Summary: Under the proposed contract extension and increase, Cook County would receive telephone maintenance for an additional year while a corresponding unified communications RFP process is completed. The proposed increase will also fund the Cook County Health and Hospitals System's new call center in Oak Forest. The contract currently provides hardware, software, implementation, and training services for all Cook County telephone systems, including critical County operations such as Public Safety, Law Enforcement, Health & Hospital Systems, and Emergency Management. If approved, this extension and increase would ensure continuity of telecommunications operations and help prevent major service disruptions.

In 2008, Competitive Request for Proposal (RFP) procedures were followed in accordance with the Cook County Procurement Code.
