<b>Title:</b>	PROPOSED MISCELLANEOUS ITEM OF BUSINESS				

Department: Capital Planning and Policy

Summary: The Office of Capital Planning and Policy, as authorized by the Cook County Chief Procurement Officer, plans to participate in the Cook County's Job Order Contract (JOC) program to complete the three (4) capital projects listed below. JOC is a quantity based procurement process that allows facility owners to complete a multitude of repair/maintenance and construction projects with a single, competitively bid contract. The JOC process generally involves first selecting a pool of potential contractors through a competitive procurement process, and then identifying projects for such selected contractors.

The County has already completed a JOC competitive procurement process, and it has created the pool of general contractors to perform certain projects generally associated with maintenance, repairs, replacement and routine work.

The JOC program has an administrative component managed by the Gordian Group. The Gordian Group maintains an area price book, which captures the prices for specific construction work items within this region. JOC contractors bid against the prices included in the price book. The cost, therefore, of any work performed by the contractor is a contractor markup from the price book. The Gordian Group would receive 5% administrative fee from Cook County based on the total project cost of the work. The Gordian Group will manage the JOC process and will verify that all proposals and work are compliant with the terms and conditions outlined in the JOC contract with the County. The Office of Capital Planning and Policy, proposes to assigns the projects listed below to the Gordian Group to share with participating JOC contractors.
