Summary: The Alsip Mini Mill manufacturing facility's use of HUD Section 108 funds will assist in the generation of approximately \$70 million in private capital investment and the creation of 85 jobs related to the acquisition and conversion of a formerly shuttered paper mill facility that has been closed since 2014 due to economic reasons as the coated paper industry has been on a decline for several years due to consumers moving from print to electronic media consumption. The closure has

negatively impacted local community residents and commerce in the Village of Alsip and the surrounding area in southern Cook County. Thus, the HUD Section 108 loan program will serve as a key economic development tool within Cook County economic development portfolio to support projects such as Alsip Mini Mill to significantly grow jobs at a faster rate for residents in the southern suburbs of the County.
