Summary: JOC is a quantity-based procurement process that allows the facility users to complete a multitude of repair/maintenance/replacement and construction projects with a single, competitively bid contract. The JOC process generally involves first selecting a vendor pool of potential contractors through a competitive procurement process, and then identifying projects for such selected contractors.

Explanation of Fiscal Impact: The County will award a series of JOC contracts for a not to exceed dollar amount. The number of projects and dollar value of each are determined from the annual Board-approved Capital Improvement Plan. The potential fiscal impact is not to exceed \$68 million, annually, for three (3) years.

Competitive bidding procedures were followed in accordance with the Cook County Procurement Code. The contractors listed in the table below are the most responsive and responsible bidders in each respective category.
