II. Public Speakers

Chair Reiter asked the Secretary to call upon the registered public speakers.

The Secretary responded that there were none present.

III. Action Items

A. Minutes of the Finance Committee Meeting, September 20, 2019

Director Munar, seconded by Chair Reiter, moved to accept the Minutes of the Finance Committee Meeting of September 20, 2019. THE MOTION CARRIED UNANIMOUSLY.

B. Contracts and Procurement Items (Attachment #1)

Charles Jones, Chief Procurement Officer, provided an overview of the contractual requests presented for the Committee's consideration. The Committee reviewed and discussed the requests.

Mr. Jones stated that request number 6 (Advanced Care Services) will be reduced by \$149,000.00, to a revised contract increase amount of \$1,511,000.00. Director Deer noted that the contract spend to date exceeded the authority by \$400,000.00; he asked how this can happen under the existing contract management oversight (at using department level and from a financial systems perspective). He noted that this vendor is a Minority-Business Enterprise, and he found out about the overspend when the vendor contacted him because they could not make payroll as a result of not getting paid for the services provided that resulted in the overspend. It was noted that the vendor will not get paid for those services that have already been provided until the CCH Board approves this contract increase. Mr. Jones noted that, when the administration found out about the overspend, Supply Chain increased the contract by \$149,000.00 under the authority of the Chief Executive Officer as an initial way to address the overspend and provide payment to the vendor; because of that increase, this request before the Committee today will be reduced by \$149,000.00.

III. Action Items

B. Contracts and Procurement Items (continued)

With regard to measures being developed at the using level to prevent this from happening again, Dr. Beena Peters, Chief Nursing Officer, indicated that a new process is being developed for tracking nurse agency usage; once it is developed, it will become policy. Director Deer requested that a copy of the process be provided.

Board Chair Hammock inquired whether CCH's financial system sends up a "red flag" when a contract is overspent. Mr. Jones responded that, once fully functional, the new financial system should do that. Director Deer requested that Ekerete Akpan, Chief Financial Officer, provide a real-time timeline as to when the components of the new financial system that relate to that aspect will be fully functional.

With regard to request number 15 (Dayspring Professional Janitorial Service, Inc.), Chair Reiter stated that he will be asking the Committee to withdraw this item and resubmit a revised request for consideration for next week's Board Meeting. He believes that the administration has changed the nature of what this would have turned up in a bidding process, so he feels that a shorter contract extension (rather than one (1) year) is in order while the administration moves forward immediately with the request for proposals process for these services.

Chair Reiter, seconded by Director Deer, moved the approval of request numbers 1 through 24, with the exception of request number 15, which was withdrawn and will be resubmitted to the Board of Directors at their next meeting, and subject to completion of review by Contract Compliance, where appropriate.
THE MOTION CARRIED UNANIMOUSLY.

C. Any items listed under Section III

IV. Report from Chief Procurement Officer

- A. Report on Minority and Women-Owned Business Enterprise (M/WBE) Participation** (Attachment #2)
- B. Report of emergency purchases** (none presented)

- **Metrics**
- **Financials: August 2019**

Mr. Akpan provided an overview of the metrics and Financials through August 2019. The Committee reviewed and discussed the information.

During the discussion of the Income Statement on slide 6 of the presentation, Director Munar requested that the Committee receive a schedule mapping out the pension liability and revenue, as it is hard to track without it.

NEW PROPOSAL JUSTIFICATION: This is a request to accept a grant award from SAMHSA for the Partnerships to Prevent Opioid Overdose Deaths (P-POD) in Suburban Cook County Program. CCH in conjunction with the Cook County Department of Public Health (CCDPH) will implement the Program initiative. P-POD will expand the number of suburban Cook County law enforcement entities with training in the administration of naloxone and provide trained entities with medication. In addition, through the establishment of three regional taskforces and the deployment of outreach coordinators, P-POD will establish deflection programs to route individuals with opioid use disorder to community-based treatment as an alternative to incarceration. Through trainings for law enforcement, overdose reversals, outreach coordinator caseloads, CCDPH anticipates that 1,990 people in the first year of the project, 530 people in year two, and 220 people in years three and four would be served, for a total of 2,960 unique individuals served.

NEW PROPOSAL JUSTIFICATION: This is a grant agreement between CCH and the Illinois Department of Human Services (HFS). The Centers For Medicare & Medicaid Services (CMS) has awarded a cooperative agreement to HFS, as part of the Substance Use Disorder Prevention that Promotes Opioid Recovery and Treatment for Patients and Communities (SUPPORT) Act: Section 1003, Demonstration Project to Increase Substance Use Provider Capacity. HFS has been awarded a grant to conduct a comprehensive assessment of the treatment capacity of providers participating under the Medicaid State plan to provide Substance Use Disorder (SUD) treatment and recovery services to support the needs of Medicaid members in Illinois. This needs assessment will inform the development of strategies to build the state's infrastructure for increasing the capacity of providers and reducing the gaps in Medicaid-covered SUD treatment and recovery services. For this grant, CCH will play an important role by serving on the Project Management Committee to help support the process to conduct data-driven needs assessments for opioid-related issues for Medicaid beneficiaries. Once the assessment is completed, CCH will lead efforts to increase the capacity of providers through implementing and expanding training for providers on the Hub and Spoke Model of Care; and co-located specialty and off services.

NEW PROPOSAL JUSTIFICATION:
This is a grant agreement between CCH and the U.S. Department of Justice (DOJ), Office of Justice Programs (OJP), Office for Civil Rights (OCR). CCH was awarded funding under the FY 19 Justice and Mental Health Collaboration Program.

CCH obtained an award to expand efforts to reduce the cycle of incarceration for individuals with mental illness or substance use disorder in Cook County for the Justice and Mental Health Collaborative. CCH is partnering with multiple stakeholders for this effort; the Cook County Office of the Chief Judge, the State's Attorney's Office, the Public Defender's Office and community partners; Bobby E. Wright Behavioral Health and Human Resources Development Institute (HRDI). CCH and partners propose an evaluation and strategic expansion of the misdemeanor diversion court program to other branch courts, thereby safely diverting more people with mental health and Co-occurring Mental Illness and Substance Abuse (CMISA) from unnecessary incarceration and enhancing linkage to services at these critical intercepts.

The stakeholders will be utilizing internal and external resources for data analysis and evaluation. The Office of the Chief Judge (OCJ) will hire a data analyst to help coordinate data from the criminal justice system.

This project will aim to make policy and practice changes that scale impact and measure outcomes to make room for broader changes in prosecution of misdemeanors with Mental Illness and CMISA.

TERMS OF REQUEST:
This is a request to accept a grant award in an amount not to exceed \$750,000.00 as needed, for a period of thirty-six (36) months from 10/01/2019 thru 09/30/2022.

 This is a grant agreement between CCH and the U.S. Department of Justice (DOJ), Office of Justice Programs (OJP), Office for Victims of Crime (OVC). This Cooperative Agreement reflects the commitment of the Department of Justice to improve the treatment of crime victims.

CCH and The Chicago Children's Advocacy Center were awarded a grant to form the Collaboration of Helpers Lowering Deaths of Children (Project C.H.I.L.D). Project C.H.I.L.D. aims to reduce the incidence of child maltreatment in three counties in Illinois, Cook, Peoria, and Vermilion, by;

- (1) Convening a multidisciplinary team of stakeholders to form a collaborative whose mission is to identify the needs and challenges of families, maximize their strengths, and provide assistance when necessary;
- (2) Creating a regional unit-based multidisciplinary team to investigate severe child abuse cases, including physical abuse and neglect of children younger than three (3) years old; and
- (3) Broadening the unit-based multidisciplinary team in a downstate area lacking a Child Advocacy Center to include telemedicine for this area, to ensure access to medical review, intervention, and oversight in severe child abuse investigations.

Using a public health model, we will examine five (5) years of data on child fatalities and near fatalities from various sources. Together the collaborative will address this critical issue using primary, secondary and tertiary prevention strategies.

Project CHILD will evaluate and disseminate findings through a transparent process that will inform child wellness strategies and policies locally and nationally.

PRIOR CONTRACT HISTORY: Contract H19-25-044 was approved by the CCH Board of Directors on 05/31/2019 in the amount of \$155,000 for a twelve (12) month period from 01/01/2019 through 12/31/2019.			
NEW PROPOSAL JUSTIFICATION: In 2017, The CCH was awarded a grant to develop and implement a Medical Legal Partnership (MLP) using an attorney from Legal Aid Foundation for CCH patients experiencing health harming legal needs. The project was embedded in the CCH care coordination department and included a warm-hand off referral process, on-site hours at CCH and the ability to travel to settings for patients unable to come in to meet with the attorney. First year experience focused on obtaining previously denied public benefits, end-of life planning (e.g. guardianship, wills, etc.) and disability. During year two (2) another grant provided a paralegal to support the disability process for those who had been denied. In year two (2) we also added another attorney as the max case load was reached. During year three, 2020, we will continue with present staffing, 1.6 attorneys and a paralegal for disability. While serving the patients, CCH has also benefited (e.g. we have been able to secure payments for protracted hospitalization for previously denied Medicaid benefits). For the patients, the funds achieved through disability appeal support housing stability, which also can reduce health care utilization.			
This request is sole source because this agency is known for its' work with marginalized populations and the effectiveness of their interventions as indicated by their success rate at obtaining services and support for our patients.
