How was the account used for the source of transferred funds identified? List any other accounts that were also considered (but not used) as the source of the transferred funds.

n/a

Identify any projects, purchases, programs, contracts, or other obligations that will be deferred, delayed, or canceled as a result of the reduction in available spending authority that will result in the account that funds are transferred from.

None

If the answer to the above question is "none" then please explain why this account was originally budgeted in a manner that caused an unobligated surplus to develop at this point in the fiscal year.

Funding for the above was placed in accounts reserved for approved capital outlays instead of operational accounts. In order to accurately reflect the budgeted amounts the monies must be appropriated into accounts 540250 and 501805, respectively.
