Impersonal Total :				\$5,893,293	\$5,893,293	\$0

**COMMENTS:**

The STI epidemic in Cook County is growing especially among our youth, and the opportunity exists to expand the prevention outreach and testing especially in schools. One of the goals of the CCH Strategic Plan is to develop system-wide strategies to reduce transmissible infections including STI's as well as to identify opportunities to partner with other governments and organizations to address gun violence, opioid abuse, and sexually transmitted infections. This amendment will restore funding to DPH to further the goal of reducing STI's especially among our youth.
