**Summary:** In 12/2012, the Board approved Contract No. 12-90-099 with ESRI to provide the County with geospatial software licenses and accompanying maintenance and professional services. The Board subsequently approved an amendment to the contract in 10/2013 to support the Department of Homeland Security and Emergency Management's (DHSEM) Regional Inventory Central Hub (RICH) Database.

The Bureau of Technology now seeks a one-year extension to the contract with no corresponding amendment to scope. The proposed extension will allow Cook County Health and Hospitals, Justice and Enforcement, Land and Property, and Administrative offices to continue using software, maintenance, and services under the contract.

This is a Sole Source Procurement pursuant to Section 34-139 of the Cook County Procurement Code
