These accounts were identified because of the availability of funds

Identify any projects, purchases, programs, contracts, or other obligations that will be deferred, delayed, or canceled as a result of the reduction in available spending authority that will result in the

account that funds are transferred from.

None

If the answer to the above question is “none” then please explain why this account was originally budgeted in a manner that caused an unobligated surplus to develop at this point in the fiscal year.

The level of maintenance and constructions projects has caused DFM to need additional funding in these maintenance and supply accounts.
