Summary: A contract extension and increase are requested to authorize Presence Behavioral Health to continue the provision of services while a new Request For Proposal (RFP) is conducted. The Office of the Chief Procurement Officer issued an RFP in August 2013. The Circuit Court has requested to reissue the RFP because the court and the community would be better served by contracting with more than one community-based vendor. Presence Behavioral Health Program participants are offenders who are diverted from incarceration. Services cover client care management, as well as mental health, psychiatric and substance abuse interventions.

This amendment to contract no. 10-41-163 will continue a variety of services to adult offenders participating in the Circuit Court of Cook County's six adult mental health treatment courts who are diverted from incarceration. These services are client care management, which includes screening

and clinical assessments, case planning, referral to substance use and mental health treatment services and intensive case management services

The Circuit Court's Specialty/Treatment Court Program operates a network of 19 courts in Chicago and across suburban Cook County which are dedicated to providing mental health treatment, veterans support, drug treatment and support to persons charged with felony prostitution. The program helps low level criminal defendants who suffer from an underlying mental health, social or substance abuse problem from becoming repeat offenders. The hallmark of the program is intensive judicial supervision and the delivery of treatment and services from community-based sources, such as Presence which has provided services to the Circuit Court's Specialty/Treatment Courts Program since 2010.
