The BOR completed its prior session on April 19, 2013, positioning the Cook County Property Tax System to issue second installment bills payable on August 1st, repeating its success for the second time in 34 years. This accomplishment benefited local taxing jurisdictions, which avoided spending interest bearing reserves or issuing tax anticipation warrants. The cost to taxing jurisdictions of late bills is estimated to be at minimum $\$ 3 \mathrm{M}$ per month.

The BOR must complete its current session by April 18, 2014 for bills to be due on the statutory deadline. This poses a challenge because the BOR anticipates the North reassessment triennial to yield in excess of 350,000 parcels for review.

The BOR will open the first group of townships for its current session on August 5, 2013. These adjustments and other changes to BOR procedures implemented last year should increase the likelihood of finishing the BOR on time.

The BOR and County Bureau of Technology made enhancements to its online filing system. During this shared services effort, Bureau of Technology made enhancements and upgrades to the BOR's digital infrastructure in order to promote increased use of the online filing system, improve accountability, and increase workflow efficiencies, including:
-Online pre-registration of appeals enhancements.
-Online access to bulk filing for multiple PIN properties enhancements.
-Digital Docketing Intranet System enhancements.

Other collaborative projects in FY2013 include:
-Worked with Bureau of Technology and the Office of the Chief Procurement Officer to issue an RFP in August of 2013 for implementation of a paperless workflow process in subsequent Board sessions pursuant to prior authorization by the IT Collaborative Board.
-Worked with Bureau of Technology implementing a bar code tracking system to improve handling of current paper complaint system.

The BOR Commissioners published an Annual Report outlining activities for the 2012 session.

## STAR Goals/Key Performance Indicators

* Completed the 2012 complaint session by April 19, 2013 allowing timely issuance of tax bills.
* Improved access to online appeals process. Last session, 86\% of complaints were filed online compared to $28 \%$ in the 2011 session.
$\star$ BOR presents outreach workshops to increase awareness of the property tax appeal process and bring the BOR's appeal process to underserved communities, including citizens lacking internet access or ready transportation, as well as the elderly.

## Discussion of 2013 Activities and 2014 Initiatives

Vital Records

Customer service is the number one priority in our six Vital Records offices, where we serve more than 500,000 customers each year. Even as we offer new products like Civil Union licenses and Commemorative Certificates, we strive to keep wait times down and customer satisfaction up. In 2013, we introduced wallet-sized marriage and civil union certificates, with an eye toward couples with different surnames who need to have their certificate handy. This has proved popular enough that some couples - even those with the same surname - purchase them in addition to a standard certificate, not just as a replacement.

In 2014 we are anticipating a bump in marriages if marriage equality legislation is passed. We are also considering expanding our commemorative certificate product line to include birth commemoratives. We are very pleased to be adding two million genealogy records to our Genealogy Online site, which should increase sales. These records, which are hard to index due to their age and condition, will be added on a rolling basis and create a steady influx of new records for genealogists and individuals to order.

In a major advancement for businesses and consumers alike, we are upgrading our Assumed Business Names database to accommodate online registration and amendments. Businesses will be able to register or update their registration without having to visit our office. Consumers will be able to easily find information about businesses, such as an address or contact number. This is a key customer service enhancement, as we maintain 500,000 records, and another 4,500 register each
year. In 2014, we hope to implement a periodic renewal for Assumed Business Names which will keep the database current. A change in state law is required.

## Real Estate \& Tax Services

Similarly, maintaining excellent customer service in our Real Estate \& Tax Services division is an ongoing goal. In 2013, this division was successful in assisting the county in sending out second installment property tax bills with an August 1st due date. 2013 also saw full-scale implementation of our online 20-year tax search, which allows individuals and businesses to search for overdue tax records on any PIN online. According to Google Analytics, the Delinquent Tax Tool page has had 31,095 unique page-views and 71,976 total page-views. Also, nearly 5,000 users have been identified as repeat users who have completed multiple delinquent tax searches. This $24 / 7$ online 'self-service' means a marked decrease in telephone and in-person requests, saving staff resources.

We have ambitious plans and goals for 2014. We intend to place information on the 2013 second installment property tax bills which will inform property owners, who have property located in a TIF district, how much of their tax money is being distributed to the TIF.

We are upgrading our GIS tax mapping system as part of a county-wide project. The Cook County GIS Cadastral Upgrade is set to kick off on September 4, 2013. This 18-month project will eliminate customization and unsupported technology from the County's current land records workflow in addition to providing tools for 3D mapping, enhanced integration with the other property tax offices, increased flexibility, and improved map production. The final GIS workflow will include quality control tools that will improve first-pass accuracy and map production time by up to 5 percent, reducing the need for timely corrections and creating a more professional-looking product.

In 2013 the work to design a system architecture for providing bond information online will be completed. In 2014, the Tax Extension Bond Project will provide automated information from over 2,500 bonds filed by the 550 taxing districts. The project requires analysis of documents, data entry/scanning of information, and proofing. Our goal is to complete the analysis of 300 bonds per quarter, and 1,200 per year.

Ethics

In the last several years, the Ethics division has successfully launched two online filing systems—one for Lobbyist Registrations and the other for Statements of Economic Interests. Our SEI system is so user-friendly that five other Illinois counties are now using our software and another dozen have requested the software in order to adopt it. Moreover, we have eliminated the vast majority of staff time required to complete inquiries for the public or the press related to Statements of Economic Interest and lobbyist reports.
The Ethics team will continue its trend toward emailing users rather than sending instructions through the mail, to further reduce postage and printing costs.

## DEPARTMENT OVERVIEW

524 COUNTY CLERK - ELECTIONS DIVISION FUND

## Mission

The Cook County Clerk's office is committed to providing quality service to the public in a timely and efficient manner. The Elections Division strives to ensure that all eligible suburban residents are able to exercise their rights in the electoral process; that all candidates have fair, open, and equal access to all stages of the process; and that the public is fully and promptly informed of all vital and necessary election-related information.

## Mandates and Key Activities

- The Clerk's office administers elections for suburban Cook County's 1.4 million registered voters, which entails voter registration, judge recruitment and training, and polling place identification, mapping and management.

## Discussion of 2013 Activities and 2014 Initiatives

Our 2012 and 2013 goals included promoting voting by mail to increase preElection Day Voting, and starting a pilot of a multi-year implementation of an electronic pollbook (Epollbook) system to bring connectivity, efficiency and accuracy to Election Day voter processing. Advances were made in both areas.

In 2014 we will expand the rollout of our Epollbook system, capitalizing on the successful 2013 Consolidated Election trial run. To comply with HB 226, the 17-year-old suffrage measure, we will engage in extensive outreach beginning January 2014 to register teenagers who will be 18 by the November 4 General Gubernatorial Election, and therefore eligible to vote in the March 18 primary. We will also implement several new software applications to comply with HB 2418, an Election Omnibus bill signed by Governor Quinn on July 27, 2013. The provisions of 2418 include an online mail ballot application for the March 18 gubernatorial primary, and an online voter registration system, to be launched by July 1, 2014. Both should increase voter participation and will ultimately cut costs for the Election Division. Election authorities in other states report savings due to reduced errors and cuts in paper, postal and labor costs.

## Discussion of 2013 Activities and 2014 Initiatives

The new CCRD Administration is focused on accuracy, efficiency and advocacy. As one of the largest revenue generators for the County, the Office is proud to be revenue-positive with a streamlined workforce, and is exceeding 2013 revenue projections. In 2013, the focus is on prioritizing appropriated funding to update badly outdated equipment and analyzing workflows to achieve greater efficiencies. The CCRD website has been revamped, resulting in greater visibility of programs that help homeowners. CCRD passed a three-bill anti-fraud legislative agenda to enable the office to assist victims of property and recording fraud, and to monitor private sector threats to County revenue, such as MERS. Moving into 2014, the focus will remain on improving technology, as well as increasing "e-recording" of documents and increasing internet purchases of documents.

## STAR Goals/Key Performance Indicators

* Ensure all recordation is efficient and accurate - The indexing lag from recordation to public availability has been reduced from 11 days to three. Q1 revenue was $33 \%$ above projections, and Q2 was $24 \%$ above projections.
* Increase the availability of recording data- Based on historical data, erecording is increasing every year. For the current year, CCRD was $26 \%$ ahead of the goal for Q2, and was ahead in Q1 as well. Internet purchases for Q2 were almost $60 \%$ above the projected goal.
* Ensure customers are satisfied with service and data-"Phone calls received" is a good indicator of service satisfaction. A reduced number could indicate greater satisfaction, as well as a reduced need to call for information due to a more informative website. For both Quarters thus far, calls received are down, exceeding our goals.

## STAR Goals/Key Performance Indicators

* Decrease Headcount- In FY13 the Treasurer's Office decreased the number of full time equivalent (FTE) employees from 250 in 1998 to 106 a decrease of $58 \%$. To continue cost-savings measures, the Treasurer's office will decrease the FTE count to 92 in FY2014 as savings of $63 \%$.
* Decrease the number of duplicate and overpayments due to STOPS- STOPS was designed to prevent duplicate and overpayments by ensuring that only the legally responsible party submits payment. To date the measure prevented approximately 41,000 payments from being double paid, normally resulting in refunds. STOPS will ultimately educate the taxpayer and we will see a reduction in the quantity of STOPS, and double-paid property taxes.
* Increase Taxpayer Convenience- By providing taxpayers with the option to pay online, at nearby Chase Bank, or at participating Community Bank locations, they no longer have to mail in payments, or come to our location and make a payment.

* Decrease the number of duplicate and overpayments due to STOPS- STOPS was designed to prevent duplicate and overpayments by ensuring that only the legally responsible party submits payment. To date the measure prevented approximately 41,000 payments from being double paid, normally resulting in refunds. STOPS will ultimately educate the taxpayer and we will see a reduction in the quantity of STOPS, and double-paid property taxes.
* Increase Taxpayer Convenience- By providing taxpayers with the option to pay online, at nearby Chase Bank, or at participating Community Bank locations, they no longer have to mail in payments, or come to our location and make a payment.
