Summary: The RCS system is used by the Treasurer's Office to process tax payments. The system has been modified, over the years, to accept and process payments for several different channels - over the counter, payments made by banks and mortgage companies, and payments made by bankruptcy trustees.

Additionally, the system supports dual function check scanning hardware. The check scanning hardware provides CCTO with an image of all checks processed over the counter and generates a receipt for taxpayers. These services will be replaced by Tyler, once implemented.

This is a Sole Source Procurement pursuant to Section 34-139 of the Cook County Procurement

Code.
