	Request: Approval of intergovernmental agreement between Cook County and Board of Education of Consolidated District 230				
	Goods or Services: Indefeasible right of use for unused fiberoptic cable

	Summary: Lack of reliable high-speed internet access is a barrier to economic development, educational advancement, and healthcare access. In 2020, Cook County received a State of Illinois "Connect Illinois Broadband Grant Program" award of \$1,876,580.48 for expansion of broadband infrastructure in underserved areas of Cook County. Cook County has committed an additional \$2,293,940.58 to broadband expansion. The purpose of this IGA is to expand the broadband fiber footprint in Chicago Southland communities through publicly owned, shared fiber. The Board of Education of Consolidated District 230 has agreed to partner with Cook County in this effort by granting the County use of some of its unused fiberoptic strands through a structured payment plan to help provide for maintenance of the asset. This will result in substantial savings to Cook County because the County will not need to dig trenches and install new fiberoptic cable.
