Summary: The Department of Transportation and Highways respectfully requests approval of the Proposed Contract between the County and Azteca Systems Inc., Sandy, Utah. This contract with Azteca Systems for their Cityworks Asset Management Server (AMS) provides CCDOTH's Maintenance Bureau with an automated process to accommodate a streamlined response for citizen service requests, work order assignments, maintenance activity tracking and performance reporting. AMS facilitates work order management that encompasses personnel allocation, equipment assignment, accounting of material usage and reporting functionality that provides accurate and timely budgeting and performance measurement.

The Department's Permit Division currently utilizes the Cityworks Permit, Land and Licensing (PLL) component to process right-of-way, construction, and haul permits. PLL supports the operations of the Department and provide key performance indicators and measures. Additionally, the PLL module will be expanded with a public portal in order to provide better customer service.

The proposed implementation is a strategic extension that leverages an existing CCDOTH investment and provides a uniform solution that satisfies multiple workflow requirements. Cityworks has been utilized in the Maintenance Bureau using work order to track man hours and maintenance since 2012. AMS currently provides an inventory of the Department's regulatory signs and is vital in managing the work orders necessary to ensure that signs continue to meet acceptable standards.

Azteca Systems is the sole provider of licensing for the Cityworks AMS and PLL products. Their
