**Summary:** Services include the development of comprehensive and integrated signage design and fabrication specifications for a campus-wide wayfinding system at John H. Stroger Hospital and its Parking Garage. The scope includes both interior and exterior building signage that is supported on multiple platforms. All navigation systems will be designed and implemented to support current and future building renovations and additions on campus, as well as any construction disruptions and department and clinic relocations. The design team are to complete an analysis of current JHS campus wayfinding deficiencies and propose a phased implementation plan based on the research findings that specifically addresses digital strategy, room signage, directional signage, campus and building identification and navigation, and multilingual needs and regulatory compliance.
