Summary: This improvement, as proposed, will be milling and resurfacing the existing pavement and shall include full depth patching and pavement widening to provide competent travel lanes, aggregate shoulders, curb and gutter, pipe culvert replacement, drainage additions and adjustments, ditch regrading, traffic control and protection, landscaping, pavement marking, engineering and other necessary highway appurtenances.

On 12/21/2005 your Honorable Body approved an Improvement Resolution appropriating \$525,000.00 towards completion of this improvement. At the time of this improvement resolution, the primary scope of the improvement was limited to milling and resurfacing with full depth patching.

Subsequently, the inadequate pavement width necessitated a change in the scope of work to include pavement widening. Additional funding is needed for pavement widening to provide competent travel lanes, aggregate shoulders, curb and gutter, pipe culvert replacement and ditch regrading.
